My Gratitude to Lord Shiv

I bow down in front of Shree Ganesh as due to his blessings only I was able to write on a subject which was there before but no one dared to decode the deeper meaning of the words said by Lord Shiv.

Shiv is someone who do not like to express, As you have to understand the language of silence and when he speaks, Every word becomes important there are several meanings of one word, Me and my team have tried level best to explain the best of what our small brain was capable to understand from our level of understanding to give a thought process to students of Jyotish so they can help several other people who are suffering as a result of their past life karmas.

The reason to write the decoded Karam Vipak Samhita was as this was available in several other authors, lot of people published it but no one was writing what I want to read the deeper meaning of a subject, Something which was not available or written by anyone.

It is only blessings of Lord Shiv due to whom we are capable to produce this work, I would request all readers to pray to Lord Shiv before reading this book to grant you wisdom and understanding so you can even read what I am not able to write.

One Sadhna of Lord Shiv which will help you mastering the subject will be offering Shivling yellow turmeric and saffron regularly for 96 days to give you deeper understanding of the subject, I have always asked from Lord Shiv the secret of Nakshatra padas as well as for the Kaal chakra dasa as well and as straightforward Lord Shiv is, He has never return me empty handed.

I am sure Mahadev will bless all readers with same on praying to him.

I must also thank team members who never wanted to put their name in this book and are co-authors with me – Chandrajeet, Garima, Ankit and Avtar who helped me with pure heart and intention to give out 100% to get this book done.

It was not possible without the wisdom of my parents and support of my wife who always helped me to walk on a path of Dharma and to do good for others selflessly, When I see my father who work day and night with section of unprivileged society by non-political way, or my mother who teaches yoga for free and only accept blessings of several people or my wife who compassionately works at office of Lunar Astro and help so many people by providing her wisdom and moreover food for everyone and remain as backbone for Lunar Astro.

I was supposed to teach this book as course but it came to my mind that there will be students who will not be able to afford it and, in this knowledge, money should not become the barrier for anyone, so I have tried to give out my best to everyone so Jyotish can progress in this world.

I wish all readers all the best.

Regards

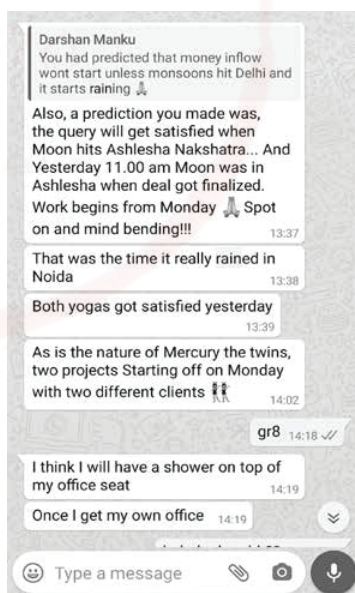

Deepanshu Giri

Preface

I remember some of the elders of the family using nakshatras in their predictions which discussing among themselves, especially with horary charts their prediction will be like- “When Moon will move to particular nakshatra then this particular event will happen.” And predictions like this were missing from the modern world or even in natal charts they hardly made reference to Rashis - when discussing the transits.

I started working on nakshatras through various classics such as Taittiriya brahmana and Karam Vipak Samhita and whatever I could gather from seniors of the house, I tried implementing them in my readings and results were so beautiful and stunning that it entirely changed the flavor of predictions.

Like the one below - One of my regular client was very tensed regarding the contracts and work so I made a horary chart and predicted. “When Moon will move to Ashlesha on Wednesday and Rain will happen in Noida - you will get contracts.” The event happened exactly like this.

So, this is the power of Nakshatras on what you can predict with this.

This book moreover concentrates on Nakshatra Pada rather than Nakshatras but I have tried to give as much information on each nakshatra as possible as when I teach -Its moreover a story format as that is the traditional way to teach any Subject in Hinduism.

Please Read This Before We Begin with The Book

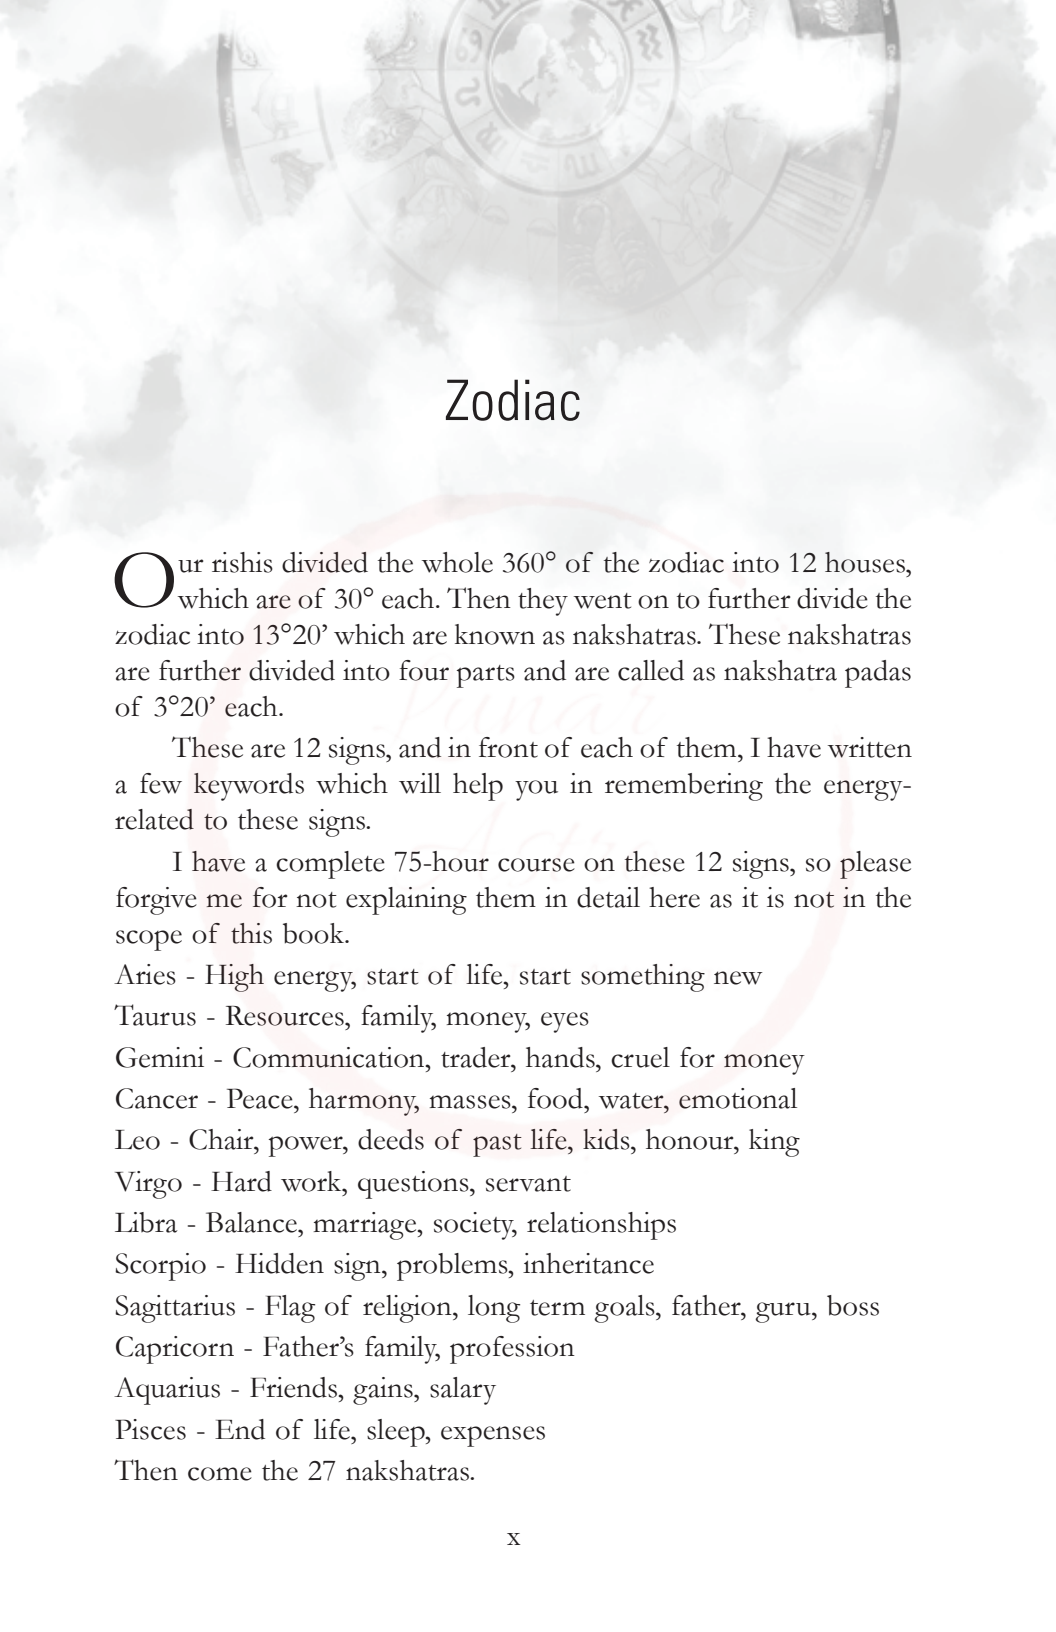

This book has the most practical techniques to predict using nakshatras that I have derived out of Karam Vipak Samhita and other classical texts.

This book is only 5% of what I teach in my Nakshatra course as one nakshatra can form an entire book, and there are at least 40 techniques for each nakshatra. Also, my main focus is to bring out the hidden part of Karam Vipak Samhita to predict pending karma rather than nakshatra techniques. I believe some knowledge works best when taught in a classroom format, but you will find this book extremely helpful in predicting pending karma through nakshatra padas.

As you progress with the book, you will notice that I have used one technique in different manners to show variation to readers. And with every progressing chapter, the technique gets more advanced as I wanted to ease reader into to the energy of this book

I truly believe that without the blessings of Mahakaal, it would not have been possible to write this book. I started this book on the night of Mahashivratri and finished it on Holi; in 20 days of non-stop writing, I have gone with the flow for whatever the Supreme Power has directed me to write.

I hope readers will find it useful while predicting the pending karma of the native.

Zodiac

Our rishis divided the whole 360° of the zodiac into 12 houses, which are of 30° each. Then they went on to further divide the zodiac into $13^\circ 20'$ which are known as nakshatras. These nakshatras are further divided into four parts and are called as nakshatra padas of $3^\circ 20'$ each.

These are 12 signs, and in front of each of them, I have written a few keywords which will help you in remembering the energy-related to these signs.

I have a complete 75-hour course on these 12 signs, so please forgive me for not explaining them in detail here as it is not in the scope of this book.

