## Preface

**M**ahakaal describes the results of each nakshatra pada and its results in a form of stories and then gives the remedies in the end. Each story can be decoded in several ways and the physical manifestation has to be seen accordingly. My humble obeisance to Mahakaal without whom I would not have been able to write a single word. This book has been written in a flow of words which the Universe directed me to write and thought the preparations for writing this book started a few months ago, it got completed exactly on the day of Holi. I prostrate in front of Lord Ganesha and Ma Saraswati for giving me such an opportunity along with the thoughts in my mind through which I was able to write about the Nakshatra padas and present them in the form of this book.

Such as in the Ashwini Nakshatra Pada 3 - the story was of the division of resources among friends and the same problem of trying to gain more resources (Gemini Navansh) will be present depending on which house the combination occurs in. Each word lord Shiv says is for a particular reason and each line can be decoded in various ways, of which most of it has been included in this book. While looking at charts, sometimes you will also see that the story which is happening is very similar to the exact story itself which is told by Lord Shiv.

The stories are written below which are directly translated from Karam Vipak Samhita and examples are given that shows the physical manifestation.

**Navansh:** The focus will be on finding the results of the actions of the native, by using the rashi chart to see the Karam done and then by seeing the navansh for the fruit of that action. There are several ways to use the navansh such as through cusps, treating it as an independent chart, RashiTulya Varga, using navansh to confirm events, etc, but the pending karma part of the nakshatra padas has been the main focus and the ultimate objective of this book.

**Karam:** There are both good and bad karam which are done by any person in this life and his past life. In all the stories, Lord Shiv is telling about the curses of each nakshatra pada, but what Shiv Ji is trying to tell us is that these curses can also become boons if the native does good karam and in those cases, the negative results will not follow.

Such as if you have read the 1st Part of the Nakshatra Pada Book, the theme of Ashwini pada 1 is cruelty to animals but if the planets in this nakshatra is well placed, the native will be able to take responsibility for animals and will love them - but as the theme is of cruelty, the native will become cruel towards people who do not keep good care of animals or this energy will be manifested through some other way. In each house change the significations such as in 8th house native will there will be cruelty towards in-laws or native not giving money to partner.

Our rishis divided the whole 360° of the Zodiac into 12 houses, which are 30° each. Then, they went on to further divide the zodiac into 13°20' which are known as nakshatras. These nakshatras are further divided into four parts and are called nakshatra padas of 3°20' each. These are 12 signs, and in front of each of them, I have written a few keywords which will help you remember the energy-related to these signs. The detailed part and qualities of the Zodiac is available in the courses I have taught.

- Aries - High energy, start of life, start something new
- Taurus - Resources, family, money, eyes

- Gemini - Communication, trader, hands, cruel for money, initiatives
- Cancer - Peace, harmony, masses, food, water, emotional
- Leo - Chair, power, deeds of past life, kids, honor, king
- Virgo - Hard work, questions, servant, routine
- Libra - Balance, marriage, society, relationships
- Scorpio - Hidden sign, problems, inheritance, unresolvable issues, longevity
- Sagittarius - Flag of religion, long term goals, father, guru, boss
- Capricorn - Father's family, profession, karm, status, peak of life
- Aquarius - Friends, gains, salary, elder siblings
- Pisces - End of life, sleep, expenses, isolation
- Then come the 27 nakshatras.

ॐॐॐॐॐॐॐॐॐॐ

PITRAS  
(Ancestors)

# Magha Nakshatra

Let us move on to the second cycle of Nakshatras which starts from Magha and goes up to Jyestha -this cycle is Rajasic in nature. The first cycle was Tamasic where the human was thinking about himself only as it was about survival and limited to a very small circle & as we will move to the Rajasic cycle, we have to think big and deal with problems of the outer world rather than the inner world.

This is the second phase of life when you have all your basic necessities met then you think about luxury and comfort in life. Human thinks about how to get to power & how to stay in power - once all his basic necessities are met. If a human who is insecure about his basic needs such as shelter, food, survival, health will never think about how to get used to luxury.

The second cycle starts from Magha which represents what you will get from your ancestors and move up to Jyestha which is Indra - the highest chair among devtas and a rajasic purush. To reach the destination of an ultimate king, the journey starts from Magha and we will look at each energy and how we can master each energy, and the challenges we will face on different levels to reach the ultimate satisfaction of being an Indra.

## **We will start with Magha nakshatra.**

So, let us look at some of the techniques of Magha Nakshatra - as a reminder, we can always use the nakshatra techniques in three ways. The first one is if a planet is situated in Magha nakshatra and especially if ascendant lord, Moon or Sun goes in nakshatra then it becomes one of the pivot points in the chart.

Secondly using significations of the planet sitting in a particular nakshatra - such as Sun to be used as the father.

Thirdly on a blank chart such as Magha nakshatra falls in 10<sup>th</sup> house so career-related predictions are to be done using the techniques described in the book.

We will practice using the examples and also our focus will be on again nakshatra padas as described by lord Shiv.

## **Magha Nakshatra**

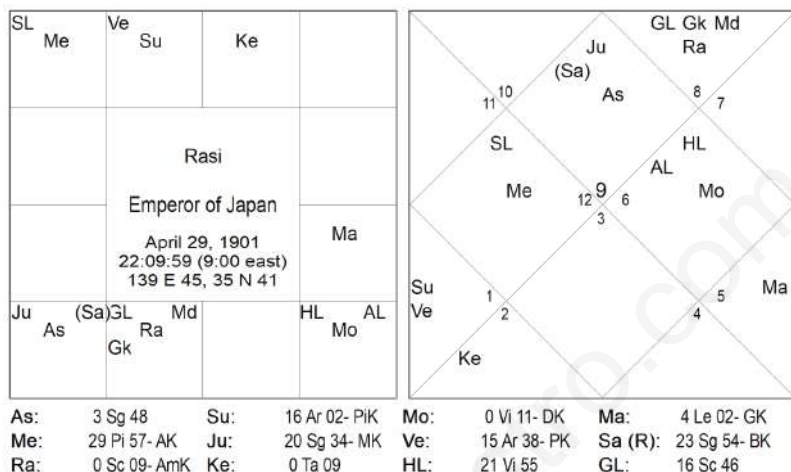

This is the 10<sup>th</sup> nakshatra in the zodiac and that represents karma - action assigned to the native. As Bhagwat Gita says - You get family on earth based on your punya only and the result of all your good deeds in this life is that in the next life, you will get a family of learned members who will help you gain knowledge so you can complete your journey.

So Magha is the karma nakshatra and it tells a lot about the kind of work which will be assigned to us by our ancestors and help us complete our journey - there is no good or bad karam if we remain detached from the outcome of the results and this is what Gita teaches us that we should focus on task assigned to us with complete honesty and seek our salvation in the karam assigned to us according to our Dharma.

That is why Shree Krishna said that it is good to die in your own Dharam (religion) as going against your nature will only give you fear. {Swadharm nidhan shrey parodharma bhayavaye}

Your karma is decided by the Magha nakshatra as this is the first nakshatra in the sign of Leo and ranges from 0° to 13°20' and here is the cycle which starts of Indra - the King of Gods.

This is the Karam or Action you have to perform or gets manifested in life due to blessings or curses of ancestors in your life as this becomes really critical.

**Chart-1: Emperor of Japan- Hirohito**

This is the chart that belongs to the Emperor of Japan. He has his 5<sup>th</sup> lord of Power and position - MARS placed in the 9<sup>th</sup> house in Magha Nakshatra. He got position, power and control of land by his birth in a royal family yet he was not interested to serve as a ruler but as in Magha, you don't have a choice so this is something you have to do to complete your journey. Also, his Atmakaraka being Mercury in Pisces so his interest was to work in the field of fishes, and has poems written about jellyfishes. A true artistic nature but the karma of Magha has to be fulfilled.

You have to master the energy of each nakshatra starting from Magha to Jyestha to get all the comforts of Indra in life and that is why this is the nakshatra of the gateway as the entry door to this cycle starts from Magha nakshatra.

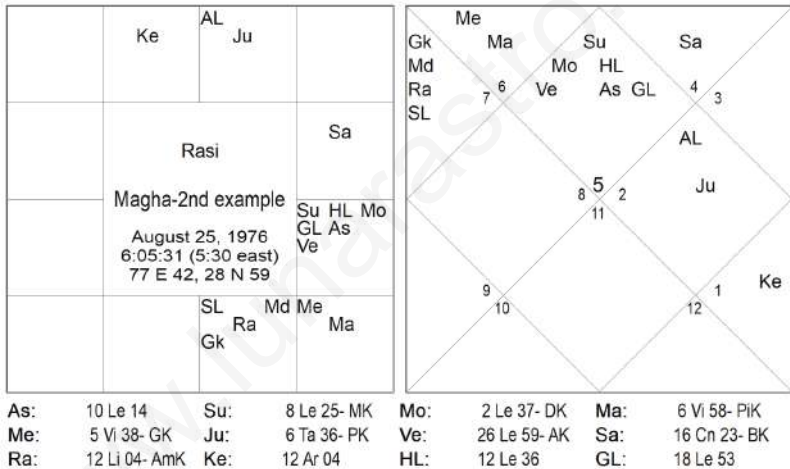

Magha is the gateway in this cycle and as now we are crossing the border so every area has rules on what you can carry and what you cannot carry with you in a different territory. Consider this as nakshatra of Magha is the gateway for border

## MAGHA NAKSHATRA

patrol or customs checking taking off all the violated goods away from you and separating you from the unwanted goods.

This is a nakshatra of Ketu and the work of Ketu nakshatras is always to make you feel lighter as last time we studied Ashwini, we now know Ashwini nakshatra is light and swift nakshatra and likes to travel light.

Magha also makes you feel lighter by giving you detachment from thinking about yourself only as the first 9 nakshatras were your inner core and you were limited to think about your own happiness but to become a true king you have to think about others' wellbeing and taking care of everyone rather than anyone else.

### Magha: Example - 2

This native had a perfect job but as soon as Sun in Magha gave him result in the dasha in 2002, he started feeling suffocated and wanted to do something big and independent so left the job and started farming as both luminaries in his chart are in Magha nakshatra and to take care of his parents, he decided to shift back to the village.

His success story was published in local newspapers as he built a self-sustainable farm and people from around the villages were visiting to see his model of farm and later on given responsibility by the government for developing such farms in the region.

As soon as he understood the karam related to parents in his life - Sun and Moon not only he left his job but also was more blessed with money and fame along with the mental satisfaction in his life.

One thing which was like the blessing of ancestors for him was the amount of production is extremely high as compared to other neighboring areas as this is nothing more than a blessing of ancestors giving fruits.

So, here are two techniques that comes into play here:

**1. Magha Nakshatra and Gateway:** Since it's an entrance of gateway and when you come into new domain - you have to start from scratch and leave everyone else behind you as a sacrifice to start a new journey of life. As we saw in the example above as the native had to leave the city, his job and everything to get started with new life so it was like a new domain for him but this is the condition of Magha Nakshatra.

You enter this area with very few things and then start all over again as you will not be able to sustain any connection to the older world.

Now, let us suppose if someone has any planet in Magha nakshatra then we can use that planet on the basis of lordship which planet has acquired in the chart or based on the natural signification of that planet as well such as for Gemini ascendant - Venus is 5<sup>th</sup> lord as well as we can use Venus for relationships with spouse or money and that native will have to leave other things in life to stay with Venus as this is the condition of Magha.

So, a native who has Moon in Magha nakshatra will have to sacrifice to live with his family, home and sacrifice comforts of life and has to go to an entirely different territory and start

## MAGHA NAKSHATRA

from scratch whenever dasa or antardasa of Moon will start or natural age of nakshatra.

This is the journey to become a king and it is not an easy one as the first step is the hardest to sacrifice the smaller goal and look for the bigger picture.

## Love Marriage: Magha

The chart above has Venus being the 2<sup>nd</sup> lord and Saturn being the 5<sup>th</sup> lord is Magha nakshatra so this native had to leave his home, family members and get settled in a foreign land and he is the brother of Chart-2 person who sacrificed so many things to live with parents and here is the chart from the same family where the younger brother decided that I have to leave this place and live in a foreign land due to love and as the entry in Magha asks for sacrifice so this native had to sacrifice his family to live in a relationship with a woman he loved and left behind everything in the family. Later on, that woman deserted him and he is still living abroad without any connection with his family.

A sacrifice in the first case was done to serve the parents and the sacrifice of parents and motherland was done to live with someone and both end up with different results this is

why in life when we have to make a choice we should never give up morals in our life as the first case the Magha was involved with Lagna along with the involvement of Sun and Moon in Lagna while in the second case, it was happening in 12<sup>th</sup> house giving the results in a negative manner.

**2. Second technique is Sacrifice:** Any planet in Magha nakshatra will ask to sacrifice things which you really love the most for the greater good in life and if someone is unable to leave small desires then the downfall of the native will happen as from here onwards the journey to become great starts.

When we have to achieve great things in life, the first biggest obstacle comes from home/ mother, selfish motives and thinking about only oneself & when Magha nakshatra natives become selfish and think only about their progress rather the progress of the whole family or society then no matter what combination native has in the chart – these people fall from grace in life as there is a difference between detachment which Gita teaches us and being selfish and think about oneself only.

**Punya of Ancestors:** Magha shows what you have got in inheritance from your ancestors and these planets become like traits which we get naturally over a period of time like someone is governing us for a certain task as these qualities and traits are the tasks assigned by our ancestors in the chart so all the karam of ancestors gets manifested in this nakshatra and if you have any planet in this nakshatra or aspecting this nakshatra you will find a close relation to the problem or good areas of your life so for example: If you are Cancer ascendant rising between 0° to 13°20' so Magha nakshatra falls in 2<sup>nd</sup> house cusp of the birth chart & now you can be extremely rich by your own efforts and this is only due to manifestation of all Punya of your ancestors which gets transformed in your chart in terms of money & extremely poor based on what has been passed on to you from your ancestors.

Or, it can lead to extreme poverty as well depending on what your ancestors are leaving for you – Pitris are the ones

who pass on their unfinished work to the coming generations as we expect our kids to carry forward and built upon what we have achieved till now but if this nakshatra is in affliction with a planet like Saturn – native suffers badly in terms of self-confidence and having the vision in life. Here, the native is considered an outcast as this is an entry gate for the royal palace and a planet like Saturn feels inferior when it comes to showing off. Saturn carries a lot of weight and walks slowly that is why this native will have to bear the burden of the family or the house where this nakshatra is placed for example: if this is placed in the 4<sup>th</sup> house – there will be issues related to home loan on this native.

To get rid of any issues related to Magha nakshatra, regular donations on dark nights - Amavasya should be done and during pitra paksha & the native should donate items related to the planet sitting in Magha nakshatra to the temple.

**Inheritance Issues:** As explained above this is what our ancestors left for us and we need to fulfill the work left incomplete but this work is to achieve ultimate satisfaction rather than the material objects – It's the happiness of entering into an elite club as which no one as ever done in their family.

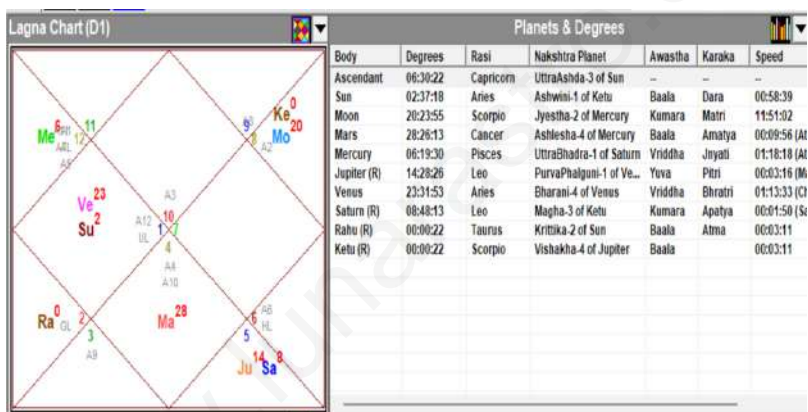

You will see when Magha is afflicted with Mercury or 6<sup>th</sup> lord, the native will have losses due to friends as this is the nakshatra where your own individuality should come up rather than anyone's advice. This is an elite's club where your single entry is allowed and this is something you earn but can't buy it as this is the entry you will get when you will have a special skill. Like a golf club limited edition entry only people with certain criteria are considered not open to all.

These are the people if a powerful planet like Sun, Rahu who is kingly in nature acquire this nakshatra can form their own elite clubs where only few can stay, while reactive female and eunuch planets like Saturn, Mercury, Moon, Venus suffer in this nakshatra as this nakshatra is moreover of non-materialistic things to fulfill the aspirations of several life to enter into a

place where no one has reached before and female planets lack the courage to take bold actions while talking much more than what they do as a principle of success & it is required to behave like male planets which do more and talk less by showing bold steps.

Now, let us look at a few examples of this nakshatra.

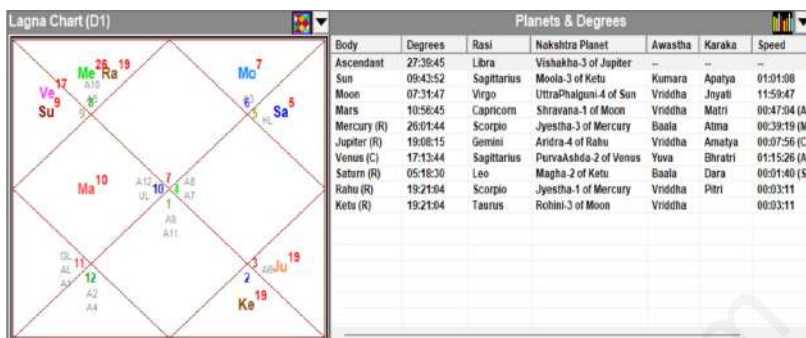

Below is the chart of US President Thomas Jefferson who advocated the abolishing the slave system in the US and speak of very high values as well as he resisted forming any kind of strong central leadership like Europe and was in the idea that every state should be independent in its own and mutually take a decision rather than one central authority.

All his actions were there due to Retrograde Saturn of Magha placed in 8<sup>th</sup> house as Saturn is Magha does not like to be controlled and the idea of one central authority was suffocating for him as well as when he was speaking abolishing slave system, he was the one who owned 700 slaves and was trying to preach people about equality and demerits of slave system making him a hypocrite and controversial leader in the US.

Let us look at one more example of how Saturn in Magha leads to hypocrisy and decentralization of power so here's the chart of Egyptian President Anwar Sadat.

## MAGHA NAKSHATRA

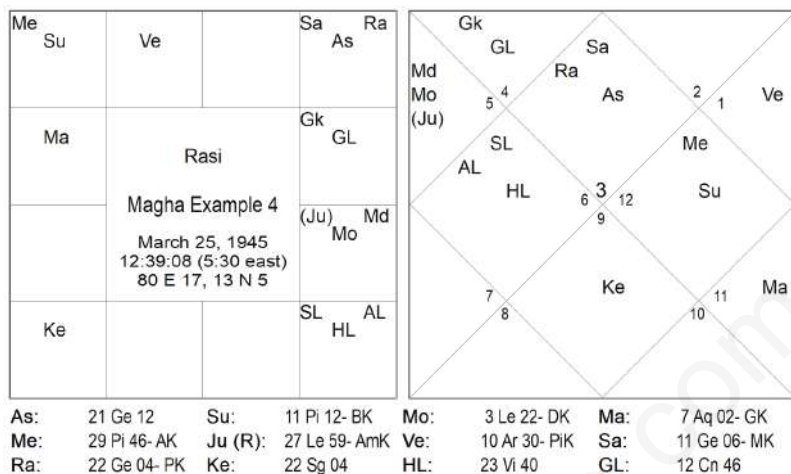

He has Saturn placed in Magha and during his rulership when he was the leader of the group who threw away King Farouq in revolution and began peace talks with Israel and even got a Nobel prize for this.

He opened up Egypt's economy for trade and the Arabs saw him as a threat, this was Magha nakshatra showing his energy as Saturn in Magha nakshatra is giving him the energy of rebel and made him look good in the Western world but his own country suffered badly in poverty due to rise in prices and inflation.

We will understand this nakshatra in more detail using the nakshatra padas and the stories as explained by Bhagwan Shiv to Maa Parvati. As there are so many ages of one nakshatra to get activated for different ones so I am giving the prominent ones to help readers understand how the energy of the same nakshatra differs at different points in life.

**Magha Nakshatra and Activation Ages-** Planet in this nakshatra give prominent results at the age of 40<sup>th</sup> year 6 months as this is a time period where these natives have to go through the trouble of wastage of resources, lack of direction in life & problems from seniors putting too much pressure due to which the health suffers for these natives.

Partnerships break this year and natives tend to go independent. This can be extremely good if Magha is well placed or extremely bad depending on the house and planet operating in Magha.

## Rajya Sabha Member

This is a chart of a Rajya Sabha member who is no longer in active politics. As Moon is in Magha Nakshatra, the native in his 40<sup>th</sup> year - experiences power for the first time as he had to break the old party to form the government in the center. Now, see the partnerships break in this year and there is a betrayal to get into power and in return, the government offered him a Rajya Sabha seat. This seat comes at the price of breaking ties with the old party and moving to a party with a different ideology.

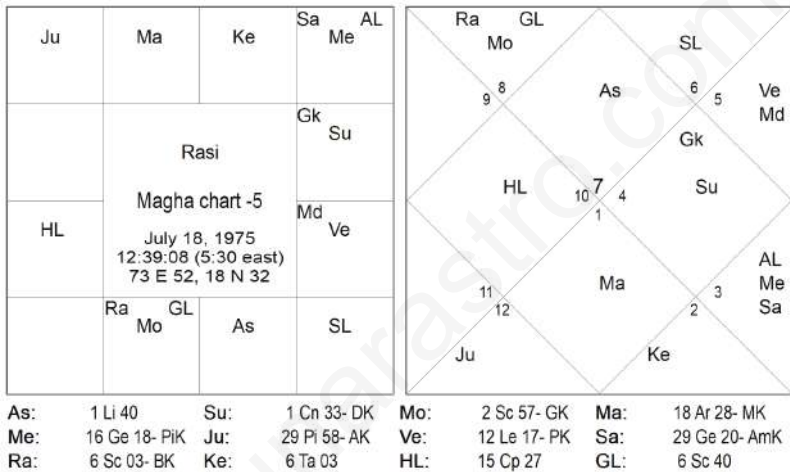

Also, the dispositor of Moon is sitting in the 10<sup>th</sup> house with ascendant lord Mercury so has to give him rise and again a lot of sacrifices were done by the native this year by leaving the home in Chennai and moving to another realm of Delhi in Rajya Sabha in a different party and work with entirely new people only to get the power.

Something very interesting this native did once, was that he acquired power and a lot of his relatives were using his name to get perks in local authorities so whenever anyone use to call him for favors, he will ask officers to never do their work at all as a punishment to use his name. This shows how a typical

## MAGHA NAKSHATRA

Magha native shows that I will not carry your burdens and I am here to complete my karma rather than giving out favors to anyone.

This is something very unique about Magha that they are not attached by emotions to people and many times they just change and react like - I am not going to support anyone as I am going for higher goals so will not be able to carry anyone with me.

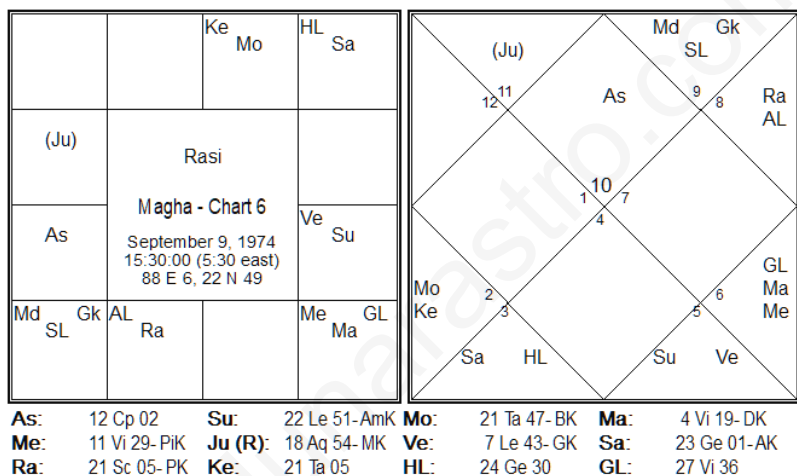

### Magha: Chart - 5

Venus being the ascendant lord is in 11<sup>th</sup> house with Mandi in Magha nakshatra this is the year when the native had severe problems in health due to his drinking habits as well as with women as this native was in love with the boss itself and things went ugly this year to a level that both homes had huge fights and divorce was filed for the native.

Venus along with Mandi also made sure health troubles continued and this native had to leave his old job and start out a new venture in business. Also, Venus when placed with luminaries or in the house of luminaries does not perform well as Venus requires dark nights to shine alone.

**Magha Nakshatra and 28<sup>th</sup> year** – This is the year when a native start getting recognition for their work and contribution and met a person in his life who not only teaches him various things to give mastery to the skill but also gives directions in life as well. This is the year when native gets a lot of support from everyone in the area where this nakshatra is placed. Native gains unexpectedly this year.

In the example below, the native has the 10th and 5th lord Venus in the Magha nakshatra.

The native is a good dancer and she has a passion for dancing. She used to do stage performances in her childhood and teenage but after her marriage, she had to leave that as her husband was against it. After 4 years of her marriage, and after many struggles and discussions she got permission from her spouse and in-laws to continue her passion again in the 28th year of her life. At that time, Jupiter-Jupiter was running in her Vimshottari Dasha. That year, she did a stage performance again and got recognition for her performance.

**Magha Nakshatra and 36<sup>th</sup> Year** – This is the year of happiness and wisdom and this can be an extremely good year or an extremely bad year depending on the karma of the native as this is the year when Magha natives had to go through

extremes in their life and move to different places on earth as most likely native will change place this year.

### **Pending Karma & Nakshatra Padas:**

**(Source – Karam Vipak Samhita)**

Karam Vipak Samhita is a classical text that revolves around the conversation between Lord Shiva and Maa Parvati. Mahakaal is explaining to Maa Parvati the effect of being born in various nakshatras and due to which particular acts of past life, the native will suffer in this life, and the remedies to be performed by an individual to get rid of several curses performed in the past life.

With the blessings of Lord Mahakaal, I have tried to interpret the Samhita to understand the manifestation of curses in today's world and the remedies needed to cure them. To read what is not written, to hear what's not been said, you need the blessings of ancestors as this is one of the most difficult subjects to decode.

This made me think that if nature wants mankind to finish all pending karma of the past life and gives all hints and clues, what will happen if we get synchronized with nature. Once I started suggesting people remedies according to the pending karma of the natives, the feedback was most astonishing for me as these remedies worked like miracles in most cases. Even if a certain remedy was not done regularly, still results were visible.

### **Magha Nakshatra & Karam Vipak Samhita**

#### **1st Pada: Leo Rashi - Aries Navansh:**

Mahadev tells the story to Maa Parvati about the native who is born in Magha nakshatra first pada- Once upon a time there was a beautiful town named Mangal and there lived a trader who was a devotee of Lord Vishnu and his name was also Mangal - he was married to a beautiful lady with big eyes and always supportive of her husband. Mangal had a very

beautiful shop in the market in which he uses to trade various commodities according to season and generously help for the cause of dharma by donations and other means – one day one friend of Mangal came to his house from another city who was brahmin. Mangal received him with warmth and affection and offered him food, money, clothes, and 1 lakh gold coins.

As Brahmin has to leave for Kashi, he insisted that gold coins should be kept here only, and on his return, he will collect them from Mangal, and Mangal agreed to it and as the time passed by – Brahmin spent the rest of his days in Kashi and due to bad health, he died in Kashi and as Mangal went through bad times in business he along with his family started consuming money which they had donated to brahmin earlier-later on Mangal visited Ayodhya and left for heavenly abode. Due to a lot of Punya, he got to the Dham of Lord Vishnu and after using the balance of Punya he came back to earth to pay for the sin of using the wealth donated to someone else.

Due to the sin of using the wealth which was donated to Brahmin in this life, Mangal is born with a lot of diseases born out of an imbalance of Vata and Kaph and does not get any happiness from kids so he should donate the 6<sup>th</sup> part of his property to the Brahmin and donate a cow whose horns should be covered in gold then all his sins will be taken off. Now Lord Shiv says the remedy - from his wealth, donate 1/6th portion to the Brahmins, along with the Japa of One Lakh Gayatri to be done compulsorily.

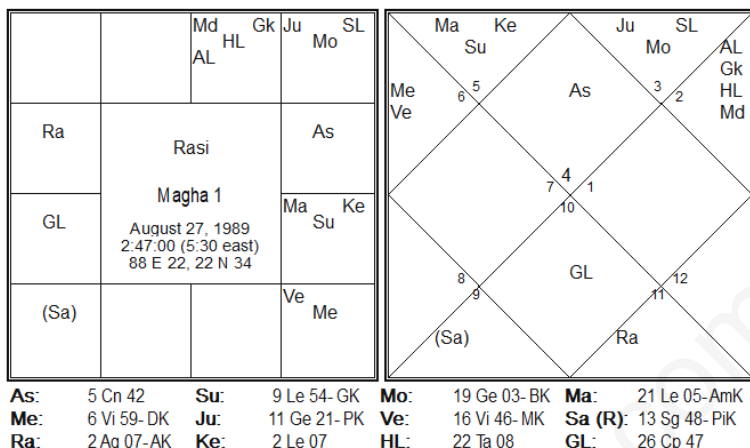

Following proper rituals, the Havan and Tarpan are to be completed, and a crest made out of gold along with the clothes has to be donated as the Shringar towards Kapila Cow.

**Deeper Meaning:** So, we will now look into the deeper meaning of the story. The name of the village and person both were mentioned as Mangal. This is the first pada of Magha

Nakshatra which will go in the Leo sign and Aries Navanshand Aries is ruled by Mars also called Mangal. This is what Mahadev is hinting to us that we need to focus on the energy of Aries. Then in the description of his wife -Mahadev mentions that she will have beautiful eyes and if we see opposite to Aries there is a sign of Libra which stands for beauty and how beautifully we see the outer world and this is why specially karaka of eyes is Venus and name mentioned by Mahadev is Vishalakshi. "The one with big eyes"

Then Mahadev describes that the native was indulged in good deeds and donations – If you see from Leo to Aries- this is the 9<sup>th</sup> position and that is why the native was indulged in religious activities and the story revolves around consuming the wealth of a brahmin. The Brahmin used resources that he had already donated. Here, Gold has been mentioned which is represented by Leo. The Navansh here is Aries which shows that out of necessity and the need of survival, the resources (Gold) were used but it was never donated back and thus the issues related to children happened. The resource can be anything in the chart depending on the combination such as in 3rd house it will be related to siblings or paperwork, 8th house will be Inheritance, money of business, etc. Aries here represents the basic necessities and not the greed or selfishness of Gemini. So, the reason for taking the resources may seem logical at first when you look at the situation in the story, but ultimately donation of that resource needs to be done as the native is taking something which is not meant for him at all. Similarly, such natives will do their work with bhakti as the Vaishnav did, but later on due to a crisis, the native will take resources that are already given away or not supposed to go to the native. Let us see an example:

# PREDICT USING NAKSHATRA PADA : AS TOLD BY LORD SHIV

Here in the above chart, Ketu 5th lord is Magha Pada 1 along with Sun(natural lord of Kids) and Mars(Property, Brothers).

Here the resource will be either the Money or the Property and Mars being the Karaka of property confirms the same event. Sun being with the two planets shows the Father/ Govt./Legal issues will be involved in this property and Ketu here will show the division among the property. If you notice the padas, then you will see that A4 is also in the 2nd house.

There are already miscarriages within the family and the early death of the mother's elder sibling (2nd house) and the native's father himself.

One of the major incidents is that in 2017, the native is fighting a case over the property division of his father. The interesting thing is that the Will of the property had clearly stated that they will not get any property share but the native is asking for the equal share (2nd house Ketu with A4) and hence the case started which is still continuing today. The native is asking for a resource that is not meant for him in this case. See how beautifully the story is playing now exactly as Lord Shiv mentioned.

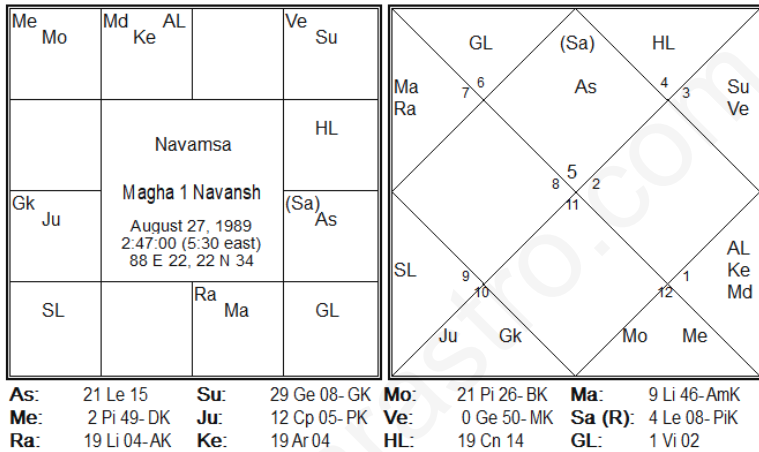

The stories of Lord Shiv will hold true 110% in every case, and only the physical manifestation will differ in today's world.

## MAGHA NAKSHATRA

When looking at the charts try to understand the story from the perspective of Lord Shiv and the culture during the older times and then co-relate it with today's world.

Now let us see the navansh chart for the result of this action.

### Navansh:

Ketu is in Aries which is in the 10th Navansh of the profession and in the 9th house. The native has had issues with his boss and problems in his career due to it and in spite of qualifying for a promotion, the native wasn't given a promotion and ultimately, the native had to leave that job and join another job.

See, Ketu is also the 4th lord and dispositor goes in the 3rd house with the 7th lord and the 3rd lord is in the 11th: The native's house ceiling(4th) suddenly fell down one day and he had to spend money to repair it. Also, for a long time, the native is looking to earn more money to support his family(wife and kid) but is unable to do so prominently.

The remedy is to leave the property and let it go as in legal terms, the property does not belong to the native and once this is done, major transformations will come to the 2nd house matters and the malefic effects will get over.

