INTRODUCTION , RELEVANCE AND BASIC PRINCIPLES

- The first and foremost **HAPPINESS** in life is disease free sound health .
- All other happiness - wealth , friends , etc. are secondary.
- Disease = dis + ease => negation of ease / comfort .
- Lack of ease is disease. This unease can be physical and / or mental.

INTRODUCTION , RELEVANCE AND BASIC PRINCIPLES

- Disease is **unwelcome** , yet it does visit every one causing immense anxiety to the native, near and dear ones and thus visit the doctor and astrologer.
- The advantage of Jyotish is that it can track the karma, it can identify the weaknesses that the individual brings to this life.

INTRODUCTION , RELEVANCE AND BASIC PRINCIPLES

- **Uttara Kalamrita : Chapter VI* – Verse 2:**
- (Karmas of the Past Births and Dasha)
- The results of the virtuous or sinful actions of the past birth/births which have to be gone through in this life are revealed by the planets and Dashas , sub periods on the basis of the horoscope of a person. Hence it is necessary to know the duration of the Dashas of the planets, and the sub periods in each Dasha. Then one can undertake the necessary remedial or propitiatory activities to overcome any malefic results and to acquire the desired happiness.
- Thus: indicates that we are responsible for all our actions. Today, we are dealing with the consequences of our past actions. It means that we are also responsible for **our health** and **how we are going to heal ourselves**.
- *Chapter VI: Results of the Major Periods of Planets.

BODY PARTS AND DISEASES AS INDICATED BY Rashis, Houses, Planets and Nakshatras

- In Astrology we have 12 rashis , 12 bhavas and 9 grahas and 27 Nakshatras as the basic tools available to us.
- Each of them play their role in deciding the problem area in medical astrology.
- Thus we now study the body parts and diseases as indicated by rashis, bhavas , planets and Nakshatras.

Body Parts as indicated by Rashis

- **Body Parts as indicated by Rashis:**
- The zodiac represents the body of the Kalapurusha.
- Rashis rule specific physical parts of the human body.
- Any weakness of the rashi in the natal chart (due to its planetary lord being weak or debilitated, or by the placement of a malefic planet in the rashi) will be immediately detected, as will the strengths.
- When studying the limbs of the Kalapurusha we must combine them with the knowledge of the houses, planets and karaka, to give a complete picture of the physical personality.

ASTROLOGY AND DISEASE

- Meaning of disease.
- Prarabdha Karma and Disease.
- Indications for Sound Health .

ASTROLOGY AND DISEASE

- Meaning of disease:
- Disease = dis + ease => negation of ease / comfort .
- Lack of ease is disease. This unease can be physical ,mental or emotional.

ASTROLOGY AND DISEASE

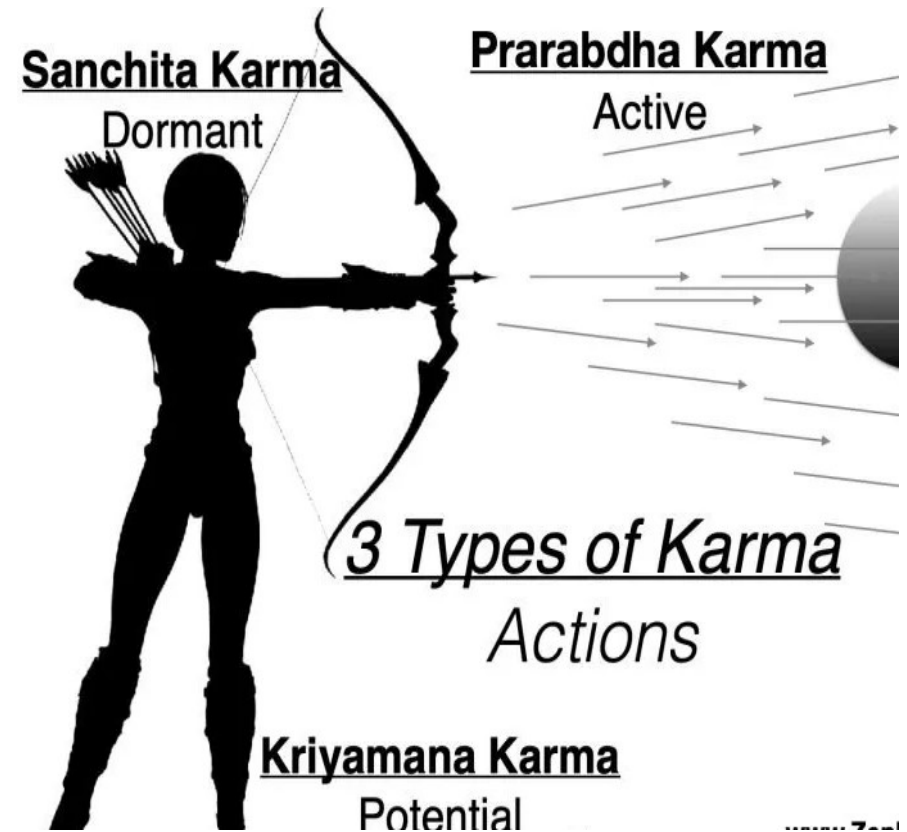

- **Prarabdha Karma and Disease:**
- **Uttara Kalamrita : Chapter VI* – Verse 2:**
- (Karmas of the Past Births and Dasha)
- The results of the virtuous or sinful actions of the past birth/births which have to be gone through in this life are revealed by the planets and Dashas , sub periods on the basis of the horoscope of a person.
- Thus: indicates that we are responsible for all our actions. Today, we are dealing with the consequences of our past actions. It means that we are also **responsible for our health** and how we are going to **heal ourselves**.
- The three types of Karma :
1) Sanchita Karma **2) Prarabdha Karma** 3) Kriya mana or Agami Karma

ASTROLOGY AND DISEASE

- Sanchita Karma – accumulated stored Karma, unfructified.
- **Prarabdha Karma – fructifying, matured.**
- Agami Karma – forthcoming Karma.

ASTROLOGY AND DISEASE

ASTROLOGY AND DISEASE

- **Prarabdha Karma and Disease:**

- Prarabdha means what is fructified / happening. This is the karma we must face in this life and the health issues we must deal with.
- All planets should be studied for health ,strengths and weaknesses.
- Dasha and bhuktis will show the timeline.
- Saturn is the karaka for ill health and therefore his position tells us about our wellbeing. Rahu acts like Saturn, so he also has a say in our health.
- Debilitated and retrograde planets at birth show a predisposition to health issues according to their nature.

- **Further Classification of Prarabdha Karma**

There are three qualities of the karma we bring into life. 1) Dridha Karma (fixed difficult to change), 2) Adridha Karma (not fixed) and 3) Dridha - Adridha

ASTROLOGY AND DISEASE

- **Kriya mana (Agami)Karma:**

- Kriya means actions and Mana is mind.
- These are the actions we create through the needs of our mind. What we create in this lifetime. This is our free will. This is the **most important karma**; these are the choices we must make.
- Proper use of free will help by not creating too much sanchita for future ill health. By using the rules to lead a healthy life we can minimize our future health issues.
- If a person insists upon smoking 10 cigarettes a day, there is going to be damage to the lungs.
- If he decides to give them up, they are creating so much good for their future.
- The stressed mind, unhealthy lifestyles, toxic behaviour, all contribute to our future ill health - all this is under the domain of our kriya mana karma. It is our free will to improve our health and life.

ASTROLOGY AND DISEASE