Aries - High energy, start of life, start something new

Taurus - Resources, family, money, eyes

Gemini - Communication, trader, hands, cruel for money

Cancer - Peace, harmony, masses, food, water, emotional

Leo - Chair, power, deeds of past life, kids, honour, king

Virgo - Hard work, questions, servant

Libra - Balance, marriage, society, relationships

Scorpio - Hidden sign, problems, inheritance

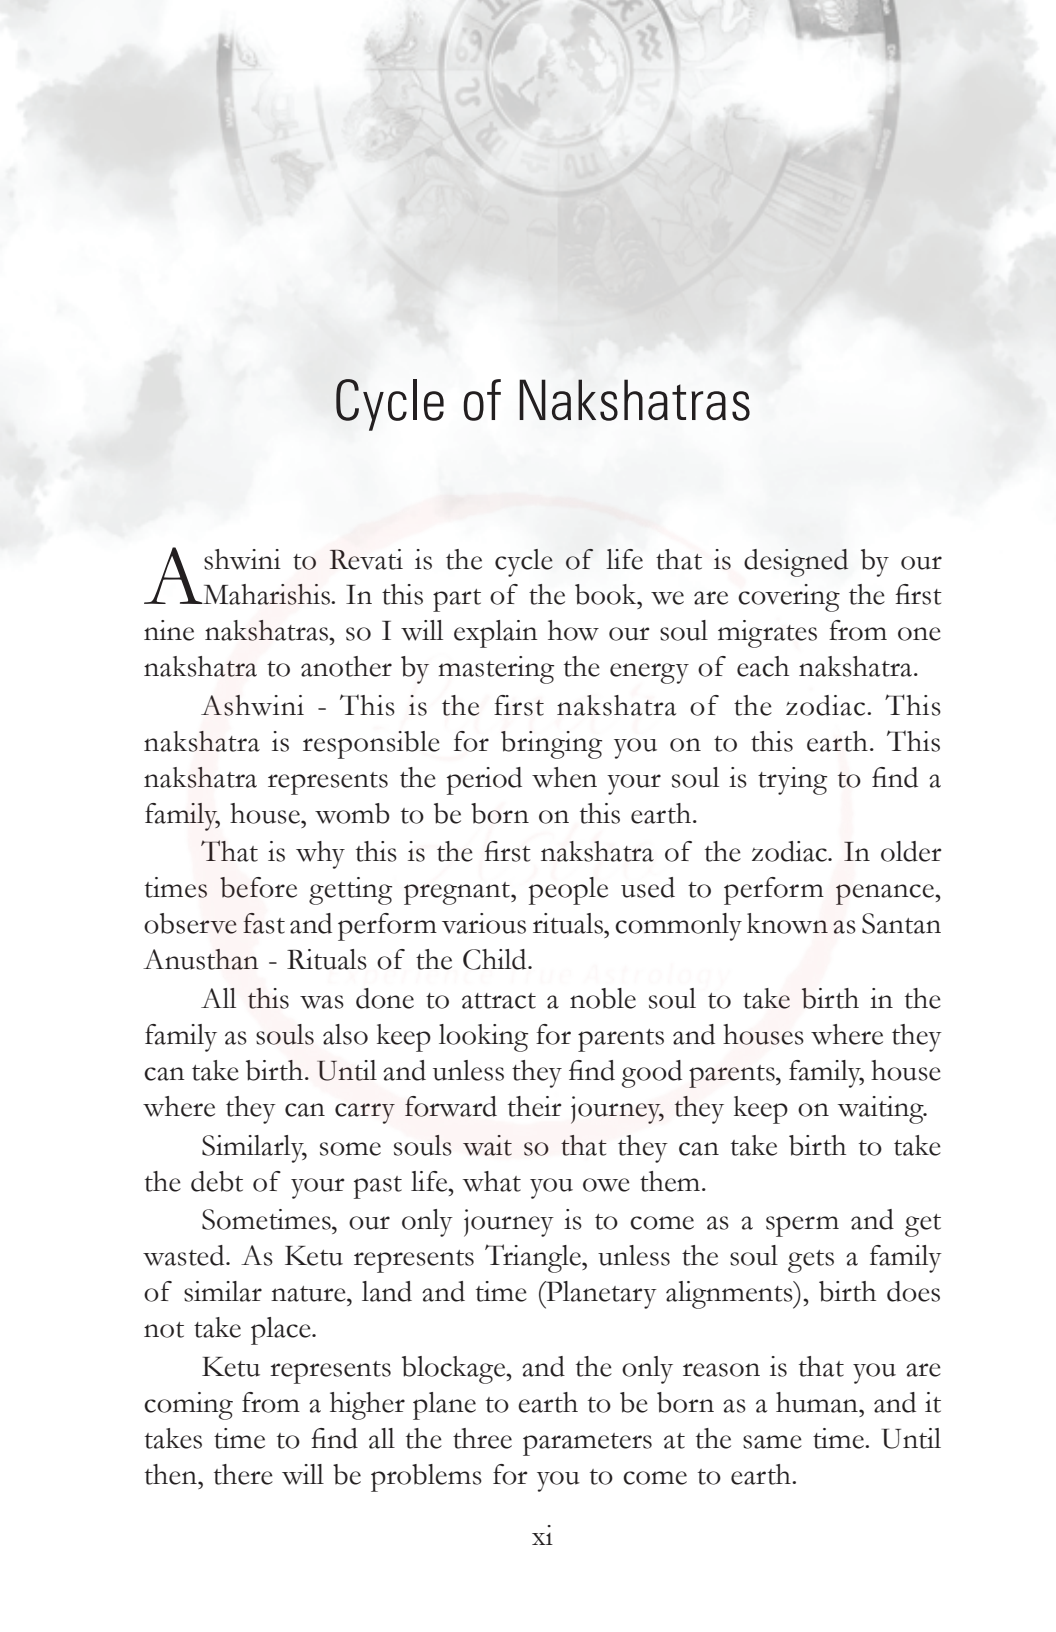

Sagittarius - Flag of religion, long term goals, father, guru, boss

Capricorn - Father's family, profession

Aquarius - Friends, gains, salary

Pisces - End of life, sleep, expenses

Then come the 27 nakshatras.

Cycle of Nakshatras

Ashwini to Revati is the cycle of life that is designed by our Maharishis. In this part of the book, we are covering the first nine nakshatras, so I will explain how our soul migrates from one nakshatra to another by mastering the energy of each nakshatra.

Ashwini - This is the first nakshatra of the zodiac. This nakshatra is responsible for bringing you on to this earth. This nakshatra represents the period when your soul is trying to find a family, house, womb to be born on this earth.

That is why this is the first nakshatra of the zodiac. In older times before getting pregnant, people used to perform penance, observe fast and perform various rituals, commonly known as Santan Anusthan - Rituals of the Child.

All this was done to attract a noble soul to take birth in the family as souls also keep looking for parents and houses where they can take birth. Until and unless they find good parents, family, house where they can carry forward their journey, they keep on waiting.

Similarly, some souls wait so that they can take birth to take the debt of your past life, what you owe them.

Sometimes, our only journey is to come as a sperm and get wasted. As Ketu represents Triangle, unless the soul gets a family of similar nature, land and time (Planetary alignments), birth does not take place.

Ketu represents blockage, and the only reason is that you are coming from a higher plane to earth to be born as a human, and it takes time to find all the three parameters at the same time. Until then, there will be problems for you to come to earth.

You will see, Ketu represents problems such as blocked fallopian tubes or fetus is not developed properly as your body is not attracting the right soul.

Anyone who is suffering from this should practice discipline in personal life related to your lifestyle and you will attract a wonderful soul towards you.

Next in line is Bharani Nakshatra;

Bharani Nakshatra - Bharani is the nakshatra of Yamraj. It requires discipline and a lot of patience to go through bad times. Bharani represents the time period when we hang upside down in the womb with a layer of amniotic fluid around us as we are dependent on mother for food.

This is the nakshatra where we learn the lesson of discipline and being dependent on others. This also shows actions of the mother during pregnancy. So whenever this nakshatra is afflicted or placed in 6/8/12, the mother gets problems related to uterus, tumours, umbilical cord wrapped around neck, food not being supplied to the fetus, etc.

Bharani teaches us the value of food, mother, emotions during difficult times as a lot of Yam (Discipline) is required in this period, and you are not able to do much being in the womb.

In Ashwini, you were a free soul and trying to search the right family. This is why you will see Ashwini takes time to search for what they actually require. For example, if someone has 5th house Ashwini nakshatra then they will complete their college education late or they will switch to a different subject. That is why, in Bharani nakshatra you are restricted so you can learn patience and discipline. In Ashwini, you are free and in Bharani, nature teaches you to be dependent on others as you can't do much in this nakshatra.

Kritika Nakshatra - Kritika shows independence and being an individual as blade is the symbol of this nakshatra. This shows cutting of the umbilical cord and coming out to the real world. That is the reason some scholars have considered this nakshatra as the first nakshatra of zodiac as this is the first step in the physical form on earth as a newborn baby.

This also means that the actions and changes which will happen in Ashwini and Bharani nakshatra are more physiological than physical. Anyhow, you will find in Ashwini, people do not even know what problem you have – for example, 10th lord in Ashwini nakshatra shows that no one knows much about your profession or problems of your profession as problems are physiological rather than physical - like mind games, office politics and all other things which happen on the physiological plane. But in Bharani, as this represents the pregnancy period, sooner or later, people will come to know that you are pregnant although you want to hide it.

For example - If Venus is in Bharani, although you want to hide your relationship, some part of it will be known to everyone, and there is always a grey area (boy or girl) which people will never come to know about.

Kritika shows individuality and doing new things without much prior experience. Any planet in Kritika will make sure you behave like a stubborn kid and keep crying until your demand is fulfilled. 7th/12th house cusp, 7th lord or Venus in this nakshatra gives violent partners as they want their sexual desires to be fulfilled first and try new things, and in the process get violent.

In Bharani, you were restricted and followed isolation as you never wanted to meet anyone. In Bharani nakshatra, you keep a record of every small mistake and good deed of everyone. You are not able to forget and forgive as you are so much bounded by the principles you have made for yourself that you are living the life of boundation. Now, in Kritika Nakshatra, it is being cut off by a blade and you are set free. You are forced to lead them now in the areas as per the particular planet that goes in this nakshatra. This is the area where you need to lead – such as Venus in Kritika nakshatra then you have to lead in terms of relationships and money matters; you will put yourself first.

This the reason in Rohini, you are all alone.

Rohini Nakshatra - Rohini is a creative nakshatra and represents the period when you start eating food and get to the age of creativity - five years of age. Your brain is free to imagine things beyond any limits. You work with imagination, you are an

original content creator as this is what you have carried forward from past lives, and now using your past soul experiences, you will create something new.

In Kritika, you were leading and the same habit has given you superiority complex. Now everyone is jealous of you. Lots of people are jealous of Rohini nakshatra natives' early success.

This nakshatra gives early success and this leads to jealousy of other people but other people don't realise that in the last life, you have already gone through that energy of Kritika which is to make the path for others, so in this life you are getting it easily.

Rohini represents food, the resource to understand what is not said. She is the favourite wife of Moon as she understands his requirement without even saying a word. Until the age of one, the kid cannot walk, only speaks half words but mother understands every single action, movement without even asking it & she knows when you need to sleep, eat and play.

This is where kids sleep a lot. People with prominent Rohini get grumpy if they don't get their sleep on time or food on time. They are very particular about clothes or if any other planet is going in this particular nakshatra, then signification of that planet will be like a baby (like a kid is moody).

Mrighshira Nakshatra – The kid has now started to walk and explore things. He can push aside or climb things to explore new territory. This period extends up to 12 years of age where all sins are done in ignorance to see the effect.

This is the nakshatra of curiosity and searching in the house and neighborhood.

As in Rohini, you never like to go out and stay in isolation as you are very creative. In Mrighshira, you will do everything in groups and follow the mass trend. You will become a part of the mob and never have any individuality. You never say no to anything even if you don't like it. For example – If someone has Venus in Mrighshira, then the native will get married under social pressure and will never say no even to wrong things if done by his wife. This is the reason you get the next nakshatra which is so fierce and will make you an outcast.

Ardra Nakshatra - This is the nakshatra of a rebel where the person goes through experiences of love and friendship, where he does not care much about established rules and regulations as this is the nakshatra of fierce warriors. He learns the hard truth of life in this nakshatra, and whichever planet goes in this particular nakshatra, significations of those planets which will teach him the hard truth of life in a manner to make him rough.

Ardra is related to storms, jungle, isolation, animals as this nakshatra makes you come across these kinds of people who teach you life experiences. This period extends until 18 years of age.

Earlier you were part of mob mentality and in Ardra, you are isolated and you judge everyone, pin point every single mistake and tell everyone what wrong you have done. No one likes a person who speaks such blunt truth that is why you are not the part of society. You will be isolated and live as the leader of wild animals. Wild animals are all those people like you, who do not respect or agree that mistakes are a part of life and happen. We need to forgive people and be more accepting. That is why the next nakshatra is Punarvasu.

Punarvasu Nakshatra - This is where the native helps others to get back on track. His main motive of life is to forgive and live a guilt-free life.

We can't live this beautiful life with sorrow just because we committed a mistake. This is the nakshatra of acceptance to help people live a guilt-free life, to connect them again to the mainstream. This is the time period of 20 years of age.

In Ardra nakshatra, you were too fierce and punished everyone even for small mistakes. That is why you were an outcast and living alone. But in Punarvasu, there is acceptance as over a period of time, you realise to listen to people and understand that life is not all black and white. We should judge everyone by only one mistake, as everyone has his own story to reach a particular point.

We should listen to others as well.

Punarvasu is too humble to listen to everyone's advice and takes care of everyone to an extent that it becomes a problem to survive. Then comes the nakshatra which gives you superiority complex from a very young age.

Pushya Nakshatra - This is where the native acquires knowledge and learns the value of silence and the power of knowledge. Now the native only works for knowledge rather than anything else. It is represented by a lotus flower. This flower is special as the seeds of lotus can germinate even after 200 years in odd conditions. It is the specialty of this particular nakshatra that even in odd conditions, it can grow and become beautiful. This nakshatra applies till 23 years of age.

Punarvasu was the nakshatra where you were humble towards everyone else. In Pushya, you have arrogance as now you know whom to listen to and whom to ignore. You have mastered that energy of Punarvasu that is why you get Pushya. Pushya natives will listen to everyone but will do what they think is right, as they have a better understanding of the situation than everyone else. It's very difficult to convince Pushya as they themselves are the advisors; people who stay behind curtains and run the show. This sometimes gives them frustration as when they give instructions and people don't listen or counter question or do not trust then Pushya natives will get irritated very easily and tell that person to run away.

Pushya come out of the curtain from backstage when they do not find anyone else to run the show. This is not the nakshatra for administrators as this is a true nakshatra for advisors. These people are king makers and when they can't find the right person to be the king, they themselves become the king.

For example - Pushya natives will be like the right hand of the boss and will keep advising the boss for the better. You can see wherever Pushya natives join in office, their bosses rise in life and when the boss starts ignoring them, they feel frustrated and betrayed. It is only then that they replace their boss.