## 2nd Pada: Leo Rashi - Taurus navansh

In this story, Mahakaal says to Ma Parvati, that in a village named Nandi which is 15 kilometres south of Ayodhya Nagri, there was a Brahmin named Mitra Sharma who was doing wrong deeds by consuming alcohol and meat and being involved sexually with a lot of women. His money was used in gambling as well.

He had a wife named Karksha and when the Brahmin passed away, due to the grief, his wife too passed away. After spending several years in suffering and getting many animal bodies, they again took birth as a human but due to their past life sins the native got troubles related to his feet and his wife was suffering from childbirth issues and their son passed away early.

Then Lord Shiv gives the remedy to nullify the sins of past life by donating 1/8th portion of his wealth to a Brahmin and constructing a well or pond.

Deeper Meaning: Here in this story, Lord Shiv talks about the intoxication and consumption of meat along with the involvement with many women which is shown by the Navansh of Taurus. The native was blinded(Taurus) by the heat of the Sun(Leo) and wasn't able to see anything else except all the material things like involving himself with many women and consuming meat.

If you notice Taurus will be in the 10th house from Leo which naturally shows struggles related to resources and spending on additive things and meat.

When you try to understand the story more, you will realize that the wealth which the native has gathered through his PurvaPunya (Leo) is getting wasted on the wrong resources which are of no use.

Also, notice that the name of the wife is Karksha, and the 7th house is Taurus, which is Scorpio. Moon is debilitated in Scorpio and the wife passed away due to grief.

## MAGHA NAKSHATRA

Such native will use their resources in a wrong way and will then be involved in some kind of addiction and not bear the responsibility of the work which the native is supposed to do as Mitra Sharma in spite of being a Brahmin, did all the wrong deeds related to food and the opposite gender.

Such as if this combination happened to be Sun in Magha 2 in the 7th house, you can predict that the native indulges in multiple relationships and spends a lot of money on his/her partner to buy things that have no productive value. Such a native can even spend money to buy an apartment to live together with his partner as Sun will go in the 4th navansh.

**Example:** There will be times when a client will come who has already faced a lot of problems from the time, he/she was very young. In these cases, you cannot tell that the native himself has done something wrong before those events happened as the native still would have been a child during that time. Let us look at a chart:

### Rashi:

|--------------------------------------------------------------------------|-----------------------------------------------------------------------------|--------------------------------------------------------------------------|-------------------------------------------------------------------------------|

Here Venus is in the Nakshatra of Magh Pada 2 (Lagan and 6th lord of disputes), and Venus is very close to Mercury and Rahu - This is a very basic combination for multiple relationships or

cheating in Marriage. Some of the Major events in this chart happened when the native was very young around the age of 9-10. During such cases, the actual karam and majority of the events of the native have not even happened due to the age. Hence in these cases predict the pattern of events that the native has done in a past life as the same pattern is repeating in this life.

The theme of Magha Pada 2 was getting involved in additions and not sharing resources. In this chart, the native in his past life caused trouble to the masses by not giving donations and creating issues where he left his partner for someone else just because the native was dissatisfied with his existing relationship.

The events which happened to the native is that when she was very young, she saw her mother having an extramarital affair with her elder cousin, due to which her own mother tried to kill the native. Eventually, she got saved by her grandmother & then the mother of the native passed away and her father married again - but both her biological and stepmother gave a lot of mental torture to her.

In navansh, you can see Venus is in the 12th house in Taurus, but the native does donate to other people whenever it is possible for her. Right now, she is in the process of getting married and is doing a love marriage. The only advice which should be given to the native is to not indulge in extramarital affairs and not put any restrictions on her partner regarding money matters.

### 3rd Pada: Leo Rashi - Gemini Navansh

Lord Shiv says to Ma Parvati, there was a potter who used to stay in Ayodhya Puri in a village called Manthragram and he was engrossed in his work completely. The potter used to make utensils made out of the mud on a regular basis. One day his Brahmin friend, whose expertise was in Vedic shastra, came to meet him, and eventually, the Brahmins' wife fell in love with the potter and got involved physically. Their physical interactions happened very frequently and they lasted for a couple of years. As time passed, due to old age-related troubles, the potter passed away, and eventually the Brahmin's wife too passed away who was a misdemeanor by nature.

Eventually, they got reincarnated in a body of a human with wealth and prosperity, but due to their past life sins, their own son and daughter did not stay with them for a long time and the Potter himself was afflicted with a lot of diseases. Lord Shiv then explains the remedy of donation of the accumulated wealth in the home should be done along with Jaap of Rudra Mantra.

**Deeper Meaning:** Here the story is of a Potter who is engrossed in his work completely. This is because Gemini is the navansh of this nakshatra pada (Skills of hands, utensils, interaction). Gemini being in the 11th from Leo shows obsession related to his own hobbies and skills of hands, pottery in this case. This means that such natives will be excellent at following their own desires and can go to any means to achieve their desires. What happened with the Brahmin is that he got

involved with the Brahmin wife, due to his own physical desires and committed an illegal action. Such natives do not know the boundaries between the karam one should do and should not and they pursue their desires without thinking of morality. Gemini is a rashi of a trader who thinks of his own interests only, hence selfishness and greediness are significant in this rashi and this is what happens as the Potter got blinded by his own greediness and later suffered on the account of health and kids.

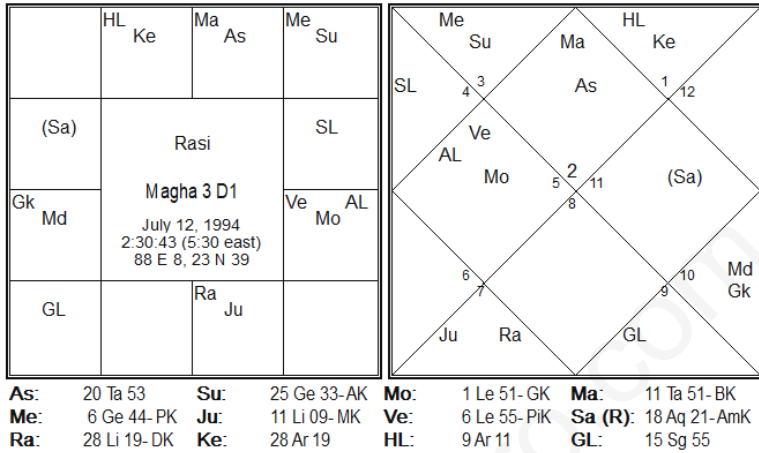

A native of this nakshatra pada will know no bounds of their actions and will pursue their objective no matter what. The native will face problems due to siblings and wrong friends and community where greed and obsession will take over suddenly because of which the native will do wrong deeds.

As it was the Brahmin's wife who fell in love, the potter got the choice where he could have said no but did not do so. Similarly, other people will ask the native or will create a similar situation, and eventually, they will accept it and perform the wrongdoings.

Such as if this combination happens to be Sun in Magha 3, then the greed of getting a better position and fame by doing illegal means will be a problem in this native's life. Lord Shiv then says that the native should donate his accumulated wealth, which is because Gemini is the 11th house from Leo which shows wrong earnings and achievements in this case, and hence the donation of the same will remove the curse eventually. This is the same reason why Jaap (Gemini) of Rudra Mantra is given.

## MAGHA NAKSHATRA

### Rashi:

As mentioned before, there are multiple ways to use the karakas as in by the cusp, house lord, or the karaka.

For the above chart, we will concentrate on the story of Venus.

Venus, the karaka of Marriage is in this nakshatra pada along with the Moon(Family, Emotions) in the 4th house of home. Venus is the 6th lord of disputes and the Lagna lord and Jupiter (rules, principles) and Rahu (Not following rules, irrational) is in Libra, the rashi of Venus.

The theme of the Nakshatra pada was on illegality, getting wrong choices and accepting it, along with obsession with own interests.

Hence the prediction of disputes in Marriage and family issues due to it; not liking the partner and forceful marriage can be predicted. Dispositor of Venus goes in 2nd house with Mercury again showing family and involvement of sibling.

The story is that the native got married very early around the age of 20 and it was an arranged marriage done by the family. Although it was arraigned, the family does not like the husband. Eventually after marriage the native got into

extramarital affairs and want to leave and go for separation from his husband. Notice how the 6th lord is playing out and the broken rules and principles of Jupiter Rahu is showing in this case. Never forget the Padas, as in this case both A7 and A8 is with Venus.

## Navansh:

|          |                                                                              |          |                |

Venus goes into the 12th house with Rahu in Gemini showing obsession with bedroom-related affairs and desires to interact physically with other people. The dispositor of Venus is in the 6th house with Mercury and 5th lord Ketu. The native has absolutely no faith in his own husband and suspects the husband of extra-marital affairs also. The native is unable to get out of the marriage as the Husband is not allowing her to divorce, along with abusing (Mercury involvement with 6th) and hitting the wife.

Whenever the wife talks about separation, the native says that "If you leave me, I will kill you". See how severe the results are in this case. Dispositor of Mercury, Jupiter the karaka of long-term goals has gone into Capricorn which is a rashi that does not change and follows the same routine daily.

## MAGHA NAKSHATRA

Here the native is unable to leave her husband and is stuck in the marriage, which is faithless along with physical fights happening among them.

Now let us look at another chart and in this chart, we will look at the 7th lord instead of the karak:

### Rashi:

|          |          |                                                            |    |                         |

There is a cluster of planets in the 3rd house in this chart, but let's focus on Jupiter as the 7th lord. Jupiter is in Magha Pada 3 in the 3rd house of multiplicity and changes along with Mars (aggression, impulsive), Saturn(Struggles), Rahu (Obsession, attachment) which shows severe struggles and impulsive nature of the marriages itself along with forceful obsessions with the partner multiple times due to 3rd house involvement.

The dispositor, Sun is also with Mercury in Pisces which shows losses and expenses related to marriage after fighting with the partner in the 3rd house.

You can see that due to three malefics being with Jupiter, the native will fight (mars) and face struggles and eventually go through multiple partners (Saturn, Rahu) or marriages. Note that the 6th and 8th lords Mars and Saturn respectively,

both are with the 7th house in the third house of Multiplicity and new initiations.

The story is that the native initially got into a relationship that ultimately failed, then she got into another relationship in 2004 which broke in 2008, then another relationship failed after a few years and now she is going through her 4th relationship, and their also she is facing troubles.

She is unable to adjust and facing emotional differences or is not liking her partner later on which is why she changed so many partners. Subconsciously, there is mental discomfort from her side only every time she goes into a relationship and eventually changes partners due to it.

## Navansh:

Jupiter is the lagna lord and has gone in the 7th house in Gemini and its dispositor is in the 8th house of breaks. Saturn the karaka of hard work and pain is in the lagnadebilitated and is also the 3rd lord. The separation from marriages due to emotional issues repeats in navansh also, but the native does not have a child till now and is somehow unable to conceive. Note that the native first got married in 2004 and after 18

years also, she does not have children. The native is also facing prominent sinus issues which is again shown by Saturn being 3rd lord and Jupiter retro in Gemini.

#### **4th Pada: Leo Rashi - Cancer Navansh:**

Lord Shiv says to Ma Parvati, Long time back in Kanchipur, there used to stay a Vaishya whose name was Makarand and his wife's name was Palika. Markhand was very well known in his village and was involved in the business of horses, elephants, and birds and was wealthy due to this business.

He never believed in Gods or Pitris. After a long time, his father and mother passed away, but due to his miserly nature, he did not spend money on the Shraddh ceremony with his parents. After many years, he eventually got old and passed away.

Eventually, when he got reincarnated on earth, he was given the bodies of several animals such as buffalo, tiger, rat, etc, and then only he was born as a human. As a human being, he was wealthy and prosperous, but due to his past life sins, he was unhappy on the account of children as his wife was incapable of producing children and suffered from frequent miscarriages. Lord Shiv then explains that the donation of land will help in begetting a male child, along with curing problems related to fertility. Lord Shiv then says the remedies to cure the issues - every year in the month of Magh, Vidhi wise do the Makar - snan. The native should perform the donation of land, which will help in begetting a male child, along with curing fertility issues.

**Deeper Meaning:** In this Pada, the Navansh is of Cancer rashi which represents the Fame(Leo) in the homeland. The native's mind(Cancer) was clouded by his own belief system only due to which he was unable to understand the Devatas and Pitris, which eventually led him not to spend money on the rituals in the Shraddh. Such natives will not be able to provide emotional comforts to other people due to their own egos due

to which they will hurt a lot of people in an emotional level. As Markhand had a lot of wealth and resources, a lot of ego and superiority complex came within him due to which he disregarded the beliefs of Pitris and God. This shows that due to the ego of the native, they will not be able to understand new things which they do not even know exists, along with facing problems due to being too adamant and unable to adjust to the situation and change their own belief system. As the Navansh is the 12th house from Leo - Markhand did not spend in the last rites of his ancestors(12th house) - which shows the miserly nature of such natives as they will not follow anything which they do not believe exists. The remedy would be to perform the last rites of their Ancestors by visiting Gaya as well as performing the yearly rituals of their ancestors on their death dates.

Lord Shiv says that the native should do the donation of Land - which is due to the Navansh of cancer which shows that the native should give his resources as well as emotional support to other people regularly and spend money more openly in terms of donations.

Doing Shraddha by proper rituals is a must after someone's passing and this shows that such native will not perform the necessary action when it is required due to their own lack of knowledge and faith and due to this, all the problems will go to his kids. The theme of Magha pada 4 is that the native has to do all the rituals properly and spend money on all the important tasks such as the rituals of birth and death.

Then a very interesting remedy is said which is by taking bath in holy rivers in the month of Magh. During the month of Magh, Surya dev will be in Aries which is the 10th house from Cancer, and taking a bath during this time will purify the native at a soul level and the actions/karam of the native will improve.

Here, the Lagna lord and 8th lord Venus is in Magha 4th pada in the 11th house while the dispositor of Venus goes in the 12th house of Donations in Virgo(service). Venus is conjunct Mars which is the 7th and 2nd lord of the outer world and food, resources respectively.

The chart is of the Hugging Saint, Ma Amritanandamayi. Before doing any predictions always remember the story of each Nakshatra pada and its theme as the theme of this pada is related to not providing enough resources due to one's own thinking pattern and belief. But if you see the story of her life, she did the exact opposite of it and has provided resources to millions of people worldwide. Since she was a child, she used to bring food to the animals near her home and provide emotional relief to whoever was going through pain.

Due to her behavior and activities, her parents punished her and locked her in a room and did not even provide her with food and she slept on the bare sand; As her parents did not give her food, Animals used to bring her food and helped her to eat. Regardless of the sayings of her parents, she continued

helping other people and she is now known worldwide as "The Hugging Saint".

As Lord Shiv mentioned in the story, the Brahmin did not pay the final rights and was a miser, hence the remedy would be to do the opposite of that in order to reduce the curse - and that is what exactly she did due to her karam, although she suffered in terms of resources due to her family, but later on, she did not get any malefic effect of the combination and became known worldwide as she helped millions of people during the time of crisis.

## Navansh:

In the Navansh, Venus is the 5th lord and the dispositor of Jupiter which made her known as the "The Hugging Saint" and she got worldwide fame and recognition. Today she holds several positions in different organizations and institutes such as she is the founder of the Ma Amritanandamayi Math and the chancellor of Amrita Vishwa Vidyapeetham University.

Now let's look at another chart of a native who faced severe problems due to doing of the wrong karam:

## MAGHA NAKSHATRA

### Rashi:

|            |                                                                                      |  |          |          |

Sun the karaka of Kids is in this Nakshatra and is aspected by 12th and 9th lord Jupiter. Since the story is of not donating and giving out the necessary services during the time of need. From these points, you can tell that the native will not help his seniors and father and will not want to bring and take care of his child. The story of the native is that he was having a relationship with someone from the neighbourhood and they eventually married secretly and did not perform the necessary paperwork through the registry. Very soon, the girl got pregnant, but the child was aborted because they did not want to bring him into this world as the native was very young in age and did not want to bear the responsibility of children. The native did not give the necessary resources to the child to take birth and made him change bodies again forcefully. Regardless of the situation, one should never do such things as killing Jeev and harming them intentionally as it is the gravest sin one can do which can create unsolvable consequences later on in life. This story of abortion was not even known by his own family.

Here Sun is in the 9th house and the dispositor of Jupiter (Children), Dispositor Moon is in the 7th house with Rahu in Taurus and Venus goes in the 8th house with Mars. Just after the abortion happened, the girl broke up with the native suddenly out of the blue. This incident made the native devastated as he never expected such an event to occur. The native cried a lot and even during the consultation, he was crying. Moon Rahu in 7th while Moon being the karaka of water is ruling the 9th house represents Astrologers and counselling.

# Purva Phalguni

ॐॐॐॐॐॐॐॐॐॐॐॐ

BHAGA  
(God of Love and Luck)

## Purva Phalguni Nakshatra

**Purva Phalguni Nakshatra:** This is the nakshatra which is located between  $13^{\circ}20'$  –  $26^{\circ}40'$  as this is the nakshatra which is considered to take the best share among gods and to get the best of anything in the world you have to raise your standard to not get settle down for low. This creates dissatisfaction amongst the natives.

In whichever house this nakshatra is rising you will find the native is very specific about the significations of that house such as 6<sup>th</sup> house, the native will choose his doctors, servants, and anyone working under him after a lot of assessment so here the keyword is assessment as to get the best people, you have to reject the substandard.

Similarly in 7<sup>th</sup> house, the native will be very specific about business partners, life partners. This is a Nakshatra of passion and showing off what skills you have got as this is the **heart of the Zodiac**.

One of the most important nakshatras due to its placement in the zodiac as we might see world from 2<sup>nd</sup> house but we understand it from heart is that when we look at something we feel good, bad or any other emotion for that person and this is why keeping vision is very important in life as without vision a person cannot live life. We wake up every morning to look forward to a beautiful day & on special occasion we wake up early as there is energy in our body.

Have you ever wondered why on your marriage day, birthday, or any special occasion you never need an alarm clock reason being – you are passionate about events of that day similarly when we have good planets placed in this nakshatra we never lose motivation or enthusiasm in life while opposite planets such as Saturn, Ketu placed in this nakshatra creates a depressive, fearful personality.

The power of this nakshatra is of Prajñāna shakti which means the power to create, to breed and that is why the natural 5<sup>th</sup> house of Leo is considered for kids as work of this nakshatra is to create the future generation so their legacy can be carried by someone else. Affliction in this nakshatra can cause problems in progeny while good planets in this nakshatra bless you with kids and happiness from them so this is one of the nakshatras which is very prominent in people who are actively involved with kids.

**Purva Phalguni and Image:** As this is the nakshatra of Venus situated in the middle of Leo so this nakshatra also shows what perception people will carry about you, how they see you, what is your image people get when your name is taken and when this nakshatra has planets which are not socially acceptable in society then negative image of the person is broadcasted in the society.

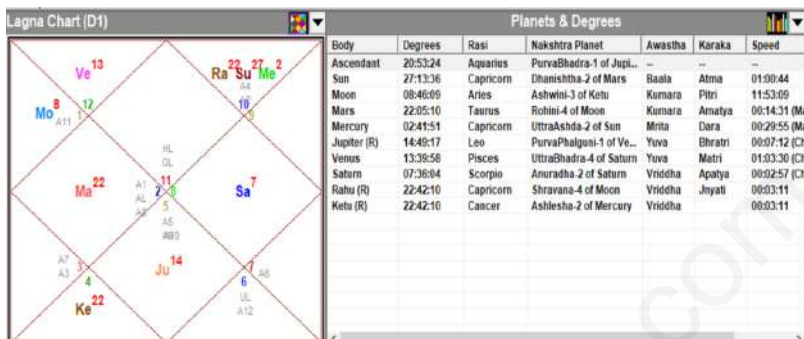

Such as when planet like Saturn is placed in this nakshatra image can be of karma yogi or of miser depending on which house this nakshatra is getting placed but this image has nothing to do with the real actions.

A king has everything in his image – A political leader only wins elections based on the image he is projecting.

Look at the chart below which is of Indian President – Dr. Zakir Hussain. He has got Jupiter in Purva Phalguni nakshatra placed in 7<sup>th</sup> house.

His image even as a President was of Scholar who has done lot for establishing institutions of this country as being in Purva Phalguni which is more about managing the world

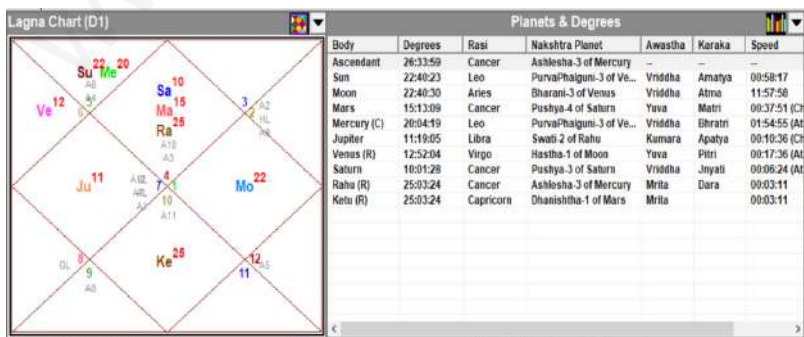

and in this case as Jupiter being the significator of education and his whole life was of laying founding stone of several institutions of country and promoting education in the world.

No one could oppose that we can found a better president than him who has a scholar image projection.

Let us look at one more example;

Swami Sivananda: A spiritual leader who wrote over 200 books on Yog and Vedanta. He has both Sun and Mercury placed in Purva Phalguni nakshatra in 2<sup>nd</sup> house so whenever anyone remembers him or his image is of great literature work, he has done for spreading this great knowledge of Vedant through his books. The combination of Atmakaraka and Bhrtakarka has given such an extraordinary desire in his chart for communication and the energy of Purva Phalguni, it has manifested in his life that made his work reach several thousands of people.

## PURVA PHALGUNI NAKSHATRA

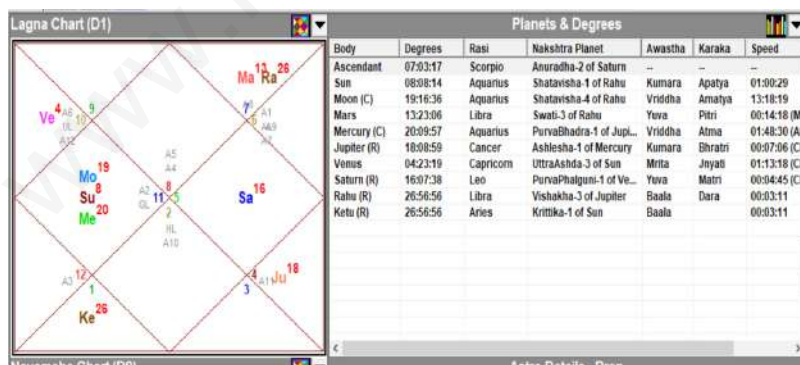

Afflictions to this nakshatra will not be able to project the right information amongst the public.

Let us look at one more great personality of this country: Late Prime Minister – Lal Bahadur Shastri who handled this country in the time of crisis and gave the slogan of “Jai Jawan Jai Kisan”

Rahu is in Purva Phalguni nakshatra 8<sup>th</sup> house which is not a good placement when you have to project your good image but it is placed in the house of death and we all know how he was killed with conspiracy in Tashkent and the complete story or investigation of his death is still not clear to anyone even being the Prime Minister of a country – his death became a mystery till date.

One more good example to see the effect of this nakshatra is a legendary film actor in the Indian Industry whose voice, personality, and acting gave him fame through his image of Villan was **Pran**.

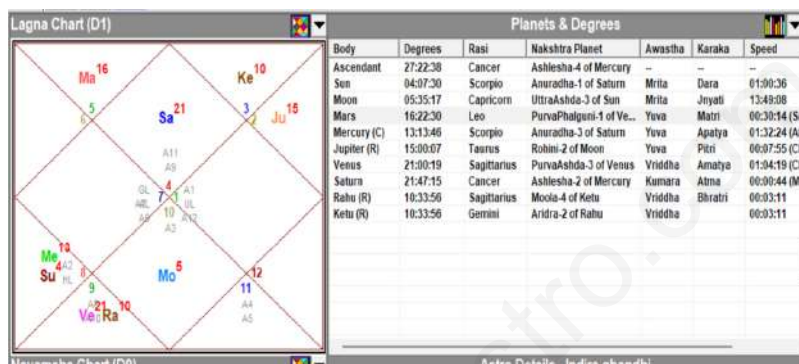

His 10<sup>th</sup> house has the 3<sup>rd</sup> lord of skills Saturn placed in the 10<sup>th</sup> house in Purva Phalguni nakshatra so as discussed before, Saturn in this nakshatra does not give any positive impact so even after all the personality trait of Hero, he got famous as Villain in Indian movie

Let us look at another example to show you the impact of this nakshatra and you will realize how powerfully this nakshatra can project your image.

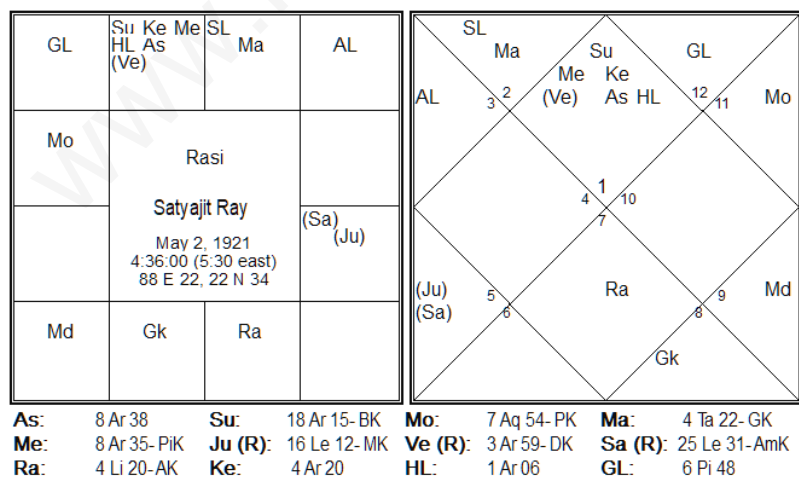

Below is the chart of India's first female Prime Minister who was known to take tough decisions irrespective of consequences and which gave her the title of Iron Lady. She had a fierce planet like Mars projecting the image in public so during the crisis, she was the one who will take bold decisions and never backed off.

Let's move on to one more beautiful example of Purva Phalguni to show you how malefic and retrograde planets in this nakshatra can present one's image to society in a different way, though native can do applaudable work.

Look at this chart which is of one of the greatest filmmakers of India - Satyajit Ray.

He has the 9th lord and 10th lord, Jupiter and Saturn both retrograde in Purva Phalguni nakshatra and in the 5th house Leo which is the house of image, entertainment and movies. In his lifetime, he created many masterpieces and he was the one who brought Indian cinema to world recognition also as he was awarded an honorary Oscar. But the interesting fact is, in 1960 he made a film named "Devi". In this film, he highlighted the lifeless, orthodox ritualistic parts of religion, and he was very critical of the superstitions of Hindu culture that used to be observed at that time. Through this film, he literally attacked all the religious dogmatism and blind faith in the society. A storm of protest was awakened by the brahmins and so-called religious people of that time, and they labelled this movie as Anti-Hindu. All the religious groups and brahmins of that time portrayed the image of Satyajit Ray as Agnostic, Anti-Hindu, Rationalist, Atheist, and many more though he was a member of 'Brahmo Samaj'. In this film, he just wanted to display religious dogmatism, he never attacked Hinduism or religion as such. In spite of that, his image came in front of the public as Anti-Hindu. This is how malefic and retrograde behave in the nakshatra of Purva Phalguni.

### **Purva Phalguni& Karam Vipak Samhita - 1st Pada: Leo Rashi - Leo Navansh:**

Lord Shiv says O Parvati | In a very good country, there was a Kshatriya named Shobhan, who was born with plenty of wealth and prosperity and used to live there peacefully. He was commonly famous by the name - Mohan and his wife was a fortunate and good lady. Mohan was engrossed in his business activities all the time and kept a lot of bulls for the same.

One day two bulls, who were tied by their legs, fell into the well and passed away but Mohan did not care to even look and take care of the bulls after their passing. He had a lot of ego because of his success and wealth, due to which he did not accept the misdeed he committed of not taking proper care of the bulls. He did good as well as bad deeds and was in the

mode of ignorance. After a lot of time, he passed away and after a couple of years, his wife passed away too.

Eventually, Mohan took rebirth as a human after going through animal's bodies first. Due to his karam of past life, he now got afflicted with several bodily diseases, and his wife who was fully engrossed in worldly gossip married him again in this life. Then Lord Shiv says that the native should donate a one-sixth portion of his wealth along with 5 lakh Gayatri Jaap to be performed and all his sins will be destroyed.

**Deeper Meaning:** Let's start with the name: Shobhan and Mohan - both names have the effect of Saturn and Moon and it is said that the Kshatriya was engrossed in his business activities all the time. A Kshatriya should be involved in tasks related to warriors and not be doing trading as it's not meant for him. So Here Lord Shiv is telling us that the native did not do his karam properly and got involved in some other karam that is completely unrelated to the native.

If you notice the rashi of Saturn will be in the 6th house and the 7th which shows the obsessiveness in business as Aquarius goes in the 7th house from Leo and the effect of the name is also activating Saturn constantly. This is also why its mentioned that the wife is engrossed in worldly activities, as Aquarius is ruled by Lord Rahu and is the natural 11th house of friends and social circle, and that rashi being in the wife's Lagna made her more materialistic.

In the story, the native was blinded by his own ego due to his wealth and fame, he committed the sin of not taking care of the animals and not even accepting it as a misdeed, which is said because the effect of Sun is more as the rashi and the Navansh is Vargottam and also Capricorn, the karak of struggles and laziness is in the 6th house of animals. 6th house being the house of daily routines and Capricorn showing karam related to it, the native is not performing his daily responsibilities properly due to which he will face problems later on. In this pada, the curse is coming because the native has not taken proper care of the animals, which means that

he had too much ego due to which he became extremely controlling in nature and tied the bulls. Such natives will try to create a lot of pressure on others as they will order other people to do overbearing tasks for a much shorter time, which is nearly impossible. As the Navansh is Vargottam, it gives a lot of fame and riches but such natives will be unable to bear the responsibility of something else which is very important in their life such as taking care of their family members, partner, kids, and they will not accept it as a mistake and tell that its due to their own responsibilities that they are unable to do it. Leo is a rashi of Name and Fame but it can also blind you by making you ignorant and egoistic, as happened with the native in the story. Such natives will try to control the situation by forceful methods as happened with the bull who was tied by his two legs and his freedom was snatched from him.

Then Lord Shiv says the remedy of Donation of 1/6th portion of the wealth, which is because Shiv ji is referring to the 6th house of Capricorn in this case, and 5th lakh Gayatri Jaap is supposed to be done because of Surya and 5th house. The native should serve the people who need help on a regular basis.

## Rashi:

Here the 7th lord Venus is in this nakshatra pada with Rahu (Obsession), Mercury (Interests), and Sun(Passion) in the 10th house. Multiple relationships and doing marriages with legality issues can easily be seen in this combination. Remember the theme of the nakshatra - blinded and not listening to others and not taking proper responsibilities.

Hence due to marriage the native will be very adamant and take the decision without listening to anyone and eventually, he would face trouble due to heractions. The story is that the native eloped with his partner in 2013, at the age of 15 with a girl and they performed the marriage ceremony in a temple on their own with no registry. Note that this is far from the legal age of getting married and that too without any papers of any shred of legality - the native became too blinded by the partner (Venus) and took such a big decision without anyone's approval or even one's own experience. Let us now see the result of this action.

## Navansh:

Venus is in the 11th house aspected by 3 Malefics Mars, Ketu as well as Saturn. Dispositor of Venus is in the 3rd house of changes, multiplicity in Sagittarius. Eventually, a lot of problems

happened in their marriage and they got separated by breaking up as divorce cannot be filed as no legal papers even exist. After a few years the native again did a love Marriage but this time the mother of the native did not accept the wife, but still the native got married again. But this time there's not much physical contact between the couple as the native and his wife are staying separately due to the native's mother.

## **2nd Pada: Leo Rashi - Virgo Navansh:**

Lord Shiv says to Ma Parvati that in the City of Karnatak, there was a Carpenter who used to keep working the whole day in order to reduce his expenses.

The Carpenter got involved in a physical relationship with a girl of the same Gotra(lineage, family). After some time both the Carpenter and the woman passed away.

Eventually, after returning to Earth, they got the bodies of several animals and eventually got the body of a human and was born in the respective country. He eventually fell in love with a lady of lower caste and did not have good relations with his own family and kept enmity. Due to the sin of cutting trees in their past lives, he will suffer from various diseases and will always have a back-related issue.

Due to his sin of being involved physically with a woman of his own lineage, his child passed away early. His wife suffered from miscarriages, but eventually gave birth to several female children only but often stayed sad. Lord Shiv then gives the remedy that the native has to donate 1/8th portion of the wealth kept at home to a brahmin and along with a donation of a cow.

**Deeper Meaning:** The story is of a native who is a Carpenter and he used to cut trees to use that wood in his carpentry work. Also, the Carpenter did not plant the trees again to reduce this Sin which resulted in a curse. The Navansh here is of Virgo which shows Mercurial-related work and Mercury being a karak of trees, skills, daily routine, service - the native

worked all day (Virgo) and cut trees and wanted to reduce his expenses. Here Virgo is in the 2nd house from Leo which shows money-related issues. Then Lord Shiv says that the relationship with a woman of the same gotra/lineage occurred, which is because the Rashi of Libra goes in the 2nd house from Virgo. Here the mistake is of being in a physical relationship with someone from the same family, and such activities are prohibited and should not be done at all.

Such natives will tend to do something illegal and not realize their mistakes until later on and issues with family due to their actions will be present. The carpenter, even after doing the mistake of cutting trees did not try to correct it in his life. Similarly, these natives will tend to be ignorant of their mistakes and not do the proper corrections when it is necessary.

Such as If Venus is in the 11th house in Purva-Phalguni 2: You can predict the native will spend his family's money in an erratic way and get into a relationship that is not accepted or is illegal, and still he will continue doing those actions, as the Carpenter did the same mistake in his next life by getting into a relationship with a girl of a lower caste and keeping enmity with his own family.

See the Rashi of Capricorn is in the 5th house of Love from Virgo showing interest in women who are older or of lower caste and also Libra is in the 2nd house showing issues with family due to marriage and relationships.

