Bhagwan Shri Bhrigu Rishi

*A 'Mission Saptarishis' Initiative*

Sage Bhrigu's Blessings

With folded hands and respect I would like to present here the very ancient and hidden prediction technique from Sage Bhrigu. This teaching was presented in Hindi language by Pandit Hardev Sahaye of Meerut (India) for the first time for the welfare of the society. Someone posted this manuscript from the Osmania University Library Call No. H 133.5 Ascension No. H4265, we thank the unknown person who posted this. I take the privilege to re-transcribe the same knowledge in English and present it to the world. There could have been a vision where in Sage Bhrigu saw that it would be difficult in the future for the souls to get learned in the path of jyotish which is vast like the ocean that brought this simple form of prediction from the great seer.

In this great gift to the mankind Sage Bhrigu created a simple chart of numbers from 1 to 160 with 10 numbers in a row. The seeker has to just follow some simple steps and keep his finger on any one number in the table to get the prediction and remedies to his problems after a small calculation. The answers are broad general ones but the remedies are the key part of this form of Horary Astrology. In the analysis section either one or all the points written could be meaningful for you. In my experience with this work which I have used aggressively I would like to say that I have had immense success via it and the remedies seem to work if done with faith. My clients have come back to me within a week many a times giving either positive feedback and success over it or some movement in the matter. Tatkalin if loosely translated would mean 'Present' so westerners can refer to it as '*Present Bhrigu Horary System*'. This is like a form of methods that is famous in India called 'Prashnaavali' of which there are many types of Prashnaavali in India in the name of famous saints and Saptarishis Astrology would in the future bring out many of the famous Prashnaavalis especially of saints from Maharashtra state of India, that have been passed on from generations and work very accurately at times. *These Prashnaavalis have been resorted to by village astrologers for centuries and closely guarded though our scientific minded astrologers might*

term it as too broad a tool, yet when you use this system for a long time you would realize that the system works too well than our normal astrology, the secret is to use it often and seek the blessings of the sage to guide your clients via the Prashnaavali. One must note that there are various types of Bhrighu Prashnaavali and this is just one of them, which is more of a broad prediction yet the remedies are powerful. In other Prashnavalis of saints of Maharashtra which is in the possession of Saptarishis Astrology the readings are far more detailed though only one liners and since few years it has been tested by SA. Out of the 160 Analysis only 30 are being presented here and this would be a series. I seek pardon from Sage Bhrigu if I have committed any mistake & also from the readers.

### Important Information:

1. The seeker in search of his answers through this book would get the right path with divine blessings. The seeker needs to pay some amount towards each of the question asked. You might have bought many books on astrology subject but book of this kind is a gem in the crown.
2. Irrespective of the gender of the seeker the most vital thing to keep in mind is that the seeker should be of good character and clear heart. He should first worship the book and bring some fruits, flowers and donation as a token of respect. Empty handed seekers looking for divine answers is not a good sign.
3. As per the philosophical aspect a person should never go empty handed to a priest, doctor or to his daughter's in-laws, this is a bad sign and may attract evil omens.
4. The questions that are most important are to be considered and placed forward only, as testing of the book may attract bad luck.

### Steps To Ask the Question:

1. The seeker should sit facing East.
2. The seeker should remember sage Bhrigu in his mind.
3. Seeker should visualize his question in his mind.
4. After a proper visualization he should remember Lord Vishnu.
5. After an internal prayer to the Lord he should keep his finger on any one of the numbers in the chart.

### Steps To Get The Answer:

1. Count the number of alphabets in the Name of the Seeker.
2. Count the number of alphabets of Sage 'Bhrigu'.
3. Add the above two numbers to the figure from the table.
4. If the count exceeds 160 then that number has to be subtracted from 160 to get the actual number.
5. Once the actual number is found, check the questions on that Analysis Part, **if the question matches** then read out the prediction and the solution from the same Analysis.
6. If the question is not there on that page then redo the calculation part to get the exact number.

**Note:** This technique would not work if there is any doubt or the seeker wants to test the technique.

## Calculation & Example:

- 1) Numeric value for BHRIGU when Sanskrit is used is 4 or 6 in English letters counting.
- 2) If 4 do not get to the proper Analysis for each number presented below you can take it as 6 (English) this has been my experience, though writing a Hindi or Sanskrit word in English like the name of Sage Bhrigu can be done in many ways a) Bhrigu or b) Bhrighu and thus you can get 6 or 7 respectively. I have used Bhrigu and as there are 6 letters to that name I use 6. Readers can form their own method and share their experiences. Eventually it is my belief that whatever number you use for Bhrighu say 4 or 6 or 7, the energy will on its own direct the client to choose a number more or less from the Table Given below and thus the addition will come out correct only as all such Prashnavalis are self correcting systems as per some scholars.
- 3) Regarding the name of the seeker, only the first name is to be considered and the alphabets should be counted in the same language (English or Hindi) that is used to see BHRIGU.
- 4) Let us take an example to see how the calculation is done.
  - a) Rohit Sharma is asking question so take Rohit which has 5 letters = 5
  - b) Add to it the name of Sage Bhrigu which has 6 letters = 6
  - c) Now meditate on the question and say you select number 16 from the Horary Table (Prashna Chakra) given below =16
  - d) Now add step a, b and c =5 +6 +16 = 27
  - e) Now go to **Analysis No 27** and read it, that's it.

<sup>3</sup> Sambhar is a south Indian dish as to why it is mentioned by Sage Bhrigu is strange. Even the Late Original Translator was a north Indian man so one cannot understand whether it is the Sage who is saying this or it's the translator. Copy Editor Shastry adds '*Even though it is the south Indian dish Sambhar, there is another one used for dana purposes. That is butter milk with a high content of water... This particular dana is considered very auspicious during summer seasons esp. when everybody will be thirsty.*'