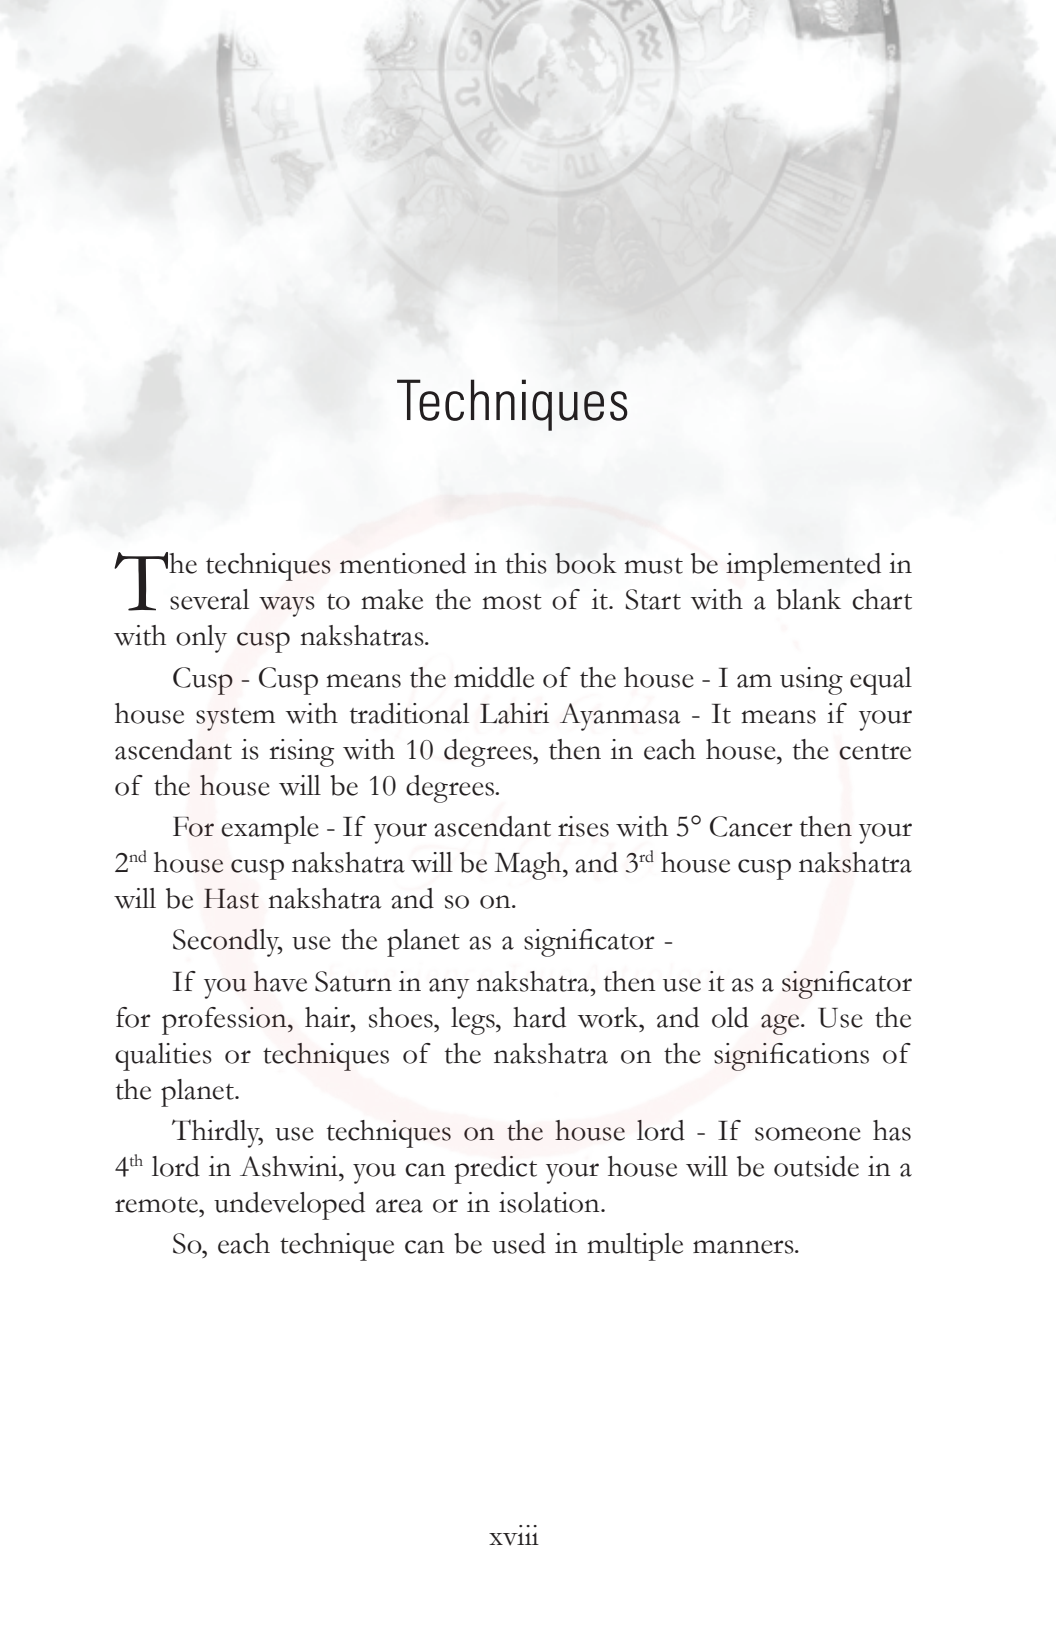

As this is a nakshatra of the Guru, these people need lot of alone time to think and to make strategies. And being the boss themselves, now they have to deal with all small and big problems. Now they do not get their isolation time and being an admin is not their strength. Their strength lies in making long term strategies, doing good for masses and whoever comes in their contact will eventually turn into GOLD.

This is the Midas touch effect these people have in them. This is a complete technique with ages and other effects but I will not be able to explain it here. I have explained this in the Nakshatra course.

Ashlesha Nakshatra - This is the nakshatra of physiological warfare - this is the nakshatra where Pushya learns how to use knowledge to win the war when odds are not in your favour. This nakshatra teaches you odd warfare techniques to survive in this life. 23-25 years of age applies for this nakshatra.

In Pushya, you were so busy in work that you never paid attention to personal life. In this life, you will face challenges from people where you can't leave them & can't live without them. It's like drinking the poison and still smile regardless of all problems you are facing. In this life, you will face problems from very close people, who will stay very close to you & kill you slowly internally by their actions. Every day of your life you have to come up with the idea to beat them with psychological warfare, only then you will be able to survive. Mastering the art of smiling in all the situations is the beauty of this nakshatra. These are the people who will be devoted to others. In Pushya, you never cared about pleasing others as you had the arrogance of being a Guru. Now, in Ashlesha you have to please several people while drinking the poison for them.

If someone has Venus in Ashlesha then the native will be troubled by his wife. He has to master how to stay happy even in a bad married life.

Techniques

The techniques mentioned in this book must be implemented in several ways to make the most of it. Start with a blank chart with only cusp nakshatras.

Cusp - Cusp means the middle of the house - I am using equal house system with traditional Lahiri Ayanmasa - It means if your ascendant is rising with 10 degrees, then in each house, the centre of the house will be 10 degrees.

For example - If your ascendant rises with 5° Cancer then your 2nd house cusp nakshatra will be Magh, and 3rd house cusp nakshatra will be Hast nakshatra and so on.

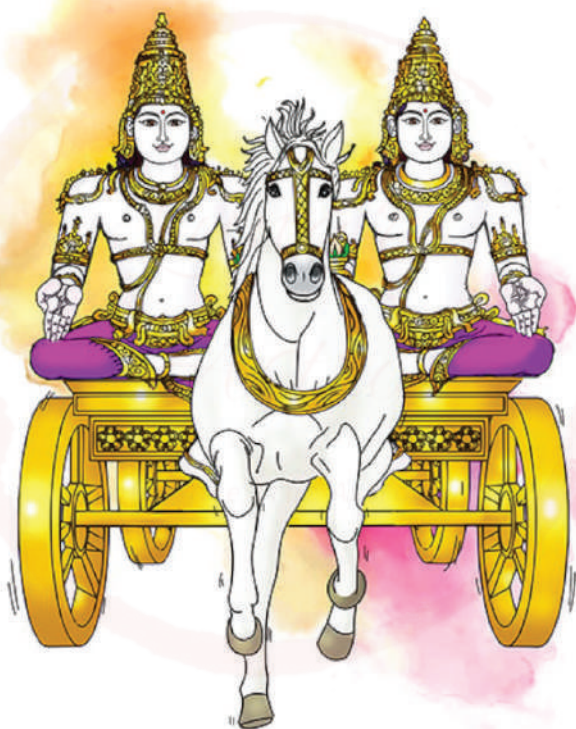

Secondly, use the planet as a significator -

If you have Saturn in any nakshatra, then use it as a significator for profession, hair, shoes, legs, hard work, and old age. Use the qualities or techniques of the nakshatra on the significations of the planet.

Thirdly, use techniques on the house lord - If someone has 4th lord in Ashwini, you can predict your house will be outside in a remote, undeveloped area or in isolation.

So, each technique can be used in multiple manners.

Ashwini

Ashwini Kumars
(Physicians to the celestial gods)

Ashwini Nakshatra

The location of this nakshatra is in Aries as Aries is known to start new beginnings being number 1 in Zodiac.

So life starts from here - as the 1st nakshatra of the 1st sign.

Below are the few key points of this particular nakshatra:

Deity - Ashwini Kumar

Animal - Male Horse

Symbol - Horse Head

Bird - Swan

Planetary Ruler - Ketu

Tree - Poison Nut

Heat is required to generate anything new. Also, a great amount of energy is required to start something new as compared to maintaining the process.

For example - If a car has to be pushed by a person from point A to point B, initially he has to apply more force due to the moment of inertia but as long as the car is moving, the amount of force required is less.

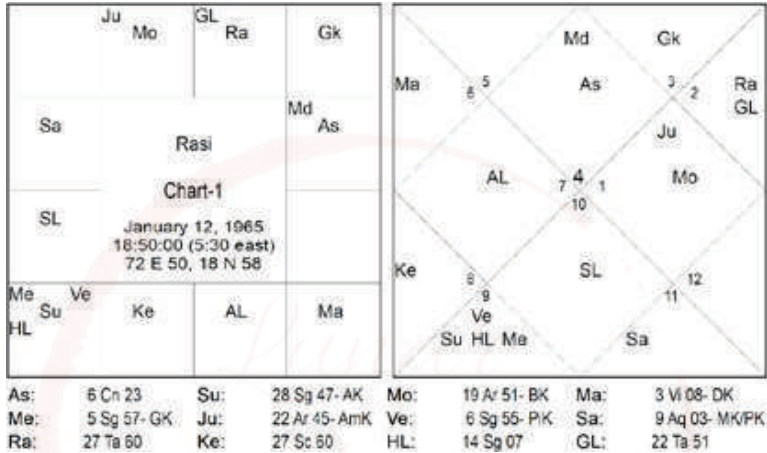

Similarly, being the first nakshatra of the zodiac this nakshatra requires great energy to start a new life.

This is the reason you will see a lot of cases where Ashwini nakshatra is involved, there is a problem related to childbirth, abortions, blocked fallopian tubes and other factors that can cause delay in childbirth.

You can use this technique in several ways and should not stick to abortions only. But to begin with, let us see how to use this technique on a blank chart to predict abortions in a chart- Who will have abortions?

“Technique #1 – Wherever Ashwini nakshatra is in your chart- if falling in the cusp of any house (This will only happen if your ascendant is in first 13 deg 20 min of the chart) there will be problems related to childbirth, abortions, etc.

Example-1 Ascendant is rising in Pushya Nakshatra - 6 degree 22 mins

This means the cusp of 10th house in an equal house system will be in Ashwini at 6 deg 22 mins, which is Ashwini nakshatra - 2nd pada.

You can easily predict-

“Your father’s family has a history related to abortions and problems in childbirth.”

As 10th house represents father’s family, and being the cusp nakshatra of the 10th house, Ashwini will give results prominently.

If you notice, I haven’t used any of the planets yet for making a prediction, only the quality of a nakshatra.

The predictions do not stop here. There is more to this technique as abortion is a symbolic expression given by nature that something is blocking the birth or things are not developing properly.

We need to learn to read between the lines and try to decode the patterns told in various classics.

Let us give a few more predictions for the native from the 10th house Ashwini nakshatra. Remember, at this stage, we are not going to use planets at all, and this is the key to learning nakshatras and signs well.

Only use blank charts and the house cusp nakshatras of each house and later on, place planets in it as planets are like delivery agents to deliver whatever is served by the nakshatras. In this book, I am going to explain the first layer for the first nine nakshatras and later on show you how to use planets as well. But for the time being, let us concentrate on the fact that the ascendant is rising with Pushya 2nd pada and 10th house cusp has a Ashwini nakshatra pada 2.

Let us make some more predictions regarding this particular native.

This means, in the above chart, the native will face struggle in the initial few years of his profession. There will be lots of breaks in his career and only after the third attempt or third job, things will become fruitful at work.

I said the 3rd attempt as this is the nakshatra of Ketu, and triangle represents Lord Ketu.

Similarly, someone in the father's family will not be properly developed. The native will have weak knees (10th house) and the house where his wife stayed before marriage (4th to 7th house) will be either triangular or will be an underdeveloped property or outside the city area as this is what Ashwini nakshatra represents.

The native will choose a profession (10th house) which has not been picked by anyone else in the family to date. Being the first nakshatra in the 10th house, the native will become a pioneer in the family to be the first one in that profession.

He will always get the job assignment, posting, or will work in a place where work has to be started from scratch. The moment it is time to reap the fruits of all the hard work done—the native will either switch the job or will be reassigned to another project as it is the behavior of the native to work in such an environment where things have to start from scratch.

I hope the above example would have made it clear to you on how to use various nakshatras falling on the cusp of various houses. One more thing you should notice is, whenever the dasa of Ketu will start for the native, his profession will also get impacted, irrespective of the placement of Ketu as the 10th house cusp was falling in the nakshatra of Ashwini.

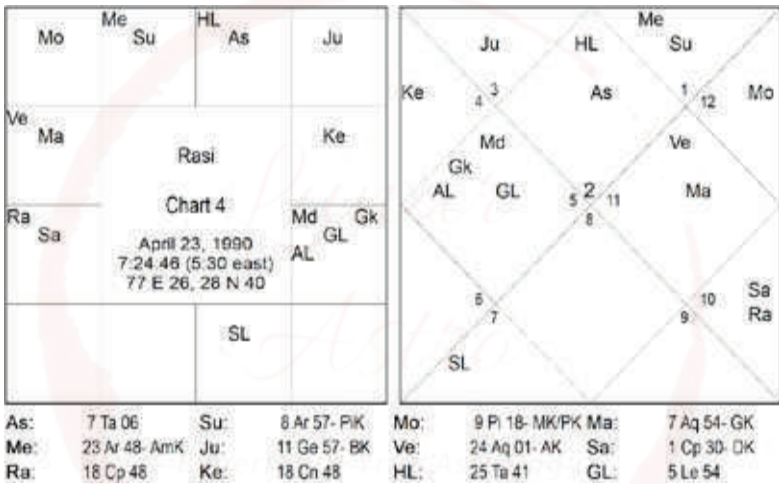

ASHWINI NAKSHATRA

Let us see the effects and predictions if Ashwini nakshatra falls in the cusp of other houses.

We will make only a few predictions as covering all techniques and predictions will not be possible in this book.

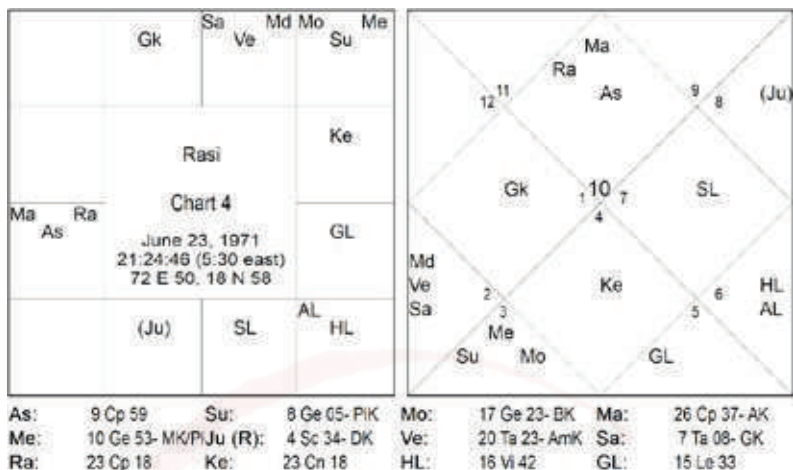

Taurus Ascendant - (0-13°20') - 12th house cusp will fall in Ashwini nakshatra.

Remember - We will not use any planet but only the cusp nakshatra of the 12th house and the quality of Ashwini to make predictions.