Later on, all the issues went into the 5th house which resulted in his son passing away, and the birth of only females which is shown by Capricorn (Restriction) in 5th from Virgo.

Lord Shiv then describes the remedies of donation of 1/8th portion of wealth and a cow, which is because the energies of the 2nd house, which is the rashi of Libra (Wealth, Cows) will be reduced, and eventually relations within the family and partner will improve.

### 3rd Pada: Leo Rashi - Libra Navansh:

Lord Shiv says to Ma Parvati, that a Vaishnav named Tikaram used to live in a city named Singhaldweep. His wife's name was Suryayi and she had beautiful eyes. She was well-mannered, used to enjoy giving to others, and was engrossed in deity worship of Devi and Devatas. She also performed deep daan.

One day a goldsmith started staying in the city after coming back from his Tirth yatra and eventually, Tikaram and the goldsmith became very good friends.

The goldsmith had a daughter whose face was lotus-like. Eventually, the daughter of the goldsmith became the wife of Tikaram and she also took away all the wealth accumulated by her father. Due to this traumatic experience of his own daughter taking away essential resources, the goldsmith passed away. Tikaram, left his family and started spending time with the daughter of the goldsmith and did not bear the responsibilities of his wife and children. After a long time, Tikaram (Kayastha) passed away.

After coming back to Earth again, he got the bodies of animals first, and eventually got the body of a human. Due to his past life sins, he was born with various ailments, he faced problems due to childbirth as his children passed away early due to Smallpox and his wife eventually was not capable of producing children. Lord Shiv also says that he will not get any kind of happiness in this world and he will have less desire to seek any pleasure along with having a weak body and will be engrossed in listening to Katha all day. The native will face a lack of knowledge, due to which his family will suffer. He will also be aggressive towards his family members. Now as a remedy, Lord Shiv says that the native should donate a cow with 10 Qualities and three pieces of gold along with giving food and money to seven Brahmins, which will ensure the birth of a Male child.

**Deeper Meaning:** Lord Shiv is hinting to us that Tikaram had a dutiful wife who followed her Dharam on a daily basis

by serving her husband as well as performing all the daily rituals related to Puja and Upasana. Her name has a prominent Sun effect which again shows the qualities of Sacrifice and Discipline in her daily life. Still, Tikaram was not satisfied with her and went into a relationship with someone else. Here the goldsmith friend who came back from this tirth yatra is seen from the third house and his daughter will be the 7th house of Aries, which is again the partner of Tikaram being the 7th house itself. Both Suryayi and the daughter of the goldsmith had beautiful facial features which can be seen from Taurus being the 2nd house.

Such natives will not be satisfied with the opportunities they already have in life and they will try to get something more when it is not even needed.

Shastra says, "that if one cannot be satisfied with his own mother's milk, then he cannot be satisfied with anything in life" and this statement should be read by such natives repeatedly. They should practice being happy with whatever they have got in life as there are several people who do not always get their requirements fulfilled but they are still happy and never try to cheat or go the illegal way.

Let's say Mars is the 8th lord and is in this nakshatra, then such as a native will try to earn more part of the division of their inheritance than what is promised and due to which, he will face several problems later on in life.

Lord Shiv then says that the goldsmith's daughter took his father's stored wealth which is Capricorn in 2nd (from 3rd house) which caused him trauma(Cancer 8th to Sagittarius) and he passed away due to it. This is a sin that no one should ever do as taking away resources of one's own 9th house is something which will create problems in life that can never be solved regardless of how many remedies one does. The 7th house from this Nakshatra will cause severe troubles to the 3rd from the Nakshatra, such as if this Nakshatra rises in the 10th house, then the mother will cause troubles to his own father or to the paternal grandmother or it will be related to expenses, bedroom, etc.

Tikaram also did not fulfill his duty to serve his own family and started spending time with the goldsmith's daughter. Notice Scorpio being in the 2nd house from Libra which shows blockages within the family and unearned wealth.

All these sins got carried over and in the next life, Lord Shiv describes that the native did not get any happiness from this world, bad family, cannot seek worldly pleasures along with no knowledge. The only thing Tikaram did was listening to Katha which is again shown by Sagittarius in the 3rd house of hearing.

As a remedy, donation of Cow with gold along with giving food and money to Brahmins is recommended. Cow with Gold means that it is a very essential resource without which one cannot survive and thus donations to people who are suffering in poverty should be done on a regular basis. It's the same story with giving food and money to seven Brahmins, as seven here is the 7th house and Brahmins refer to Sagittarius which is 9th from 7th.

The donations should be done by the 7th from this planet to the 9th from the 7th.

See how beautifully lord Shiv described each story and how it matches with the charts. There is always a reason for everything, try to find that reason and you will discover things that you never knew even existed.

#### **4th Pada: Leo Rashi - Scorpio Navansh:**

Lord Shiv says to Ma Parvati that on the right side of the river Narmada, there used to be a Brahmin who used to perform religious practices regularly along with reading the scriptures religiously on a regular basis. The Brahmin taught other children of other Brahmins.

He had two wives and among them, he was in love with the younger wife but due to indifferences with the elder wife, he left her. After some time, the Brahmin passed away and the elder wife did the funeral rites of her husband and became a Sati.

Eventually, the Brahmin got reincarnated on earth and eventually got the body of a human but due to his past life sin of leaving his elder wife, he couldn't continue his lineage although he was born in a wealthy and respectable family. His children passed away early and his wife suffered from the womb and similar issues. Lord Shiv then says that the native should donate 1/6th of his stored wealth for a good cause and an old well or pond should be constructed. Food to be given to 100 Brahmins along with donation of a cow - Will ensure that the lineage grows and all the malefic influence goes away from the native's life.

**Deeper Meaning:** The story starts as Lord Shiv says that the river Narmada is beside the Brahmins houses, which is due to the flowing water of Aquarius being in the 4th house from Scorpio. The Brahmin had no problems related to his karam and performed his daily duties well by reading scriptures and teaching. The 2nd house from Scorpio has the rashi of Sagittarius which shows his resources being related to religious books, knowledge and the rituals related to it.

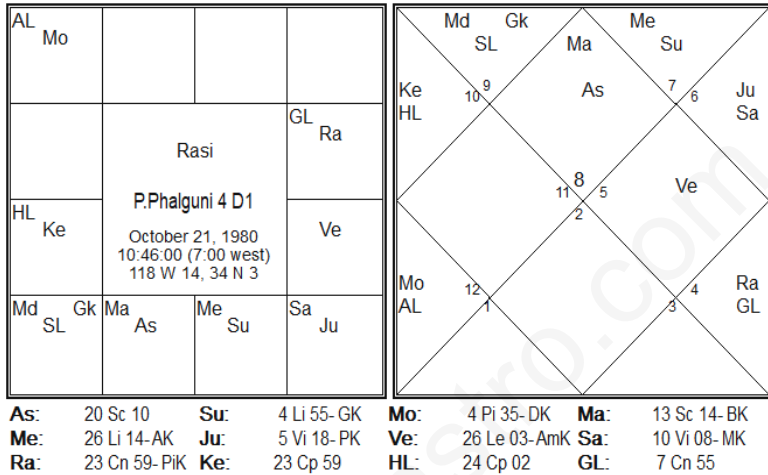

The problem was from the 7th house. Brahmins are not supposed to do multiple marriages in older days and thus he did something illegal. In today's world, you will notice such people, in spite of having fulfilled their necessary desires, will try to get even more by doing illegal things when there is no need for such actions. The Brahmin was supposed to take care of both his wives but did not do so at all. He left his elder wife which shows that such natives will not take care of the resources and people who are already present in their life, because of their unending desires of trying to obtain something more.

The navansh is here of Scorpio which again shows unearned things. Note that Taurus is in 7th from Scorpio and bearing the responsibilities of the 7th house should always be done dutifully. When you make someone your wife or even your family members, you should bear all the responsibilities of them and such native will not be able to do so in their lives, such as is Mars is in this Nakshatra, then the native will have

## PURVA PHALGUNI NAKSHATRA

two properties and the native will take responsibility only for the home in which he is staying in.

### Example:

This is a chart of a celebrity. Venus the 12th lord of Bedroom life and the 7th lord of Relationships and Marriage is in the 10th house in this nakshatra. The main theme was not taking responsibility, leaving the partner, and being in illegal affairs. There are several incidents related to the Venus-ruled houses for this native. The native had several relationships, marriages as well as divorces. One of such incidents was that in 2011, the native started dating someone else, while already being legally married to another person.

A video of the same native related to the 12th house matters got released in 2007, and instead of taking it down, the native settled the matter with money because the name and fame increased due to it. This is how the events played now. The native did all the wrong things related to the 7th house due to the desire to get the unearned significations of Scorpio.

## Navansh:

|          |                                                                                 |    |                |

| Ra: | 5 Aq 48- PiK | Ke: | 5 Le 48      | HL: | 6 Le 16       | GL: | 11 Vi 16     |

Venus is the 5th lord (Dispositor of Mercury) and is in the 11th house with Sun(8th lord) and the dispositor goes in the 8th house of breaks with the 7th lord Moon in Leo. The native got separated from all her partners till now and has faced three divorces already. 11th house being the house of Money and Venus being the karak of Jewelry, in 2016, the native got robbed of jewelry which was worth millions by certain gunmen.

5th house and Sun is also the signification of Children and hence the faced problems related to childbirth and had to go through surrogacy in order to give birth to two of her children.

The rashi chart is the actions on which the navansh is formed, hence never carry out any bad actions and do harm in any way to any being. All the consequences of the actions which the native will do will be reflected in navansh and depending on the severity of the karam, the native will get the results accordingly.

Let's take another example, this time, the Lagan nakshatra is in this pada:

Here, the Lagna itself is in this nakshatra pada and Sun is in the 12th house of expenses with the 2nd lord and 10th lord Mercury (Money, debts) and Venus (Wealth) respectively. Dispositor of Sun is again in the 11th house of Regular income.

You can predict that the native has done something related to his regular income where he earned by wrong means and tried to gain more commission in his business. Remember that one of the themes of this nakshatra is that the inspite of having fulfilled the desires, still the native will try to gain more. Hence you can predict an illegal way of earning money in his business or through the masses (Cancer rashi).

The native is a headmaster of a high school. What the native did was that he falsely told everyone that he had connections with the education minister, and by giving money to him, he would give other people a job as a teacher. Through this lie, others gave him money and waited for the job. Eventually, he collected around 50 lakhs of money but still after 4 years, no one got the job. The native already had enough money with him as well as he had a wonderful job as a headmaster, but still he chose to earn more and committed a sinful act. Within these 4 years, he enjoyed the additional sum of the interests generated by those

50 lakhs, similar to how the Brahmin enjoyed the company of his younger wife for a little while after leaving the elder wife. All these actions were repaid in the future.

**Navansh:**

|                                                                                                           |       |       |                |

See the Lagan lord is in the 3rd house of Gemini with 2 violent planets and Jupiter and Mercury is in the 11th house in Virgo. Leo has Saturn retro with Venus and its dispositor is in Pisces showing a loss of reputation along with violence and insults.

When everyone did not get the job as promised, one day all of those people humiliated the native in public and the native got abused and got held by his collar, as the public demanded their money back. They also threw stones at his home, notice Saturn being the 4th lord in Leo.

Eventually, the native had to give the money, but he lost his name and got defamed in front of everyone. The rashi of Leo is also for the Kids. His child has obesity issues and a bad married life due to his health not being up to the mark.

There are several combinations in the navansh for this to be seen, the 5th lord is in 8th with Ketu(blockages) and Mars(injury/physical body) with Gulika and also Sun being in the lagan of the kid as the 6th lord.

# Uttara Phalguni

(God of material and spiritual bliss in Kaliyug)

## Uttarphalguni Nakshatra

**Uttarphalguni Nakshatra** – This is the second set of Phalguni nakshatra, the interesting part of these two sets is that Purva- East and Uttara - North are not the two directions that are completing each other but are square to each other and are in progression to each other.

Uttarphalguni Nakshatra is a star that will force you to do corrections in life and in a way that you will feel blessed, any planet going in this nakshatra comes with the most practical advice for your life. This is one of the nakshatras which will fix the broken and messy part of your life but at the same time malefic in this particular nakshatra creates havoc and fights as when someone will ask for corrections you will not feel good about it and start to resist the change.

The example chart below has the 3rd lord Moon which is also the Atmakaraka, in the 4th house of home and property in the nakshatra of Uttaraphalguni, also Mars is there in the Uttaraphalguni Nakshatra.

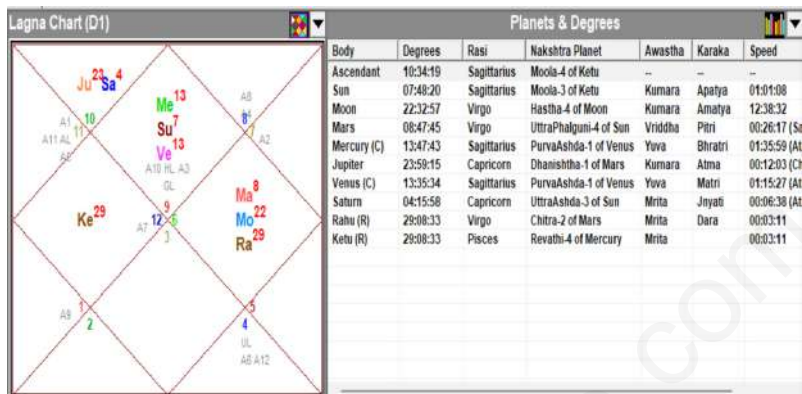

This native has a dispute regarding his home with his cousin. They live in the same house, but the house has no proper documentation and partition deeds from their forefathers. As the house is very old now, and in the rainy season water comes from the roof at some portions of the house, the house needs to be repaired. The cousin of the native asked him to give and share money to repair the required portions of the house but the native doesn't want to give any money to repair even he is facing problems living properly in that old house, as he doesn't know which portion and parts of the house he will get after the partition deed. He thinks his cousin might not give him the newly repaired parts of the house for which he had paid earlier. That is how the 3rd lord of siblings in the 4th house is asking for corrections regarding home and property but for the malefic Mars, their native is not doing that and going through fights and messy situations.

Let me give you a real-life example - I have Mandi in Uttaraphalguni nakshatra in the 3<sup>rd</sup> house and while I was preparing to write this article, I was troubled by an email where someone was asking for a TDS certificate but the language was so bad that it made me reply in a harsh manner, which I avoid but when the nakshatra activation is happening this is what we experience.

These are the people who are problem solvers and never budge when it comes to solving issues.

Let us look at the chart of an Indian Prime Minister who was the true Son of Soil - Ch. Charan Singh. A prime minister who hailed from a humble background of agriculture family and worked to solve the problems of farmers and land-related issues during his tenure. To date, people remember his work that in such a short span

of time of 1 year only, he was able to leave his mark on the country.

5<sup>th</sup> Prime Minister - Ch. Charan Singh

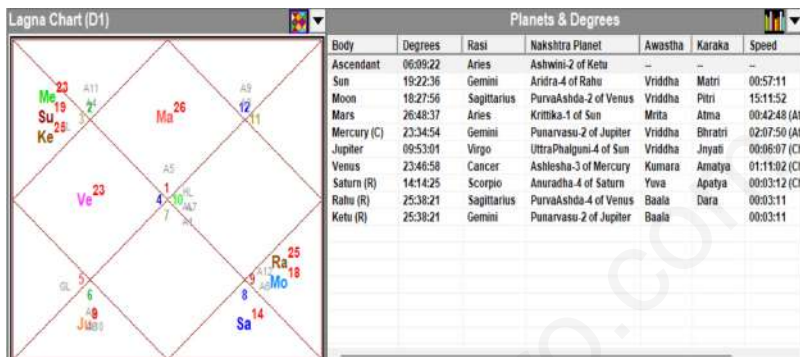

Let us look at his chart what made him take up the challenge of land and farmers and you will see he has Mars in Uttaraphalguni nakshatra placed in the 10<sup>th</sup> house of karam. A simple man was on a mission to come up with major agricultural reforms during his tenure.

**Uttaraphalguni Nakshatra and Crisis:** If a planet is placed in Uttaraphalguni nakshatra, the native is not afraid to take charge of situations that can go bad over a period of time as this is nakshatra best suited to people with ice-cold personalities who do not panic or run around at the time of crisis but lead from the front as a natural leader. Look at the chart of two times interim Prime Minister of India - Gulzarilal Nanda - who has Jupiter in Uttaraphalguni in the natural 6<sup>th</sup> house of crisis which shows his wisdom will be useful at the time of crisis whenever any senior, boss, or guru will be in trouble as Jupiter rules 9<sup>th</sup> house and in his chart, there is a presence of Rahu in 9<sup>th</sup> house.

This shows his bosses will face some serious troubles unexpectedly and he will be asked to take charge and this is what he did in his life as well.

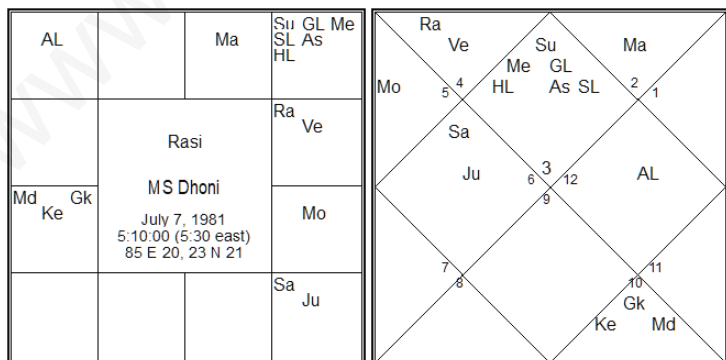

## UTTARPHALGUNI NAKSHATRA

After the death of Lal Bahadur Shastri as well as the death of Pandit Jawaharlal Nehru, he was made interim Prime minister of the country in the time of crisis so his wisdom at the time of crisis was useful for the country.

This can be used in another way as well when people fail to take responsibility at the time of crisis they don't lead the charge, this will happen naturally with female-dominant planets with affliction.

Let's move to one more example of Uttaraphalguni. The example below is the birth chart of one of the former captains of the Indian National Cricket Team, Mahendra Singh Dhoni. He has his 10th lord, the lord of action, Jupiter, and Amatya Karaka being Moon in the nakshatra of Uttaraphalguni.

**As:** 20 Ge 45    **Su:** 21 Ge 11- MK    **Mo:** 26 Le 60- AmK    **Ma:** 28 Ta 40- AK  
**Me:** 3 Ge 14- DK    **Ju:** 9 Vi 09- GK    **Ve:** 15 Cn 06- PiK    **Sa:** 10 Vi 15- PK  
**Ra:** 8 Cn 11- BK    **Ke:** 8 Cp 11    **HL:** 19 Ge 26    **GL:** 18 Ge 13

We all know about his calm attitude in any situation. Whether he had to chase a target with a high required run rate or he had to defend a low score, he was always with his calmness and patient. That is why he is popularly known as “Captain Cool”. We all remember the T-20 WC 2007 Final against Pakistan. When there was super high pressure and crisis in the last over, he had kept his mind at ease and chose newcomer Joginder Sharma over any other experienced player. Had someone else in his place, that person might not have had the courage to do so. In the same way, he had taken out the Indian team many times from the pressurized situation& that is how he always kept his cool attitude at any time of crisis on the field, and 10th lord Jupiter and Amatya Karaka being Moon in Uttaraphalguni helped him to do that.

### **Uttaraphalguni& Karam Vipak Samhita - 1st Pada: Leo Rashi - Sagittarius Navansh:**

Lord Shiv says to Ma Parvati, in a village named Ayodhya Nagri, there lived a businessman who was very determined in his work and his 5 senses were in his control. He was a devotee of Lord Vishnu and served Brahmins. He had a wife who was very beautiful, religious, and very loyal to her husband.

The Businessman had a Brahmin friend who had a lot of gold, and eventually, some of the gold was given to the businessman by the Brahmin friend.

The Brahmin friend went on the tirth yatra (Pilgrimage) to Varanasi where he left his body in Kashi. The Vaishya (Businessman) enjoyed the donation of his Brahmin friend to its full extent, after which He and his wife went to a tirth yatra where they both passed away.

Eventually, the businessman took birth again on Earth as a human being in a well-known family. He was again a devotee of Lord Vishnu but this time he did not return the gold to the Brahmin friend, due to which he suffered on the account of children and often became ill. Lord Shiv then says that to cure

the issues related to childbirth the native should donate 5 Gems along with sweets of a white gourd(Kumra), and coconut should be flown in a river. Gold should be donated to the Brahmin along with renouncement from worldly activities should be done and doing this will make the bodily diseases go away.

**Deeper Meaning:** The story states that the native was a businessman but he served Brahmins. This is because the navansh of this Nakshatra is Sagittarius which shows religious inclinations and being a devotee of God. Lord Shiv is saying that the native should get involved more in the devotion and the scriptures and not in his business as the native already had his senses under control and both the rasi and navansh of this nakshatra is fiery in nature. Someone who has all his senses under his control need not get involved in daily business works as he will be able to earn his daily wage by doing brahmin work of teaching and guiding the masses. Such natives in spite of having all the required knowledge, still pursue goals that are not really worth it or often face some or other distraction.

A Brahmin will not have a lot of gold. Here gold is a resource, which for a Brahmin is his intellect, knowledge, and the ability to guide others by giving good advice. Lord Shiv then explains that the Brahmin friend guided the businessman through his knowledge by giving good advice but later on in his next life the native did not do so. This is because the businessman was so engrossed in his own work, that he failed to take care of the people who are around the native. Such natives should always help others by giving good advice as they will have the knowledge by which they can help other people tremendously.

Here, the Brahmin friend will be 3rd from Sagittarius, which is Aquarius rashi and it shows cheating done in terms of speech and advice and focusing too much on one's hobbies. Look at the 3rd from this Nakshatra in the rashi chart, in that house you will not give any proper advices to other people and the significations will get troubled such as Venus in Uttaraphalguni

1 in the 8th house, the native will not share the solutions of projects in office to his employees or during troubles, he will not be able to help the employees.

Lord Shiv then describes the donations of sweets and gold which mean that the native should share his knowledge for others benefit and not be selfish when doing so. Renouncement from material things is recommended by Mahakaal which actually means that the native should be more involved with the significations of Jupiter.

Now we have gone through several stories and the readers must have noticed a common pattern of the results of the sins. That the majority of the sins are being paid back through 5th house-related issues and childbirth, either the lineage is not continuing or the child is passing away early. When you think about it, you will realize that the 5th house is the coming generation as well as your future birth. Lord Shiv is actually telling you to be very careful of what karam you do in your life, as everything is recorded and the payback of every karam will be done in this or next life. This is why along with childbirth issues. Mahakaal also mentions that the native is afflicted with several ailments as that is the result of his karam of previous birth, which the native is paying through his own body; the 5th house of previous birth is taken as the Lagan in next birth.

## **2nd Pada: Virgo Rashi - Capricorn Navansh:**

Lord Shiv says to Ma Parvati, in a place named Purushottampur, a jeweller lived. He was very efficient in his work along with excellent in jewellery carvings.

There was a rich Brahmin but he had no knowledge of the Vedas. He came to the jeweler and gave him 400 tolas of gold in order to make a garland, but the jeweler did not make the garland for the Brahmin. After sometime when the Brahmin passed away, and the jeweler used the gold of the Brahmin with his wife, and eventually, the Jeweller, his wife, and his child passed away.

When the native took birth again in Mrityu Lok, he took birth in the bodies of animals first and then eventually got the body of a human, but due to his past life actions he wasn't able to beget a male child and his wife faced issues related to miscarriages and infertility. Lord Shiv then says that in order to continue his lineage, the native should donate 1/6th portion of the wealth to the Brahmin along with 400 tolas of Gold.

**Deeper Meaning:** Lord Shiv mentions that the native is good in jewelry carving, which means that such native will do some kind of business in their life and they will put a lot of hard work in that as the rashi of Libra is in 10th from Capricorn. Jewelry carving here refers to that the native is able to see the minute details and mistakes (Virgo to Capricorn) in his profession/karm and is able to identify the solutions to those problems, but at the same time the native will be lazy and not do his assigned work as he did not make the garland for the Brahmin.

The Brahmin had no knowledge of the Vedas and he requested help from the native due to his own problems in life. Giving Gold to make a Garland, in this case, means that the Brahmin needed help and was in a desperate situation and thus gave whatever Dakshina he had to the Jeweler. Imagine if a Kshatriya loses his weapons in a war, then how troublesome and dire the situation will be; Similar was the situation with the Brahmin. Such natives will have to help other people who are troubled by severe issues in life, but they will not do it in spite of their ability to do so, as the Jeweler did not make the garland even after promising it to the Brahmin.

The rashi in which this Nakshatra occurs is the rasi of disputes, diseases, and enemies and it going in Capricorn navansh shows the native will have to solve these issues of others when they will be in trouble.

The problems which the Jeweler faced in his next life were due to miscarriages of his wife, which you can see as Scorpio is the 11th house, which is the kids of his wife.

Capricorn is the 5th house from Virgo, thus such native should always share their knowledge with other people and help all the kids with education-related matters. Lord Shiv also says to donate 1/6th portion of wealth to Brahmin, which means that the native should serve others through Jupiter-related work and share his resources.

Capricorn is muddy water, and if the significations of the planets in this rasi is not given out to others, it will create severe problems as the native will get stuck at one place in life, similar to what happened to Gajendra the elephant who got stuck in these waters due to the crocodile and Lord Vishnu had to descend on Earth to free the elephant.

### **3rd Pada: Virgo Rashi - Aquarius Navansh:**

Lord Shiv says to Ma Parvati, once upon a time, there was an oil vendor (Teli), who was very prosperous and lived in a place named Pattanpur.

He had two wives, of which the oil vendor killed the elder wife through poison and the younger wife was loved by the oil vendor. After living several years, the oil vendor passed away.

He took several births as animals first before getting a yoni of a human in his next life and was prosperous and intelligent. He ultimately passed away in the river Ganga and again got the body of a human and became prosperous, but due to his past life sin of killing his elder wife through poison, he was not able to bear children and his wife suffered through various bodily ailments and pain. Lord Shiv then says that the native should donate one-eighth of his savings along with a donation of cow and Sesame, which will solve the childbirth-related issues.

**Deeper Meaning:** Lord Shiv says that there was a Teli who was prosperous. Teli is someone who does the work of pressing oil and extracting it from mustard, etc. It means that such natives

will have to do a lot of hard work in order to fulfill their desires and they will do so, such as by working the most in the office and doing projects and completing them by sacrificing their sleep. Lord Shiv is telling that the native killed his wife to achieve his own desires. Here, killing the wife means that the native will harm others and not bother with the problems which other people are facing due to the native's own actions. The native is so busy to fulfill his own goals and objectives, that he fails to see what is happening around them.

As Aquarius is in the 6th house from Virgo, such natives become very obsessed related to gains and start working on it on a daily basis, but they do not take the responsibilities which are equally important such as taking care of their partner, helping the needy, feeding animals and donating in temples (6th house Aquarius). Here the native did a deliberate act of killing his wife, and similarly, in spite of knowing that their actions are morally wrong and can be harmful, they still carry it out.

Moreover, Lord Shiv says that the native suffered in his second incarnation as a human and not the immediate one. This means that when the native got his rebirth as a human, he was ignorant (Notice Leo being in 7th from Aquarius and both are opposite rashis) and did not even try to correct his mistakes of past life and continued with similar actions which ultimately gave severe troubles related to children and marriage in his second birth.

Such native should take care of other people along with the animals and serve them on a regular basis, and take care of the servants and employees as Aquarius is 6th from Virgo, and Virgo is the natural rashi for animals, debts, and servants. They should make sure that they do not commit acts that are harming others because of the native's own actions.

In this Chart, Sun is in this Nakshatra Pada in the 5th house of passion and is the 4th lord, with an exchange with Mercury along with a prominent connection with Venus. The profession of the native is acting and he is a junior artist. The native is married already but even after marriage, the native is into extramarital affairs, and that too with multiple women. As Mercury is the 2nd lord of wealth and is in the 4th house - the native spends plenty of money to purchase alcohol as well as he has a habit of using his money to see women who dance in bars. Within his workplace (Virgo) whenever he meets someone, he will try to get into a relationship by flirting with the opposite gender. Let us see the fruits of such actions of the native through the Navansh.

## Navansh -

Sun is the 7th lord of Marriage and is in the lagan, while the dispositor of Sun, Saturn is in the 10th house in Scorpio with Venus and Jupiter. After the native got married, till now the native is facing childbirth issues as the wife of the native is not able to conceive a child due to health complications, as well as the wife had faced problems due to cyst.

As the dispositor is strongly connected with the 10th and involving Venus and the 2nd, 11th lord Jupiter - the native is always facing problems in his profession as he is not getting good work due to which there are financial issues happening. The only remedy which should be said to the native is to correct his actions and help women who are in distress, along with stopping the consumption of alcohol regularly.

### 4th Pada: Virgo Rashi - Pisces Navansh:

Lord Shiv says to Ma Parvati, that once upon a time in Gaya, a brahmin lived who did not perform the Vedic rituals and was addicted to alcohol. He was a thief and went to prostitutes and took donations from others for most of his life and he passed away in old age.

Eventually, when the native took birth again, he was born in a lineage of the name of Charur and after that, he got the yoni of a Pret(ghost). After that, in a place named Falgu, he took birth as a jungle cat(Bilar).After that, he got the yoni of a human and took birth in the center of the city. His wife gave birth to only females and suffered from bodily ailments. Because of this the brahmin was not happy and stayed sad throughout. Then Lord Shiv says, that in order to diminish the sins, the native should do Puja of Lord Krishna(Keshav) and do Seva of Saints along with giving donations and food to Brahmins. Every year, a Cow and her calf (newly born) should be donated; Doing this will cure fertility issues and bodily ailments.

**Deeper Meaning:** Lord Shiv mentioned specifically about Gaya, where the rituals of the Shraddh(8th house) are performed; and then Mahakaal mentions that the Brahmin did not do his duty and was distracted due to additions and materialistic things and even stole from others. Being a Brahmin, such activities cannot be accepted by any means. Lord Shiv is telling that the duties of the native were not performed due to which, troubles to other people occurred as well as the native deliberately caused harm to others by stealing and was distracted due to his addiction. This shows that such native, instead of focusing on their work, will get distracted and lost in its whereabouts and will start engaging themselves in other works which are completely unrelated. They will not do the proper hard work and eventually face problems as they will get diverted into addictions. The Brahmin had to steal because he did not have a way to earn his daily bread and butter as he did not know the whereabouts of his work.

Even after stealing, the Brahmin spent it on the wrong resource of alcohol and by getting involved in prostitution. These are illegal activities for a brahmin& Lord Shiv is telling that even when such native has money, they will spend it elsewhere to enjoy due to which his resources will get wasted, and later he will face financial problems.

Also, such natives will cause trouble to their family and close friends, employees as they will not help them when it is required as the Brahmin did not perform the Shraddh rituals.

See how beautifully Lord Shiv said that even in the next life the native got a body of a Ghost, which means that it's a karam of the pitris. Then he says that the native got the yoni of a Jungle Cat which is signified by Lord Rahu, who is again the significator of Pitris. Hence there is a lot of karam the native has to do to help elders within the family during troubled times and make sure donations to ancestors are done on a regular basis along with the last rituals of their ancestors.

If possible, the native should visit Gaya, and do the last rights of all their ancestors properly.

From the Rasi of disputes and obstacles, the navansh goes in the rashi of Pisces (losses, donations). Pisces is the 7th house from Virgo indicating that the native has created problems and losses for the public due to his own problems and distractions. Pisces eventually with giving problems which are due to nature and no solutions can be found for it, hence such native should bear the responsibilities of other people.

Look at the 7th from this nakshatra, that is where you will create the harm such as if Venus is in this nakshatra in the 3rd house, the native will not take care of his siblings, cousins, paperwork and will be distracted by TV shows, but also father will suffer due to the native.

# Hasta

SAVITAR  
(A form of Surya)

## Hasta Nakshatra

**H**ast Nakshatra- **Seize the Opportunity:** This is the motto of this nakshatra – ‘Ucchishta Jagrat Parapye’ that every day one who wakes up early gets all the opportunities. This is the star that carries the energy of million possibilities a human can have in life as problems will arise in everyone’s life but very few are the ones who take problems as an opportunity to rise and shine like the morning star.

The deity of this particular nakshatra is Savita - God of Sunrise.

So the problems will get manifested in life as an opportunity, even at the time of crisis these people come up with the best ideas on how to change this to opportunity.

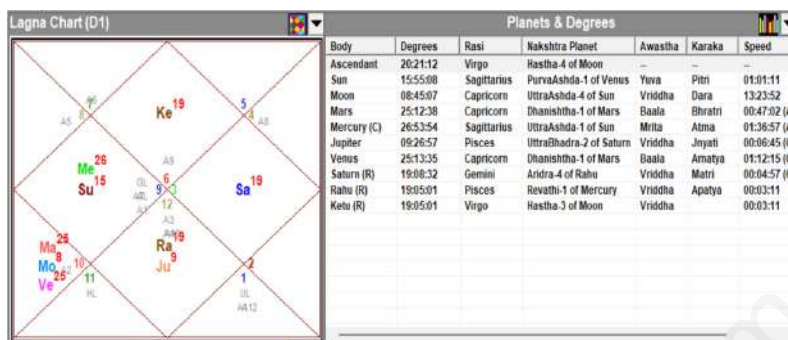

The example below is of the US president who led the nation in a tough time by keeping America out of war and introducing laws that will best utilize the resources in tough times. Look how beautifully the energy of Ketu in Hasta as Putrakaraka has been played out.

He introduced the bill abolishing child law and secondly lowering the traffic to make sure there is enough money supply for citizens and established the federal trade commission for fair business practices.

This is true energy of Hasta nakshatra to manage resources in a crisis.

## PREDICT USING NAKSHATRA PADA : AS TOLD BY LORD SHIV

**Resource Management:** Any planet in this nakshatra is very stringent to use resources very wisely and which other people think like a miser but these people know that no part of any resource such as overspending of money, tight budget allocation and a very sharp eye on where my resources to be used.

