House Grouping

Not single but multiple houses play role in any event of life. In KP terminology, these groups of houses for the event is called "House Group". This is also referred as Formula by some KP astrologers. In the table below we need to combine primary houses and supporting houses to come up with the house grouping for the event. For example, event "Good health" has 1,11 as house group. Event "Proneness of disease" has house group 1, 6, 8, 12.

There are two uses of the House Grouping table below -

1. Knowing whether the event is promised in one's chart or not

If the cuspal sub lord of primary house signifies primary and supporting houses, the event is promised. Please read "[Chapter 2: Fundamental Principles](#)" to get better understanding.

2. When the event will happen

Events happens when the planet-lords of current dasa (dasa lord, antardasa lord, pratyantardasa lord, sookshma lord etc.) signifies house group. For example, one has "Good health" when one passes through dasa of the planets signifies houses 1,11. Similarly, "Proneness to disease" happens when one passes through dasa of the planets signifies 1,6,8,12. Again, please read "[Chapter 2: Fundamental Principles](#)" to get better understanding.