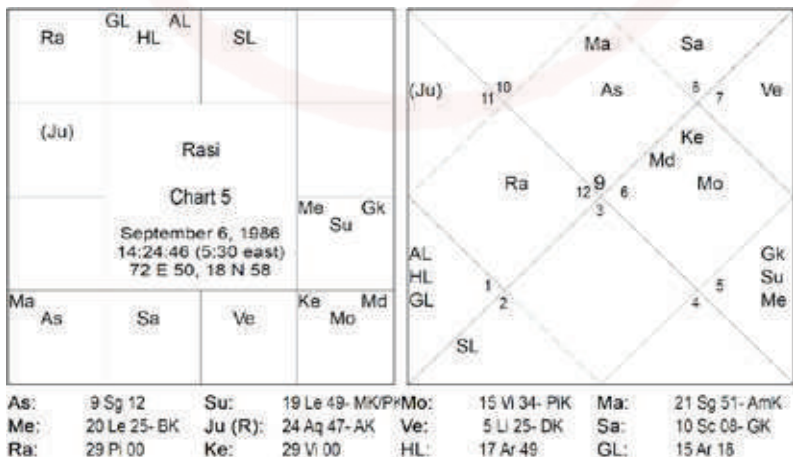

1. You can predict that the native does not spend money in one go and takes time and advice from other people before spending money. Practically, I have seen these natives returning anything they buy as they cannot buy things in one go.
2. Their father will buy a house (12th house is 4th to 9th house) and there will be obstacles created by other people.
3. Their siblings will face trouble in relation with their bosses and in higher studies. (12th house is 9th house to 3rd) Elder siblings will face similar issues related to money and finance.

Capricorn Ascendant - (0-13°20') - Ashwini nakshatra will fall in 4th house for these natives.

1. You will see that these natives have a problem in regards to living in the same city or house for long. They will constantly seek change from there.
2. Similarly, in all the 4th house matters such as vehicle, land, house, they will keep getting hindrances from time to time.
3. Their house will always be outside the city or in an underdeveloped area. Even if their house is in a developed area, it will not be easily visible.

Sagittarius ascendant (0-13°20') - Ashwini nakshatra will fall in the 5th house cusp for these natives.

1. Problems related to childbirth will be prominent for these natives.
2. Hindrance in education.
3. The mother will face issues as she is isolated in the family or not being treated well in the family.
4. Spouse salary and regular income flow will not be there, and even a hard-working partner will struggle to generate regular income.
5. The father will have a hard time adjusting to any kind of religious norms as Ashwini is the nakshatra of hindrance and blockage, and accepting anything as faith without seeking a logical explanation is difficult for natives.

We have studied the examples of for four ascendants above-Cancer, Gemini, Capricorn and Sagittarius. I leave rest of the ascendants for the readers to do as a homework and try this technique.

Remember, I have made only 4-5 predictions for each ascendant. But during my course, I try to enlist at least 15 predictions from each house. But as this is a book and not a journal of my predictions, I have tried to limit myself to 4 -5 only as we have still lots to cover.

Let us move on to the next technique for the Ashwini nakshatra.

To come in this worldly life, you require the nakshatra of Ashwini. As we progress, we will see that Ashwini natives are not ready for this world as being born in the first nakshatra, they have little experience of the worldly matters and are closer to God.

This shows their inexperience in dealing with worldly matters as they are new souls and do not carry experiences from their past life. Hence, in this life, they will gather lots of experience, and to gather any kind of experience, one has to go through both good and bad parts.

I think that is why results of Ketu dasa are never considered good as you come across situations that you have never encountered before in this life, and this will build an experience for your soul to move to the next nakshatra of Bharani.

Anyhow, let us concentrate on Ashwini for the time being. So, the experiences in life, both good and bad, will be provided by this nakshatra as you are not experienced.

“Technique #2 – With any planet/ascendant in Ashwini nakshatra, the native will gain a lot of experience from this planet after several deceptions.”

Let us suppose if anyone has -

Venus in Ashwini - The native will get into relationships very quickly and then, later on, realize that he has done a mistake.

Saturn in Ashwini – The native will start his job or work and other parameters related to his profession without thinking much about the consequences as Saturn is a significator of work. That is why Saturn is considered as debilitated in this particular nakshatra and 10° Ashwini is the lowest point for Saturn.

Saturn is not only your profession but it also shows how much patience and persistence you have so when the native lacks patience, he will start any type of work but will never be able to complete it.

Sun in Ashwini – The native will start any type of education, mantra jaap, and try to help others. Whenever the native sees any type of dispute, he will be fair to all without taking sides and will not think about the result of being impartial. That is why, Sun is considered as exalted in this particular nakshatra as doing the right thing is the theme of Sun in Ashwini.

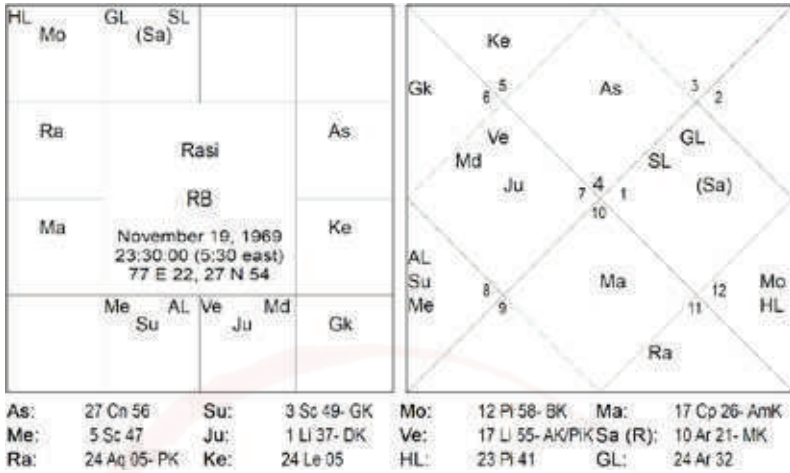

To help someone or to go for education are the prime qualities of a native with Sun in Ashwini. Sun is known for its discipline, and whatever activity the native will start, will be completed.

Mars in Ashwini - Buying land, vehicle, acts of valor, declaring war on someone will be done without any thought process. It will be like a habit but as stated above, the native will learn from experience. So, over a period of time - the native will learn that when doing any activity in relation, Mars native will get careful with it.

Mercury in Ashwini - Mercury is writing, communication ability, childhood, and dealing with kids. All of this is learned by the native slowly as initially, the native would struggle with communication technology but later, adapt to it.

Let us look at the chart below to see the practical application of the technique.

ASHWINI NAKSHATRA

This is the chart of a native who has Saturn retrograde in Aries in 10th house. Hence, we can make a prediction that the native will change a lot of businesses or jobs before settling down.

This is the chart of an investment banker. He has worked as the head of several investment institutions. But as Saturn is placed in Ashwini nakshatra, the native joined the companies when they were starting in the field of investments, and later on when they became established, he left the institution.

See the pattern of Ashwini nakshatra - Saturn in Ashwini is giving this native experience and making him work only in a profile where things have to start from scratch. Later on, the native opened his own company as an investment advisor and picked up investment products that were very new to the market and never explored before.

We have used Saturn as the significator of profession till now, but now let us use it as the 7th and 8th lord.

As the 7th lord, Saturn placed in 10th house, the native had many partnerships in the professional area. In the first few partnerships, the native struggled a lot as getting into partnerships was easy and quick, but later there were lots of disagreements with the partners.

The native changed two partners, and then I advised him not to go in partnerships anymore. If you look at his chart, this native does not have patience when it comes to work so it's better to let him work as a single entity.

Technique #3 – Horse Riders Effect - “Wherever Ashwini is in your chart, you try to show off significations of that particular house as well as the planet that is placed in Ashwini nakshatra.”

Ashwini is represented by twin male horses. Horses have a special quality - that they can run very fast and always leads a group and serve as the protector of the group, as a person sitting on the horse can run in any direction to save anyone.

In any kingdom, horses were allotted by the government to all the prominent people of the king's court as for them, reaching a place on time was very crucial.

This is another technique (reaching on time is crucial) but not discussed in this book. But let us talk about the horse rider effect.

In a Hindu traditional wedding - you would have noticed the groom sitting on a horse. The reason behind it is that he has to reach the bride on time, and he is the centre of attraction.

Any planet in Ashwini nakshatra - Consider this planet sitting on a horse and trying to show off - When Sun is placed in Ashwini, the native shows off very graciously without putting any extra effort into it as Sun is a royal planet. But when Saturn goes in Ashwini then the native is continuously trying to prove himself. The methods adopted by him to show off are very cheap in nature.

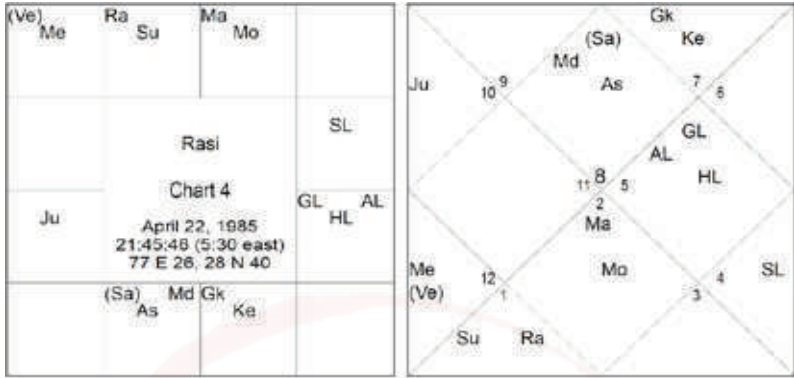

Let us go for different planets one by one and then look into an example chart.

Sun – Sun, being a royal planet and sitting in Ashwini, shows that the native belongs to a family who has good lineage and that his father is a prominent person. This person, without putting in much effort, will tell that his father is someone influential in society. The native will talk about his education, kids, mantra siddhis, and his position in society.

If you see in the above example, we are only using nakshatra and planet; we have not used Sun as the lord of a specific house in a chart as well as significations of the house have not been used.

To make a complete prediction, let us use Scorpio ascendant and Sun in Aries in Ashwini nakshatra in 6th house as an example.

See the chart below.

As: 17 Sc 10 Su: 8 Ar 50- MK/PK Mo: 5 Ta 29- PIK Ma: 3 Ta 47- GK
 Me: 14 Pi 18- AmK Ju: 20 Cp 30- AK Ve (R): 12 Pi 28- BK Sa (R): 2 Sc 50- DK
 Ra: 25 Ar 35 Ke: 25 Li 35 HL: 5 Le 06 GL: 0 Le 29

In the above chart, Sun is in Ashwini nakshatra but placed in the 6th house of the chart.

The native will talk about disputes with father or disputes of father and that how much the native has struggled to gain any position in life.

Sun being the 10th lord in 6th house, the native will try to dominate the workplace and people working under him by his superiority methods. The presence of Rahu just adds fuel to this fire.

As in the above prediction, I have added significations of the 6th house. Similarly, I request all readers to do that when they make a prediction using this method.

Similarly, readers should use Sun as a house lord as well. Sun being the lord of the 10th house in scorpion ascendant placed in the 6th house, the native will constantly talk about and show off all the disputes that have happened at the workplace and in the father's family.

Pending Karma and Nakshatra Padas Source:

Karam Vipak Samhita is a classical text that revolves around the conversation between Lord Shiva and Maa Parvati. Mahakaal is explaining to Maa Parvati the effect of being born in various

nakshatras and due to which particular acts of past life, the native will suffer in this life, and along with the remedies to be performed by an individual to get rid of several curses performed in the past life.

With the blessings of Lord Mahakaal, I have tried to interpret the Samhita to understand the manifestation of curses in today's world and the remedies needed to cure them.

To read what is not written, to hear what's not been said, you need the blessings of ancestors as this is one of the most difficult subjects to decode.

This is the version of pending karma and its manifestation, which I have experienced over a period of time while practicing Jyotish. I noticed a pattern that the native faces almost the same challenge as in his past life as if nature wants him to correct his mistakes of the past life.

This made me think that if nature wants mankind to finish all pending karma of the past life and gives all hints and clues, what will happen if we get synchronised with nature. Once I started suggesting people remedies according to the pending karma of the natives, the feedback was most astonishing for me as these remedies worked like miracles in most of the cases.

Even if a certain remedy was not done regularly, still results were visible.

So, what were these remedies? These remedies were decoded from Karam Vipak Samhita. They were as simple as giving respect to father or planting trees or saving water. In the next part, we will understand the remedies for the first nine nakshatras.

Ashwini Nakshatra - Pada-1 (0-3°20') - Aries Navansh First pada of Ashwini nakshatra starts from 0 degree of the Aries Sign and ends at 3°20'.

When we divide the sign of Aries into nine parts which is also called as Navansh - or D-9 chart, we get a division of 3°20'.

Aries	Taurus	Gemini	Cancer	Leo	Virgo	Libra	Scorpio	Sagittarius
-------	--------	--------	--------	-----	-------	-------	---------	-------------

Navansh in Aries Sign:

We are dealing with the first navansh and Lord Shiva describes the below story. This is not a word-to-word translation but a complete picture of the story.

Lord Shiva says -

A good-looking Brahmin, who had knowledge of Vedas and carried all the good qualities, was married to a woman who was born as a Kshatriya and was bad in character.

They had a son named Narhari.

Narhari never practiced any of the rituals of Brahmins and was involved with several women. Narhari had a rich friend who had everything in life with the grace of Lord Vishnu.

Narhari always wanted to take over all the possessions of his rich Brahmin friend. So one day, forced by greed, Narhari killed his Brahmin friend and took all his wealth.

He started living off that money and later, even donated some part of the wealth to the temple of lord Vishnu as a secret donation.

Narhari, when reborn as a human on earth, struggled to get any kid and although rich but suffered due to body pains.

Now let us try to read between the lines and understand the decoded version then we will try it on a couple of example charts.

Parents will be of different nature. The father belongs to the Brahmin clan so he is involved in either teaching, counselling and earning money through knowledge.

This shows inter-caste marriage due to love which is the 5th house. Remember that 5th house for the time being as this will be used in techniques later.

In all the chapters of Karam Vipak Samhita, you will find that Lord Shiva explains the bad effects of the 5th house as it is one of the most important houses and gives you happiness, mental peace, and education. You cannot buy the 5th house with money, you only get it because of your previous good deeds of the past life. If you do not have a good 5th house, it means Punya of past life is missing. So, in this life, you need to donate that specific object or signification of that planet sitting in the 5th house.