Below is the chart of the 5<sup>th</sup> Prime Minister of India - Ch. Charan Singh who had his Moon in Hasta Nakshatra. When the Congress party was at its peak and the popularity of Pandit Jawaharlal Nehru was undisputed then also he never minced his words against his luxury spending as he knew the challenge in front of the country is big and we need to take things seriously without overspending on personal expenses.

Let us look at one more person who was a true son of the motherland who served this nation till the last minute of his life without collecting anything for personal gains and was against misuse of any resource - Late President - Dr. APJ Abdul Kalam.

In book by his OSD – ‘Turning Points’ - It was mentioned that when President’s family was visiting Delhi, he paid expenses from his personal account and even money spent on the Iftar party which was to be hosted by Rashtrapati Bhavan, the money was sent to the orphanage along with his personal cheque as a contribution. A very rare quality that does not prevail in politicians but Hasta Nakshatra is a keeper of resources to protect them and make sure nothing gets wasted. Ketu is Putrakarka in his chart which also shows celebrations and money spent on leisure activities and he strictly controlled it in the President’s house.

Even when an American President was to visit – The staff of the President house wanted to replace the carpet of the President’s house but he refused to do this unnecessary expense by this one line “If it’s good enough for Indian President then it’s good for American President as well, don’t change”

| Lagna Chart (D1) |          | Planets & Degrees |                           |         |        |              |
|------------------|----------|-------------------|---------------------------|---------|--------|--------------|

**Manipulation:** The bad part of this nakshatra is manipulation as when you are managing things with the energy of negative planets as the person will do a lot of manipulation to get his work done even fake promises will be made as what Hasta nakshatra does is make sure the crisis gets solved for the time being without thinking of long term effects while good planets and planets which have the ability to work with selfless nature produce slow results but in long-run effects are positive.

You can also use this or any of the techniques on the blank chart if the ascendant is rising between 10 degrees - 23° 20’

then you can take any particular house and see the effect of Hasta nakshatra such as Pisces rising at 11° then 7<sup>th</sup> house cusp (Middle point) will be lying in Hasta nakshatra and in that case, your partner, business, marriage will get spoiled if you will not learn how to manage the energy of this nakshatra as manipulation, promises will become part of your life to get this house significations running.

Let me explain this with help of an example - a Chart that was posted in our Facebook group by a person asking for help.

*"Hello admin please approve my post*

*Dob 8th oct 1992*

*Tob-13:05 p.m*

*Ludhiana....this is my chart below....my engagement has been called off because the girl married some other guy without telling me and her family too...and marriage date was 13th december fixed... please help me regarding my marriage and will this incident defame me because in this incident me and my family has been cheated but you all know about the society...i am worried because of this.... Deepanshu giri sir please if you can see my chart or other learned astrologers and guide me."*

Ascendant is rising with Hasta nakshatra with the only malefic effect of 8<sup>th</sup> lord Mars aspecting it, you will see the promises are broken here at the last minute but let us see opposite of this combination now.

Another Chart posted in Lunar Astro FB Group.

*Dob: 01-06-1985*

*Time:13:45pm*

*Place: bhimavaram*

*State :(Ap) India*

*Issue: career, money*

*Money:*

*I suffer huge debt problem*

*Unnecessary spending of money*

*Wastage of Money*

*Every time cheated by some one*

Look at the choice of words he is using that there is wastage of money as this is happening due to Hasta rising with effects of malefic planets on this nakshatra.

**Hasta & Advice:** As this is the nakshatra where deity is Savita and the work of Savita is to wake people up and you can take this line in the sense that these people have extraordinary sense of surroundings on what is happening in world in general as their vision is bigger and is not hidden from anyone but the one who is awake will try to wake up others by telling them what are the challenges ahead but this will not be like by many people such as Sardar Vallabhbhai Patel had Ketu in 3<sup>rd</sup> house in Hasta nakshatra and he was against any division as he had foresighted the results and consequences of this as he was hated by many princely states who had to give up their status as a king and join the democratic India.

Similarly, apply this in your charts if you have any planet or cusp of the house in the Hasta nakshatra such as Jupiter in Hasta - you will tell lot of things about religion to wake people up but you will be the one who will be hated for this as Jupiter being the karaka of Dharam and kids so you will keep on advising related to ill health of kids and people will not like you for it.

Let us suppose you don't have any planets in the Hasta nakshatra but it falls on cusp of any of the nakshatra then you will have same issues with partnerships and business & if Hasta is afflicted with negative planets then native should not do any consulting work otherwise ill effects are seen.

**Attention & Hasta:** Hasta nakshatra which represents the hand and is a star of awareness and draws attention as this is the

nakshatra that decides how attentive your brain is towards surroundings and reflex at the time of danger.

People with prominent planets in Hasta nakshatra are able to handle pressure conditions and situations that are challenging, these people don't back off in task that everyone says, the task is difficult as these natives still smile and say let us see while if afflicted planets come in this nakshatra then person panics in smallest of a new situation and results in situations like brain haemorrhage, loss of interest in challenging subjects can cause situations like coma, paralysis, cerebral paralysis.

**Hasta Nakshatra and Salute:** Hasta nakshatra with prominent planets which are Kshatriya in nature, the native gets a lot of salute while other planets which are of Vaishya or Shudra native salute others as salute shows that you are going back in attention position by raising a hand to head.

In our country, the most saluted and tributed man even after several years of death is Mahatma Gandhi and he is given condolences not only in this country but abroad as well. He has Sun placed in Hasta nakshatra.

Adolf Hitler gave a very different type of Nazi Salute and he had no planet in Hast but this nakshatra is aspected by his natal moon in SBC.

Indian Prime Minister Ch. Charan Singh had Moon in Hasta in the 10<sup>th</sup> house as well as Smt. Indira Gandhi had 2 planets Venus and Ketu aspecting this nakshatra.

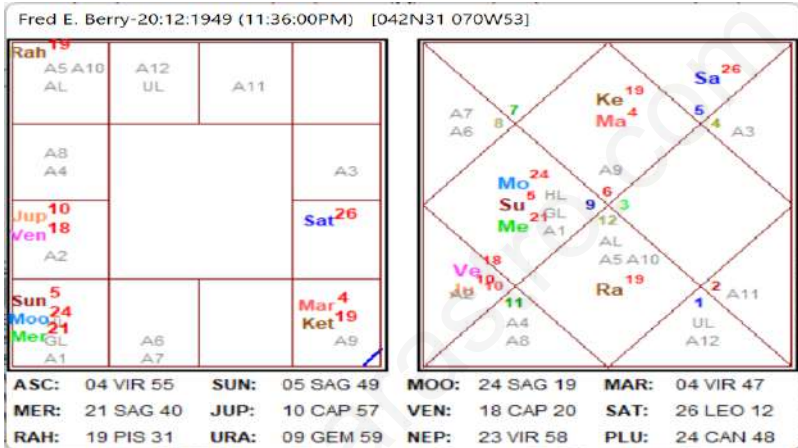

A legendary Bollywood actor whose dance actions cannot be performed without hand -Shammi Kapoor had Venus in hasta.

As our hands are the ultimate drivers which do the karam and when there is planetary energy in these nakshatras awareness increases now look at all the people suffering from some of motion deficiency or coma related issues, cerebral palsy or hemorrhage, you will find Hasta nakshatra is not well placed in these charts.

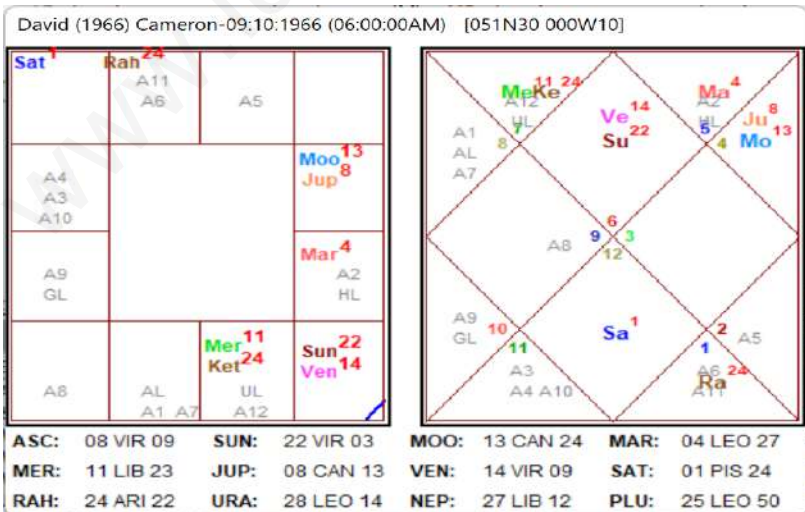

Such as Abraham Lincoln had Hasta nakshatra in the 8<sup>th</sup> house and he had the last 8 hours of his life in coma.

## HASTA NAKSHATRA

Let us look at chart below who suffered from CB and you can see there is an affliction to Hasta nakshatra as ascendant does not get any saving grace of any benefice planet with Ketu placed in Hasta nakshatra also for students of Yogini -Do see the navansh also rising with 6<sup>th</sup> navansh showing life will be full of challenges and when happening in Jeev rasi-Mool navansh making it a very critical chart for the native.

**UK Prime Minister - David Cameron** had Sun in Hasta and his first child suffered from CB.

This shows the brainpower and ability to handle stress is provided by part of the brain which is controlled by Hasta nakshatra only and that is why the deity of this nakshatra is Savita – which gives us senses every morning with the rising sun telling us to rise and shine.

This is why due to the jaap of Gayatri, we get awareness as the sound of the Gayatri hymn has the effect on a particular part of the brain to give us more power to remain calm under stressful conditions and avoid conditions like brain haemorrhage.

Do not take this as a bad nakshatra as this is a nakshatra with some outstanding qualities as leaders like Dr.APJ Abdul Kalam, Sardar Patel, Netaji Bose had planets in Hasta and their success was somehow in this nakshatra only.

My interest is not in if we have got the combination but why we have got the combination so the reason why anyone gets this nakshatra is: When you give mental tension to other people or when you give poison to other people, this is not the poison which is physically given but also through your thoughts actions and various judgments you give poison to others and in this life, you suffer from same as you payback by getting issues which are unresolvable.

Look at this nakshatra is most incompatible with Ashwini nakshatra – the star of healing and this is nakshatra of waking up people by various means and that is why Ashvini and Hasta are not compatible similarly another star which is of healers is Shatbhisha is not at all compatible with Hasta.

If you have any planet in Hasta nakshatra which is not giving out good results, you need to rethink the poison effect over there like Sardar Patel was coughing blood in his final years (Ketu in 3<sup>rd</sup> Hasta). Prime Minister VP Singh had Ketu - 3<sup>rd</sup> house in Hasta - suffered from Bone Marrow Cancer (Starts in thyroid 3<sup>rd</sup> house).

Reciting Savita Sukta from Mandal - 35 of Rigved, Chanting of Gayatri Mantra, and waking up early to do self-reflections in front of Surya is very helpful for this nakshatra.

### **Hasta Nakshatra& Karam Vipak Samhita - 1st Pada: Virgo Rashi - Aries Navansh:**

Lord Shiv says, O Parvati, In a city named Bhojkat, a jeweler lived and his wife was of wicked nature and was involved with other men outside of marriage. Once, a rich business came to the jeweler, and eventually they became good friends.

One day the jeweler took 400 tolas of gold from the businessman and used it in his business and eventually the wife of the jeweler eventually went into a relationship with the businessman. After several years, the businessman, as well as the jeweler, passed away.

When they took birth again on earth, they got the bodies of animals first before taking birth in the yoni of a human. As a human, he was born in a good city and is very prosperous and wealthy, but due to his past life sin, the Jeweler is childless due and his Wife has extramarital affairs, due to which she begets children but they pass away very soon. The Wife also suffers from bodily pain and stays in deep depression. Lord Shiv then gives the remedies of using 1/8th part of the stored wealth for doing good deeds.

A statue should be made out of 11 Pal of gold and Shringar should be done with proper cloth. Now the mantras should be chanted with the proper rituals which are given below:

He Vishnu! Pundarikakshay! Hey Bhuvano ke palak (Nurturer of the Universe)!

Chandan se apki murti ka puja Karta hu (I am worshipping you with the offerings of Chandan).

Meri is Puja ko aap grahan kare (Kindly accept my puja).

Om Shankhayai Namah! Om Chakraya Namaha! Om Gadaya Namaha! Om Shangnaya namaha! Om Garunaya namaha!

Om Nandaya Namaha! Om Sunandaya Namaha! Om Jayaya Namaha! Om Vijaya Namaha!

He Kiritin | He Mahadev | He Shankchakra Gadadhar - whatever sins I did in my past life, please have mercy on me and forgive me.

After doing Puja, together with the wife, donation of the idol should be done to brahmin - which will surely solve the problems related to childbirth and bodily ailments.

**Deeper Meaning:** Lord Shiv mentions the place of Bhojkat, which has a combination of Saturn, Venus, and Mars, indicating troubles due to relationships and money. The Jeweler's wife was involved in relationships outside marriage, which means the jeweler did not stop his wife from doing so. Working related to Jewelry as well as one's partner, both are related to Venus. Hence the problem is of earning money and gathering resources through wrong methods. Such native's will try to earn money and gain resources in a wrongful way and will go to any lengths to do so. The Jeweler was earning in a wrong way (Venus afflicted) and did not have any moral concerns and was only interested in getting more unearned money.

Note that the Rashi of Aries is in the 8th house from Virgo. Aries is the focus and it has very high energy - 8th house is the resource of other people, now the navansh is coming from the Rashi of disputes, obstacles, and daily routine, hence the native will focus on gathering the resources of others by harming or stealing from them.

Lord Shiv then says that a rich businessman became his good friend which is shown by the rashi of Gemini in the 3rd house from Aries. The Jeweler taking gold from the businessman and then the jeweler's wife having a relationship with the businessman indicates that in order to earn more wealth, he allowed his wife to go and have a relationship with the businessman and thus took the gold. This shows an obsession with earning resources for one's own self and knowing no bounds of when to stop. Native's with this nakshatra will do

illegal things such as taking commissions, bribes, and doing business by selling the wrong product and they will do all this just to increase their resources. They will not take care of other people when it comes to business and earning money, such as Jupiter in this nakshatra will make a native learn knowledge by cheating and not giving proper tuition fees; He will not take care of his father until father gives him what he desires.

Such incidents should not be done and whichever person is in this nakshatra, one should take care of them wholeheartedly without any expectations of getting anything back. Lord Shiv then explains that due to their past life actions, the Jeweler is facing childbirth problems and the wife stays into depression. Due to the native's actions, the problems will come eventually in the 5th and 7th houses from this nakshatra.

Donation of 1/8th part of stored wealth for good karam should be done which means the 8th house-related matters should be given out and used to help other people. As the native has stored resources in the wrong way, he should now give away the same to others who are facing troubles related to the 8th house.

A very special remedy is given by Lord Shiv which is the making of an idol with gold and then chanting the mantras mentioned above. This means the karam is severe and the native has done something which has harmed others and created unsolvable issues.

Planets going 6th or 8th navansh from the respective Rashi is not good as the qualities of the 6th house of diseases, obstacles, enemies and the 8th house of unsolvable issues and transformations will come up. While predicting, use the significations of the house and rashi such as if Venus is in this nakshatra in the 8th house, you can predict that the native will be involved with another partner outside of marriage, due to which a lot of fights and abuses will be exchanged among the couple (Venus going in 3rd Navansh of communication) and divorce paperwork will be signed.

## Example - D1:

|          |                                                                                             |          |             |

In this chart, the 7th and 12th lord Mars is in the 5th house in Virgo with Rahu showing disputes and obsession in relationships along with abusive behavior. 5th lord in 8th again shows the multiple hidden affairs and physical relationships.

Now, remember the theme of Hasta nakshatra, which is trying to fulfill his desires by harming someone and doing something illegal. 5th and 7th is connected, so you can see the native will go into an illegal affair and some major story in relationships is present.

There are several stories related to the native. As 5th house is the house of education, the native failed in exams as well as cheated in them. Before the examination, he tried to bribe the guard of the examination hall but did not succeed. As a result, he wasn't able to continue his education in college. The native got into a relationship with his teenager and got involved physically and eventually impregnated the partner (Virgo 5th with Mars Rahu: Severe dispute in relationships along with too much passion and obsession); But as they were not married, the child was aborted. Further, this native has had physical relationships with several women and

## HASTA NAKSHATRA

visits brothels quite often. See how severe the karam is. The native did so many illegal things to fulfill his desires related to the 5th and 7th house.

Now it is also mentioned that the results will be shown in the 5th and 7th houses from this nakshatra pada. In this case, it is the 9th and 11th houses. The native's father is very abusive and did fraud and the native does not have a job due to which he is facing problems due to his regular income.

Mars is the 11th and 4th lord and is placed in the 4th house itself with the Sun(Father, Morals, Principals). In this case, both Mars and Sun are directionless.

Being the 11th lord and Venus, the karaka of Wealth and resources, the same story is repeated as the native has problems related to his regular income due to having no Job. Mars being with Sun also shows father will be very aggressive, but 4th house also being the house of Masses - the Native was often beaten by the rival political parties due to his aggressive nature.

### 2nd Pada: Virgo Rashi - Taurus Navansh:

Lord Shiv says to Ma Parvati, in a country named Vang, in a placed called Keshavpur, there lived a famous barber named

Khadag who was wealthy, prosperous, fortunate, as well as religious. His Wife's name was Lila and she had big eyes.

The Barber had two sons. One of the sons was a gambler, and the 2nd son was a thief. Both the sons of the Barber had relations outside of marriage. The Elder Son's wife was very beautiful and was a Punshachli(Adulteress). The Wife of the Elder Son went into an illegitimate relationship with the Barber Khadag. After some time, the Barber passed away. During the cremation of the Barber, the Wife performed Sati(Burned herself in the same fire) and passed away.

Eventually, the Barbar took birth in Mrityulok in the yoni of a human and got prosperity but due to his past life sins, he suffered from bodily diseases, did not beget a male child, but had 5 Daughters. Lord Shiv then says that the native should donate 1/8th part of the stored wealth to a Brahmin. In a corner of the Road (Marg), Gardens, Wells, Ponds should be constructed and Seva of Tulsi Ji has to be done along with Fasting in Ekadashi, which will ensure childbirth and the bodily diseases will be cured.

**Deeper Meaning:** Lord Shiv says that the Barber lived in Keshavpur; Keshav is another name of Lord Vishnu and he is signified by Mercury. This shows that business, communication, and Marketing will be involved in the karam of the people receding in this city. Khagad being a barber would come under the Sudra caste which is primarily focused on fulfilling their daily wages and sustaining their family usually by doing hard work and bearing a lot of pressure. Now Lord Shiv says that the Barber is wealthy, prosperous, fortunate, as well as religious - this means that Khadag earned his wealth and resources by not following the right principles, using shortcuts, or by cheating.

Even the name of Khadag has a prominent effect of Mars along with Mercury and these two planets do not go together as Mars has a lot of high energy and is always in rush but Mercury is like a curious kid looking to discover something new by taking his own time. This shows that Khadag tried to

earn his profits by any means as his base instinct was of earning money and not morality. The navansh is of Taurus and it comes from the rasi of Virgo which shows disputes within family, wealth, resources, food, and Virgo also being the rashi of Theft, indicates that Khadag stole wealth by means of business. Such natives will try to collect wealth and resources by illegal means in spite of having an earning source already. Such as if Mars goes in this nakshatra, the native will try to gain property, electricity by going through an illegal or immoral method, in spite of them having enough resources already.

Lord Shiv then says that their sons were involved in Gambling and theft but it is nowhere given that Khadag stopped them from doing so which is because of his desire to earn more wealth. Then it is also given the wife of the elder son (11th house: 7th from 5th) got into an illegitimate relationship with the native which again indicates mistakes done due to unending desires. Taurus is the 9th house from Virgo which indicates that such native will break their principles or any long-term habits due to their desire of gaining more resources and wealth. The curse here is of the family and wealth and having problems with these significations as the native created disputes and obstacles in past life as well as in the present life. Such as If Sun is in this pada, the native will try to earn a better position in work because of his desire for more salary, and this his family will suffer in the long run. Always remember that any misdeed comes back to you as by doing any negative action, you are creating troubles ahead in the future which will hinder your own self progression eventually.

Lord Shiv says that the wife of Khadag performed Sati during his cremation which shows that he had a devoted wife, but still he went for an extramarital affair - which shows that such natives will not understand the value and understanding of their own resources and instead will look outside for external stimulus.

### 3rd Pada: Virgo rashi - Gemini navansh:

Lord Shiv says to Ma Parvati, on the left side of River Kaushiki, there lived a weaver of Carpets/Mattresses, who was a devotee of Lord Vishnu(Vishnu Bhakti) and was fully involved in Farming. He did not perform any good deeds or donations and was a miser, due to which he collected a lot of money. One day, at night, a Tiger killed him in his farm.

Eventually, when the native took birth again, he went through the body of several animals which were the Jungle Cat(Bilar), Cock(Murga), Jackal, and then only took birth as a human. But due to his past life sins, he did not beget any child and he suffered from the disease of Piles.

Lord Shiv then says the remedies - Fasting should be done on Sunday along with the worship of Surya Dev on a regular basis(daily). The native should donate Land according to his capability. 40 tola of gold garlands should be made, after which proper fragrances should be applied to the garlands and then given to the Guru. Doing this will destroy all sins of the native and he will beget children and the bodily diseases will get cured.

Deeper Meaning: Lord Shiv says that there was a weaver who lived near the river Kaushiki. Weaving is something that requires a lot of skills of hands, which is shown by Gemini Navansh. Similarly, such people will be very skilled with their hands, communication, hobbies and will be very enthusiastic whenever it comes to developing of their own skills and hobbies. Gemini is a rashi of Abhagya which means that there needs to be the constant practice of one's skill on a regular basis, then only one will be able to master that activity of Gemini. This also shows that natives of this nakshatra pada will also be very intelligent related to the respective significations as they will be constantly making corrections to their knowledge and improving upon it gradually - such as Venus will show that the native's money-making capabilities will be very good as the native will know how to learn from failures. In the story,

Lord Shiv says that the Weaver was a devotee of Lord Vishnu and was fully involved in farming, but he never did any good deed and was a miser. In this Pada, the Rasi and Navansh are both of Mercury which shows that his mindset has become narrowed down due to the desires related to hobbies, skills, and profession. Such natives will be very good at problems solving and doing corrections but they are not able to grasp the bigger picture. Being a devotee of Lord Vishnu and being a miser at the same time shows that the native will work hard daily when it comes to his karam, but will be limited in terms of his vision as he is not able to think or care about anything else which is unrelated to his karam. Note that Gemini is the 10th house from Virgo and Gemini being the significator of selfishness, the weaver became selfish because of his karam and did not care about the society as well as his family.

This is why in the end; Lord Shiv says that the weaver had collected a lot of money but he never spent it - which is again due to his narrowed vision. The death of the weaver happened due to a sudden Tiger attack - from Gemini 6th house of Akala Mrityu has the rashi of Scorpio shows unsolvable diseases and troubles; Such an incident is mentioned as the weaver did not help anyone else such as people who were of lower caste than him, in spite of being able to do so, and at the same time he did not use any money for donations or for helping others, which turned into a curse eventually.

This is further shown as the weaver took birth in the body of a Jackal, Cock and Jungle cat, and all these animals have to stay of their survival instincts and gather prey for food as well as be in the fear of being killed by predators anytime. The weaver got the yoni of these animals as he was paying back due to not helping and taking care of others and being too involved in own karam. In these lives the weaver only got to take care of himself but by always being on the survival instincts. Lord Shiv then says that in his human rebirth, he suffered from the disease of piles, which is again shows by

Scorpio in 6th house from Gemini - such native's are requested to help the significations related to 6th house and Mercury such as Servants, Animals, people going through unsolvable troubles, etc as these activities will reduce the curse.

As remedies, Lord Shiv says the native should fast on Sundays along with worship of Surya Dev, which shows that the native should sacrifice for other people during their troubles times as Surya is the karaka of Sacrifice and doing the fast will improve the results of Surya Dev and eventually the native will start doing actions for family and others. Then It is said that the native should donate land and a gold statue to Brahmins, which means that the native should give peace and help other through his communication and skills as the native is very much capable of doing so. Gold Garland is a very valuable recourse and donating it to Jupiter means that the native should donate useful resources as a charity to other people such as giving someone's operation money or giving a place to sleep to people who are homeless.

#### **4th Pada: Virgo rashi - Cancer navansh:**

Lord Shiv says to Ma Parvati that in Hastinapur nagri, there lived a Kayasta. He was famous only because of his name. His wife's name was Kamla. The Kayasta had plenty of riches and was always intoxicated with liquor, as well as he went to prostitutes and mocked/insulted Brahmins.

One day a Brahmin came to the Kayastha with Ganga Jaal and asked for food. After listening to the Brahmin, the Kayastha got angry and used foul language towards him due to which the Brahmin felt hurt by the Kayastha and by evening he passed away due to consumption of poison. After several years, the Kayastha also passed away and during cremation, his wife also performed Sati (Burned herself alive in the same fire).

Eventually they got the yoni of a human and took birth in a wealthy family of Brahmins. He had several sons of fair complexion, good looking, had a lot of good qualities,

knowledgeable and was socially interactive. Two of the sons were married and were of righteous character. Due to the past life bad deeds of the Kayastha(Father of the sons), in this life the Wife of his sons suffered from miscarriages and lifetime bodily diseases. Lord Shiv then says the remedies for the shanti of Brahmhatya. Donation of Cow and Calf should be done after doing proper Shringar and clothes. 15 Pal (60 Tolas) of gold should be used to make a statue of Brahmin and donated to a knowledgeable Brahmin. Bad deeds of past life will be passed on to the children through their sufferings, and only through penance it can be resolved.

Deeper Meaning: Lord Shiv says that there was a Kayastha who was famous due to his name only, which means that he belonged to a good family and lineage; i.e: Leo in 2nd house from Cancer showing fame due to family - but Lord Shiv never mentions the Karam of the Kayastha as Shiv Ji is trying to tell that the karam of the native is nothing alike his lineage and the Kayastha has been involved in wrong doings, so much so that even the name of the Kayastha is not given in this story. Such natives will have a good lineage, money, resources and prosperity but they will use that money in wrongdoings as per their liking, rather than putting it to good use. Let suppose, 2nd Lord Sun is in this pada then you can say the native will over spend his saved money to get branded watches, phones, for his skills, etc due to which he will not have enough savings during times of troubles. It is mentioned that the Kayasta had plenty of riches but it is due to his family that he had the needed wealth - in modern times this will manifest by natives taking debt or money/recourse of the masses(Cancer), and using that in order to fulfill their desires. As the navansh is of Cancer which signifies liquids, masses and is also a Brahmin rashi - the curse is of ill treatment of Brahmins and and wasting resources of other in ill-mannered way. Cancer rashi is in the 11th house from Virgo which shows money being involved.

Lord Shiv then says that the Kayastha used foul language towards the Brahmin who came to ask for food. The deeper meaning is that such natives will cause harm to the masses or not provide the emotional support to them during the time of need. The Navansh of Cancer which is a Brahmin rashi, has the base energy of Virgo - which shows disputes, stealing, obstacles caused to the masses. Eventually the Brahmin committed suicide by consumption of poison and this signifies that the native himself will be the factor due to which other people will face a lot of troubles. This is happening due to the native's own obsessive and immoral desires to enjoy - The rashi of Cancer is the 11th house from Virgo. Similarly, as in the story - someone who is very elderly will approach the native during troubles and ask for resources but the native will deny or will not be able to provide the necessary resources - after which the major problems will start. If someone, who in spite of having the resources, does not provide the emotional support, resources and the necessary help to the masses during their time of need, eventually all these karam will come back to the native, especially through emotional pain, not getting happiness and peace, always being in a tense or panicked mood and issues related to homeland. Such natives should help the masses and not become egoistic due to their wealth and family status, and pursue their desires/goals without doing anything illegal. The navansh of Cancer does not have any logic and has the energy of emotions, and this navansh being the 11th house from Virgo - such native will not pay any attention to morality and instead will try to achieve their desires through any means and they will also be able to justify their actions through their feelings.

Lord Shiv then mentions that due to the karam of the Kayastha, the wife of his kids will suffer - which is the 11th house (7th from 5th). From Cancer navansh the 11th house has the rashi of Taurus - eventually the result of the karam of the native will come back through the lack of wealth and not having necessary resources for their daily life. The remedy of donation of cow and calf which are said by Lord Shiv, means

## HASTA NAKSHATRA

that the native should use his available resources wisely and not spend his wealth on unwanted things - Cow here means resources. Then it is advised to donate a gold statue to Brahmin - Gold is signified by Surya dev, who is the karaka of respect and giving it to the Brahmin means that such natives should always provide respect to their elders as well as perform their service (Virgo) to the masses(Cancer navansh) dutifully.

### Rashi:

In this chart, the 5th lord Venus is in this Pada so Venus is also the dispositor of Moon who is the 7th lord and carrying the effect of Mars. Venus himself is with the 6th lord of Disputes with Mercury(Communication, hands).

The native after marriage, conceived a child and eventually, the child took birth. As the child was growing up, the native herself used to hit the child whenever there was any mistake from the child or the child did not listen to the native. This used to happen often and this caused a lot of physical pain to the child as he was growing up. Notice that the Karaka of Hands is the 6th lord and is in conjunction with the 5th lord Venus. This used to happen around the 2000's to a few years later.

In the navansh Venus is the 6th lord is its dispositor is in the 9th house in Capricorn. The native is pressured due to her daily life, as she wants to enjoy but due to the work pressure at home and work, she is unable to experience any enjoyment in her daily life and due to this she faced a lot of mental distress.

The husband of the native does not do any work and there is no proper emotional connection between the husband the native herself, as well as the relationship with the father deteriorated and got very bad. The father of the native passed away recently in 2021.

The remedy, in this case, would be to take care of his child as much as possible and provide him with emotional support and care whenever he is in mental distress or is not feeling well emotionally.

# Chitra

ॐ नमो भगवते वासुदेवाय

TVASHTAR  
(Vishvakarma)

## Chitra Nakshatra

**Chitra Nakshatra:** The Nakshatra of testing as this is the nakshatra where every single planet is tested thoroughly and has to go through an extreme amount of stress and testing. As this is the nakshatra to carve weapons and deity is Vishwakarma - who rules over the weapons, designs, architecture and every single engineering marvel we have around is ruled by Vishwakarma.

He is the one known for engineering excellence as he is the one who designed all the weapons of gods and the bowl of Soma from which all devtas drink nectar.

**Humiliation:** So, the life of a designer starts from humiliation as everyone in the starting has resistance to adopt anything new and Chitra nakshatra carrying the energy of Vishwakarma is with the goal to create things and bring in ideas where life will be much easier.

Any planet in this nakshatra will go through humiliation in respect to planet sitting in Chitra nakshatra as no one will be able to understand their mind visualization as these people does like one of the managers of Apple was describing Steve Jobs and said that when you talk to Steve Jobs, he had a field of distorted reality.

Like he will explain a product to such detail that it will seem impossible to get this done but soon when you see the

excitement of Steve Jobs, you will start believing him that it can actually happen since the ascendant of Steve Jobs is in last degrees of Leo as this means the second house cusp is rising with Chitra nakshatra making him visionary to such fine detail that anything less than the perfection is not acceptable.

So, the first prototype iPod when once shown to Steve Jobs, he said to make it smaller and when the designing team said that it is not possible then he placed that iPod in Aquarium and said if bubbles are coming out it means there is air in it and we can make it more smaller enough that we can keep it in the small front pocket of jeans.

See the level of detailing he was into when designing things and this is the true essence of Chitra nakshatra that everything first looks impossible but soon enough people understand that kind of detailing required in the product.

It is not only about getting work done but about how perfect is the outcome of that work, Is it looking beautiful, if not then let us do it with perfection.

This is also the curse of Chitra nakshatra that sometimes due to ego they forget that you can't work in isolation and ignorance of others as what you might think is the best craft in the world might be a scratch for someone else so do not underestimate the brilliance of others.

Let me tell you another story of a Sadhak, who lived on this earth and was brilliant in reciting the hymns with proper pronunciation and curing diseases by using various methods of Yajurved but the same quality gave him a sense of pride and ego that no one on this earth is better than me in performing these tasks and I am the chosen one, No one has ever lived on this earth that great till now, every day when I recite the hymn even Indra stands in front of me listening to the prayers, Everyday people will come with great alms and request him to cure them by reciting hymns and prayers which kept boosting his ego and nature is as beautiful as mysterious choose people as nature always require people who can deliver the energies

of the sky to earth through people like us who are ready to absorb some amount of energy, It also ensures that there is always someone better than the current one and ready to take any task.

So, one-day a Sadhak has to travel to a nearby village to see an old person who was on his death bed, and in between, he saw a few people were waiting with dead body and on his inquiry, the villagers told him that there is a boy who can bring him back to life and this was a mystery for this man as he could never imagine that someone can be brought back to life by Aayu transfer so the curious Sadhak joined the village men waiting for this boy thinking about the hymns and Agnihotra process that he might do. As excited, he was for this but all his excitement went really low when he saw a boy arrive bare hands, now he was more curious and, in his brain, he was thinking of all the difficult processes which he has never performed will be demonstrated.

The boy arrived with his cows laughing and smiling talking to everyone else without any appearance of Sadhak and with one small push of air, he made the person back to life and went on to work with his cows. So, this was something this person had never experienced in his life as his whole belief system was shattered as how can you perform such a difficult task with so much ease.

What you think is brilliant for you and state-of-the-art might be an outdated technology somewhere else as the universe is bigger than your tiny small brain so never bring the ego when you are in process of creation and always keep on learning.

Chitra nakshatra is the 1%'s of your society who push perfection to another level as these people are clear in their head about detailing of the work and this is the process which starts with naysayers, rejectionists telling that it can't be done as this is too much of work but as true champions said.

"In the republic of mediocrity, genius is dangerous."

