

Learn the 153 Golden Codes of Shambhalla With The Shambhalla Workshop

- The Golden Code of SHAMBALLA system offers purification, protection, wholeness, empowerment, upliftment, guidance, love, joy and freedom.
- There are 153 numerical codes of pure light, love.

Shambhala, which is a Sanskrit word meaning “place of peace” or “place of silence” – Spiritual dimension of the Ascended Masters & teachers

- They were manifested and generously offered by the infinite, eternal, almighty and omnibenevolent dimension of the spirit “SHAMBALLA”.
- These codes are energetically activated, spiritually attuned and multidimensional codes of light.
- The golden codes of Shamballa focus on Mind. The mind possesses known and unknown possibilities and power.

Energy + Numbers = Golden Code of Shamballa = Light

Invocation: -

Beloved Divine Source,
Shamballa, Shamballa, Shamballa,
Angels & Great Teachers of highest light,
I call upon you
Please purify, purify me, purify me,
Cleanse, cleanse, cleanse me,

Heal, heal, heal me,
Illuminate, illuminate, illuminate me
Enlighten, enlighten, enlighten me,
On all levels, On all levels, On all levels,
I call forth the infinitely perfect light
On your total, absolute & supreme wisdom & love
Infinite light, Infinite light, Infinite light,
So be it & so it is. I love you; I thank you.
Repeat it 3 times Slowly with love and gratitude and feel the energy.
After that, you can chant code as per your intention.

How to use these codes?

You have to chant these codes loudly for the better results. If its not possible due to any reason then you can chant it in mind as well.

Do not use these codes like switch number codes (writing it on left body part – NO)

You can write these codes on a piece of paper using colour pen and can stick it on the wall (Broadcast the energies of the number) along with it, do chant at least for 2 to 3 minutes.

You can write these codes (for various intention on a piece of paper and stick it on glass water bottle) and drink charged water frequently in a day.

You can chant these codes as a whole number or as a single digit.

Ex:- 12

Twelve or One Two

Ex:- 12 12

You will observe a gap between numbers. How to chant??

One two or Twelve (Give a pause of 2 seconds approx.) One two or Twelve

While chanting the code, each time say Shamballa and then code....you can chant it approx. for 5 to 7 minutes. There is no upper limit of chanting these codes. Minimum 3 times, you have to chant the code.

You should avoid working simultaneously with more than 5 to 7 codes

Proxy Chanting: -

- You can chant these codes on behalf of others also but remember, you need the permission.

Why the codes are mentioned as “GOLDEN codes of Shamballa”

- These codes are valuable as gold so golden refers to the value of these codes.
- These codes are sensed clairvoyantly as golden numbers, emanating golden light which is the light of the source.

Note:- Before starting with individual code, you have to read all the codes once (in one go) for a week

You have to read it in a sequence (Shamballa + Code + Intention). No need to read explanation. It is just for your reference.

Above process you have to do it just once for a week.....that's all

After that, you can work with individual code as per your requirement.

For certain intentions, there are more than one codes. You can experiment with all codes or you can choose any one which resonates you.

Let's say, you would like to use 3 different codes.

First read the invocation once (if possible, read it 3 times in one go for better results) n then you can use 3 different codes. Don't chant all the codes simultaneously.

Fist work with one code for approx. 5 to 7 minutes and then other code...n so on.....

You can work with these codes as per your convenience...lets say one code, I used it in the morning...2nd one in the afternoon and 3rd at night....it's totally up to you.

No need to read the invocation every time (on the same day).

The Golden Code of Shamballa

Shamballa

12

Divine spirit

Explanation: - (attributes of showing compassion, To replace despair with hope, to replace darkness with light, extend kindness – you can use this code)

000000

**Purification, regeneration, harmonization of all of the Shamballa
Golden Codes**

Shamballa

10 10 10 10

May the highest plan, the highest good and the divine will prevail

MEDITATION

**Before chanting any code, if you would like to do meditation...you
can follow the script given by GEOM**

Just sit comfortably with your spine straight, and gently close your eyes.

Take ten slow and deep breaths. Breathe in through the nose, and breathe out through the mouth. In your mind, count your breaths. Count ten deep and slow breaths. Conscious, energetic, and life- and light-giving breaths. Do it with your full attention and in full awareness. With each exhalation, you release negativity and all that you no longer need, and with each inhalation, you receive and are filled with pure positivity, life, and light. Inhale light, life, and positivity; exhale everything you want to let go of.

Ten deep, conscious, energetic, and life- and light-giving breaths...

Then, relax. Ask your body to relax and feel it gradually do so more and more. It becomes soft. Ask your mind to relax and feel that it is happening. Your mind lets go. It lets go of every tension; it lets go of all tensions. Your mind is becoming calm and still, like a beautiful, quiet lake, mirroring the clear blue sky. Wish peace and serenity to your body and to your mind.

In this relaxed, peaceful, and serene state, imagine a bright white light showering you. It comes from above, from a great height, from the highest top, the

highest point in existence. Imagine it. Visualize it. See it. Feel it. Or just think about it.

White light is showering you, cleansing you, and filling you. Feel its wonderful warmth and radiant luminosity waving through you, eliminating darkness, bringing vitality and joy to all of your organs, and bringing illumination, love, and life to every cell of your being.

Feel the light. Feel it more and more—brighter and brighter, clean and pure, vital and healing. Relax into it; let it flow abundantly everywhere. Let life and light flow to all parts of your body, to every system, to every organ, and to every cell. Let life and light flow to all systems, to all organs, and to all cells. Let life and

light flow through your whole body. It is being deeply rejuvenated; it is being completely restored.

Perfect health, perfect well-being, perfect balance, and perfect harmony are being achieved. See and feel your body filled with radiant life-light, being a unity of clear and bright life-light. You are manifesting perfect, absolute, and total health, well-being, balance, and harmony.

Stay for a few moments in this higher state, a state of complete, total, and perfect life and light.

Now, feel a flame in the center of your chest. It is being awakened. Observe this golden flame. "Divine wisdom...divine power...divine love." Think and feel

these words, and let the golden flame expand and radiate through you and around you. Bless your home, your family, your city, the planet, all human beings, all beings, and Mother Earth. Bless them with loving kindness and this divine, golden, loving light—the golden light of love. From your heart and your soul, wish them all the best, their greatest and highest good. Powerfully affirm it.

Stay for a few moments in this expanded state, a state of complete, total, and perfect love and light.

Feel yourself within your physical body healthy, empowered, and balanced, completely within your body, centered, and grounded. You are peaceful, joyful, and blissful. You are pure, you are clean, and you are radiant. Light, love, and life! Take three full, deep breaths, and open your eyes.

Continue your day in a spiritual, loving, peaceful, joyful, enlightened state, being fully conscious and aware.

You may practice this meditation any time you wish. Practice daily to advance more in your spiritual work and to experience optimal energy healing results.