5th house represents your stomach. As a principle of Ayurveda says – all diseases start from the stomach, so malefic in the 5th house means that the native will suffer in health, and depending on the sign and planet, the disease will be due to 5th house only.

The mother of the native is the one who would talk about materialism and would have bad food habits as Kshatriyas are natural warriors and are governed by the quality of Mars. However, the father was governed by Jupiter.

Due to the effect of the mother, the child never learned any rituals of Brahmins and was more interested towards amassing wealth.

5th house denotes your rituals and your interests in any activity, again taking 5th house in consideration. (Lord Shiva is again talking about the 5th house).

The person born in this nakshatra pada will try to gain wealth by taking it away from others forcefully and harming his close ones to gain wealth. Due to this quality, he will never be happy on account of his kids.

Kids are denoted by the 5th house, so again the reference to 5th house.

If you read the Karam Vipak Samhita, while describing the ill-effects of past life, Lord Shiv has said mostly regarding ill health or no happiness from kids as these were the true resources during that time. And they have a deep meaning to it.

Due to the sign and nakshatra pada – both falling in the sign of Mesh - being a Martian sign, it shows that the native is very self-centered and the focus of the native is on himself.

The native will not care about anyone else and will constantly think about his own welfare. The native will stay away from kids or will not be able to give time to his own kids.

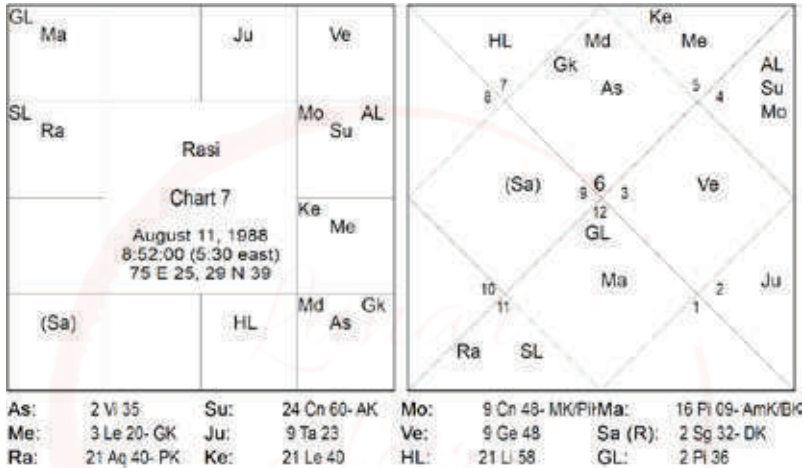

Technique #4 - The 5th house from the Ashwini nakshatra will be highly afflicted due to which the native will not be able to enjoy various significations of the 5th house e.g. Education, love, kids, position. A very prominent pattern which I have observed over a period of time is that any planet sitting in Leo in first 13° 20' will not give good results related to this house's lordships and significators for Ashwini nakshatra natives.

What you have read in the last page is just a glimpse of a condensed form of the technique which is derived from the conversation between Maa Parvati and Lord Shiva. Both of them assumed when

this text will be read by the rishis, they would have all the other building blocks in place to use this amount of information widely.

I do not want to confuse my readers so I am going to ease all readers in slowly with further building blocks of information.

Let us try this information with a simple chart first and later on, move to more complicated ones.

In the chart placed above, the 8th house cusp is placed in Ashwini nakshatra pada-1. Let us analyze the pending karma the native is carrying in the 8th house from the principle that the 5th house from Ashwini will be highly afflicted.

The 5th house of the native has Mercury and Ketu placed in it in the 12th house. One of the snapshot predictions that can be given easily is **“The native will cheat a professional partner due to a loophole in law at the time of division of business.”**

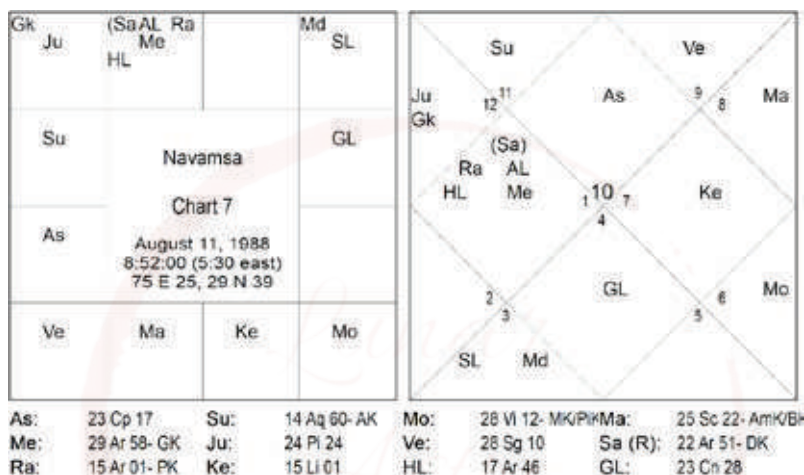

How I gave this particular prediction - Mercury is lord of ascendant and the 10th house. Mercury (Loophole) is placed in the 12th house and it is the dispositor of Venus (Partner) and cheating at the time of division (Ketu signifies division) and legal law as it is a sign of legality (Leo).

What we have covered till now is only half the story as everyone says Navansh is the fruit.

This is the first time I am going to write why Navansh is the fruit for Rasi chart.

The native has carried out a karma of cheating a professional partner. How this will come back to the native in this life is seen through navansh. Now let us see the story of navansh.

To know the exact prediction, let us look at the D-9 chart for this native. The navansh chart will tell you the result for this particular action.

In the Navansh chart, Aries falls in the 4th house of the chart and Leo goes in 8th.

"This native will be cheated by in-laws and his property and wealth will be taken by in-laws as per the orders of the government."

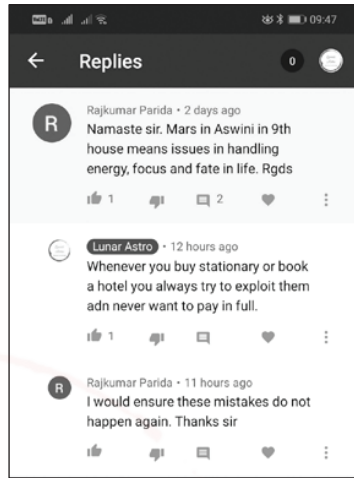

The reason I made the above prediction is - Let us start with the sign of Leo - the 8th house shows troubles - lord of which goes in the 2nd house of Aquarius which is a sign of cheating and both lords (Saturn and Rahu) of Aquarius are in 4th house.

The native will get cheated in inheritance. The reason being that the native had done cheating with his business partner.

Karma is served through in-laws for this native. I have not covered the remedial part for any of the nakshatras in this book. Once I cover all the 27 nakshatras, then I will discuss remedial measures for these nakshatras.

Below is another example of a snapshot prediction - One of the natives on YouTube asked me a question regarding pending karma - The native had Mars in Ashwini in the 9th house. Mars signifies property, but 9th house is the house of travel so it implies rented property. That is why I advised him not to exploit such property and the native agreed not to repeat the mistake again.

Similarly, you can use significations of other planets to make predictions.

Aries	Taurus	Gemini	Cancer	Leo	Virgo	Libra	Scorpio	Sagittarius
-------	--------	--------	--------	-----	-------	-------	---------	-------------

Ashwini Nakshatra - 2nd pada - (03°20'-6°40') - Aries Sign-Taurus Navansh

Lord Shiva talks about a Kshatriya who was of mixed breed and was named as Shwetverma. If you notice, the name has a Venus effect in it.

He had only sons. One day, his maternal uncle came to visit him with his sons and he carried a lot of gold and ornaments along with him.

This native stayed at his sister's house for over a month and enjoyed all the luxuries and hospitality at native's house.

Sister's house is pointed by lord Shiva with a negative reference as staying in sister's/daughter's house after her marriage is frowned upon in Indian society.

Lot of people still do not eat or consume anything at their daughter's house after marriage, but this guest stayed well over a month.

One day, Shwetverma, due to his greed, killed his maternal uncle and his son and got all the gold and ornaments.

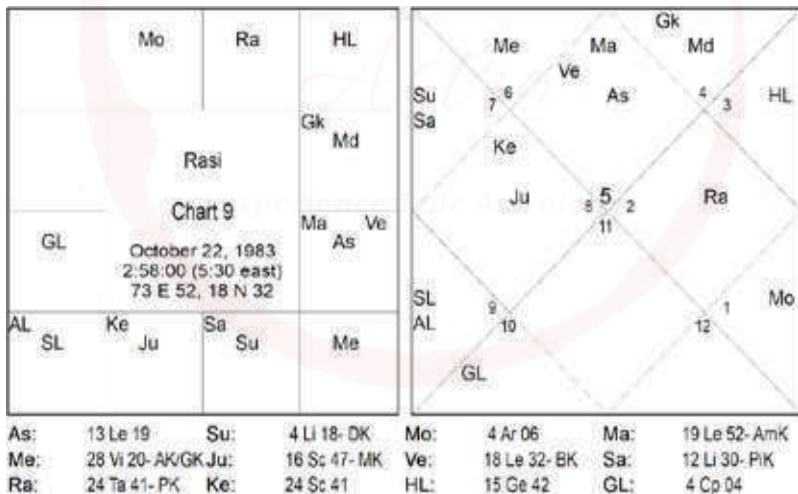

Now let us try to read between the lines and decipher the actual meaning and how this curse will be manifested.

This is a combination of Aries sign which represents violence. So in all the four padas, you will see that there will be cases of violence but due to different matters as this is a Taurus navansh. Taurus is a sign which represents your resources, food, ways you decorate things and whatever stored wealth you have.

So, there is violence related to resources which led to killing of someone who was consuming food at his house or using his resources and over-welcomed a guest gesture by native. In the story, it was only food but in real life, it can be any resource related to that particular house. (We will see this in detail with the help of an example.)

Similarly, the native killed him for gold. This not only implies acquiring gold but also killing someone coldblooded who really trusted the native and it was his responsibility to protect him instead the native was killed by Shwetverma.

Let us see the physical manifestation of this event in the chart.

This is a chart of the native where Moon is in Ashwini nakshatra pada-2.

Let us first analyse the D-1 chart step by step.

The 12th lord Moon is placed in the 9th house and is also a dispositor of Gulika and Mandi, who are highly malefic.

The prediction will be, **“The native will acquire the property of the father by fighting with sibling(s) and cheating will be involved in this case.”**

The 12th house is the father’s property which is going in the 9th house and the dispositor of which is going to Lagna. There will be fights from siblings as Venus is in Lagna and dispositor of Saturn + Sun + Rahu.

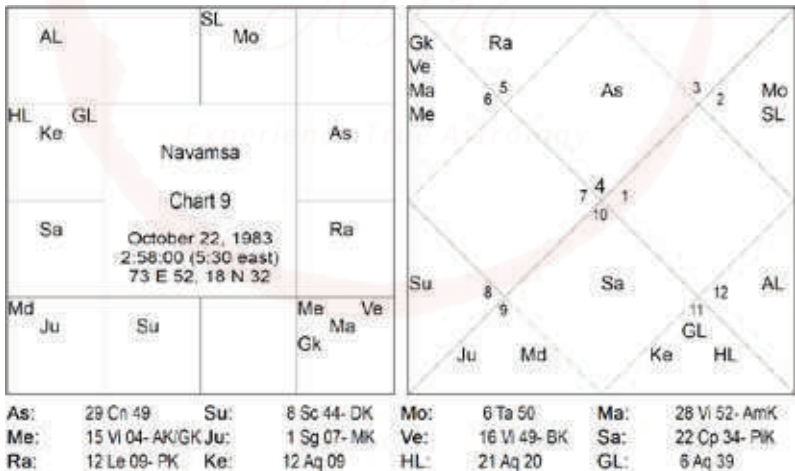

So, what will be the fruit of this particular action of the native and how will it get manifested in this life?

In the navansh chart placed below, Moon is in the 11th house in the sign of Taurus. So, what are the resources we have in the 11th house?

Father’s siblings, our regular income, kid’s spouse and native will face severe problems in life due to this action. Later in life,

the native will suffer harassment from all close ones and spend a lot of money on medicines, doctors and court cases.

If you notice, the dispositor of Moon is going in the 3rd house and shows clear pictures of the event as it is a sign of Virgo.

Even though Lord Shiva told the story regarding food, but we have to understand that in those times, food was considered the greatest resource. Hence, depending on each chart’s configuration, the predictions will change. Like in the above case, the native took

land from his father and siblings forcefully and almost killed them due to his greed for resources.

Ashwini nakshatra - 3rd Pada - (6°40'-10°) - Gemini Navansh

Aries	Taurus	Gemini	Cancer	Leo	Virgo	Libra	Scorpio	Sagittarius
-------	--------	--------	--------	-----	-------	-------	---------	-------------

Lord Shiva says that a royal person named Chol Singh used to live in Narayanpur.

He had a friend who was a Brahmin only by birth, not by his actions. One day, both of them went to jungle to hunt and with the help of each other, they managed to hunt down a deer.

Later on, they had a fight over dividing the flesh of the deer and during the heated conversation, Chol Singh killed his friend and came back home.

If the native helps or donates in construction of the lake, well, pond alongside the main street, he will be able to get this curse removed.

Let us try to decode the hidden secret between these lines.

It is a sign of Gemini in navansh - which is considered as the most selfish sign. They are very particular about their gains and being in the sign of Aries, there is a tendency to hit people physically who belong to the 3rd house (siblings, friends, father-in-law, neighbors).

So, in this life there will be a dispute with the 3rd house people over division of gains, and that is why the native will suffer in life.