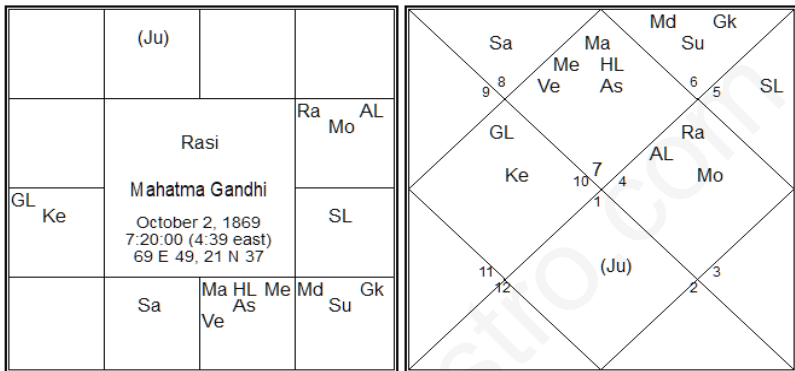

— Robert G. Ingersoll

## CHITRA NAKSHATRA

Let us look at some of the examples of Chitra nakshatra.

- (a) Steve Jobs - 2<sup>nd</sup> House
- (b) Mahatma Gandhi

The chart below belongs to the 'Father of the Nation' of India, Mohandas Karamchand Gandhi.

|                         |                             |                          |                          |
|-------------------------|-----------------------------|--------------------------|--------------------------|
| <b>As:</b> 6 Li 27      | <b>Su:</b> 16 Vi 54- PK     | <b>Mo:</b> 28 Cn 01- AmK | <b>Ma:</b> 26 Li 23- BK  |
| <b>Me:</b> 11 Li 45- DK | <b>Ju (R):</b> 28 Ar 08- AK | <b>Ve:</b> 24 Li 25- MK  | <b>Sa:</b> 20 Sc 20- PiK |
| <b>Ra:</b> 13 Cn 40- GK | <b>Ke:</b> 13 Cp 40         | <b>HL:</b> 29 Li 20      | <b>GL:</b> 3 Cp 04       |

In the birth chart of Mahatma Gandhi, the ascendant is rising in the nakshatra of Chitra. Mahatma Gandhi Ji was the first to mobilize people from all walks of life and sowed the seeds of freedom in all. He assembled people from different sectors of the society and gave all of them one single motto of Independence through his weapon of non-violence. Before him, nobody thought it would be possible to reach and gather people with such diversity to get together with a single goal. From the elite class to the so-called lower section of society, everyone was there for that one person. He converted the freedom movement from the elite movement to the mass movement.

That is how special Chitra is, as it takes an impossible mission and completes it with its special weapon, special skills.

The example below is of the 11th President of India, Dr A. P. J. Abdul Kalam Sir.

|          |                                                                                    |          |                |
|----------|------------------------------------------------------------------------------------|----------|----------------|
| AL<br>Ra | SL                                                                                 | HL       |                |
|          | Rasi                                                                               |          | Ju<br>As       |
|          | A. P. J. Abdul Kalam<br>October 15, 1931<br>1:15:00 (5:30 east)<br>79 E 18, 9 N 17 |          | Gk<br>Md       |
| Sa       | Mo                                                                                 | Ve<br>Ma | Me<br>Su<br>GL |

|                      |          |    |          |          |    |
|----------------------|----------|----|----------|----------|----|

|                         |                         |                         |                          |
|-------------------------|-------------------------|-------------------------|--------------------------|
| <b>As:</b> 15 Cn 40     | <b>Su:</b> 27 Vi 36-AK  | <b>Mo:</b> 13 Sc 02- GK | <b>Ma:</b> 25 Li 57-AmK  |
| <b>Me:</b> 24 Vi 50- MK | <b>Ju:</b> 25 Cn 08- BK | <b>Ve:</b> 7 Li 19- DK  | <b>Sa:</b> 24 Sg 11- PiK |
| <b>Ra:</b> 12 Pi 26- PK | <b>Ke:</b> 12 Vi 26     | <b>HL:</b> 2 Ta 11      | <b>GL:</b> 25 Vi 14      |

He has his Sun and Mercury in the Nakshatra of Chitra, in the 3rd house, the house of Skills, Skills of hands, and interest. Dr. APJ Abdul Kalam is one of the most respected personalities of all time in India. He is well known for his great contribution to India's Missile Programme as the leader of the DRDO. Also, Dr. Kalam was the man behind the Pokhran-II explosions that made India a Nuclear Weapon State.

That is how the Sun and Mercury in the nakshatra of Chitra helped him with special skills to produce the special weapon.

**Energy Transformation:** Have you ever wondered when gods are capable of anything and everything in this world why they will require weapons to do certain tasks even when they are supreme power, Even to operate the weapons of god, It is not everyone's task as these are customized designed weapons which are designed in need to what Devta required to manifest their energy into different forms such as Vraj which is made of bones of rishi dhadichi - converts all the energy of Indra which is Rajas into Tamas of fighting through the design of the weapon.

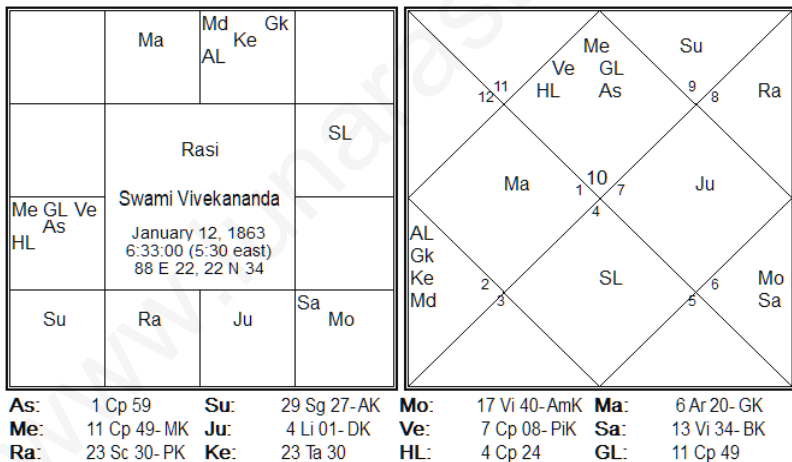

Chitra Nakshatra shows that they can transform the energy, weapons, and situations in their life according to what is required. You must have read in the literature that devta closed his eyes and think of his weapon and the weapon arrived so

## CHITRA NAKSHATRA

now what the real meaning is that whenever there will be a time of crisis planets in Chitra nakshatra bring on their special attributes by transforming that energy, weapons lies within you in the form of energy, emotion and being devta you can manifest greater things while as a human you can feel that in the form of energy.

Any planet in Chitra nakshatra will be capable to provide you weapon in a form of a skill, connection, internal power which you will be able to use as your weapon like look at the special women given to women that good men will never see or argue when the female starts crying, That is like Brahmastra, The universe is created in such a manner that you can't resist this weapon.

Let's move on to one more beautiful example of Chitra. Here is the birth chart of Swami Vivekananda.

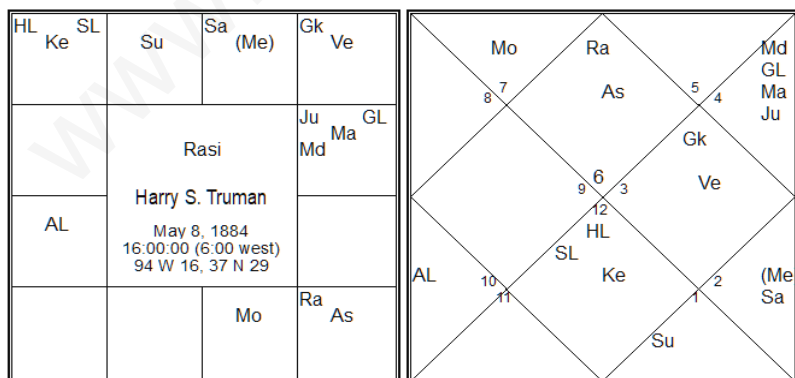

Whenever we hear the name Swami Vivekananda what first comes to our mind? It's the 1893 Chicago speech at the World's Parliament of Religions. Right? Look at his chart, he has the 3rd and 12th lord Jupiter, the planet of religion in the 10th house of action. He made an everlasting impact on world culture and religion through his groundbreaking speech. Through that one iconic speech, he changed everything. His speech and writing

have inspired countless generations. Even today, he is one of the greatest icons and inspirations to the youngsters.

Through his special weapon, through his speech, communication skills, and writings, through the domain of the 3rd house and 3rd lord, he introduced Indian philosophies of Vedanta and Yoga to the Western world. He was the person to give Hinduism a world stage.

As any planet in Chitra has to go through initial humiliation, the same happened with Swami Vivekananda. Swamiji went through struggle and humiliation to gather the money for his travel to America as some rich people who had promised him earlier to help him with travel expenses, turned their back later. See the 12th lord of foreign travel is in the 10th house of action in Libra, the sign of money and opportunities. But finally, Raja of Khetri and Ramnad helped Swamiji with his travel expenses. That is how a planet in Chitra had taken him through the initial struggle and made him immortal, providing the blessings of the special weapon, the power of speech, writing, and communication.

Sometimes the power of a special weapon can make a man blind, and that can bring disaster to others. Often this happens, a special weapon is used in a destructive way instead of in a noble deed. Look at the chart below.

|                           |                        |                         |                         |
|---------------------------|------------------------|-------------------------|-------------------------|
| <b>As:</b> 18 Vi 16       | <b>Su:</b> 26 Ar 25-AK | <b>Mo:</b> 12 Li 45-MK  | <b>Ma:</b> 24 Cn 58-AmK |
| <b>Me (R):</b> 9 Ta 02-PK | <b>Ju:</b> 5 Cn 51-GK  | <b>Ve:</b> 11 Ge 44-PiK | <b>Sa:</b> 18 Ta 03-BK  |
| <b>Ra:</b> 29 Vi 33-DK    | <b>Ke:</b> 29 Pi 33    | <b>HL:</b> 16 Pi 52     | <b>GL:</b> 18 Cn 10     |

In this chart, Rahu Maharaj is in the nakshatra of Chitra. This is the chart that belongs to Harry S. Truman, the 33rd president of the United States. He was the person who authorized the first and only nuclear weapon in the war against Japan during World War II. Harry Truman had regarded the atom bomb as a military weapon and said he gave the order to drop the atom bomb for military purposes.

Similarly, some people use abuse as a weapon, while some make patience, integrity, and all the good things as their weapon. Like Mahatma Gandhi made Non-Violence - a special weapon in his life he also started from humiliation and later on, this same non-violence and non-cooperation became the voice of everyone. In today's world where there is a lot of anti-Gandhi sentiment due to false propaganda should understand, It was the charisma of Gandhi to bring such a large crowd united at the idea of non-violence. You can call it Mohini Vidhya (Power of charm) but at the same time to get the special power he was first ridiculed and rejected everywhere until and unless he came up with something original.

### **“Ridicule is the price legends pay for being immortal”**

In your life, it is easy to tell people that they are frauds or scams but until and unless you don't have lived in the era, you will never experience the problems of that era. As it is easy to say things when everyone from that era is dead and you can create your own history and propaganda.

**Solitude and Loneliness:** Chitra Nakshatra is a star that is alone and bright, which also works as a reference point for astrologers and to become in such a state you need to go alone and this is the price of brilliance you will pay. I use to work offshore several years back and while my time in the training department as Instructor, This was in 2009 in Indonesia where the company had a training center as well as a workshop, and sometimes technicians next door used to come to pick brains up with any problem and over a period

of time, we develop a friendship to help each other in various task and activities.

One day, an Underwater system arrived which was never seen before as this was a system of the early 70's, and along came a technician from Vietnam. This guy used to work alone on the system as he was not able to get along with anyone while working and in 2 months' time frame so he rebuilt that system alone. One day while talking to him over lunch, he said if I would have worked, the team and groups, This will be not be completed in 10 months or might be the idea of even repairing it would have been dismissed as people give up easily and find excuses to not do work.

This is what the prominent Chitra nakshatra is as they like to work alone as they do not want to carry the burden of the team excuses telling over and over, that how bad a system is or how many faults are there in the system and then finally giving up. Chitra nakshatra is not the nakshatra to give up because it is about when everyone has given up on that system.

You start working alone and make that system works.

When we work for bigger goals in life, we need to leave excuses behind and think of failures as a learning curve because success is not a one-time achievement that is shown in movies. It's a process of everyday winning & if every day you progress slowly towards your goal, then one day you will achieve it, It is not an event but a habit of winning.

As you will get skilled and master your trade and move up in life with serious focus, you will realise that time management is the most important thing in life and soon you will find yourself alone without friends and this is the price you need to pay to become successful, Ultra genius people don't work with anyone else as their brain pattern is difficult to understand as their level of performance is set by themselves only.

## **Chitra Nakshatra & Karm Vipak Samhita -**

### **1st Pada: Virgo Rashi - Leo Navansh:**

Lord Shiva says to Ma Parvati that in a village named Gayapuri, there lived a Kshatriya (Warrior caste) who was engrossed in doing bad deeds and had a lot of wealth, was a miser as well as of clever nature. The wife of the Kshatriya was notorious and alert (Chanchal) and they had two sons and a daughter who had big eyes. Upon the marriage of the daughter, she got involved with another man and got involved in adultery. She also killed a calf of a buffalo every year. The Kshatriya passed away due to the bite of a snake after living a good and prosperous life.

Eventually, when the Kshatriya reincarnated, he got the Yoni of a Human and was born as a Kshatriya again in the center of the country (Madhyadesh). Due to his past life deeds, he is not able to beget a male child in this life and after the marriage of his daughter, she became a widow. Due to the butchering of calves, they are suffering from bodily diseases.

Lord Shiv now explains the remedy - The native should donate 1/8th part of the wealth to a Brahmin along with A black cow with gold layered horns and good clothes.

Deeper meaning - Lord Shiv says that the name of the Village was Gayapuri - it is a place where people come to do the pind daan (Last rights for their ancestors) and this can be seen why it is said so, as it is the 12th house Navansh which is rising. The Kshatriyas are said to be wealthy as well as be a miser.

Similarly, such people will not share their resources with other people as they want to use the resources for their own self-benefit - Virgo is rashi of Mercury which shows the miserly nature and the navansh being the 12th house of Leo, shows restrictions in donating money and not doing charitable and selfless work. Sun is the karaka of Soul and being in the 12th house from Virgo, it shows that the native has not given the proper last rites for his ancestors as he did not want to spend

money. Such natives should do the last right rituals properly by Visiting Gaya as well as perform the rituals of the last rights every year in the day they passed away. As the rashi of Virgo is for obstacles, disputes, enemies, such natives will create the same things in their life by being involved in wrongdoings such as illicit relationships and seeking material pleasures.

Then Lord Shiv mentioned that the wife was of a notorious nature, which can be seen as the 7th house from Leo has the rashi of Aquarius. After the marriage of the daughter of the Kshatriya, the wife got involved in Adultery - this means that the Kshatriya did not even stop his wife from doing such activities. This shows that the Kshatriya was himself involved in such activities too as the rashi of Leo, which signifies passion, is in the 12th house(Bedroom life) from Virgo - and this made the native seek bedroom pleasures on a regular basis; Also, the 7th from Leo has the rashi of Aquarius. As the wife killed calves every year - such natives will waste their resources on wrong activities and they will not have any moral concern for their actions as in the story, the Kshatriya supported his wife to do the Jeev -Hatya.

The Kshatriya passed away due to snake bite but after living a prosperous life. This means that he had ample resources and wealth but he did not take care of his family(ancestors) as well as got involved in wrongdoings and did not help other people in spite of having the ability to do so, due to which by the end of his life he still had enough wealth with him. Due to such actions the afflictions will come in the rashi of Leo through problems in childbirth, education and trouble due to seniors/ government due to job. Such natives should refrain some doing immoral activities and they should set a good moral standard for them and then only do their karam.

As a remedy, natives should wake up early daily and give respect to Sun by pouring water. Sun is the karak of Immunity and coming from Virgo navansh - it shows problems in immunity of the native as they will get afflicted with diseases

more easily as their body will not be able to produce enough antibodies.

Lord Shiv says that the native should donate 1/8th part of his stored wealth along with black cow - here black cow is the wealth and resources which the native has obtained by not giving enough donations and helping people, as well as by not paying tax. Hence natives of this nakshatra pada should donate regularly and not store wealth which is supposed to be given away as a donation or to the government (Do not become miser in terms of charitable work and helping others).

## **2nd Pada: Virgo Rashi - Virgo Navansh:**

Lord Shiv says to Ma Parvati, doing Punya(Good deeds) will benefit the coming generation (Kids) and only through Punya one can appease Ma Laxmi. Through good deeds only, the bodily diseases get destroyed; Such is described by the Sastras.

In the center of the city, in the south side of the Saryu River, there was a beautiful city named Kalikapur where a Brahmin lived. The Brahmin was involved somehow with prostitutes. At the same time, he was also interested in being involved with other women. He wasn't able to sleep without the consumption of liquor. The name of his wife was Sumana and she was very dedicated to her husband and served him on a daily basis. Every day, she worshiped his husband who committed sins by being involved with other women and prostitutes. After a lot of years, the Brahmin passed away due to a Tiger attack. During the cremation of her husband, she performed Sati (Jumped in the same fire in which her husband's body was burned).

Eventually, they got reincarnated in the yoni of a human being - in a prosperous, wealthy and respected family, but in spite of being from a good family, the native got the bodily diseases from childhood. Due to his past life deeds related to relationships, he got married to the same lady of his previous life, but the lady wasn't able to conceive kids in this life.

Lord Shiv now describes the remedies which are to be done - 1/6th part of the wealth of the native should be used to do good deeds(donations). The Jaap of the Gayatri Mool mantra should be done three lakh times. The jaap of the name of lord Govind should be done regularly. In the month of Magh, Vaishakh and Kartik, baths should be taken in the early morning.

**Deeper Meaning:** This is one of the nakshatra padas in which Lord Shiv is talking about the good deeds first, and not the story. This is because in this nakshatra pada the energy of Virgo is the most prominent as this pada is Vargottam. This means the significations of Virgo (Disputes, diseases, obstacles, fights, nit-picking, stealing) will be the most prominent for this native and this can lead the native doing wrong actions in his life and creating a lot of troubles for one's own self as well as other people. This is why Lord Shiv says that such natives should not perform any wrong actions as it will get manifested through their children or through bodily diseases. Only through good actions one can have a happy and prosperous life.

When any navansh is Vargottam, it means that the agenda of the planet is very clear and the results of the qualities of the rashi will be very prominent in the native's life. Such as if Sun is Vargottam in Gemini - one can clearly predict that the soul desire of the native is related to writing, reading and always being involved in something related to education and learning something new, and hence such natives will have a very sharp Brain.

Lord Shiv now says that in the city of Kalikapur, there lived a Brahmin but the Brahmin was involved with prostitutes and other women - This means the Brahmin was not doing his assigned karam of Jupiter and was addicted in the worldly matters and pleasures of the 7th house. Here, the rashi and navansh are both of Mercury & Mercury being the karaka of curiosity and wanting to experience new things - such natives will move from one relationship to another after spending some time in each of them.

Such natives will be unable to focus on one thing at a time and will try to do something else without even completing their previous task. Since Lord Shiv speaks of the 7th house matters here, the 7th house from this Nakshatra will be the house in which the native is not satisfied and will do something illegal and it will be a distraction due to which a lot of troubles will come to the native. In the story it is also mentioned that the Brahmin already had a very devoted wife but in spite of that, the Brahmin went to other women to seek pleasures.

The rashi of Pisces of Bedroom life is in the 7th house of Partnership and this was the main activity in the Brahmin's life. The wife was devoted to the husband in spite of the Husband's ill actions and this shows that such natives will already have the required opportunity, wealth, and partner, but they will still try to get more than they can chew. Lord Shiv then mentions that the Brahmin dies due to a Tiger attack. As Tiger is Rahu and being suddenly killed by a Tiger shows harm done due to addictions over a long period of time and not paying proper respects to ancestors as well as not performing the rituals related to one's Pitris - It was already mentioned by Lord Shiv that the Native in spite of being a Brahmin, did not carry out his karam.

All these Karam will come back to the native through the troubles of Virgo and Pisces, and as Virgo is diseases and enemies and Pisces is problems of Nature - such natives will get the diseases which are incurable and will get themselves in a situation which is very dire for them. It is also mentioned further that the after the reincarnation of the Brahmin, his wife was unable to conceive children which is again showing the affliction of Jupiter and missing happiness from children.

The remedies which Lord Shiv has given is to donate 1/6th part of one's wealth and do good deeds - which means that the native should follow his daily routine (Virgo) dutifully and help other people who are in troubles due to distress or sickness. Then the Jaap of Lord Govind is advised, who is a form of Lord Vishnu (Mercury).

### **Pada 3: Libra Rashi - Libra navansh:**

Lord Shiv says to Ma Parvati, In the south of Ayodhya Puri, 3 Yojan (24 kilometers) away, there was a famous city named as Sudharpur where the population was good. There lived a businessman named Ratidas who was handsome, wealthy and religious. He was in the business of import export and he served Brahmins regularly.

Due to his business, he had a lot of cows and buffaloes. He had a wife named Dalakshi who was having physical relations outside marriage. She was blinded by ego due to her beauty and did not care to serve her husband. Ratidas used to sell the goats and Dalakshi used to kill the calves. One day his intelligent and wealthy childhood friend, who was a gwala (People who take care of cows and buffaloes; Milkman), came to Ratidas (Baniya) with a lot of gold and stayed with Ratidas for a few days. Eventually Dalakshi and the Gwala started having an affair. After many years the Gwala passed away, and the gold which was kept in the home of Ratidas was consumed by Ratidas himself.

Eventually, Ratidas passed away and his wife Dalakshi who died in the bank of Ganga.

Due to the past life sins of being involved in relations outside of marriage with a Sudra, Dalakshi eventually took birth on earth in the body of a snake. She passed away in the bank of Ganga. Ratidas took birth in the yoni of a human in a wealthy family and was very prosperous. He was knowledgeable and multi-talented but due to his past life sins, he was not able to bear a child. Ratidas was born in a family of Sudra because he was very close with a Sudra in his past life, who was born as the wife of Ratidas in this life. Lord Shiva then says, that because of the consumption of the gold of his Gwala friend, he was unable to beget a male child and gave birth to multiple female children. The actions which Dalakshi carried out, of killing calves, being involved in adultery resulted in diseases related to Vaat. Dalakshi suffered from miscarriages and the

male children used to pass away early. Lord Shiv tells the following remedies - donation of 1/6th portion of the stored wealth should be donated along with construction of baoli, well and ponds beside roads. Pooja of Lord Shiv should be performed all time and 5 lakh Jaap of Om Namah Shivay should be chanted; which will cure the bodily diseases and fertility issues of women.

**Deeper Meaning:** Lord Shiv says that there lived a Businessman in a city named Sudharpur and that city was well populated- it means that such natives will interact with other people a lot and will be of extrovert nature as in a city which has good population, there is bound to be interaction with the outer world as well as business opportunities and material pleasures will be sought by such natives. The businessman Ratidas was wealthy which can be seen as the rashi and navansh has the complete effect on the Libra, which is the richest rashi within the Zodiac. It is then said that the Businessman was doing the work of Import/export and serving Brahmins - 10th from Libra has the rashi of Cancer.

Lord Shiv then says that the wife of Ratidas was involved in relations outside the marriage. This means that Ratidas never stopped his wife from committing such actions as he was too involved in making money and gathering more resources which led him to not take care of his family. Libra has all the material desires and this Navansh being Vargottam shows that the primary focus of the native will be business and being too much involved in the outer world. The wife of Ratidas was blinded by ego and did not listen to her husband; This is due to the Rashi of Aries being in the 7th from Libra and Aries being an independent rashi, the wife did as she pleased without being concerned about her husband. This shows that such natives will have trouble with their wife as she will eventually take independent actions and there will be a compatibility problem. Hence such natives are advised to give ample time to their partners and not be in the business mood 24/7.

Lord Shiv then says the story of the Gwala who came to the house of Ratidas and eventually got involved in an affair with the wife of Ratidas and eventually left a lot of gold with Ratidas himself which Ratidas consumed. This is a very interesting story as when the extramarital with Dalakshi (Wife of Ratidas) happened, Ratidas did not stop his wife.

Furthermore, the Gwala did not take back the gold which he brought with him and kept all of it to Ratidas. This means that Ratidas took the gold(resource) from the Gwala as a form of payment for letting him be with Dalakshi. It is given that Gwala passed away after few years, hence in that time, the affair of the Gwala and Dalakshi continued and Ratidas was enjoying the resources which he got from the Gwala. The manifestation of this story will be that such natives will be too obsessed in making profits and fulfilling their material desires (Libra rashi and navansh), due to which they will choose the illegal route and do something immoral. All the significations of Libra can be the driving factor for the native such as Mars in Libra - the native will want more share of the property as compared to his siblings, due to which he will try to get a fake signature/stamp in the documents of that property. Eventually, it is said by Lord Shiv that Dalakshi was born in the Yoni of a snake - which shows the manipulative and obsessive nature of such natives related to the 7th house.

After reincarnating, Lord Shiv says that due to his past life actions, the wife of Ratidas was a Sudra which means Ratidas had to serve and take proper care of her as he was paying back for the wrongdoings from his past life. Taking away someone gold (In this case it will be the cows and buffaloes as a Gwala will not have plenty of gold) and allowing an extramarital affair with his wife is completely immoral and such activities should not be committed at any cost. Ratidas committed such as for his own self-interests, and eventually had to serve his wife in his next life. Note that the significator of Morality and discipline, Sun is becoming debilitated in Libra. Such natives

should donate their own resources to other people who are needy and require help and make sure that they are not committing any immoral activity.

Lord Shiv says the remedy of donation of 1/6th of the wealth and construction of waterbody beside the road - As the 10th house from Libra has the watery rashi of Cancer, the native should work for masses and solve out their issues of whoever is in trouble or distress. Constructing a public water body such as a public water purifier for others will also be of great help as the masses can get benefitted from the water and the curse from the native will start getting reduced. Here 1/6th part means giving resources and providing help to the people of the 6th house as then the native will get to know about the various problems of other people who are not as fortunate as the native himself, thus the obsessive nature of pursuing luxury will start reducing.

## Rashi:

In this chart, Saturn (karaka of hard work) is in the 7th and its dispositor Rahu is in Swati pada 3 along with Sun (Passion; Soul desire). Saturn being retro in 7th and that too in the obsessive

rashi of Aquarius shows something very odd in marriage and 7th lord being in 3rd shows multiple partners.

The native got married early in life around the age of 20, but the marriage was against her will as her family forced her in this marriage. The native did not like the partner due to the reason of bedroom life as her husband had low libido. Due to this reason, the native left the partner and got involved in an extramarital with a person within the neighbourhood.

In this chart the 6th lord was in 7th retro showing debt and service to the partner but the native did not perform the service and hard work and instead got involved in an extramarital affair.

## Navansh:

Rahu is the 5th lord in lagna, while its dispositor is in the 10th house - the native still does not have any children and is facing troubles related to finances as she does not even have a job and is staying away from the husband's place and is staying in the home of fathers'.

Inspite of all these, the native does not even care about these things as her only desire now is to go to another person and get involved physically as she is expecting the partner to take care of her and fulfil her wishes.

She has no desire to do any job and is looking to live her life by getting involved in a new relationship. With the current ongoing problems related to money, eventually she will face a lot of distress and health issues where no one will be able to help or support her due to such actions.

See how the manifestation is happening in this case, the involvement of partner(Libra) and Material desires is so much that the native is unable to think of anything else and is willing to do everything to get involved with someone else, without a shred of Morality. One of the remedies which can be done in this case is the donation of the significations of Venus on a continuous basis along with rectifying her actions and working hard.

#### **4th Pada: Libra Rashi - Scorpio navansh:**

Lord Shiv says to Ma Parvati, in a good and pure country, there was a city named Pratishtan Pur where a Brahmin Lived who did not have the proper knowledge of the scriptures. He used to consume meat, fish along with liquor and was involved in gambling on a daily basis due to which his money got wasted regularly. The Brahmin had a wife named Parma who was very beautiful. She was an adultress and a fearless woman and got involved in out of marriage relationships on a daily basis. Eventually both of them passed in the bank of River Ganga, the city worshiped by Gandharv.

When the Brahmin got reincarnated, he was born as a Human in a wealthy family, but due the past life karam, the same lady Parma, again became the wife of the Brahmin. This time, they are suffering from childbirth issues as they were not able to beget a male child. Due to liquor consumption in past life, the Brahmin suffered from a lot of bodily diseases. Lord Shiv now tells the remedies - In the month of Magh, the native should do Makar snan and perform the vrat of Lord Surya.

During Makar Sankranti, a bath should be taken in a holy river with proper rituals. Doing these, the infertility issues along with the bodily ailments will get cured for sure.

**Deeper Meaning:** Lord Shiv starts with the city named Pratisthan Pur - It was the Capital city of the Chandravanshi - notice the navansh is of Scorpio and Moon gets debilitated in this rashi. Then it is mentioned that there lived a Brahmin who did not have the proper knowledge of his karam - which means that such natives will be involved in a work in which they will not do their work properly due to not working hard enough and being involved in distractions such as opposite partners and wasting money on things which are not needed. The Brahmin used to consume non veg food along with liquor and was involved in gambling. All these activities are against the principals of the Brahmin and hence such natives will involve themselves in activities which are illegal or it will be something which they are not supposed to do. Let's say Sun is in this nakshatra pada, then you can tell that the native will exert his power and use it in ways which are not useful for his employees or the company, due to which he will get defamed or problems related to Sun will happen. The navansh is of Scorpio here, which is the 2nd house from Libra, showing unsolvable problems related to food habits, speech, wealth and money (Gambling in this story) - and such people will use their resources in a wrongful manner and try to earn more money (Libra) through the hidden ways or they will often be ready to take more commission or bribe in order to fulfil their desires, as the base energy is of the most luxurious rashi of Libra.

Lord Shiv also says that wife of the Brahmin, Parma (Prominent Saturn effect in the name) was involved in adultery on a regular basis - and this is because the wife of the Brahmin was also obsessed with earning more wealth and thus got involved in prostitution to increase their wealth - as it is written that these activities was done by the wife on a daily basis. This further confirms the using of illegal methods to get hold of more resources as well as such not having any moral values or following any principles to live life, as both the Brahmin and his wife was involved in activities which were prohibited to them as they were Brahmins.

## CHITRA NAKSHATRA

Such natives will face problems due to business partners and dividing their business money, unsolvable issues related to relationships, making wrong/illegal choices, problems of private parts, kidneys as well as issues related to wealth and food habits as it is mentioned in the story. Natives should not take bribes from other people and earn their wealth by following the proper principals. They are advised to not waste money on useless things and only spend what is needed, especially regarding their food habits. The Brahmin then passed away in the city worshiped by Gandharvas. Gandharvas are the beings who are involved in singing and dancing, which again shows the connection to the significations of Venus.

Lord Shiv then says the remedies - Performing Makar snan during Month of Magh and the vrat of Lord Surya. Both of these remedies will improve the results of Surya dev as During the month of Magh, Sun will be in Capricorn itself and Leo being in the 10th from Scorpio, performing Vrat on Sunday's will bring in discipline and order in natives karam and the native will be able to bear responsibilities, be dutiful, and will be able to sacrifice in his life's Journey - as a result, the distractions which were happening earlier will get reduced.

### Rashi:

In navansh, Moon is going in the 2nd house of Family and is with the 7th lord Mars and its dispositor is in the 10th house in Cancer. Once the native got involved in the extramarital affairs, the families somehow got to know about it and eventually it became a very bitter marriage as a lot of arguments, verbal and physical fights as well as a lot of verbal abuses were exchanged between the family of the boy and the girl - see how the 2nd house is giving results along with Mars.

Along with the major fight with the in-laws, the native himself does not have a good connection with his own family and he is unable to interact freely with his family members as they are only on talking terms with the native.

2nd house also being the house of stored wealth, the native is also struggling to get a good salary and a lot of financial issues are happening.

# Swati

VAYU DEV  
(God of wind)

## Swati Nakshatra

**Swati Nakshatra:** This nakshatra lies in the Libra sign and is ruled by Rahu and the deity of this nakshatra is Vayu who is the Charioteer of Indra.

There are several hymns of Vayu in Rigved and Puran and you will see that Vayu cannot be confined to one place and can easily cross borders and any rules or boundaries do not stop Vayu from traveling.

Find a way above the law that is why as a symbol - Yogtara of Swati nakshatra is outside the Libra.

The nakshatra which is like a lawless land of a banana republic without any formal rules and boundaries. Any planet in this nakshatra will find a way to work above formal rules to get things done. This is excellent for people who are in customer service or running their own business as they know how to get things done without breaking the law to move freely.

Look at the home of Swati nakshatra natives as you will find that there will be a lot of free space to move around in the house - The perfect minimalist - "How little you require to live"

Sun in this nakshatra gets really confused on how and why someone can live without any morals and rules with no laid-out procedures while Saturn is self-limitation which is exalted and understands everyone has their own rules and morals which they follow so there can't be 1 law applicable to all as

it is upon the judge to hear out condition. A person stealing food can be justified on any given day but someone stealing from the poor cannot be justified for the same crime so there should be different punishment as their motives are different.

Any planet in Swati nakshatra the native will work on significations of those planets very swiftly without telling anyone as there is a fear that obstruction might occur If the native had to explain the work he is doing.

Such as if someone has Venus in Swati nakshatra, the native will get into a relationship very quickly smoothly, and till the marriage very few people will come to know about it, afflictions to the same Venus will cause marriage suddenly and without anyone come to know about it.

The example below is a chart of a female native. In her chart, the 5th lord the lord of romantic love affairs Jupiter, the significator of the husband in the female native's chart, is retrograde and in the nakshatra of Swati.

During the days of her higher studies, she met a person, who was younger than her. They fell in love with each other. But she never let anyone know about their relationship. She did not tell her family members or even close friends. She had her

## SWATI NAKSHATRA

fear that if others came to know about their age difference, nobody would support them. After a few years, they married each other, and after their marriage, she told all these things to her parents and relatives. That is how the karma of the 5th lord in Swati has manifested in her chart.

Planet in Swati nakshatra creates rebels who believe that the law can be changed depending on the situation and this is why no fixed set of rules is defined for these natives.

**Longevity and Swati:** As Vayu is the life force that brings the breath in and out decides the longevity as the way we breathe decides our life span, as well as when planets that are stagnant and heavy do not perform well in this nakshatra.

**Ease of Life:** Swati Nakshatra helps us connect with people easily and how we can reach out to different people as these people are capable to convey their thoughts, energy, and passion with so much ease and swiftness in the other world that other people are always in awe of their imagination and execution of the task. Their ability to convince anyone for any work is amazing as these people are not rigid in approach to very specific tasks.

These people even when in powerful position allows other people to negotiate with them and provide various favors only to not spoil relations with anyone.

The example below is of one of the greatest embodiments of devotion - Thakur Ramakrishna Paramahansa. This example is to show you how any planet in this nakshatra finds its own path without following normal rules and preset boundaries to create its legacy.

Ramakrishna has Lagna lord Saturn retrograde in Swati nakshatra in the 9th house, the house of religion and faith. Though he was a brahmin and a worshiper of Maa Kali in the Dakshineswar temple, he never followed any preset brahmin rules and rituals to worship his divine mother. He always went this his own style of worship and devotion, that was why he had to face so many criticisms. But nothing was able to stop him. Not only that, being a brahmin himself, he did his sadhana in various other religious paths. He experienced that same reality, that same consciousness through different religions also. Before that the norm was, you must follow the rules and practice only one path, compatible with your religion or sampradaya.

Ramakrishna did his sadhana on the Islamic path, practiced Islam for several days though he was a devotee of Maa Kali. He used to dress up as a Muslim. He had a vision of a luminous figure through which he experienced the same reality that he had experienced previously with his divine mother. He also practiced Christianity in 1873, 1874. As he had come through these various experiences, he realized the same truth and preached "As Many Faiths, So Many Paths" to establish Sarva Dharma Samanwaya. This was how his Ascendant lord Saturn retrograde in Swati in the 9th house had created its own path and opened a new door for everyone.

Let's move on to one more example of Swati. The birth chart below belongs to Sigmund Freud, the father of psychoanalysis. Sigmund Freud was one of the earliest figures in modern psychology.

## SWATI NAKSHATRA

Look at his chart- he has the ascendant rising in the nakshatra of Swati. Sigmund Freud is one of the most controversial figures for his many strange ideas and thoughts. Freud faced huge criticism for his theory of psychosexual development and the Oedipus complex. But he was the first in modern psychology who devoted so much attention and time to the development of these unspoken matters. No other neurologist or psychologist before him talked so much about these things.

In this life where we live in a world full of human beings, we cannot operate in isolation because as brilliant you might be in your trade, you will still require people around you to do other work like in the nakshatra of Chitra you were working on isolation on your core skill but in Swati nakshatra now you are working with connections as brilliant you might be in life so you cannot master all the energies, you always require people around your core work to support you & that is why sometimes brilliant people fail miserably because until and unless they understand that planets do not move because of their brilliance.

Not even a bit will change in the universe even when all their brilliance will be lost, they are just part of a big entity called the universe and everyone in the universe is doing their bit.

There are always roosters in every group like Chitra nakshatra who work alone and are brilliant in their group but they are never role models but moreover a special asset, you cannot make an extraordinary brilliant person the head of the organization or team as his own ego will not be able to handle anyone else.

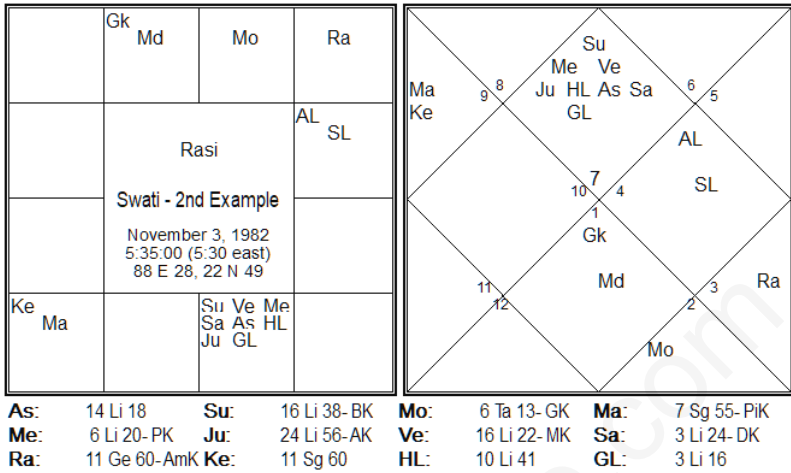

A Leader is always chosen who can take care of all of his staff without giving special favors to everyone because a leader should make everyone who is working under him feel special that the work done by even the smallest of the person in the kingdom is very important and necessary for the development of the society and he is contributing by his work.

A person rising with Swati nakshatra has to take care of everyone and help everyone to create an environment where all team members work towards a common goal for success as one of my friends and Jathedar of Sikh, Sampraday says “EK JAMAT KARAMAAT” – means when you are united as a team, you do wonders, this is what he said when he attended our conference of Lunar Astro and saw how every one of the team members of Lunar Astro worked flawlessly so the complete function was running on its own flawlessly.

It was a gathering of over 150 people for 3 days which was exhaustive and tiring for everyone but I must thank all the team members without whom this could have never been possible to arrange such a large function where people travelled from all around the country to attend this mega event.

Let us look at one more example. Here is a chart of a native with Lagna, Lagna lord and Sun are in Swati.

## SWATI NAKSHATRA

Native is a very special child to his parents. His parents asked for a male child from God as they had 3 female children before this native. The parents did many prayers, visited several temples, and asked for a male child (Mannat seManga Hua Child). The native is like a king in his area. The villagers regarded him as a local judge.

He has a team of 5-10 people. Villagers do not go to the police station or local panchayet if they face any problem. Instead of that, they go to this native for help and solutions. Native with his team solves all the problems in that area. He silently announced this rebellion against the local government as nobody got proper justice there. Native does not follow the rules there. He made himself on his own to take care of that locality and his people. People of that area give high respect to the native more than anyone else, and they obey all the orders of the native.

A person who was a brilliant engineer and was flawless in design so one day he thought that he should open a company as he is the best engineer of all. He always looked down upon all the other employees and roles of the company starting from HR to Reception and in his view, all of them are not even required for the company, and a burden of cost in his

brain as he was the main brain behind the company which was only required for revenue generation, not the marketing team, sales team or anyone else and soon he started to ask for higher pay grades than anyone as his right over everyone else. As company decided to let him go as unable to meet his demands and attitude towards the colleagues working with him, he started on his own as freelancing and soon he realized that he has lost all his brilliance of work and was not able to produce anything which is even equal to what he was doing before.

The reason was that he was managing everything from front end to after-sales support and not sticking to his core as Genius people focus on what they are good at and not at everything else. Swati nakshatra teaches us how to harmonize the team and respect everyone for their work, make connections and use them efficiently.

**Always remember that you will require a team in the darkness of Swati to help you do big things in life.**

Even you might be a genius in your work but until and unless you learn to ask for help from everyone in life and use different skillset of people, you will never be able to be at 1000 places at the same time.

Imagine what Vayu is as it travels quickly and presents everywhere swiftly & this is only possible as a human when you have your whole team distributed so wonderfully that when anyone talks about any subject, your team becomes eyes and ears for you. So, you are present everywhere at every time without effort.

Every single person in your life and organization has a role to play and without the help of everyone, you will never be able to grow extraordinarily well in life.

If you see with the nakshatras of Rahu - 100 or 1000 entities are always associated whether it's Ardra, Swati, or Shatabhisha as this is what the true quality of Rahu is to multiply several times & tornadoes, heavy winds are therefore related to Rahu.

## **Swati Nakshatra& Karam Vipak Samhita - 1st Pada: Libra Rashi - Sagittarius Navansh:**

Lord Shiv says to Ma Parvati in a place named Kanauj, there was a King named Rudradharm, who took care of everyone around him and served regularly in his kingdom. He was married and the name of his wife was Prabhavati. One day, a fearful Brahman named Dwijyottam came to the King and was seeking help. The Brahmin's wife came together with the Brahmin and she was very beautiful.

The King's son got infatuated with the Brahmin's wife and eventually established a physical relationship, but despite this act, the King did not punish his son due to his fatherly love for his son. The King passed away after several years.

Eventually, when the King was reborn, he got the body of a Pig, then a Jackal and then finally got the body of a human. He was born in a wealthy and reputed family and was intelligent in nature. His past live wife Prabhavati again became his wife in this life but due to his past life sins, she wasn't able to beget a male child and was afflicted with bodily diseases such as Fever along with afflictions from Vaat,Pitt and Kaph related diseases. Lord Shiv says the native should donate 1/8th part of his stored wealth and construct the Baoli, wells and ponds on the sides of the road.

The native should do the Jaap of Vishnu Raratam(Stotram) and perform donations in the lunar and solar eclipse in Kashi. By doing these, all the fertility issues will be cured and recovery from the bodily diseases will happen.

**Deeper Meaning:** Lord Shiv says that the name of the place was Kannauj, which has a prominent effect of Jupiter and Venus, which can be seen by the Rashi of Venus and Navansh of Jupiter. The name of the King was Rudradharm, which indicates one who is very fierce, disciplined and maintains the principles and the prosperity of the country. Similarly, such natives will have a lot of knowledge and ego and will know what to do in which situations, as the Navansh here is of Sagittarius.

The fearful Brahmin is the Rashi of Sagittarius which is the 3rd house from Libra. As the 3rd house is the Entry point in the chart, it shows the coming of a Brahmin. Similarly, one day someone elderly, saint, or a very knowledgeable person will come to the native for help, and regardless of the situation, help should be provided to the native. The Brahmin being in a fearful state indicates a dire situation of the Brahmin. Eventually, the son of the King got involved physically with the wife of the Brahmin. As Son is the 5th house, due to too much passion and heat of such natives they will get involved in relations outside the marriage as well as cheating or finding loopholes so that they do not get caught for it. Being in relation of the Brahmin wife harmed the Brahmin but it is never said in the story that the King or the Brahmin stopped them. Lord Shiv is hinting that there was some extra benefit that was granted by the King to the Brahmin because of the relation with his wife. As Lord Shiv mentions that the King loved his son a lot, it indicated that the illegal desire of his Son was also granted by the king and the name "Dwijottam" of the Brahmin, further says the same story. His own Son should have been punished, but the king did not do so, indicating partiality related to matters of his own. Such as, if Jupiter is in this nakshatra, you can predict that the native will only learn from a teacher which gives him more quantity of notes and knowledge, compared to everyone else. The problems which will come are, obsessive desires and issues related to the 3rd house from this nakshatra due to trying to get extra benefics such as commission from business or illegal favors.

From Sagittarius, the rashi of Aries, which has very high energy goes in the 5th house and Libra being in the 11th house shows illegal affairs. Further Gemini in 7th shows multiple affairs. This pada will also give a lot of ego and the ability to find the loopholes within the principals as Sagittarius is 3rd from Libra and the rashi and Navansh are both below to the Gurus.

Lord Shiv then says that the native had to take several births before getting a human body, and eventually he and his wife Prabhavati suffered from childbirth problems and bodily diseases of all the three doshas. For curing these problems –the construction of wells and ponds is to be done on the side of the road. In past life, the king being too involved in the well-being of his kingdom was not able to give time in his home. The remedy which Lord Shiv is actually trying to say is that the native should give more time to his wife and take care of her, as well as provide emotional support to other people.

## **2nd Pada: Libra Rashi - Capricorn Navansh:**

Lord Shiva says to Ma Parvati, In the left side of the bank of Ganga, there was a good place named Vindhya, where a Brahmin lived. The Brahmin did not follow the rules of his religion and the scriptures and was involved with multiple women physically. He used to do the business of Cow's, deers, and elephants and earned a good fortune of 30 Crore. In Spite of earning such a huge amount of money, the Brahmin did not donate anything. In Spite of being married, he did not take proper care and responsibilities of his wife and was having extramarital affairs. Lord Shiv says, in past life, the name of the Brahmin was Dhaneswar. After several years the Brahmin passed away.

Eventually, when the Brahmin was reincarnated, he took birth in the body of a Tiger(Bagh), then a wolf and finally he got the body of a Human. Due to his past life actions, his children passed away early and the Brahmin himself was affected by bodily diseases. Lord Shiv then describes the remedies - The native should do the Pooja of Lord Vishnu and perform 10 lakh Gayatri Jaap. In the month of Kartik, native should do the puja of Tulsi Ji. Doing these rituals will cure bodily diseases and cure infertility issues.

**Deeper Meaning:** Lord Shiv says that the name of the place in Vindhya, where the Brahmin lived, means the place

has an abundance of resources as Vidya is means knowledge and the knowledge for a particular place will be its ability to use different resources and build a better country. Note that Taurus is the 4th house from Capricorn. It also shows that the Brahmin too knew about his duty which he had to perform but he did not perform due to his lustful desires. Instead of carrying out his duty properly, he got involved with the 7th house matters. This can be any materialistic desire such as earning more wealth, getting material items, or being in relationships outside of marriage. The navansh being Capricorn, a rashi that does not even move until pressure is given, shows that the habits and desires of the native (from Libra), will be difficult to change and he will do the same kind of mistake for a longer period of time. The Brahmins used to do the business of cows, deers, and elephants, but this is the wrong job for a brahmin. You will notice a similar story in one of the previous nakshatra pada and here its again related to the Brahmin not doing its job, the difference between the two stories is the rashi and Navansh. The Brahmin is so focused on fulfilling his material desires (Libra) of earning money and being involved in multiple relationships, that he is completely detached from the work he is supposed to do. Such natives will do anything to attain their desire for material desires and wishes, that they will not be able to take the responsibilities of their near and dear ones, due to which problems will come in the latter part of their life. In Spite of earning plenty of wealth, the Brahmin did not donate anything as well as did not take care of his wife, which shows a miserly nature and not sharing resources with others. They will be so much involved in their profession (Capricorn Navansh) in an emotional manner, that they will forget their responsibilities of their family and not bear it. Capricorn is the 4th house from Libra which shows emotional dryness in home and family. Lord Shiv says that the name of the Brahmin was Dhaneshwar which means 'God of wealth' and similarly such natives in spite of having their requirements fulfilled, they still have the thirst for things related

to the outer world. Then the remedy part has been given in which the native should do the Pooja and Gayatri Jaap, which means the native should correct his daily routine and be in a certain discipline in his daily life as the Deity of Mercury is Lord Vishnu and Gayatri jaap will improve the 5th house for the native. Then the Jaap of Tulsi Ji is advised on the Month of Kartik - It is when Sun transits Libra, in which this Nakshatra Pada falls. Here also the remedy is of Mercury which is the karak of your daily routine. You can do the Pooja as said by Lord Shiv but also try to understand the deeper meaning of it. The Remedy is supposed to be done when Sun transits over the 2nd Pada itself - from Capricorn navansh, Mercury is ruling the 6th and 9th which shows disputes and obstacles in following the principals and thus doing the Puja during that time will help immensely.

You can similarly time all the remedies of your chart by the transit of Sun each year, as when Sun transits any House or Nakshatra, those significations will be active and give results during that time. Such as when Sun transits over your Moon, you can do the remedies of that Nakshatra pada or even donate food and water to others (Significations of Moon), depending on the rashi and house.

### **3rd Pada: Libra Rashi - Aquarius Navansh:**

Lord Shiv says to Ma Parvati, In Kurukshetra, there lived a Herdsman (Gwala) who used to do farming and import/export all the time, along with having cows and buffaloes in his farm. The wife of the Gwala was involved with other men outside of marriage. His wife had a very harsh speech and used to fight a lot with her husband. She had a lot of stored wealth but she never used to donate that money. Sometime later, during a lunar eclipse, the Gwala donated 10 cows of 10 different colors. After some years the gwala passed away.

Eventually, the Gwala was born in the yoni of a buffalo (Mahesh) and he got birth in the yoni of a human in a

wealthy family. But due to the past life sins, the Gwala was unable to beget children along with afflictions due to bodily diseases. The Gwala also suffered from pain in the thighs. Lord Shiv says, to donate 1/6th part of his stored wealth to the Brahmin. The native should donate a healthy cow with gold plated horns, with proper clothes to the Brahmin. By doing these rituals, the native will beget children along with the cure of bodily diseases.

**Deeper Meaning:** Lord Shiv says that the place where the Gwala lived was Kurukshetra, which was the place where the war of Mahabharata took place. In the place of Kshatriyas, the Herdsman was doing the work of Vaishya. As being a Kshatriya requires a lot of physical abilities, strength, proper diet, training with the body as well as with weapons along with proper strategies, the Kshatriya did not want to work this hard in order to make a living, and hence he opted for the more luxurious life of Libra instead of Aries. As Libra is the rashi of Luxury which has plenty of resources and money, the Gwala did the business of Cows and Buffaloes through which he earned his fortune as well as had ample supply of Milk. This shows that such natives will go for the easier goals in life which have luxury and comfort and will not do the required hard work when necessary. They will want to have the ACs in their office, have a good chair and comfort, and at the same time, earn a Salary over 1 lakh by the end of the month. The Gwala was so involved with earning money that he wasn't able to give time to his wife, due to which the Wife went into relations with other Men outside marriage. Note that the Navansh is of Aquarius which signifies the fulfillment of desires and regular income. 7th from Aquarius is the rashi of Sun; Saturn/Rahu and Sun do not go along with each other; hence the partner of the Gwala fought and abused his Husband. Such natives will suffer in terms of relations with family because of their obsession in earning money and living a comfortable life. The Lord Shiv says that the wife did not donate anything in spite of having a lot of stored wealth.

The stored wealth of the wife is the 8th house and the wife not donating, shows that the native himself did not donate the money he got through business and kept it for his own enjoyment and similar will be the nature of such natives. Due to such actions the native will face a lot of mental issues and depression which is shown by Cancer going in the 6th house from Aquarius and due to the same reason, the Gwala donated cows and that too specifically in a lunar eclipse. Such natives should always give some portion of their own stored wealth to others at all times and help people who do not have enough resources in their life.

What happened with Gwala in the next life is that, he was born in the yoni of a buffalo, and in older times, a buffalo used to do a lot of chores for human beings as well as give milk for others, which is basically giving away resources and serving the masses. All of this occurred because of the desires and actions regarding obsession of wealth and comforts through shortcuts(Aquarius navansh). Then Lord Shiv says that the native should donate 1/6th part of his stored wealth which means that the native should give out his wealth for other people and not be a miser. Cancer Rashi being in the 6th from Aquarius also shows that the native should serve the masses and security to people who are facing troubles in life due to sickness, enemies, debts, etc. Similarly, giving away a gold-plated cow has a similar meaning as a cow being the resources and gold horns means that the native should make sure that he is donating a cow that is excellently taken care of.

#### **4th Pada: Libra Rashi - Pisces Navansh:**

Lord Shiv says to Ma Parvati that in Hastinapur, there lived a Sudra who was religious and very knowledgeable. He used to spend his money on religious activities. The Sudra eventually had 2 sons, and they both were violent in nature, killed and ate animals, consumed liquor as well as did flesh trading (went to prostitutes). Despite such actions, the Sudra was unable to stop them from doing such activities. Eventually, the Sudra shifted to Prayagraj and after 1 month, he passed away. After

the death of the Sudra, his wife got involved physically with other men. After some time, the wife also passed away.

Eventually, the Sudra took birth in the body of a human in the state of Madhya Pradesh and his past life wife again became his wife in this life too. Due to the past life deeds of his wife, they weren't able to beget children. Lord Shiv then says the remedy - The native should do Pran pratistha/establish the Shaligram and worship lord Vishnu along with a donation of Cows and one lakh Gayatri Jaap. Childbirth and infertility issues will be cured after doing these remedies.

**Deeper Meaning:** Lord Shiv says that the native was a Sudra who was religious. This statement itself has most of the hidden meaning as a Sudra is someone whose focus is in his own stomach. In older times, Sudras were those people whose primary goal was to fulfill their own stomachs by getting the proper meal for the day. A native who has to work very hard just to meet the basic needs of his daily life is not supposed to read the Vedas and use his own money on religious activities. When someone who cannot afford two/three meals a day, is often sick, does not have proper home or clothes gets invested in religion and Vedas, he will not be able to understand the true meaning of it because his mental state is stuck on the basics. Sastra says - There are no rules for anyone who does not have their basic needs fulfilled; which means that only after one has enough resources for himself and the family, and is happy, then only one should study the Vedas as then his mental state will be able to grasp the ultimate truths. Such natives will not do enough hard work in their daily life as well as during times of troubles, because they will think that through their devotion alone all the problems will vanish eventually.

One must have an unbreakable faith in life, but having only faith and then not doing any work is not the correct approach. As the Navansh is of Pisces, it shows that the problems are coming in native's life because of his lack of intent to work and only doing religious activities.

Pisces is also the 6th house from Libra which again shows disputes and obstacles. Lord Shiv then says that the sons of the

## SWATI NAKSHATRA

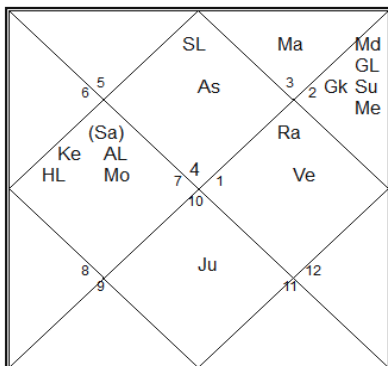

Sudra were violent in nature, killed and ate animals, consumed liquor as well as did flesh trading. Due to such actions of the Sudra of being too involved in religion, his family faced a financial crisis and also, he was not able to take proper care of his family. Due to such consequences, his sons eventually had to kill animals because they did not have food and thus, they became violent. Due to the Sudra, not being able to teach his sons, they eventually got involved in the addictions and flesh trading and became very adamant on their actions. Their desires were on the survival level only and hence they sought for similar pleasures. Such natives will rely on faith alone to solve their problems and not perform the necessary tasks, even when they are required to do so. Eventually there will be a lack of resources due to such actions, due to which the whole family will suffer.

When the Sudra shifted to Prayagraj, he passed away within one month and then his Wife got involved with other women - which again shows the story of not taking care and providing resources to own family.

Then eventually after being born again, the past life wife of the Sudra again became his wife; From Pisces, the 7th house has the rashi of Virgo, which shows debts related to partner and other people.

In this chart let us look at the Lagna lord Moon, who is in Swati 4. Moon is the karak of Mind, travels, and is conjunct Ketu (5th lord of Education) along with Saturn (Karmakarak). Dispositor of Moon is in the 10th house in Aries. This combination clearly shows that due to the karam of the native, he will be away from family and home and will not be able to give enough time to them.

In this chart, the native is very intelligent and is a professor at a very reputed University in India. He is very inclined toward Egyptian culture and is doing a Ph.D. through researching how Indian and Egyptian cultures are connected to each other. During this process, he was also able to travel to Egypt and collect his research data.

In this chart the karam is good but still the native is not able to provide time to his family and as a result, he will face the same issues later on.

## Navansh:

|                          |                          |                         |                             |

In the navansh Mercury (5th lord of Education) is with Moon, who is the 6th lord of service, is in Pisces (Travel, foreign), and also in an exchange with exalted Jupiter which further indicates excellence in education and traveling due to his Job - but the

result of this karam is that the native is excellent in terms of finances and he does not have to worry regarding money at all. Furthermore, the native wants to write a book regarding the connection between the two Cultures (Mercury being the 5th lord is with the Moon) which will help the masses to learn a lot of new things which was not known before. In this chart, the native is doing good karam but the only advice which should be given to the native is that during any health issue and problematic times within the family, the native should make himself available to give ample time to his family and not leave everything upon God to solve automatically - as then the same combination will give negative results during its respective dasha.

# Vishkha

ॐ नमो भगवते वासुदेवाय

INDRAGNI

(Combination of Indra dev and Agni Dev)

## Vishaka Nakshatra

**Vishaka:** The deity of this nakshatra is Indra - Agni which comprises two gods. Indra and Agni and of them also have individual nakshatra ownership as well where Indra is the deity of Jyeshtha nakshatra while Kritika is ruled by Agni. Kritika is the 3<sup>rd</sup> nakshatra of the Zodiac while Jyestha is 3<sup>rd</sup> from Vishaka.

This is the middle nakshatra of the Zodiac belt which is 16<sup>th</sup> in number and carries the balanced approach of the universe to maintain a balance that is why Agni and Indra (God of Rain) come together to show their union in this nakshatra and how to balance between two extreme ends can be created. This nakshatra shows a balanced personality to work with everyone whenever required as when two opposite deities combined Fire and Water, it shows to complete their objectives these natives will be easy to mix with anyone in the world as long as goals and objectives are the same.

Indra and Agni combined to provide protection to the gods and conquer enemies and eliminate any competition & this also shows when these people start to excel in any field as there might be a lot of competition but due to their fierceness, power of focus, and their intelligence - there will be no competitors at all and moreover, these people will become like an entry barrier for their own field.

Such as people who have the authority to validate people to practice any trade or skill and this is what makes this nakshatra so special as people with prominent Vishaka nakshatra have the ability to control the entire domain on their own.

Let me give you an example - Jyotish is a field where there is no regulating authority and anyone to first start a genuine kind of school or institution was Shri K.N Rao and there might be a lot of competition at that point of time against him but slowly you see Bhartiya Vidhya Bhavan took over all the competition and established as an institution where it was like an entry barrier to enter the field of Jyotish. Students will line up to take his blessings for their books and work and even to take photographs to place on social media so everyone can get the message that I have blessings of the Master.

These natives are the ones who are providing validity as they have so much excellence in their work that these people set benchmarks in their field.

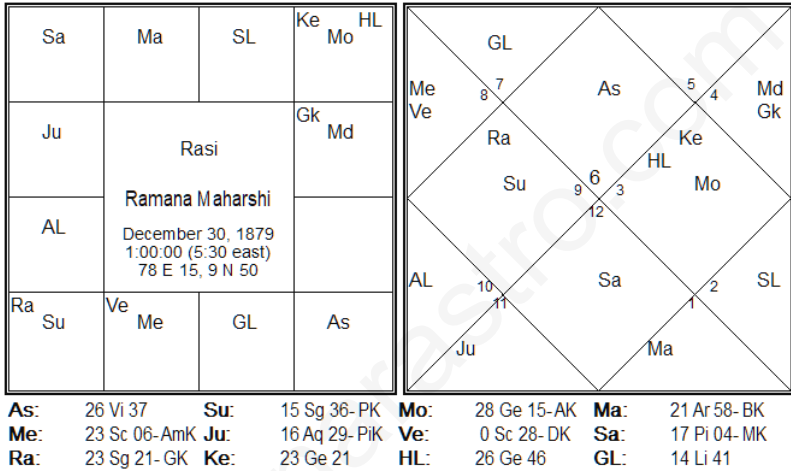

Shri KN Rao has Ascendant rising with Vishaka nakshatra and his pada of A-10, A11, A5 and Mars which is Bhraakaraka placed in Vishaka nakshatra. Bhraakaraka is a planet that is responsible for networking and being Mars, he collaborated with the right people to make this organization stand and reach such great heights.

Vishaka is also the nakshatra which is prayed in hymns as - "The one who lauds you gets the awakening right."

This is another quality of this nakshatra is awakening as this nakshatra creates an atmosphere where people are more conscious about their actions and deeds as these people will continuously wake people and challenge their inner conscious to do the right thing as Indra continuously fights for power and position while Agni resembles what is right and that is why I think people's voice planet Saturn is exalted in this nakshatra while Moon which is fickle and can be easily manipulated is debilitated in this nakshatra.

## VISHAKA NAKSHATRA

Here is an example chart; The chart below is of an Indian sage, Ramana Maharshi. He is acknowledged as one of the renowned Gurus of all time. Even many considered him as an embodiment of Shiva. Ramana Maharshi followed the path of “Self-Enquiry”, considering this as a direct path to spiritual liberation, and experienced a profound awakening state at the age of 16-17.

He has the 9th lord Venus in the 3rd house, in the nakshatra of Vishaka.

He used to wake people quietly and make a person ask himself the basic question of the person’s true identity, the existential question of, ‘Who am I?’ He had worked continuously to raise the human consciousness and inspired people to do self-inquiry. He infused the path of “Self-Enquiry” with his disciples also. He created an atmosphere through his teachings, where people would be more conscious of their true nature and action by self-inquiry.

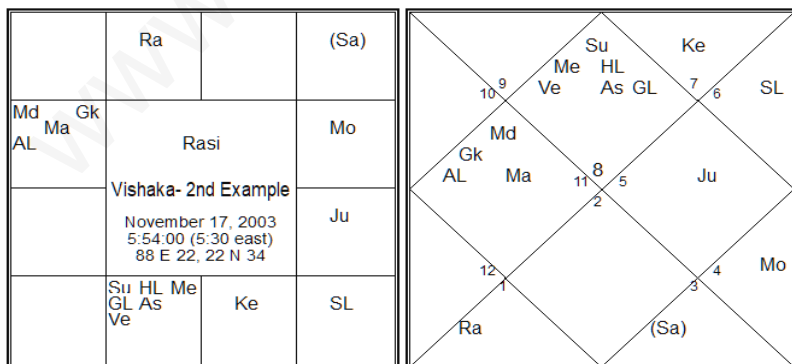

That is how the lord of the 9th, the house of dharma, here Venus, in the 3rd house, the house of communication in the nakshatra of Vishaka has manifested in his chart.

His way of communication was unique and silent. He only used to communicate to change the inner self of the person in front of him by making him more conscious.

Since this is a nakshatra which comprises both deities Indra and Agni and being in the sign of Libra so the balance of these two energies has to be done critically as Vishaka nakshatra easily falls in the luxurious lifestyle of Indra which is drinking nectar and enjoying too much being relaxed and this is opposite of Agni which is about taking initiatives and following strict protocols of discipline and you will find these natives have both qualities in different areas of life. These are the people who can be a bully like Indra or like Agni who holds responsibility and help others.

Vishaka nakshatra natives fall in life due to women or alcohol and these two things these people should keep in control in their life otherwise these people never recover back to their original state. This is such a powerful nakshatra due to the contradiction of two different energies meeting in this nakshatra, a true Libra Energy.

Let us look at one more example. This is a birth chart of a nineteen-year-old boy who is studying Bachelor of Business Administration. He has Lagna rising and Sun in the nakshatra of Vishaka.

**As:** 0 Sc 20

**Me:** 13 Sc 15- PK

**Ve:** 23 Sc 39- AmK

**HL:** 0 Sc 21

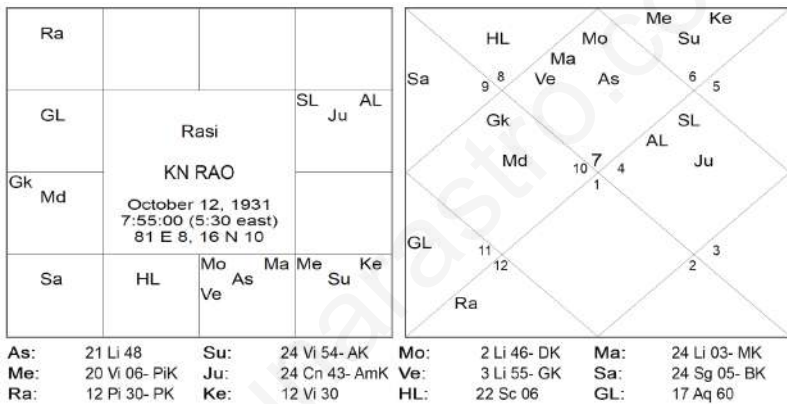

**Ma:** 20 Aq 18- MK

**Sa (R):** 18 Ge 53- PiK

**GL:** 0 Sc 23

## VISHAKA NAKSHATRA

The boy has been involved in multiple relationships since the beginning of his adolescence. So, every time he had faced a relationship break-up, he went for alcohol and cigarette. In this way, he gradually became completely addicted to alcohol and cigarettes. Now the situation is so bad that he has started doing these things at home in front of his parents and also, he has started to abuse his parents. This is causing a lot of damage to his studies, and his parents are worried about him. That is how the other part of the Vishaka has manifested in this chart. Let us look at some of the examples of the Vishaka Nakshatra.

Shri K.N Rao has Mars in the nakshatra of Vishaka as well as ascendant rising with Vishaka nakshatra so let us look at some of the effects this Mars carried in his life and energy of Vishaka nakshatra.

Since this Nakshatra is in the first house with Mars placed in it so the quality of Agni prevailed more dominantly rather than that of Indra in this chart as you can see Mars being 3<sup>rd</sup> lord and dispositor of Saturn in 3<sup>rd</sup>, his writings had a sense of anger and purification both as this was the first time research-based articles in the form of books were going out in Jyotish.

He created an entry barrier in Jyotish with the organization of BVB and created an environment and ground for research of Jyotish. So, you can see how he was awakening people and creating a massive wave and popularity for this science.

The presence of Mars-like planet kept him focused on the mission and did not let him slip the down road of Indra of enjoying but he did enjoy an era as a leader of the Jyotish world where no one was able to compete in the stature of Shri K.N Rao.

At the same time planet like Mars only were responsible for his non-involvement in marriage union as Mars kept increasing the Agni tattwa and not promoting harmony for partnerships.

Let's move on to one more example of Vishaka. The native is a professor of English Literature at a top university in India. He has the 8th lord, Atmakaraka Saturn in Vishaka with Ketu.

|    |                                                                                 |                   |       |

Native was very inclined towards Egyptian culture since childhood. He is doing unique research for his Ph.D. on how Egyptian culture and Indian culture are connected. To do his research, he has sacrificed many things. He visited Egypt in 2021 and collected many important data. He has plans to publish his book also on how Egyptian art and mysticism are connected to Indian Culture and Mysticism. The lord of the 8th house, the house of research is Saturn here, which is also the Atmakaraka, and the planet of mysticism Ketu, both are in the 4th house of the motherland. This Saturn - Ketu in Libra in the 4th house in the nakshatra of Vishaka inspired him to

research the ancient culture. Also, you can see the Navamsh is rising with the 8th sign of D1 which shows that life will revolve around research-related work. That is how he is trying to awaken people, through finding out some hidden things about our own culture and the planets Saturn - Ketu is giving him that ability to do research.

### **Vishaka Nakshatra:**

#### **1st Pada: Libra Rashi - Aries Navansh:**

Lord Shiv says to Ma Parvati, there was a Kshatriya named Til Verma in a place named Kampilya. He was not involved in the matters of the Kshatriyas but was heavily involved in the karam of a Vaishya. Til Verma did not donate any wealth and used to spend all his wealth which he used to earn through his business. The wife of the Kshatriya was of rough nature. Til Verma collected a lot of wealth but due to his miserly nature, he did not spend any of his wealth in any good deed or even for religious purposes. After some time, his wife and children did not allow Til Verma to use his stored wealth. After due to a snake bite, Til Verma passed away.