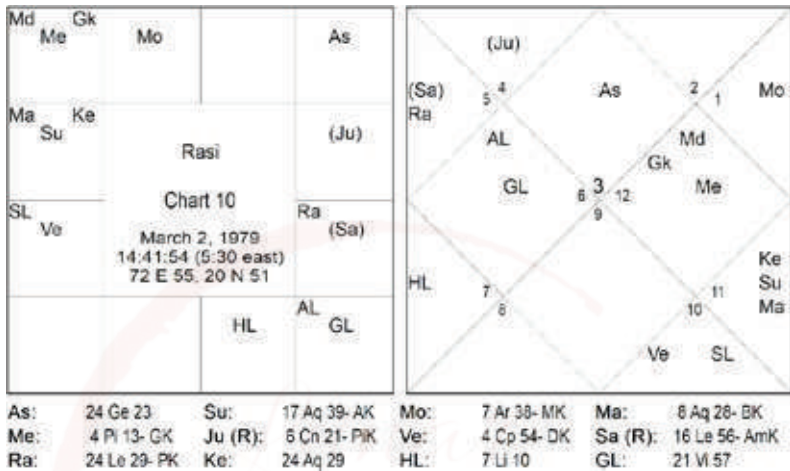

If you see the particular remedy, Lord Shiva is telling him to provide relief to masses who travel with the instruction to help in the construction of a well alongside the main street so that his third house malefic effect gets reduced.

Practically, I have seen for these natives that if one fine day out of the blue, someone from the 3rd house (neighbors, father-in-law, siblings) ask for help and if they go ahead and provide the relief without getting greedy over the division of gains with these people, they will get rid of lot of problems in life.

ASHWINI NAKSHATRA

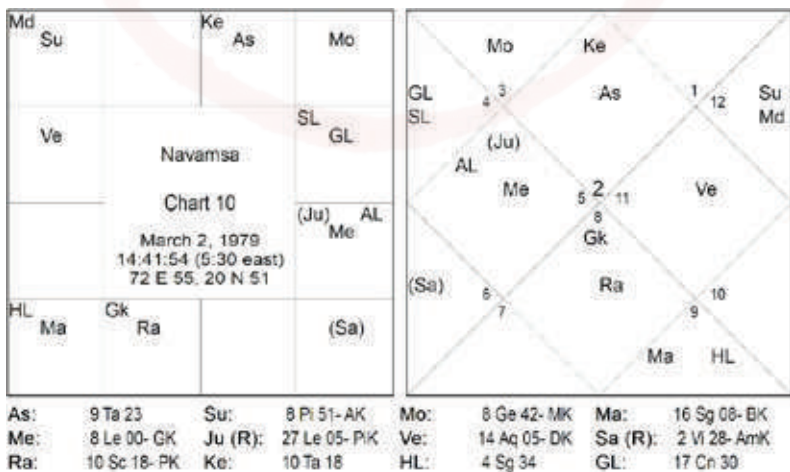

Let us look at the example below -

In this example, I am going to show you a different way to predict the pending karma.

In the Rasi chart above, Moon is placed in the 11th house and dispositor goes in the 9th house of the chart.

In the Navansh Chart, Moon is in the 2nd house of wealth and dispositor is in the 4th house with the 8th lord of inheritance, Jupiter, in the chart. And this Jupiter is the dispositor of 7th and 12th lord Mars as well.

The prediction is, *“The native will fight with family over inheritance of property from in-laws.”*

This is the reason why the native will talk to father-in-law or family as he always requires more from the division of property.

As the 4th house was involved, I used property but in any other house, there will division of that house’s signification.

Ashwini Nakshatra – Pada - 4 - Cancer Sign

Aries	Taurus	Gemini	Cancer	Leo	Virgo	Libra	Scorpio	Sagittarius
-------	--------	--------	--------	-----	-------	-------	---------	-------------

Lord Shiva says that a Kshatriya named Laxman used to live without any principles and religion, and always roamed around.

His wife had bad character and was involved with several other men in society.

Laxman had a Brahmin friend who was very rich but Laxman took all his wealth and due to grief and pain of betrayal, the Brahmin died.

If in this life, Laxman takes bath in triveni (junction of three rivers) and donates to Brahmins, he will be free from the curse of past life.

Let us try to read between the lines for Ashwini nakshatra- Pada-4.

Laxman stole wealth from the Brahmin- due to the Cancer sign. Brahmin is used here as cancer is a Brahmin rashi and Brahmin’s wealth is his knowledge and all those manuscripts that one gets from ancestors.

So, stealing someone’s intellectual property, copyright issues, creating troubles for those who are working for masses are the kinds of activities that will be done by the native to his friends, mother and planets in the Cancer navansh.

Lord Shiva has given the remedy that the native should get cleansed in holy waters to get rid of this sin. This is a great clue for remedies as when it’s a watery navansh, the remedy given out is of water only.

ASHWINI NAKSHATRA

I hope that with the help of above three examples, I have cleared the basis behind the pending karma prediction with remedies. Let us move to the nakshatra of Bharani.

○○

୨୬୭୦୫୩୮୯

Yama
(God of Death)

Bharani Nakshatra

Deity: Yama

Planetary ruler: Venus

Symbol: Vulva

Animal: Male Elephant

Tree: Indian Gooseberry

Bird: Swan

Span - (13°20'-26°40')

This is the second nakshatra of the Zodiac. Bharani represents the period you are in the womb of the mother and are confined and dependent on the mother. You will see people with prominent planets in Bharani get problems related to umbilical cord wrapped around the neck or food not being delivered to the baby in the womb due to some medical reason.

You are dependent and restricted in the mother's womb, hanging upside down. This teaches you that after a lot of pain and suffering, a transformation comes to life.

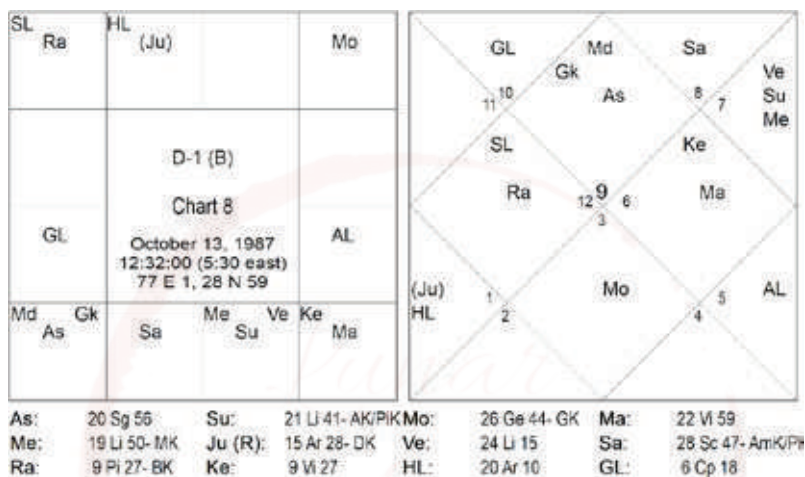

Technique# 1 – Whichever house cusp falls in Bharani nakshatra, the native will be completely dependent on someone else. But as the baby comes out of the womb and gets independent, the native will also become independent over a period of time but with shock and betrayal.

Let us look at the first example below where we will only use Bharani nakshatra and nothing else.

If you had a look at the chart below, you will find that the 5th house cusp is falling in Bharani nakshatra. Also, Jupiter is placed in

the 5th house in Bharani nakshatra. But to begin with, let us use the cusp nakshatra of the 5th house only, which is Bharani.

The prediction will be, “The native will have a lover who will be the center of life for him, but one day that person will leave the native and the native will be completely disoriented.”

As I have used the prediction for the 5th house, you can use it for any house. For example - If someone has Bharani nakshatra cusp falling in the 10th house, then the native will have a boss and the native will be completely dependent on him. But one day that boss will leave the native and the native will be lost in life.

As Bharani requires support for initial time period, this support will be there like a mother provides nutrition to her child.

In the case above, if you notice that Jupiter which is well placed in Bharani nakshatra, you can make a prediction that in school, there would have been a teacher who acted as the mentor and protector for the native all the time. Once that teacher was gone, this native will suffer badly in studies for some time as there will be no one to guide him.

Let us move to another technique of Bharani.

Technique #2 – Bharani natives do not like to meet people easily and people have to wait a lot to meet them. They are very picky to meet people.

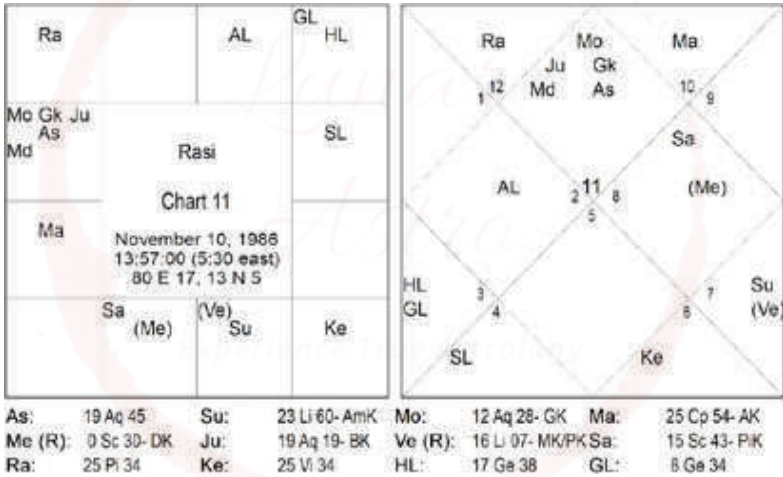

BHARANI NAKSHATRA

This is the nakshatra of Yam, and it is not easy to meet Yam. Even if you read Ishvashya-upanishad, you will find that even Nachiketa had to wait for three days to meet Yam.

Lord Yam does not want to meet people as he is a very disciplined and dutiful person. If someone asks for a favour, he is unable to provide it as he has to go by the rules.

So, let us suppose if someone has Bharani nakshatra in the 4th house, the native will refuse to meet people as lot of people come to ask for favours regarding either using their house or car.

At present, I am only using house as an example under the assumption that no planets will be placed in Bharani nakshatra. But let us see a practical example.

In the chart placed above, you will see the cusp of the 3rd house lies in Bharani nakshatra. This means a lot of people will come to meet the native regarding 3rd house matters.

As the 3rd lord is in the 12th house in the sign of Capricorn, people will come to ask for some kind of paperwork which will help them go abroad in a profession as even the dispositor of Mars is placed in the 10th house with 8th and 5th lord Mercury. This native will avoid meeting people coming for any paperwork as it is against his principles to sign anything or stamp anything.

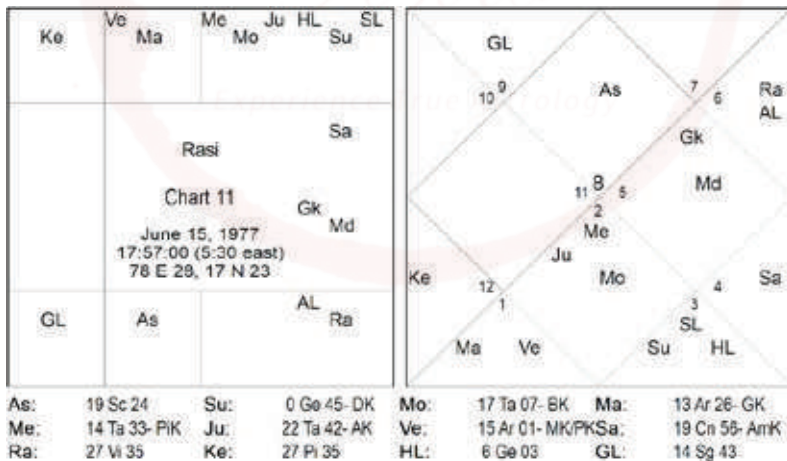

Technique # 3 – Bharani and Excessive Things - As the name suggests, Bharani means to accumulate. So whichever planet and house goes in Bharani nakshatra, the native will love to store the significations of that planet.

If someone has Moon in Bharani nakshatra, the native will store a lot of raw food in the house in abundance. For a very strange reason, I have observed Bharani nakshatra natives plan like they are preparing for the worst -case scenario and want to make sure they have all the resources for just-in- case situations.

Similarly, if someone has Venus in Bharani nakshatra, the native will have clothes for every occasion and for special occasions, they will have a backup dress as well. Similarly, in case of relationships, they will always keep another person on standby.

Mercury in Bharani will have an extra phone and an email account. The native will send emails twice or using two different email ids so that there is a backup always.

Similarly, you can use significations of all the planets to make predictions. Let us look at the example chart without any planets.

In the chart above, Bharani nakshatra is placed in the 6th house. Also, Mars and Venus are placed in it. The prediction to be made is -

“The native will suffer from a tumour-related disease.”

As in the 6th house, the native keeps on collecting tumours and will suffer from tumour and cancer-related issues. That is why there will be lot of medicines in the house.

Let us move to Karam Vipak Samhita.

Bharani Nakshatra - Pada-1 - Aries Sign - Leo Navansh

Lord Shiva says that there was a Brahmin who was involved in Vaishya karam (trader) instead of Brahmin rituals.

To run a business, he took gold as loan from a woman who was a widow Brahmin but he was unable to pay back the loan. He died without paying back the loan and in this life, his kids will suffer on account of their spouse. As the spouses of all the kids will die early, there would not be any future generation for this native.

This native should pray to Lord Sun and donate for the construction of a garden for people to relax to get rid of this particular curse in life.

Let us try to read between the lines – how these lines are applicable in today's world.

First of all, this native did not pursue the profession according to his studies as you see that the native was a Brahmin and was supposed to perform Brahmin karam but due to greed of money, he changed his profession.

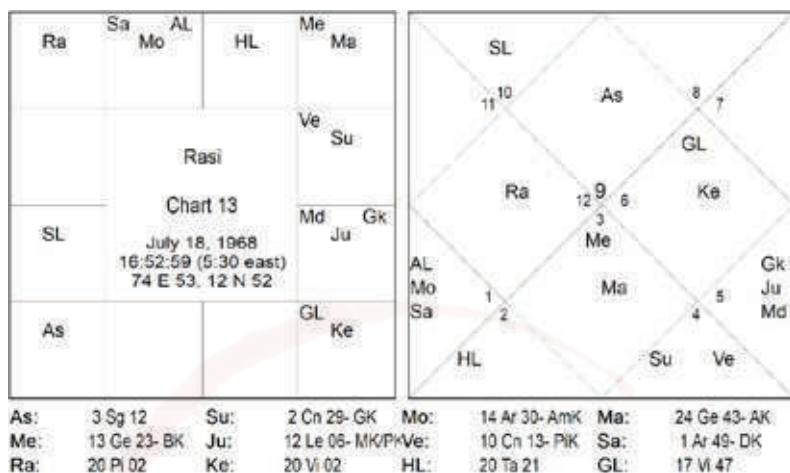

In today's world, you will see several people who are from engineering background but working in finance due to attractive salary packages rather than pursuing what should be their natural work.