Eventually, when Til Verma got reincarnated, he was born in the Yoni of a Buffalo. After that he was given a body of a bull, then a horse, and finally a Human. His past life wife again became his wife in this life. Due to the past life sins, Til Verma faced childbirth issues as after the birth of a female child, no more births took place and he wasn't able to beget a male child. Til Verma suffered from bodily diseases along with constant fever. Lord Shiv now explains the remedy - The native should make a thumb-size Kalpavriksh by using gold. The weight of the Kalpavriksh should be 30 tola. Then a silver bedi should be constructed of the same weight. Every Ashtami(8th), Navami(9th) and Chaudash(14th) day of the Lunar cycle(Tithi), the tree should be established and at the root of the tree, the establishment of Mahadevi should be done. Then the Puja has to be done by following the proper

rituals. After the Puja, the native should ask for forgiveness from Lord Shiv. Every Shivratri, the native should keep fast. By doing these rituals, the native will beget children along with curing bodily diseases.

**Deeper Meaning:** Lord Shiv says the name of the Kshatriya was Til Verma; If you see the word Til, it is a name that is related to Saturn. The name of the village is Kampilya which also has the prominent influence of Saturn along with Mars which shows an area in which a lot of physical hard work and exhaustion is needed. Then Lord Shiv says that Til Verma was not involved in any Kshatriya work which means that he did not want to pursue the work of Kshatriya because it requires a lot of physical hard work and dedication, and instead he was earning wealth through business. As the Rashi of Libra shows wealth and luxury, such natives will desire the same but as the navansh is Aries, there will be a lot of struggles while trying to earn money and the native will not be able to do enough hard work to achieve the target and will opt for something lesser than the original target. Such as if Sun is in this Nakshatra pada, the native will aim to get the managerial position in office but because of the hard work and stress, he will settle down for less. All the significations of Libra such as relationships, partners, business, other people, wealth, will suffer as the native will face struggles in these matters due to not being able to fulfill the intended desire and losing the motivation to continue working hard. As Aries is also the rashi of protection and an army commander, Til Verma protected his wealth (Libra) and did not share any part of it, due to which he had to go through a lot of fights with his wife and family. The curse is of not sharing resources with the partner and being involved too much in the material desires of Libra such as getting married by any means, keeping all wealth to own self, and not allowing expenditure to partner. Due to their miserly nature, his partner became rough-natured with Til Verma and eventually, she and her children did not allow Til Verma to use his wealth. This means that the problems

will come in old age to the native as he will not have enough resources for his daily life and he will not get the happiness of relations with his partner/someone to take care of him. Eventually, due to snakebite, Til Verma passed away. Snakebite here shows affliction to Rahu which means the native had unlimited desires to fulfill due to which he did not bear the responsibility of his family. Note that from Aries Navansh, Aquarius becomes the 11th house confirming the same story.

Lord Shiv says that Til Verma got reincarnated in the form of Buffalo, Bull, and a Horse which shows he paid back some of the karam of his previous life by providing resources or by helping others. All the animals mentioned either provide Milk or are used to carry the goods of other people from one place to another. Lord Shiv then explains the remedy to make a Kalpavriksha, which means

### Rashi:

|                      |                                                                              |          |                |

Venus the karak of Marriage is in this Nakshatra pada and is conjunct Rahu and Sun. One day the native started talking with someone through social media, and eventually started a relationship between them. As the relationship progressed, they wanted to marry but the mother of the native did not

agree with the marriage. Due to this, she left home due to the marriage and then stayed separately from her mother, which caused a lot of emotional pain and struggles to the family of the native. Venus in the 10th in this pada shows that there is major Karam and Debt which will have to be paid in this life by working hard for the partner, but the native adamantly decided to leave the mother for the marriage which is the mistake in this chart. Let us see the result of this action in this Navansh.

## Navansh:

|    |                                                                              |            |             |

Venus is going in the 2nd house with Ketu(9th lord) and its dispositor is in the 7th house itself. Venus is the 8th lord as well which shows something chronic or unsolvable problem will occur after the marriage along with dispute with the husband or related to the inheritance. The story is that the sister-in-law of the native filed a case against the husband because of the share of the property.

Due to this, the native is unable to spend any happy and peaceful time with the husband as both the native and the husband faced emotional torture as well as several cases of abuse from the sister-in-law due to which their mental state is not good. The situation is so extreme with

the sister-in-law that the mother-in-law of the native had to commit suicide due to the pain her own child caused. The remedy would be to give away the property in this case as Venus is going in Aries with Ketu, who is the karak of leaving things; as well as the native should give support to her mother and come to terms with her, as the decision she made regarding this marriage caused the mother(4th house) a lot of pain and sorrow.

If you see the 7th lord of the D1 chart, It is in 9th house with Mercury who is in Mrityubhag which shows major troubles from the sister of the Husband.

## **2nd Pada: Libra Rashi - Taurus Navansh:**

Lord Shiv says to Ma Parvati, there lived a Brahmin in Vishnu Kanchi puri. He was a wise person and he was a devotee of Lord Vishnu. In the body of the Brahmin, the Vishnu Chakra was imprinted. He did not read the Vedas and the Scriptures, as well as he did not even touch other Brahmins. The Brahmins who were involved in Vedas and Scriptures always kept a distance from them. The Brahmins who were the Devotee of Lord Shiv, he did not pay the due respect to them as well as never bowed in front of them. Eventually, as he grew old, he passed away.

Eventually, when the Brahmin again got reincarnated in the yoni of a snake, and then he got the body of a human. Due to his past life sins, the Brahmin was always in a miserable state due to bodily diseases. Every year the wife of the brahmin begets a male child but the child passes away soon. Eventually, the wife wasn't able to Beget any children. Lord Shiv now explains the remedy - The native should donate 1/8th of his stored wealth to the Brahmin along with performing Gayatri Jaap. Coconut and White Gourd(Kumra) should be flown in the river Ganga along with Panchratna(five jewels). Doing these rituals, all the problems will be cured i.e bodily diseases and childbirth issues.

**Deeper Meaning:** Lord Shiv starts the story by saying that the native is born in the religious and holy place of Kanchipuram as well as was born in the family of Brahmin. Such a native will get the right guidance, Guru, and support from elders and family during his troubled times, and as a result eventually, he will be able to fulfill his desires and achievements in his life. The rashi and navansh are both of Venus which shows that the native has ample number of resources and wealth in his life. The Brahmin even had the Symbol of Vishnu Chakra on his body. As Lord Vishnu is the devata who maintains everything in this universe (Mercury), the Brahmin was supposed to carry out his religious duties as well as guide and teach the masses. He was supposed to carry out his daily duties as a Brahmin and follow the principles of the Vedas and Scriptures.

Lord Shiv then says that the Brahmin did not care about other Brahmins and even did not bother to study the Vedas and Scriptures. This means that the native had developed a superiority complex and thought that others are inferior to him. This is due to the fact that the native took birth in a religious place, in a Brahmin family as well as he had the Vishnu Chakra marked on his body. All these things led him to believe that he is superior to everyone around him and thus due to the rise of his ego he started disrespecting everyone around him. Such natives will have a very high ego due to family status or Inheritance and they will be narrow-minded and will not be able to accept anything else other than what he believes in. The Navansh here is of Taurus which is also the 8th house from Libra. As the 8th house shows the inheritance and unearned things - the Rashi of Taurus shows the native has the bhagya of gaining the unearned resources such as supportive family members, wealth, and food, but when the native becomes egoistic and starts badmouthing or doesn't share his resources to help others, then this 8th house will become the unsolvable troubles from which the native will not be able to get out. As the rashi goes from Libra to Taurus, the native will not share his resources with the public and will speak badly about other

people. Such natives should donate valuable resources to other people such as clothes and food without thinking about their status of family and wealth. As Lord Shiv says that the Brahmin disrespected the Devotees of Lord Shiv and never bowed in front of them, which means that the Brahmin never accepted any native with a different opinion, principle or perspective other than him, and thus such people should accept everyone as they are and understand that there can be as many solutions to problems as the no. of stars in the universe. Each human being will have a different opinion or a different way to look at things and just accepting this fact will transform and bring better changes in the life of the native of this Nakshatra pada.

Lord Shiv then says a very unique remedy of flowing Coconut, White Gourd along with the Panchratna. Here panchratna means that the native should take 5 types of fruits and then flow it in the river of Ganga.

### **3rd Pada: Libra Rashi - Gemini Navansh:**

Lord Shiv says to Ma Parvati, there lived a Kshatriya named Tej Sharma in the city named Vidarbha. Tej Sharma harassed Brahmins and used to take their money of Brahmins and cause them a lot of pain. Tej Sharma had several people who worked for him (Employees). He used to give a lot of pain and sorrow to his employees and used to insult the scriptures and vedas. Due to this fear, all his employees left the village and went to different places. After a lot of years, Tej Sharma passed away.

Eventually, when Tej Sharma got rebirth, he got the yoni of a male donkey, and then he took birth as a human. Due to his past life deeds, the wife of Tej Sharma wasn't able to beget children. Tej Sharma himself suffered from skin diseases such as Ringworm and Eczema, along with piles. He was not able to be happy and always stayed worried. Lord Shiv then says the native should donate 1/10th part of his stored wealth to the Brahmin along with 1 lakh jaap of Lord Krishna. Eventually, the issues of bodily diseases and infertility issues will be cured.

**Deeper Meaning:** Lord Shiv says that the name of the Kshatriya was Tej Sharma. Tej literally means might and power and this shows the native had a lot of ego within him - so much so that he was unable to think beyond his own self-interests which resulted in selfishness. Lord Shiv says that Tej Sharma caused a lot of harassment to Brahmins and he used to take their money along with insulting the scriptures and Vedas. This is due to the fact that Tej Sharma was too focused on his personal interests and did not care about anything else. The navansh is Gemini, which signifies Selfishness and Greediness, and since it is coming with the base energy of Libra - the native became full of greed regarding earning wealth and resources, by any means. Gemini is also the 9th house from Libra, and 9th house is the House of Guidance, Principals, Guru - the native caused trouble to the Brahmins due to his own selfishness. Here the native is not following any principles of the Vedas and saying abusive words (Gemini) instead. Tej Sharma taking the Money of Brahmins means that he is not giving any Gurudakshina to people who are advising him, and in the modern era, it will manifest through the bosses, teachers, astrologers, and the native not giving the due wealth as well as respect to them in spite of being helped by them. This is also due to the fact that because the native already has enough resources and wealth (Libra), the native will think he does not need to pay any respect or bow down to anyone.

Then it is also mentioned that Tej Sharma caused a lot of Pain and Sorrow to his employees. The 6th house from Gemini has the rashi of Scorpio which already shows troubles to servants and employees. Scorpio is also the rashi of fear and because of so much trouble caused to the 6th house significations by the native himself, the employees left and went to somewhere else (Unsolvability problems). The deeper meaning is that such natives will pressurize the 6th house significations for their own personal benefits and will not have any concern for them,

due to which the native will cause a lot of trouble to the 6th house matters. Such as is Ketu is in this Nakshatra, the native will harm dogs, or you can see the 6th house from this Pada and those significations will be hurt by the native which will later cause unsolvable problems to the native.

Lord Shiv also says that during rebirth, the native was born as a male donkey, which shows he had to pay back some part of his karam by doing service to people, as donkeys were used as a working animal to carry people's goods. The mentioned problems which occur later are the skin diseases which show that problems with Gemini will come such as paperwork, siblings, friends, subconscious brain and the native will have severe troubles with these significations.

The remedy which lord Shiv mentioned is donating 1/10th part of stored wealth to Brahmins - which means that the native should use his own resources to do good karam and help and learn about the scriptures and Vedas without having any presumptions or non-acceptance. Then 1 Lakh jaap of Lord Krishna is advised, which means that the native is doing the karam of Mercury and improving his thought process(Moon) - hence the native is advised to do the same which will generate pure thoughts and he will be able to accept different opinions and perspectives of other people.

#### **4th Pada: Scorpio Rashi - Cancer Navansh:**

Lord Shiv says to Ma Parvati, there lived a Kshatriya in Mayapuri, Haridwar. The Kshatriya was brave, wealthy, famous and he used to serve the gods along with guests. The wife of the Kshatriya was very beautiful and her name was Shata. Shata was devoted to the Devatas, Brahmins as well as guests and used to serve them. One day, a vaishya who was in the business of gold, shifted to Mayapuri and eventually, the gold businessman became very good friends with the Kshatriya. One day the businessman gave 400 tolas of gold

along with the leftover gold to the Kshatriya. After that, due to the bite of the snake, the gold businessman who did not have any children, passed away. The Kshatriya and his family consumed the gold which was given by the businessman and no portion of the gold was used for donation. After a few years the Kshatriya passed away.

Eventually, the Kshatriya got reincarnated in the yoni of a human being and eventually became prosperous as well as married the same wife from his previous birth. Due to his past life sins, the Kshatriya's wife did not beget children and upon conceiving, the child became miscarried. His wife suffered from a lot of bodily diseases. Lord Shiv now says that, the native should donate 1/6th part of his stored wealth to the Brahmin along with giving food(bhoj) to 100 Brahmins. A tree with fruits and flowers should be made from 40 tolas of gold and then donated to a Brahmin. Puja and fasting of Lord Surya should be done every Sunday.

**Deeper Meaning:** Lord Shiv says that in Mayapuri there lived a Kshatriya who was prosperous and used to serve gods - this means the Kshatriya did his karam dutifully which can be seen as from Cancer, Aries is in the 10th house which is a Kshatriya rashi. Also, such natives will have very fixed principles as the Navansh is falling in the 9th house from Scorpio and Scorpio is a fixed rashi - whatever principles the native gets emotionally connected to, they will follow that throughout their life. The Kshatriya had a beautiful wife, but Lord Shiv did not mention that his wife was devoted to her Husband, instead, Shiv Ji wrote that she was serving Gods, Brahmins and Guests - this shows that such natives will face problems in decision making as they will tend to make their decisions more on their emotional attachments and not the logic, due to which they will make the wrong decisions. There will also be problems within the home as such natives will not get happiness from their home and will face emotional troubles

- due to the base energy of the Navansh being Scorpio and Moon himself being debilitated in this rasi. From Cancer, the 7th house is Capricorn which is a very logical and dry rashi with no emotions, which further confirms disbalance with the partner as mentioned in the story.

Then it is mentioned that a Vaishya who was into gold business, came to the village and eventually became good friends with the Kshatriya - which again can be seen from the 7th house Capricorn - here Capricorn is the gold and 7th house is the business partner. The Vaishya gave all his gold to the businessman - here gold is the business resources, wealth, and the new ideas. Lord Shiv then says that the businessman passed away due to snakebite and the Vaishya did not have any children - this is very important as this indicates that the Vaishya earned by wrong and immoral methods, as snake here is Rahu which indicates cheating, and having no children is because of an afflicted 5th house, which indicates negative karam or harm done in past life. The information about the nature of the Vaishya was known to the Kshatriya too as Lord Shiv mentions that they became very good friends. The curse here is that such natives will help someone else or support them in spite of knowing that their doings are immoral - as well as do such activities by themselves as the native is now governed by his emotions only which has taken a very deep root inside him.

The Kshatriya did not return the gold once the Vaishya passed away which shows the native will use the resources of others and will not give them the due credit and the payback which native is supposed to give.

Upon reincarnation, the Kshatriya again married the same wife from the previous life - which shows the debt of the 7th house. All the afflictions are mentioned in the name of the wife and not the Kshatriya which shows that while making

decisions and performing any action - such natives should be very logical and not choose everything on the basis of emotions. Lord Shiv also says that the native should feed Brahmins and donate his 1/6th part of his stored wealth which again confirms that the native should not make principles based on only emotions - here 6th part is the 6th house of disputes and giving it to Brahmins, which is the 9th house, will reduce the emotional attachments and the native will be able to think logically eventually.

## Rashi:

|       |                                                                             |       |               |

In the above chart, 2nd and 11th lord Mercury is in this nakshatra pada and conjunct Venus which shows issues or decisions taken related to savings, earnings family which were immoral and based on the emotions of the native. Dispositor Kety is in the 11th house with Saturn - the native worked in a job related to stock market and while making the accounts of the customers, instead of getting the sign from the customer, he used to sign on behalf of them. At the same time, native had 2-3 bank accounts by which the native exploited the loopholes within the stock market system and used it to earn extra amounts of money.

## Navansh:

In D9, Mercury is again the 11th and the 2nd lord and is in the 12th house of Cancer. Dispositor Moon is debilitated in the 4th house. Till today the native is facing financial issues as his regular income is not increasing sufficiently and fluctuates often, the native does not have a good relationship with family, especially the elder sibling - their relationship became distant eventually.

The above-mentioned story was just one part of the karam which has been done by the native - As Lord Shiv explained the story and the theme of principles and emotions, the native has helped his students (Mercury - Students/Children) by teaching them for free as they were facing financial difficulties, also during any crisis period of the family (2nd house), the native has helped tremendously as much as possible in spite of not having very good relations.

If you see and practice this on the charts, you will realize that there are good karam too which has been done by every being, as otherwise, they would not have even taken birth in the yoni of a Human as it is not possible for a soul to get the body of a human without doing at least some good karam in their past lives.

# Anuradha

MITRA

(God of Friendship and Commitments)

# Anuradha Nakshatra

**Anuradha Nakshatra:** Once the warlike qualities of Vishaka Nakshatra is over so now it's time to go to a more settling nakshatra which is Anuradha. It brings peace and harmony as this nakshatra lies in the Scorpio sign of the Zodiac and being the sign of death, Everyone wants to go out peacefully.

## Technique - 1 :

**Grudges:** You can have several grudges with a person but when the person is dead or on near to death you tend to leave the grudges and come to an agreement.

|       |                                                             |  |       |

Planets which can absorb shocks and can bear the pressure of partnerships as this is a partnership where submission from the native is required otherwise the person can become extremely cruel and does not regard any terms in friendship.

### **Examples:**

The Example below is a chart of a female native. She has Lagna Rising in the nakshatra of Anuradha.

She has gone through a lot of stress in her life. Her first two children died just after they were born. At that time, she had faced a huge shock and went through humiliation and pressure from her in-laws. As the people of her in-law's house thought that they would not have any descendants. But she overcame all adversities with determination and devotion and also absorbed all the previous shocks & a few years later, she gave birth to a daughter.

This nakshatra is ruled by a Mitra which translates to friends and the symbol is Lotus in this nakshatra. This is the second nakshatra with Lotus as a symbol as the first one was Pushya and that nakshatra also belonged to Saturn and this is the second of Saturn Nakshatras.

As all of the Saturn nakshatras are to bear the pressure so earlier it was social pressure in the nakshatra of Pushya while in Anuradha, there is a pressure of time and failure to complete the task.

As the name suggests Anuradha which means the native has to be devoted towards the cause without thinking about anything else in between such as to complete the goals even if we have to alliance with the person we don't like, we have to make sacrifices for the greater good & more than a partnership of choice, this is a partnership for common agendas.

Vishaka was also called Radha nakshatra as well and Vishaka and Anuradha form a pair of two Radha but in Vishaka, the partnerships and alliance were of mutual interest and for equal

opportunity while in Anuradha, the alliance is happening due to grudges, failure and this is not an equal alliance.

## Technique - 2 :

Let us suppose this nakshatra falls in the 7<sup>th</sup> house or 7<sup>th</sup> lord in this nakshatra or Venus in the nakshatra of Anuradha, so you will get married but only because now there will be a lot of pressure and time-bounded that what will happen if your age crosses and this is a marriage where both parties might not be equally interested. Although if good planets occupy this nakshatra, there might be an equal alliance but most of the time, it is seen that alliances are not equal or on equal terms when Anuradha nakshatra is involved.

Let us look at one more example. This example chart below is of a male native who has the 7th lord Moon in the nakshatra of Anuradha.

|                |                                                                                      |    |                  |

Native was not interested in marriage early in his life. But his parents put pressure on him, and he got married in 2009. Thirteen years have passed since then, and no child has been born due to some health complication of the native and his spouse. Native has often thought that he would not keep this

relationship, but he has kept the marriage alive because of social pressure and respect.

Similarly, when the 10<sup>th</sup> lord or Saturn goes in this nakshatra, the native does the job more than his passion or eligibility because there is some compulsion of a contract or requires some other document from the company & to complete the clauses, native keeps on working in the company. He has to do something always extra to show that the native is devoted to the company.

The chart below is of a native who works in a private company. He has Saturn in the 6th house of Daily Routine and Job in the nakshatra of Anuradha.

|          |                                                                                     |          |    |

The native always complains that he does not get attention and praise from his boss even though he works a lot. He laments that his co-workers get more salary than him even though they have less experience and workload compared to the native. Also, he never says 'No' to anybody in the office related to the work, that is why he has to work more than others. He remains worried and sad always, thinking about this.

### Technique – 3:

**No Recognition:** Anuradha nakshatra natives find huge trouble in getting recognized and getting things legalized such as if the native has Sun in Anuradha nakshatra then nationality, his own father accepting him as a child and even his own identity crisis will be there with the native.

If the 5<sup>th</sup> lord goes in Anuradha nakshatra then the native will have a crisis in terms of getting his degree recognized or maybe later he will choose a field where degrees are not even required. Even with kids, the native will have some relations outside marriage, and the name and recognition to that kid might not be given by the native.

The example below is a chart of a native who has 2nd lord Venus, 5th lord Sun and Rahu, three major planets in the 8th house in the nakshatra of Anuradha.

|       |                                                                                      |       |       |       |

The native's parents used to play tricks with her in her childhood telling her that she didn't look like her parents, just for entertainment and to play with her. But these things had remained stuck in the native's heart and psychological mind and gave her mental pain till her late teens. She always thinks that she doesn't look good, and people may make bad comments about her looks and appearance.

She is a private tutor by profession& even though she teaches very well, she does not get respect from the students. Her own students make bad comments on her back. Even in the past, some students much younger than her gave her bad proposals. However, she could not stop giving tuition due to her financial situation. Even by teaching well, she does not get recognition but faces humiliation.

This is how the 2nd house lord, which is the house of the face and how we see things, and the 5th house lord which is the house of children and students, conjunct with Rahu, have manifested through Anuradha in her chart.

These natives suffer badly in terms of getting legal validity as life is like a backdoor entry to them to be in the background and work without any name or fame in life as they are always shadowed and this can be both good or bad as a trait as these people work silently and even without any legal entity they still hold more power than the actual person like, these people might not be the boss or manager but still will be more influential than the boss.

These moreover remind me of a book by Robin Sharma - Leader with no titles as more than titles, what attracts them is satisfaction in work & more than power what attract them is the atmosphere. What attracts these people is love and devotion and this is the true power of Anuradha nakshatra.

## **Anuradha Nakshatra & Karam Vipak Samhita:**

### **1st Pada: Scorpio Rashi - Leo Navansh:**

Lord Shiv says to Ma Parvati, there lived a Baniya, in a city named Kalyan, which was nearby Mayapuri. The Vaishya was very proud and had a lot of ego because of his wealth. He used to earn and spend daily as he was involved in the import/export business but he did not use any of his earnings for donations. His wife had relations out of a marriage and she had two male children. One of the sons was a gambler and another son was having an affair with a Brahmin lady. The

Vaishya was able to store a lot of wealth, and on a daily basis, he used to buy and sell goats. After some time, the Vaishya passed away.

Eventually, after being reincarnated, the vaishya got the yoni of a Tiger, then a crow, then a rooster, and then finally he was born as a human. The wife of his past life again became his wife in this life. Due to the past life sins, the wife of the Vaishya suffered from a lot of bodily diseases and she wasn't able to beget children after conceiving, the birth was given to a dead child. After some time, the wife was able to beget one child. Lord Shiv now says the remedy - The native should donate all his money and do the Pooja of Lord Surya along with 1 lakh Jaap of Gayatri Mantra. By doing these rituals the native will be cured of all diseases along with the birth of a male child.

**Deeper Meaning:** Lord Shiv starts by the city name of Kalyan which means auspicious and fortunate - and being in such a city the Baniya had a lot of wealth and resources within his possession. Lord Shiv says that the Baniya was very wealthy but had a lot of ego due to his status. This is seen as the Navansh is the rashi of Leo and it has base energy of Scorpio. Leo here signifies the ego and proudy nature and Scorpio is a fixed rashi - it made the native too much egoistic who is unable to understand other people as he has now become blind and is unable to understand the bigger picture as well as the feelings and situations which other people/masses go through. It is mentioned that the Baniya was involved in the business of Import/Export but he never used to donate - donation here means that the native is not helping other people during the times of their trouble and has become too business-minded without any emotions (Cancer rashi is in the 12th house form Leo). This is again due to the Rashi of Leo giving the Baniya too much ego and superiority complex - so much so that he is not even taking care of other people and is fully focused on getting more money, fame, position, and honor. Such natives will go through a similar situation where

they will make decisions or take actions that go against the masses and they will not help those who come asking for help to this native. There is an unsolvable problem due to ego and status of the native.

Then it is mentioned by Lord Shiv that the wife of the Baniya was involved in relations outside of marriage as well as his sons were involved in illicit relationships. It is not mentioned that the Baniya stopped them from committing such actions. Scorpio is also the rashi of something which is unearned(Bonus), and Leo being the navansh shows that the native has gotten the inherited wealth of family due to his PurvaPunya but just because someone has wealth, does not mean that he is supposed to forget about his family and not take care of other people during problems. As Leo is the 10th navansh from Scorpio, such natives will get so much involved in getting fame and honor for themselves, that they will be unable to look after their family as now the only vision(Leo) they have is of their own Karam.

Natives of this nakshatra pada should take care of their family along with their profession, and donate their own resources to other people whenever someone requires it, as doing sacrifices for common people without any expectations on a regular basis will improve the life of the native immensely. Such natives should understand how minuscule You and I are with respect to the universe, like a speck of dust, coming and going in the cycle of reincarnation several times, performing our respective karam until liberation and oneness with the Almighty is attained.

After the reincarnation of the Vaishya, he got the body of a tiger, crow and a rooster - every reincarnation has a different meaning such as a Tiger has to hunt for his own food(recourses) and if other prey are hiding within the jungle, the Tiger will not be able to gather food for himself. Similarly, a crow consumes whatever food he can find but has to always stay alert for any predators such as hawks

and eagles. As the Vaishya did not donate recourses in his past life, in these reincarnations, he is paying back by facing struggles in resources and not having timely food. The results mentioned is of giving birth to children who are dead - which can be seen as the Leo is the natural 5th house of children and this navansh having base energy of Scorpio is creating unsolvable issues to children. Practically, the manifestation will come through the affliction of the significations of Leo such as stomach, education, children, vision, too much ego, not having discipline, etc. Lord Shiv then advises the remedy of doing Puja of Surya dev along with 1 Lakh Gayatri Jaap - both of these remedies will improve Surya and bring a lot of discipline, responsibility and the ability to sacrifice for common people.

### Example -

|    |    |                                                                              |          |          |                |

In this chart, Venus is in this pada and is also the conjunct Moon who is the 7th lord. Dispositor of Venus is in the 9th house (Children, Principals, Long term planning) in Virgo (Disputes).

In the year 2013, The native did love married with a girl but regardless of doing love Marriage, the native was into multiple

relationships before as well as after his marriage. As Venus is the 5th lord, after the conception of a child, the native got into a lot of disputes and turbulence with his wife and the in-laws due to his extramarital relationship. Eventually, he caused a lot of mental traumas to his wife and it became very extreme for his wife.

Venus here is in the 8th house with Saturn (pain, sorrow) in Leo and its dispositor is in the 6th house of disputes. Due to the trauma caused by him to his wife, one day the wife burned herself along with her unborn child and both of them passed away. The native lost both his wife and his child and this event were very shocking to the native and it caused a lot of pain and sorrow. As Venus is the 10th lord, the native is already going through professional troubles but when the right dasha will come, he will face severe legal troubles along with health issues as Saturn is the Lagan lord conjunct Venus.

There is no remedy for this kind of action as if you are intentionally causing harm to other people and have no remorse for it, then nature eventually will give you troubles that are not solvable and at that time there will be no one who will be able to help you.

## 2nd Pada: Scorpio Rashi - Virgo Navansh:

Lord Shiv says to Ma Parvati, there lived a carpenter in Maghad who was talented, wealthy. The Carpenter had children as well as grandchildren. When the carpenter reached half of his lifespan, he faced a lot of financial troubles, due to which he became poor. The Carpenter borrowed 400 tolas of Gold from a Yati, and day by day he used to spend/consume the gold. Eventually, the carpenter did not return the gold to the Yati - and after some time, the carpenter passed away. The shraddha of the Carpenter was done by his son following the proper rituals, and donations of gold and silver jewelry along with a black cow were done.

Eventually when the Carpenter was reincarnated as a monkey, then a bear, and then finally he got the yoni of a Human and was born into a wealthy and prosperous family. Due to the past life karam of carpentry, he was suffering from bodily pain. Due to his karam of taking away the gold from the Yati, he faced troubles due to childbirth issues of a male child and gave birth to a female. Eventually, the carpenter gave birth to a male child but he was involved in gambling, prostitution and did not listen to his parents. Eventually, the child of the carpenter passed away. The wife of the carpenter faced childbirth issues eventually. Lord Shiv now explains the remedy - the native should use 1/8th part of his stored wealth to go good karam. Upasana and fasting of Lord Surya should be performed along with "Akreshnen" Mahamantra as well as fasting on Ravi Saptami. A white lotus should be kept on top of a bamboo leaf and then a statue of Lord Surya made of gold should be kept over the Lotus. The weight of the statue should be 5 pals. Puja of this idol of Lord Surya should be done by following the proper rituals and then the idol is to be donated to the Brahmin along with a cow with a calf. By doing these rituals the native will be cured of all diseases along with fulfillment of the wishes of the native.

**Deeper Meaning:** Lord Shiv says that there lived a Carpenter in Maghad. Carpentry is one of the professions which require very good precision and the ability to be very detailed and minute while doing the work, which can be seen by the navansh of Virgo - which is a very intellectual and detail-oriented rashi. Lord Shiv then says that after a certain time the native became poor due to financial issues and even upon taking a debt, he did not return the money. Lord Shiv does not mention why he faced financial problems. In this nakshatra Pada - the base energy of Virgo is Scorpio which is a hidden rashi and in this story the Carpenter actually earned money through hiding necessary information, stealing by not providing good quality service or overcharging. Virgo is the 11th house from Scorpio which shows obsessiveness in fulfilling one's desire and earning money due to which such native will choose the illegal route or not follow any moral principles while performing their actions. Such natives will be good at hiding things and information (Mercury) but ultimately it will lead to their own downfall through financial troubles, debts, and not being able to fulfill their desire. As the carpenter took debt from a Yati and did not return it back shows that such natives will use the resources of friends, siblings, colleagues and not give them the proper respect, gratitude, credit, payment (in case of money). The curse here is of taking and using resources of someone and committing immoral actions which one should not do - and these actions will eventually result in problems such as undetectable diseases, issues with money, cheating by friends, bad relations with cousins, not getting a proper salary, etc. After the Carpenter passed away, his Shradhh was done by his done - this is because the Rashi of Leo is in the 12th house from Virgo indicating the involvement of Children after the loss of the body of the Carpenter. But here the donation has been done of a black cow - here cow is the resources and the black cow means that the hidden/unearned money was used in the donations. Such natives should not consume wealth which does not belong to them and whenever they

are earning, they should first set their own moral grounds. Lord Shiv then says that after being born as animals, the Carpenter finally for the body of a Human being he suffered from bodily pain as well as severe troubles from children, which as be seen as Leo in the 12th house from Virgo indicating that due to the loss of moral values in a past life the native is suffering on the account of children. From Virgo, Capricorn is in the 5th house as well as the 5th and 6th houses have a common dispositor Saturn, which shows struggles and health issues to the children. During practical readings, depending on the house and planet, change the significance of the affected area such as If the Sun is in this Nakshatra pada in the 9th house in D9, then the results will come from the father, government, bosses, authority, and legality, due to the karam which has been done in D1.

Lord Shiv then says the remedies - that the native should donate the 1/8th part of his wealth to do good karam - which means that all the illegal/unearned wealth the native has acquired should now be donated to people who are needy and require some form of help, otherwise it will lead to unsolvable problems of the 8th house.

As the karam which the Carpenter did was without any shred of morality, Lord Shiv then mentions several remedies of Surya Dev which shows that the native should refrain from doing anything immoral and should set certain definite moral standards for him which he should follow at all times.

Example: In the chart below let us focus on the good karam the native has done and not on the negative part. Always remember that there will be both good and bad karam by any being and depending on the afflictions to the respective planets, you can judge the good and bad parts.

While reading, readers will notice that it is much easier to predict anything negative but it is much more difficult to tell anything positive, such as if you see the Mars Rahu conjunction in the 8th house, you will clearly think about events related to

cheating in Inheritance, accidents, property issues and problems related to tumour and cancer. These predictions will come first and hardly anyone's first prediction will be that this person is into research and he has the ability to do the best research within his whole team, as well be he will be very good with electronics and he will take all the responsibilities related to the last rites of the paternal family and serve his ancestors on a regular basis.

This is why in spite of the afflictions, try to look at the positive part of every combination as every one of us has done something or the other which we weren't supposed to do, but when the client comes to the astrologer, instead of making him/her feel miserable from the starting, it's much better to give happiness and comfort to the native by telling the positive karam and then telling the mistakes and remedies eventually.

In this chart, Mercury the karak of Education is in the 12th house conjunct closely with Sun, who is the 9th lord of Higher education. Both Sun and Mercury are in the same pada. There are issues related to the marriage of this native and this is easily visible as the 7th lord is in 12th in Scorpio, but the interesting

story of the native is that she was very interested to study and pursue Medical and study further regarding it and take career opportunities. However, she received a lot of backlashes in her journey from other people as well as she got sick due to Tantra in 2018. In this case, as the Navansh is the 11th house from Scorpio - Regardless of all the obstacles the native faced, he still pursued to study medical. As the combination is happening in the 12th house of faith and that too in Scorpio, he became very adamant in pursuing her subject of interests and never backed down from it.

**Navansh:**

Her actions of pursuing the subject of interest regardless of the obstacles led her to crack the medical exam and get a place in a government college but she had to wait 5-6 years more for it - Look at the combination of Sun and exalted Mercury in the 5th house of Education.