Secondly, to start a business, the native will take loan from a person who is already in a bad state like in the story above. The lender was a widow and she might have kept that gold for her old age. Similarly, the native's friends or family will help him out of the way with the money that they have saved for the later part of their life.

This native will never be able to pay back this money for whatever reasons and will die without repaying the loan.

As this is the Leo navansh and the sign of Leo represents gold, that is why gold has been mentioned. And later on, the same curse would pass on to the kids.

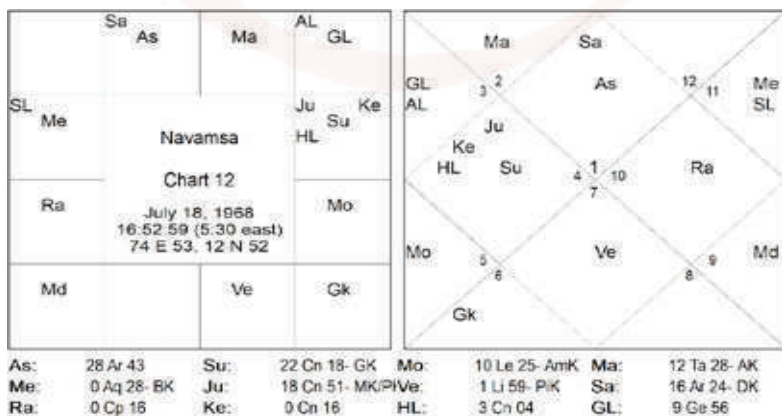

Let us look at the physical manifestation of this curse in the chart.

In the above chart, Moon is in Bharani nakshatra – 1st pada - and the dispositor of which is in the 7th house with 10th lord. So the native will take a loan for business from father's retirement fund and will not be able to pay back.

“Moon is the 8th lord, so the prediction of inherited money. Sun is placed there, so one will use father's retirement fund, as this is the 12th house of the father, to invest in business and will never be able to return back.”

Let us look at the Navamsha chart for this native and see what will be the result of this action.

In the navansh chart above, you will find Moon in Leo in the 5th house and Lord Sun with Ju & Ke.

The fruit of that action is -

"The native will face losses and legal troubles from seniors when the child of this native will start education, and also the native's kids will never be at peace."

Let us see why this prediction has been made. 4th house has Ketu which is the lord of Scorpio and lord of the 4th house for kids (4th from 5th house) and Jupiter which is the 8th lord (8th from 5th) for his kids. So the 4th and 8th lord when combined in 4th house which is the 12th house for kids.

"Kids will live abroad and never get peace of mind and native will be unhappy on account of kids."

Bharani Nakshatra Pada-2 - Virgo Navansh

Lord Shiva says that a Brahmin named Janak, who was a thief, used to live in Kashi. He was a drunkard and a womanizer but his wife was a noble lady who used to follow all the rituals of the family.

One day, a Brahmin came to their door asking for alms but Janak cursed him and insulted him. Due to Janak's bad behaviour, the Brahmin committed suicide.

In the next life, Janak was born with an incurable skin disease. To get rid of this curse, this native should do Gayatri Jaap and give donations to Brahmins.

Let us now read between the lines. Lord Shiva is saying that there was a person who was not doing his job properly. As said in Bhagwat Gita, a person who does not perform work assigned to him is a thief. So in this life, this native will not do his job properly and even in office, he will be busy with other work.

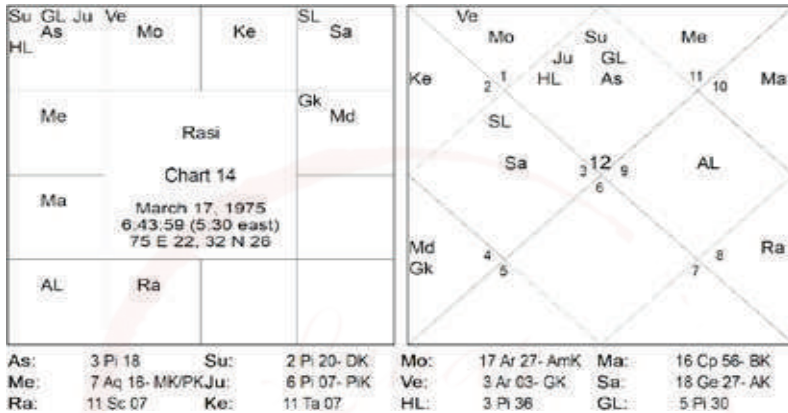

The native was a drunkard so in this life as well, instead of concentrating on priority tasks, the native will find reasons to not take responsibility for any work.

Whoever tries to do his work, this native will start insulting them and that too in public. This native will harass a lot of people at his work place due to stubborn attitude.

This is the reason, in this life, he will suffer from problems related to 6th house mercury.

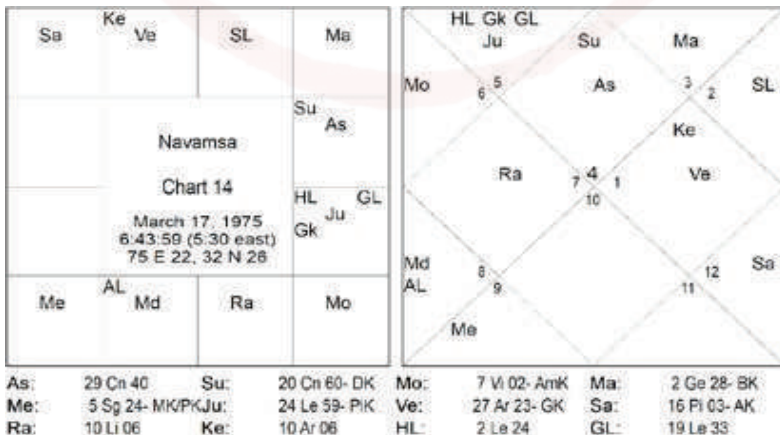

As skin disease is governed by Mercury, which is symbolic, in real case scenario, you will find these people having serious issues in regards to litigations and disease. Most of their energy will be spent in managing these aspects.

Let us try to see this with the help of an example.

As Moon is in the 2nd house of the birth chart with the 8th lord and the lord of the 2nd house is also exalted, the native has received a great amount of money in inheritance. But Moon being the 5th lord with 8th lord, the native will never understand his responsibilities regarding kids and family.

So, let us see due to this particular karma, what the fruit of the native is going to get in this life.

In the Navansh chart, Moon is in the 3rd house in the sign of Virgo and the dispositor of the Moon is also placed in the 6th house. Due to this, the native suffered from skin disease and the native faced a long court case over property dispute from neighbour.

The 3rd house is the neighbour - 3rd lord Mercury goes in the 6th house in the sign of Sagittarius which is a long-term sign. (Any planet in the 9th house will have long-term goals) Please refer to my lectures in predictive astrology course.

6th lord Jupiter is in the second house with Gulika. Jupiter is the dispositor of 8th lord Saturn as well. So, a long-term court case from a neighbour over inherited property will happen to this native.

Bharani Nakshatra Pada-3 - Libra Navansh

Once upon a time, there was a trader who used to live in Kashi, and due to his focused approach in business, he was a very rich person. Throughout the day, he was busy with his business activities.

He used to sell various food items in the city. One day after buying jaggery in bulk from the market, he overloaded his bullock cart.

Due to the overloaded bullock cart, a bull died on the way to home. But the trader never felt bad on the death of a bull rather he carried on with his work.

Now in this life, he will suffer from diseases related to private parts and issues related to progeny due to low sperm count. The native will also suffer from fever which will happen due to liver issues.

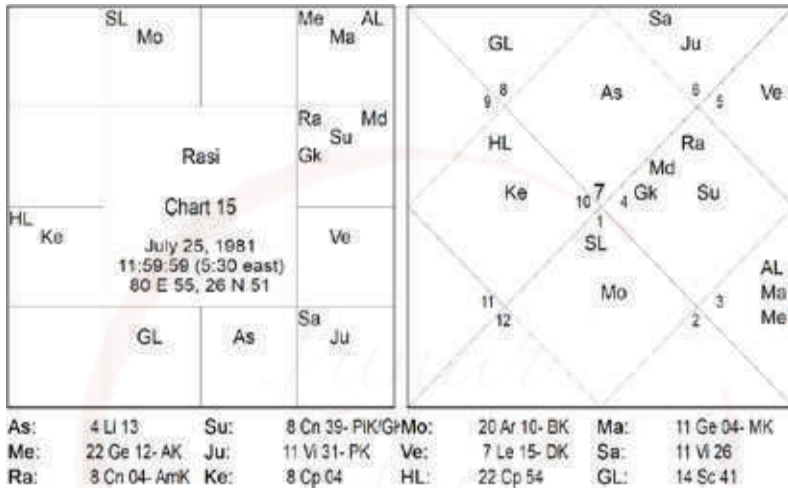

To get rid of this curse, this native should make a gold idol of a bull and donate it to a Brahmin after his last rites. Post this, the native will be able to get rid of this problem.

Let us try to read between the lines of what Lord Shiva is telling.

Lord Shiva is saying that for this native, business and making money are the priority and although this native will have everything but he will not pay attention to his wife. There would be problems related to the 7th house of the native. Secondly, this native does not treat his employees well as he constantly expects them to generate output and work without breaks, giving them unrealistic targets leading to employees' agony.

I have noticed with these people whenever they are around, they create an atmosphere of tension among the staff to work and never appreciate anyone. They are very hard task masters.

Let us see the physical manifestation of the curse with the help of practical examples.

In the chart above, Moon is placed in the 7th house and 7th lord Mars is placed along with 9th lord Mercury in the 9th house.

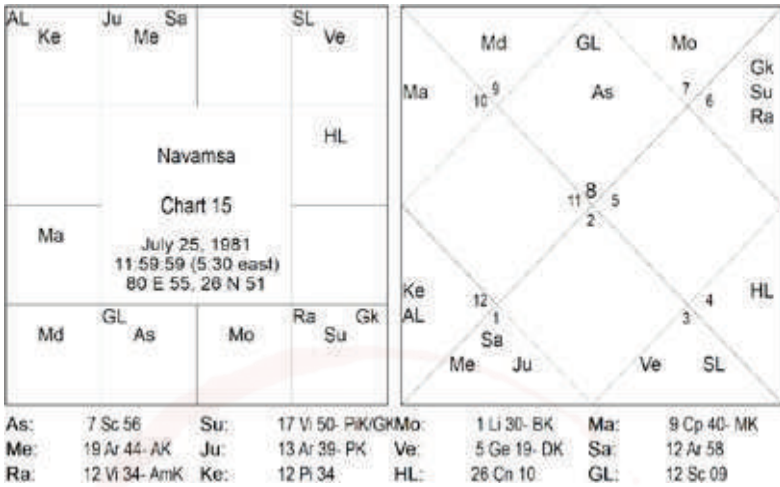

This native is an independent contractor and due to his nature of work, his travels are mostly outside the country. Due to his work type, his married life suffered as he was even involved with several women.

He was unable to make balance between work and personal life, and money became a priority for the native.

After 10 days of marriage, native left for a business trip for 45 days.

Let us see the result of this action for the native or say, the fruit of navansh.

Due to this particular action of the native, he was left alone in isolation at the time of ill health. Business was taken over by his partner by cheating and the native suffered a huge loss and business came to zero for him.

12th house stands for isolation and with Moon placed in the 12th house of the chart, it shows that the native will be left alone due to his concentration on work and no social circle. Also, the dispositor of Moon is in the 8th house of Gemini and Venus in Gemini represents partnerships.

8th lord is in the 6th house with a debilitated Saturn which shows business will come down to absolute zero due to this.

I know the above combination requires great amount of practice as every single chart you see will have multiple other factors. But once you get hold of all the significators and planets, you will realise how easy it is to make such pin-pointed predictions.

Bharani Nakshatra - Pada 4 - Scorpio Navansh

Lord Shiva says that a Brahmin named Loksharma used to live in Ayodhya and was married to a beautiful lady named Leela.

Loksharma never practiced Brahmin rituals instead worked as a hunter and killed several animals for their flesh. Due to his cruel nature, he enjoyed killing living creatures of the jungle.

Her wife was short-tempered and fickle in nature. She had relations with several other men to calm her desires.

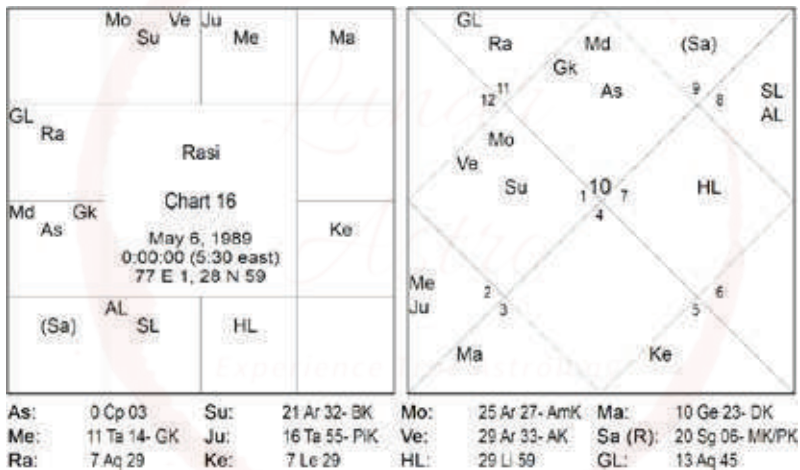

In the next life, both of them suffered from several diseases and there was no one to carry on the lineage for this native.

Let us try to read between the lines that how this story will be applicable in today's world.

As the first line suggests, although the native is born in a good family but due to his nature, he has uncontrollable desires of the second house. That is why the native cannot keep control over his food habits and all second house matters suffer for him.

Wife of this native will be of questionable character as the native will be busy hunting in the jungle. This means the native will be busy outside working to earn money or will be relocated some place. This is what I have observed and due to the same reason, his wife will be involved with several men.

Let us look at an example below:

In the chart placed above, there is Moon placed in the 4th house. But as this nakshatra pada is affecting the 2nd and 8th house from the placement – you will realise for Bharani nakshatra natives who are born in pada-4, 2nd and 8th house from the placement of Moon will be the point of life for them.