### 3Pada: Scorpio Rashi - Libra Navansh:

Lord Shiv says to Ma Parvati, there was a country named Saurashtra, in which there was a famous city named Sukarma, where a Brahmin lived. The Brahmin did not follow any

traditions and used to sell elephants, horses and chariots. One day the Brahmin set fire to his own village, due to which a lot of Brahmins and Brahminis along with Cows passed away burning. After sometime the Brahmin passed away too.

When the Brahmin got reincarnated, he was born in the yoni of an elephant, then a Tortoise, a crow, and then finally he was born as a Human in a reputed family. He was prosperous as he had a lot of wealth and property but due to his past life karam, his lineage did not move forward as the Brahmin was not able to beget a male child. The Brahmin also faced a lot of bodily diseases. The wife of the Brahmin got sick due to fever every month during the time of her cycle.

Lord Shiv then says the remedies - The native should donate 1/4th part of his stored wealth to Brahmins. The native should do this donation on the day of Makar Sankranti, in the city of Prayagraj along with his wife. For 1 week daily, the bath should be taken in holy rivers. Donations of gold along with property should be made to Brahmins. Jaap of the Gayatri Mantra, Jatved as well as the Mahamrityunjaya mantra should be done. Harivansh puran should be listened to by the native.

Doing these, the native will beget a male child and issues of childbirth, along with the bodily diseases will be cured.

**Deeper Meaning:** Lord Shiv says that the Brahmin lived in a place named Sukarma - the literal meaning of which is "a city where good karam is done", hence all people of this city perform there karam dutifully. Lord Shiv then says that the Brahmin did not do his assigned Karam which means that such natives will be distracted and will not be able to complete their assigned task on time, such as if the 10th lord is in this nakshatra pada, then the native will not complete the assigned projects on time which is given to him by the boss, which will cause him troubles later on. Scorpio is a fixed rashi, meaning the significations of scorpio are very hard to change and will require transformation which is not an easy task to

do. The navansh is of Libra shows that the native is stuck onto doing business/something independent and seeking the material pleasures, which is making him distracted from his assigned karam. A Brahmin's work is always related to Jupiter such as studying vedas, following principles and learning about the necessary rituals and then using that knowledge to help masses along with their own locality, and perform the necessary Jupiterian tasks for them. The Brahmin is not doing the work because he is more focused on the wealth which he can earn and the pleasures which he can seek. The navansh is of the 12th house showing the native will pursue something independent from which he can earn wealth (Libra). Lord Shiv then says that the Brahmin set fire to his own village due to which a lot of Brahmins and Cows passed away - this shows harm done to the locality/masses/public and causing them a lot of pain and sorrow.

Here the rashi of Cancer (Brahmin) rashi is in the 10th house which is the natural house of Saturn, who is the karaka for pain and sorrow and Capricorn is in the 4th house which indicates the same karam. But why would the Brahmin commit such a sin of killing the masses eventually it is a loss for him too as his business will not flourish within his village. This is because he did these actions out of Jealousy as Scorpio also represents Jealousy issues and such natives will hold on grudges for other people (Libra) and eventually cause harm to them. Setting fire to the village means that natives will cause harm to the masses and people who are close to them and give them pain and sorrow - hence such natives should let go of all the hatred that they have harbored of other people which will make them a lot lighter and happy in life. One can give shringar to the Ugra Devi on a regular basis.

The Mooltrikon of Jupiter falls on the 3rd house from Libra which shows a lack of respect and principles/beliefs in the significations of Jupiter and not respecting Brahmin and speaking ill about them - as in the story it is specifically

mentioned that several Brahmins and Brahminis were killed - 3rd house is the Marak Karak sthan of Jupiter. Not speaking ill about Elders, Teachers, Pujaris will help the native to reduce this curse.

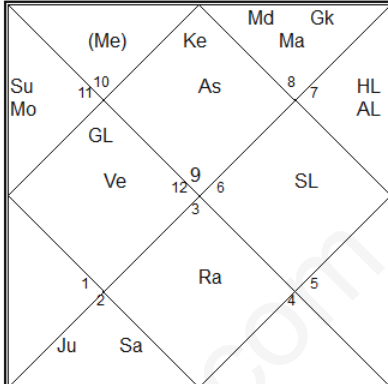

Upon reincarnation, the Brahmin got the yoni of an Elephant, Tortoise and crow - all these animals have to go through a lot of struggles and stay alert as they can be hunted by preys such as Lions and Tigers are capable of killing an elephant, Eagles are known to kill crows and for a tortoise, during their lifetime if they get turned down on their shell side to the ground, they are unable to turn upside by themselves and they will starve and pass away eventually if no other helping them. By living such a life, the Brahmin is paying back for his past life sins- this karam will get manifested by dire situations related to relationships, marriage, divisions, business, public, as the Navansh is of Libra and as the base energy is of Scorpio, the problems faced will be unsolvable.

Lord Shiv is very specific when he says the result, that the wife of the Brahmin often faces fever during the time of the monthly cycle - which is due to the Rashi of Mars being in the 7th house from Libra - which again confirms the respective problems as mentioned above.

Lord Shiv then says a very specific remedy - that during Makar Sankranti the native should donate 1/4th part of his wealth by visiting Prayagraj along with his wife and taking bath in the holy rivers - this exact remedy can be performed by the native, but the deeper meaning is that Sun will transit from the 4th house (From Libra) during Makar Sankranti and during this time, donations and having a bath in holy rivers means that the native should do some service to the masses and his homeland and do good for others instead of harming them. This remedy will provide purification in the actions of the native and he will start improving his karam eventually.

## ANURADHA NAKSHATRA

### Rashi:

|          |                                                                               |          |              |                                                                                   |               |     |               |

In this chart, Mars is in Anuradha 3 in the 12th house with Md Gk. Mars is the 5th and the 12th lord itself showing a connection between the native's passion and the bedroom life. The native is young in terms of his age, hence the prediction which was made to him was related to the bad habits of the bedroom pleasures, to which the native confirmed that every day before sleeping he has to watch some kind of adult content, without which he cannot sleep. The native also has a habit of not donating money (12th house) to other people even when someone comes asking for it. 5th house is also the house of education and the native confirmed that sometimes he did not pay the fees of the tuition teacher he used to go to study, and used that money for himself. Everything related to Mars, is now governed by seeking personal pleasures as the Brahmin in the story did business (Libra- outer world) instead of performing his assigned karam. Let us see the fruits of such actions of the native.

## Navansh:

Here, Mars is in Libra in 6th with Ketu who is the 7th lord of relationships. The native was already in a relationship for around 2 years, but one day the native's partner left the native suddenly without any prior information. When enquired, his partner showed a lack of interest to be with him anymore and showed no concern for the native. Due to this incident, the native was very upset and unable to forget the memories of her partner for some time, as well as he caused self-harm by cutting his hand due to relationship issues in past. Since the native has not married yet as he is very young, the remedy, in this case, would be to start donating regularly to people who have body deformities or suffering from an incurable disease and rectify the current actions related to the bedroom.

## 4th Pada: Scorpio Rashi - Scorpio Navansh:

Lord Shiv says to Ma Parvati, there was a country named Saurashtra, where a Bhat lived. He was a poet, fortunate, and he was devoted in his line of work. The Bhat had a wife who was very beautiful and was devoted to the seva of her husband. One day, a Brahmacharya came to the house of the Bhat, but the Bhat was not able to perform the necessary tasks/

hospitality for the guest, due to which the Brahmachari had to stay hungry. The next morning, the Brahmachari cursed the Bhat and left the home, and coincidentally, a cat gave birth in the home of the Bhat. The Bhat killed all 5 kittens and the mother cat did not get any food for herself. After sometime the Bhat passed away and during the cremation, the wife performed Sati.

Eventually they both got reincarnated at the same time in the Yoni of a Human. The Bhat was born in a wealthy family, but due to his past life deeds all the children passed away early due to which his lineage was not able to continue. The wife of the Bhat suffered from high fever constantly.

Lord Shiv now tells the remedies - Native should do 1 lakh jaap of JatVed. A statue should be made of a cat and her 5 kittens. It should be made of gold and silver and should weigh 15 Pal. The statue has to be given proper shringar and then donate to the Brahmin. Donation of Pind (Pind-daan) should be made along with a red cow during Amavasyas which occur on Mondays and Thursdays. Fasting should be done on the 7th tithi which falls on a Sunday (Ravi Saptami).

**Deeper Meaning:** Lord Shiv gives the same name of the country as given in the previous pada indicating some similarity in the story. Here the story is of a Bhat. Bhats' were Brahmins in older days who were closely associated with the king or at least very powerful people within the country. It's mentioned that the Bhat was devoted in his work and his wife was doing seva of her husband - both of these events can be seen as the 3rd house from Scorpio navansh as the rashi of Capricorn indicating work and karam of the native which is among his hobbies and he is interested to perform his karam. The 7th house from Scorpio has the rashi of Taurus which shows a beautiful wife and someone who is involved in taking care of her family. Then Lord Shiv says that the Bhat did not provide the hospitalities to the Brahmachari due to which he stayed hungry - this means that the native was so much involved

in his work, they did not care for anything else and did not provide the food to the Brahmacharya - as a result, the Bhat was cursed the next day. 2nd house from Scorpio has the rashi of Sagittarius which signifies elders, advisors, teachers, father - such natives will not pay due respects to the elders and there will be situations where the native has to help his father or someone elderly but he will decide not to do so as he will be busy with his work and will not adjust to the situation. This nakshatra Pada is Vargottam which means the full effect of the Scorpio rashi will be seen with the native - Scorpio is a fixed rashi and it is like a deep well in which no end can be seen from the top - hence such natives will follow a single routine and will go into the research mode in whatever they do in life, because of which they are unable to adjust and change their routine when the situations demand it.

Lord Shiv then says something very interesting - that the same day a cat gave birth to kittens but the Bhat killed them and even the mother cat was hungry. This is very significant as Cats are Rahu, who is the karaka of one's Pitris (Ancestors), as well as Rahu, is debilitated in Sagittarius. This means that the native has not even provided the proper resources for his pitris and has not performed the proper last rites of his ancestors, due to which a lot of unsolvable problems will come in this life regarding whichever house this nakshatra pada is situated in.

As the rashi and navansh both are Scorpio, the native has created a lot of troubles that are death-like and brought about negative transformations and blockages by not doing the proper karam. Such natives should pay their respects to their ancestors, make sure that the proper last rites of their ancestors have been done, provide resources such as food to the temple on a regular basis, and make sure that he helps out their father and teachers during troubles.

As for the remedies - Lord Shiv shared two unique remedies, one is of making the statue of kittens and donating it, and the second is that the native should do the Pind-Daan along with

a red cow on Amavasya. Both of these remedies are related to the ancestors as Lord Shiv is stressing on the fact that the native has karam left related to his ancestors and he should pay it by performing the proper rituals of last rites along with performing the yearly rituals during their death dates, Pitra Paksha and on Amavasya.

## INDRA (The God's King)

## Jyeshtha Nakshatra

**Jyeshtha Nakshatra** - The Elder One: To become the King among the devtas there are several qualities that Indra has acquired over a period of time as he is the one who manages heaven amongst the uncertainty of power.

As heaven is the ultimate prize for everyone immortal being and to keep things in order Indra had to be cool-headed and well planned for everything which can go wrong.

These people have a very strong sense of intuition of things that can go wrong in the future as all their actions are not based only on present situations but rather on what will be the consequences of certain actions happening right now such as if a saint is doing penance and it will make an Indra worry some that what will happen if he gathers enough power to challenge my authority that is why, he will do every possible trick in the bag to make sure the person gets distracted from his ultimate goal of power.

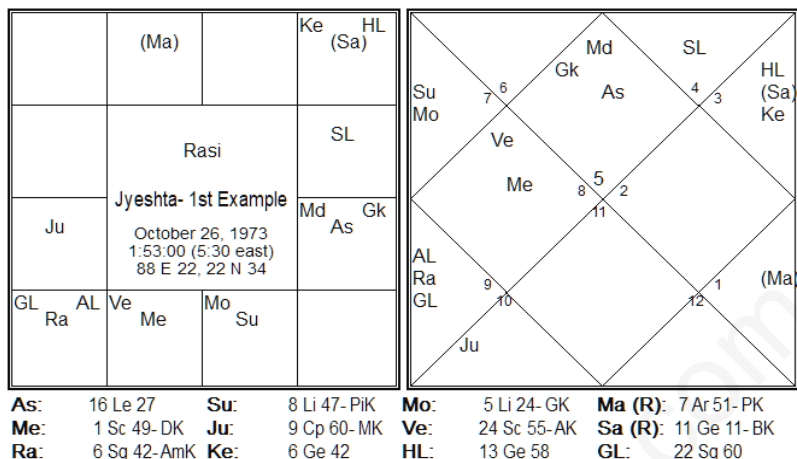

Let us look at the chart below;

The native has the lord of the 10th, the house of profession, and the lord of the 3rd, the house of communication, Venus in the nakshatra of Jyeshtha.

The native used to be in a profession related to property dealings, and he was very close to his boss. One day he senses through his intuition by observing the body language of others that

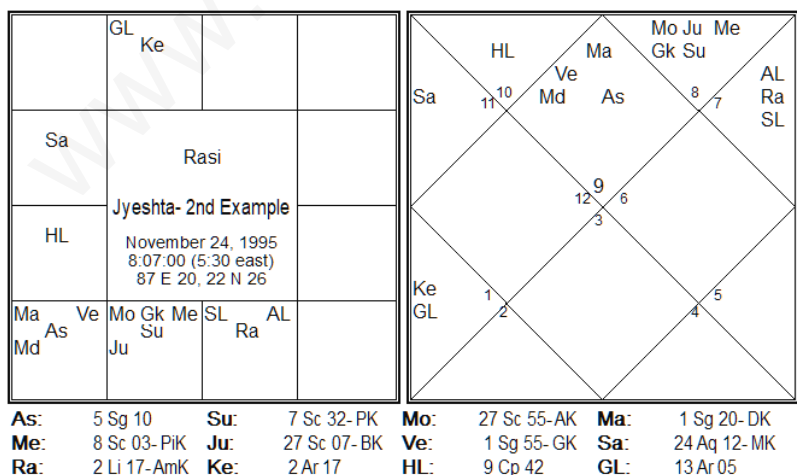

# PREDICT USING NAKSHATRA PADA : AS TOLD BY LORD SHIV

the other employees of his boss have come to know about the secret financial dealings of his boss. As he was very close to his boss, he predicted and found out about all the chaos that was happening in the company. After that, he informed everything to his boss before other employees or competitors could take any action to harm the image of his boss. In his birth chart, the 10th and 3rd lord which is in the nakshatra of Jyeshtha is also the Atmakaraka. That is how the planet in the nakshatra of Jyeshtha helped him with a strong sense of intuition.

Let us look at one more example.

## JYESHTHA NAKSHATRA

Here is a chart of a native with Lagna lord and Moon both in the nakshatra of Jyeshtha. The native is now studying Medical Science at a govt medical college. The native was very determined to study medical science even from her early school days. She waited for more than six years to clear the medical entrance exam, after her higher secondary. In between many relatives, friends and family members advised her to leave this path and to study something else. But the native had her strong sense of intuition that she would be successful. She knew through her sixth sense that if she failed to succeed, she would never be able to live happily. After years of patience and dedication, finally, she was able to crack the medical entrance exam. That is how the karma of the Lagna lord, Bhratri Karaka Jupiter, and Atmakaraka Moon conjunction in the nakshatra of Jyeshtha has manifested in her chart.

As Indra is protecting the most precious items in the sky so he is always on the edge of war and that is why these people are always on the verge of breakout as anxiety is what drives them throughout life and this is why Soma - which is nectar is associated with Indra as nectar is what Indra consumes every day and this means that there is a lot of energy dissipation happening with Indra that every day, he requires to drink nectar to maintain vitality and strength.

Here is an example chart. Look at this chart, the native has the 10th lord Moon, which is also the Amatyakaraka, is in the nakshatra of Jyeshtha.

Native started his professional life in 2015. From 2015 to 2021, in this short span of professional life, the native has changed the n-number of professions and companies. He is always on with his anxiety that what if his company fired him? He always lives with this unnecessary anxiety. But the interesting thing is since he always thinks about it, that is what used in happening to him within a few days as either the company fired him, or for some reason, he had to resign.

As Scorpio is the sign of death and depending on the number of breaths we take every time our life is getting short and by taking antioxidants, we tend to reverse the process of aging. Similarly, Indra is consuming drinks which is controlling anxiety and make his head cool enough to deal with so much pressure.

Let's move on to one more beautiful example of Jyeshtha. The chart below is of one of the mystics of India, Aurobindo Ghose, popularly known as Rishi Aurobindo.

In his early life, he was fully active in the Indian nationalist movement against British rule, then a transformation had happened with him, and he left politics to pursue a spiritual

life and became a Mystic. In his chart, he has the planet of Spirituality and Meditation Ketu, in the nakshatra of Jyeshtha in the 5th house.

Since he was active in the fight against the British, he was imprisoned. During his life in jail, his view of life was changed completely, as he went through some spiritual realizations. His sense of intuition and power of meditation was so strong that he experienced some mystical phenomenon. In the jail, he was visited by the astral body of Swami Vivekananda. He said, he was hearing constantly the voice of Vivekananda, that was speaking to him for a fortnight in the jail in his meditation, and also, he felt his presence. That is how Ketu in Jyeshtha blessed him with a strong sense of intuition and transformative power.

### **Jyeshtha Nakshatra & Karam Vipak Samhita:**

#### **1st Pada: Scorpio Rashi - Sagittarius Navansh:**

Lord Shiv says to Ma Parvati, there is a holy place named Maharashtra where a Brahmin lived. The Brahmin was involved in reading scriptures and the Vedas on a daily basis/always. One day, the Brahmin dug up a pond where he got a lot of wealth, but due to this incident, the Brahmin faced conflicts with his brother. Due to the wealth which the Brahmin found, the brother of the Brahmin consumed poison. The Brahmin day by day consumed all of the wealth which he found. After a few years the Brahmin too passed away.

Upon reincarnation, the Brahmin was born in the yoni of a Human being, but due to his past life karam of not sharing his wealth with his brother, the Brahmin did not beget any child and he suffered from various chronic diseases. Lord Shiv now says the remedies - The native should use 1/8th part of his stored wealth for doing good karam. Reconstruction of old and damaged wells and ponds should be done. A gold statue should be made of his brother which is made of 60 tola of gold, and then by following the proper rituals, the Puja should be done. In Makarsankranti the native should take bath in Prayagraj.

By doing this, the native will beget a child and the bodily diseases along with childbirth issues will get cured.

**Deeper Meaning:** Lord Shiv says that the Brahmin lived in Maharashtra and he was very much involved in religious activities - which is due to the navansh of Sagittarius. This also shows that such natives will be associated with their father and Guru and will follow fixed principles within their life as the base energy of Sagittarius is Scorpio. The Brahmin got wealth as he dug up a pond - as the wealth was found underground and the Brahmin never earned that money, in modern times it is related to getting the Inheritance or unearned wealth such as bonuses. Such natives will have resources that they did not work for, and as Sagittarius is the 2nd house navansh which signifies resources, wealth - such natives will get resources and help from elders, father, or due to the ancestors during their troubled times. Here resources can be anything such as knowledge, new ideas, or proper guidance from a father. As the Brahmin did not share his wealth with his brother, this shows jealousy issues and the desire to use the resources for one's own benefits only.

The Brother consumed poison due to the wealth - but why would the brother take such a drastic step? The Brahmin also did not stop his brother from committing such an action - this means that Lord Shiv is telling that the native will develop a superiority complex due to the wealth, because of which he will not care about his near and dear ones. Such natives will not give donations to other people and will become misers in nature as they will keep the wealth to themselves only. This also shows that natives will create troubles related to the 3rd house, such as by insulting other people and not paying due respect to other people - as now the 3rd house from Sagittarius is afflicted due to the passing away of his brother. As the Brahmin consumed his wealth on a daily basis, he showed no regard or sympathy for his brother. 2nd house is also one's value and the way of looking - and such natives will value

their inheritance and unearned money which they can use for long term purpose, due to which they will not show concern for others. The remedy for this pada will be to treat every equally and not develop any kind of superiority complex, as well as pay due respect to everyone.

Lord Shiv says that the Brahmin is suffering from chronic diseases - which is seen from Scorpio rashi which shows unsolvable problems and as the Navansh is of Jupiter, the Brahmin suffered from incurable problems from nature. As a remedy, Lord Shiv says to donate the 1/8th part of his wealth - which means that the native should give away the division of his inheritance which does not belong to him, along with donating some part of his bonuses to needy people.

Then the donation of a Statue of the brother is recommended to the Brahmin - here Statue of gold signifies the necessary and valuable resources, and then giving them to the own family and people of the 3rd house whenever they require it. Lord Shiv is very specific as 60 Tola is mentioned - it is the debt (6th house) which the native owes to the people who are close to him and hence such natives should help out their siblings, friends, family and be with them during the times of trouble and provide them the resources they need such as medicines during the time of sickness or the wealth during any financial crisis.

A bath in Makar Sankranti is also said, which will again improve the 2nd house, as Capricorn is the 2nd house from Sagittarius showing hoarding of wealth and miserly nature when it comes to donations.

## **2nd Pada: Scorpio Rashi - Capricorn Navansh:**

Lord Shiv says to Ma Parvati, in a place named Pattanpur, there was an ironman named Govardhan, who stayed together with his wife. The Ironman was wealthy, well established as well as religious in nature, and was involved in religious activities. He had two sons, among which he did not share any part

of his wealth with the elder son and his wife. The Ironman discarded his elder son and the wife of his elder son from his home due to which they had to leave the house. The Ironman gave all his wealth to his younger Son. Eventually, he left his younger son as well as his wife and then started living with a woman who was the daughter of a Gwala. After a few years, the Ironman was killed by Tiger.

Eventually, upon getting reincarnated, he got a body of a human, then a snake, and then a Mongoose and then again, he got the body of a human. He was born into a wealthy family and he was an intelligent warrior and was close to the king. Lord Shiv now tells one remedy - In the month of Kartik Purnima, donate 10 cows of 10 qualities/colors. The same donations were done by the Ironman in his past life and that is why the Ironman was born in a wealthy family. Due to the karam of leaving his life in past life, in this life he is not able to beget a male child and only daughters were born. The Ironman is also suffering from skin issues such as itching and eczema. In this life, in spite of getting a wealthy family, he is unable to get any property.

Lord Shiv says the native should fast in Ekadashi, and donate 1/6th part of his stored wealth. Along with the donation of sesame seeds and a cow on Amavasya as well as doing the Shraddh rituals and stotra of Ma Durga on the same day.

**Deeper Meaning:** Lord Shiv says that the name of the place is Pattan - which means a place which means port where boats and ships anchor themselves. This is said due to the navansh of Capricorn as it is a rashi that restricts movement and wants to stay at a certain place until and unless there is pressure. This is also why the story is regarding an Iron man as Saturn is the Karaka of Iron. Doing Saturnian work requires a lot of hard work, sleepless nights along with being able to bear a lot of pressure under any circumstance, but in the story is already mentioned that the Ironman was wealthy and was involved in religious activities - which meansthe wealth is gathered

in a wrong way and hence such people will try to gain the position or complete the work by manipulating and hiding. Then at first the Iron man did not share his wealth with his elder son and the wife of the elder son and they were forced to leave home - this can be seen by Taurus in the 5th house indicating money and resource-related issues to their children. Then, younger son will be seen by the 7th house and after the ironman gave all the wealth to the younger son, thus activating the 7th house which eventually led him to get involved an extramarital affair. As the story is related to children the 5th from this pada will be the house where the native will cause harm by keeping the recourses to himself only.

Also, as the Navansh is of Capricorn - such natives will not share their wealth and resources with employees, will bargain with servants, and not allow bonuses to them as well as they will not take care of old people who are in their home. As the base energy is of Scorpio - the native wants to stay fixed in his actions(Capricorn) and not do anything which is giving extra pressure and responsibilities or taking away the resources from him. Lord Shiv mentions that the Iron man was killed by a tiger, which is again Rahu - the karaka of Pitris which indicates the native should complete the last rites of every one of his ancestors and perform the yearly rituals - Scorpio is the base energy and Capricorn navansh shows restrictions and laziness regarding the last rites due to which proper preparations were not done. Such natives should always help and give resources to other people especially people belonging to the lower section of the society, to their employees and co-workers during their troubled times, as well as give bonuses and not bargain or argue with servants - doing these remedies will reduce the curse and the karam of the native will improve.

The native is paying back by experiencing the other end of the spectrum as he himself will be humiliated and during the time of crisis he will not get the necessary help from other people. Lord Shiv says that the Ironman was born as a snake

first and then a Mongoose, notice the both the animals are bitter enemies to each other and a Mongoose has the ability to kill the snakes - which shows Nature is making him understand both sides of the coin - what it is like to be the hunter and then be hunted by someone else. It is written that the Iron man was suffering from Eczema and Skin issues which shows unsolvable problems related to bodies such as allergies and diseases which take a long time to get solved. Then it is said that the native is facing problems related to property which shows that the mental peace of the native will not be present, as he will be under constant pressure and thus will not be able to enjoy his life in home.

### Rashi:

In this chart the Sun is in this Pada and is the 10th lord of Father's family. Sun is conjunct Saturn which shows troubles due to authorities and carrier and frustration related to the significations of Sun. Dispositor Mars is in Libra of Public interaction. The story in this chart is that one day a social gathering was arranged within the family is a big occasion and every family member was present in that gathering. During the gathering, the native himself got into a severe fight with his

# JYESHTHA NAKSHATRA

father due to differences of opinion. The father of the native said something due to which the native got very angry and hit his father.

This incident happened in front of everyone else in the family and the reputation and honour of the father were severely damaged in front of everyone.

In the navansh, the 7th lord is in Leo and Sun is in the 6th house in Capricorn indicating professional troubles and overpressure from work along with marriage issues. 6th lord is in the 8th house of Inheritance.

After this incident, the father of the native (deserted) forced him to leave the house and did not give any share of the inheritance to the native himself. Later on, after marriage, the native often got into misunderstandings with his partner and hence the relationship between the husband and wife got into turmoil often.

Also, in his career the native is facing problems from bosses and is unable to adjust with anyone with his workplace. Slowly the native is going into alcohol due to emotions.

In this chart the remedy would be to go back to his father and ask for forgiveness, as no one has the right to hit any elderly native and that too one's own father. The native has realized his mistake and has been told to go and talk to his father and family again, as they do not have any contact after the fight.

### **3rd Pada: Scorpio Rashi - Aquarius Navansh:**

Lord Shiv says to Ma Parvati, in a city named Bijapur where several types of people who were of different casts lived together along with Baniyas (Businessman). Among all these people, there lived a Sudra who was a Tamboli(betel leaf farmer). The Sudra was addicted to Liquor and alcohol and he used to sell Paan(Betel leaf). The Sudra had two sons and he collected a lot of wealth due to which he became very egoistic and proudly. The Sudra had killed his elder son and got himself married to the wife of the elder son, after which the Sudra faced a lot of conflicts with his younger son. Regardless of the situation, the Sudra continued enjoying the marriage with his daughter in law. After few years the Sudra passed away.

Eventually upon reincarnation, the Sudra got reincarnated in the yoni of a Dog, then a Bull and then finally a human, but due to his past life sins, the Sudra suffered from fever, bodily pain along with insomnia and anxiety. Lord Shiv then says that the native should make a gold statue of his son and then perform puja and then donate it to the Brahmin. Fasting of Poornima should also be done with his wife.

**Deeper Meaning:** Lord Shiv says that the name of the place is Bijapur - Bija means seed and it is said because the navansh is the 4th navansh which rules the emotions and morality of a native which determines that what kind of an action a native is going to take. Before any action is physically executed, it will always first come in the mind and depending on the morality and mentality, the native will execute that action. As it is said that in Bijapur, there lived people of different casts, it shows that such natives will not follow any kind of fixed rules and

will do something which will oppose the traditions within the family - such as Jupiter in this nakshatra pada will make sure that the native learns something new which no one has learned within the family and such people can even go against the religion or their belief system will be something which is not followed by the tradition. This is because the Navansh is of Aquarius which is ruled by Rahu. As Rahu also shows addictions and obsessions - Lord Shiv said that the Sudra was addicted to alcohol and liquor. Then it is said that the Sudra had a lot of wealth, but if the Sudra was addicted to alcohol, then by no means he will be able to gather such wealth by doing hard work. It means that the Sudra used loopholes and shortcuts to earn money by cheating the masses (4th house from Scorpio is Aquarius), using wrong information to sell the product or by overcharging.

Similarly, such natives will also perform similar activities by going against the traditional ways and trying to achieve one's desires by hook or by crook, which will make the native choose the illegal route. Natives of this nakshatra pada should first decide what is morally right and then only do any action and make sure that it is not harming the masses - native should take a Bath in Ganga when Sun transits Aquarius.

Eventually the Sudra committed a murder and then got married to the wife of his son. The son of the Sudra will be seen from Gemini, which is the 5th house from Aquarius and as Gemini is a rashi which is selfish in nature - the Sudra only thought of his own self-interests and did not care about anyone else including his own son. This further shows that the intentions of such native's will be towards their own self development and they will not listen to anyone else's advice and commit actions however they seem fit.

As the base energy is of Scorpio - such natives will face a lot of emotional turmoil and obsession along with unsolvable troubles in home and property as they will do some action in

their life which has harmed the masses and caused emotional pain to others.

Then the results of the Karam is said by Lord Shiv - the native is again born as a dog, then a bull and then finally a human. As said before, each animal has a particular significance in the story as a Dog shows that the native is paying back through experiencing detachment and leaving this (Ketu) as he already experiences the events of Rahu is his previous life.

As the remedy - Mahakaal says that a statue of gold of his son should be made and then donated to the Brahmin - which means that the native should keep morality first and not do actions through illegal means as well as give everyone their due respect and refrain from cheating anybody, as all these are the Remedies related to the 5th house, which is naturally Ruled by Sun. Fasting of Poornima is recommended because this pada is the 4th Navansh, which is naturally rules by Moon. Let us see another chart below:

In this chart, Venus is in the nakshatra pada and is the 5th Lord of relationships. Venus is also the dispositor of the 7th lord which shows Love Marriage. The native got into a relationship

## JYESTHA NAKSHATRA

with someone and eventually, they wanted to Marry each other. But as the partner was of a different religion, the family was against the marriage, due to which there were verbal fights between the native and her family. Eventually, the native decided to marry her Partner and did not listen to the family views and proceeded with the Marriage.

Let us see the result of this action in the navansh.

### Navansh:

Here Venus is the 7th lord and the Dispositor of Mercury (Communication, disputes) and Ketu (Detachment, unsolvable problems). Venus himself is in the 11th house with Mandi and Saturn / Rahu is in the 2nd and Lagan respectively.

After the marriage the partner of the native constantly abused her due to which major communication issues occurred between them. After conceiving, the native herself went through a lot of mental trauma due to the verbal abuse and the husband did not even care about his child and even said that even if the child dies, it doesn't matter to him. The major problem of the Husband is communication as he has a severe bad speech due to which there are constant troubles the native has to face.

As the native herself married without the proper consent of the family and was obsessed with this relationship, the remedy would be to go back to the family and ask for forgiveness from them.

#### **4th Pada: Scorpio Rashi - Pisces Navansh:**

Lord Shiv says to Ma Parvati, in the west side from the river of Veni there was a city named Chaturbhuj. There lived a Pattakar named Lakshman. Lakshman had a wife who had big eyes - but his wife was involved with other males out of marriage. Lakshman gave birth to a lot of male children. He was involved in the business Import/export and used to spend his money daily in his business. In the home of Lakshman, a bird by the name of Chatka created a nest where Chatka laid eggs.

After some time, Chatka used to bring food for her children. One day the Pattakar also came for food at the same time. While Lakshman was eating, the children of the birds excreted, due to which the Pattakar got very angry and killed the children of the birds and destroyed the nest of the bird. After a few years he passed away on the bank of the river Ganga.

Upon being reincarnated as a Human, he was born near the river Ganga and other rivers. He eventually got married to his past life wife but he suffered on the account of miscarriages due to his past life karam. Both the husband and wife suffered from fever along with sadness. Lord Shiv then says that the native should make 100 tola statue of gold and silver of the Chatka bird with her children along with the donation of his 1/8th part of his stored wealth along with performing havan. Jaap of the mantra of Gopal should also be done. Doing these rituals, the bodily diseases will be cured along with birth of male child.

**Deeper Meaning:** Lord Shiv says that the name of the place is Chaturbhuj and it is beside the river Veni.

River Veni is mentioned as the Navansh is of Pisces which is a watery rashi. Chaturbhuj means that which is four-sided

and in a Chaturbhuj, as all the sides are enclosed such natives will keep themselves separated from others by not sharing their emotions or by not interacting as they will prefer to live in their own comfort zone in isolation. As the wife of Lakshman got involved with other men in their marriage - It shows that Lakshman did not take care of his wife and did not spend enough time as he was busy doing his own karam in isolation due to which he failed to notice his wife's emotions and thus did not show any concern for her. There is also the theme of being involved in bedroom life and problems due to it, as Lakshman gave birth to a lot of male child, which indicates physical intimacy with his wife but no emotional connection - Pisces (Bedroom life, isolation) is a very emotional rashi but it has the base energy of Scorpio which shows problems in the bedroom.

Then Lord Shiv says Lakshman killed the children of the Bird named Chatka and destroyed their living place. The native is causing harm to Mercury, who is debilitated in Pisces and thus such people will face problems related to their subconscious, education, children, skin issues, etc. Mercury here means that the native is not paying respect and helping people who are transgender, as well as problems from relatives', especially maternal side. Such natives will also have stories related to birds within their life as either they will not feed birds or will cause trouble to the living place of the birds.

The native should donate regularly to eunuchs and help them whenever they ask for it along with donations of books to little children for their education and building nests and feeding birds regularly. As Pisces is the natural house of Roof, the native should build the nest in his own roof and take care of it sincerely. Mahakaal then says that the native was born near holy Rivers in his next life which is seen through the Navansh of Pisces and it also shows that the native should take bath in holy rivers to clear up his emotional troubles. Such natives should give ample time to other people and maintain their

relations through good communication as in his past life the native harmed Birds, which again shows Mercurian troubles.

This brings us to the end of the 2nd Cycle of the Nakshatras and the stories of each pada from Karam Vipak Samhita.