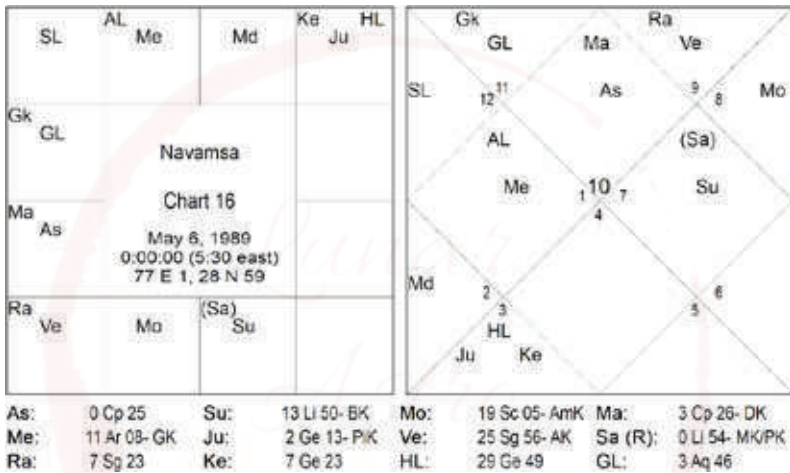

The 2nd house from Moon will be desires and the 8th house from Moon will be its results.

Like in the case above, *“The native had questionable relationships with girls of young age while he was the mentor and due to which he developed a skin disease.”*

The native is a professor in a university but has relations with young girls. Notice the presence of Jupiter - Mercury in the 5th house in the sign of Taurus and as a result of which is coming from 11th house of gains. The native got fired without salary and now struggles for work.

So, desire will be in the 2nd house of Moon and punishment will come in the 8th house from Moon.

Let us look at the Navansh chart of the native.

Let me explain the final result of the story using the navansh chart and final dispositor story.

The native is facing litigation in profession due to illegal relations. Notice Sun & Saturn in the 10th house which is a dispositor of Mars in lagan, and Mars is controlled by Moon.

Moon is the 7th lord of navamsa in Scorpio that shows hidden relations.

If you notice the final result - Venus Rahu are in the 12th house in the sign of Sagittarius. The wife of the native will be involved with someone senior (in position or status than the native) as the sign is of Sagittarius and that too in isolation.

AGNI
(God of Fire)

(God of Fire)

Kritika Nakshatra

Deity: Agni

Planetary ruler: Sun

Symbol: Blade

Animal: Male Goat

Tree: Cluster Fig

Bird: Peacock

Span - 26°40' Aries-10° Taurus

In Bharani nakshatra, you were dependent on someone else as Bharani is the nakshatra of discipline and constraint due to the effect of Lord Yam. But once you come out of the mother's womb, you are a separate entity and are independent. This is the reason blade is the symbol for this nakshatra as the umbilical cord of Bharani is cut by a blade, thus making you independent.

That is why, in some of the classics, Kritika is said to be the first nakshatra of the Zodiac as your individual life on earth starts from this nakshatra.

In Bharani nakshatra, you were behind the scenes and never wanted to be in limelight. But in Kritika nakshatra, you are leading the show from the front and making decisions for everyone as this is the nakshatra of Sun.

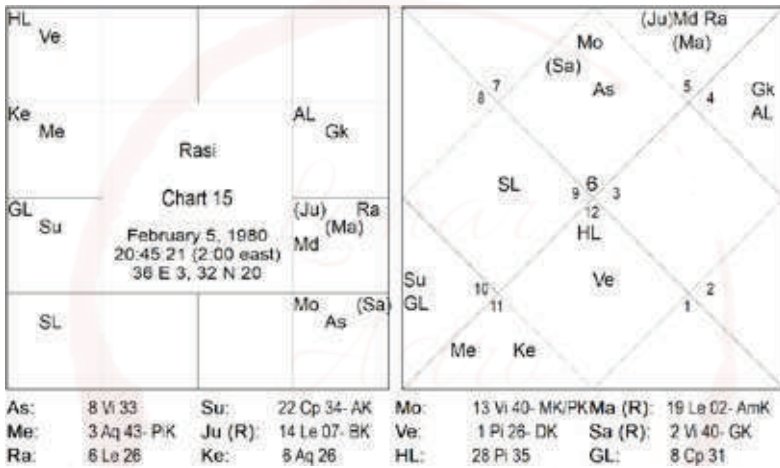

Technique #1 - Whichever house cusp or planet goes in Kritika nakshatra, the native will get results of that particular house or planet very early in life.

Let us suppose, someone has Saturn in Kritika nakshatra, then the native will get job very early in life or will start working early in life.

If someone has Venus in Kritika, then the native will experience relationships and sexuality very early in life. Similarly, readers can use significations of all other planets in the chart.

Let us look at an example -

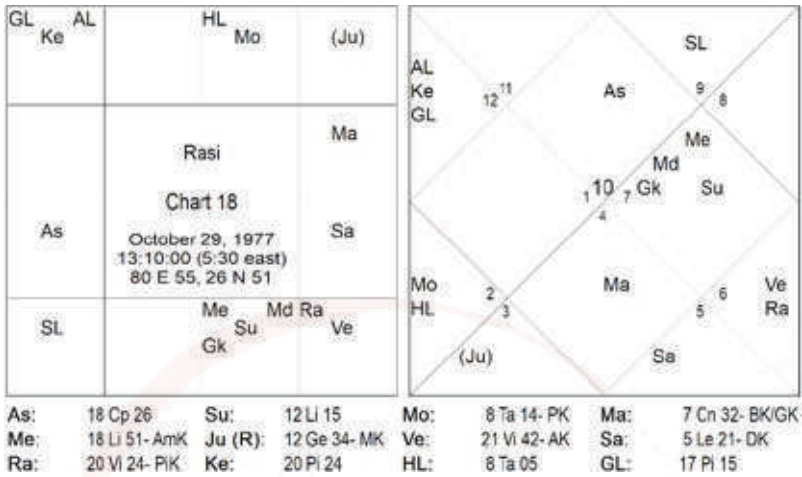

In the chart placed below, you will notice Kritika nakshatra is falling on the cusp of the 9th house and 9th lord Venus is exalted in 7th. This native got into sexual relationships very early in life as you will notice that the lord of the 7th house is placed in the 12th in the chart and that too retro.

Similarly, any house cusp falling in the Kritika nakshatra will give results very early in life.

Technique #2 – Whichever planet goes in Kritika nakshatra with any house cusp falling in Kritika nakshatra, the person will be very straight forward and blunt about significations of that planet.

Let us look at an example-

You will notice in the above chart, Moon is placed in the 5th house in Kritika nakshatra and lord of the 5th house Venus is placed in the 9th house with Rahu and is debilitated as well.

In the above chart, you can clearly see a combination of love marriage with a person of a different community. There is a combination of 5th and 7th lord, and Rahu is involved with the 5th house, with all this happening in school.

So, in school the native got involved with a girl. As Kritika shows achievement in early age so achievement of the 5th house Moon as the 7th lord was a relationship and native was against the whole family to marry a girl from a different community.

These natives will not listen to anyone regarding house matters or significations where Kritika is placed portraying stubborn attitude.

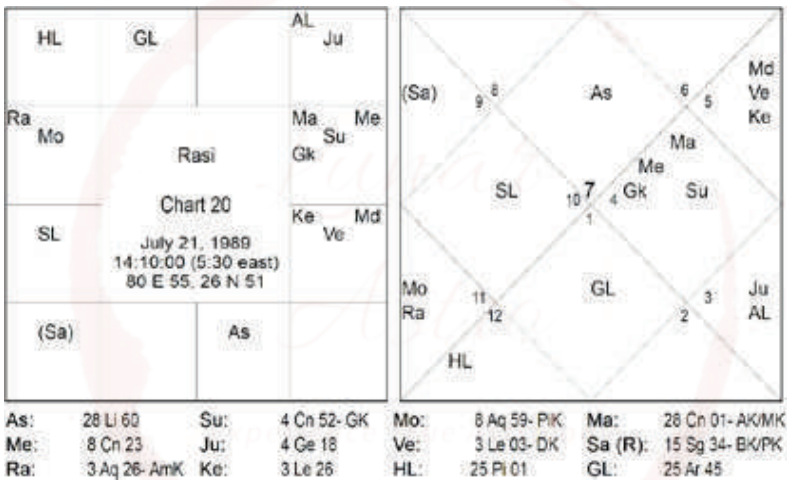

Technique #3 – If Kritika is placed in the cusp of 7th house, 12th house, 7th lord or 12th lord in Kritika or Venus in Kritika, the native will experience forceful sexual behaviour in bedroom life.

Kritika natives don't tend to listen to other people but when this nakshatra is placed at the cusp of sexual houses, the native will experience a partner who is very forceful and will not listen or care about physical emotions of the partner in bedroom. I have seen several cases of sexual violence when Kritika is involved.

Let us look at some examples.

In the chart placed below, you will find Kritika is falling at the cusp of the 7th house. This young girl, after marriage, faced problems related to bedroom life as her husband was very aggressive.

As an astrologer, I never crossed the line and told her not to go in detail as our work is to identify the issue and then give remedies for it, not to listen to someone's personal bedroom details. So this is the information we have on this case. One more thing to notice in her case is that Venus is in the 11th house with Mandi and Gulika. This also shows that happiness from relationships will be missing.

Karam Vipak Samhita

Kritika Nakshatra - Pada-1 - Aries Rashi - Sagittarius Navansh

Lord Shiva says that a young man named Ahiverma used to live in the North-east direction of the city.

He was very handsome and equivalent to Kamadeva (God of love). He was a royal person and married to a beautiful woman named Kala.

He was very rich and prosperous, and hunting was his favourite hobby. It later turned into addiction as most of the time he used to be in the jungle, hunting for deer meat, specially the pregnant ones.

Due to this particular sin, he acquired several diseases in young age and died after a long illness. Even during his illness, he never regretted his actions and was very cruel towards animals.

In the next life, his wife gave birth to still kids but if he can donate a deer made of gold to a Brahmin and recite Gayatri Jaap one lakh times, his curses will be taken away.

Let us try to read between the lines what Lord Shiva is trying to convey.

This native's father held a good position in the society as he was born in a family of royal servants. Secondly, this native will have everything in life due to bhagya as this is the navansh of Sagittarius which is the natural 9th house of the zodiac. So, whatever he would achieve is due to the status of his father and bhagya, without working hard.

The native used to hunt pregnant deer - an animal that can't even run fast to save his life. It implies that this native has never struggled in life so he never knew what other people's pain means. This is why he is cruel towards people who are less fortunate than him. He exploits people who are unable to defend themselves.

He was addicted to meat - this is the 2nd house problem. So whenever this native will see any woman or any person who requires money or resources, this native will exploit her in several ways.

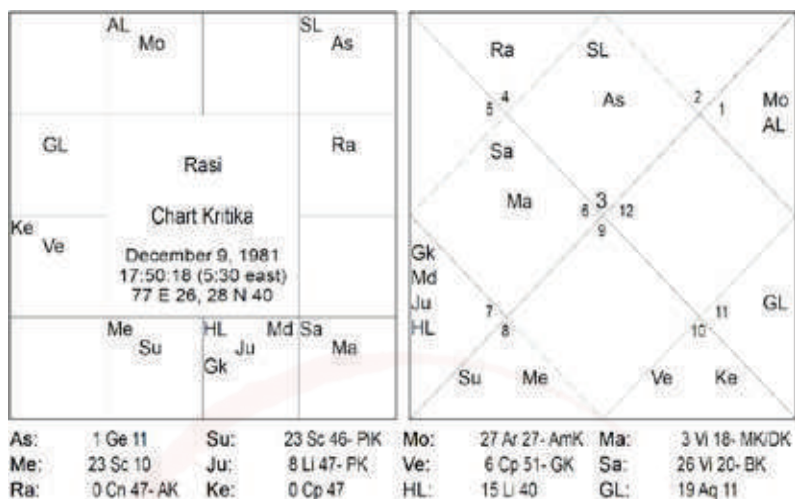

Due to this attitude, he will suffer on account of his position in the society as the 5th house afflictions will come. This native will also suffer due to illness because of the cruelty of past life and this life.

In terms of behaviour, you will see repeated patterns in native's life as he carries the DNA from past life. In this life as well, nature will give him the same test to make a correction.

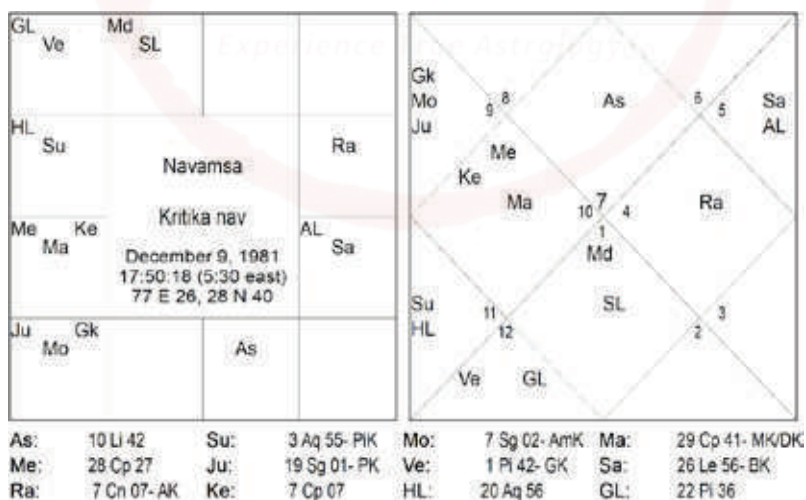

Let us see a practical example.

If you notice the chart below, Moon is in Kritika - first pada. 11th lord Mars is sitting with 8th lord Saturn in the 4th house. Also, nakshatra Lord Sun is placed in the 6th house in the sign of Scorpio.

This native inherited a lot of property and money from his father. Due to this, he never had to care about earning money. At the same time, this native had relation with several women and was also addicted to visit brothels in various countries.

Let us look at the Navansh chart. He has one son, in class 7 who never listens to anyone and talks very rudely with his father. The native himself is suffering from an IBS disease of stomach. See how the 5th house is badly afflicted in both D-1 and D-9 - they are bound to give results as the native had a karma done which is now paying back.

Kritika Nakshatra Pada-2 – Taurus Sign - Capricorn Navansh

Lord Shiva says that a Kanyakunjabrahmin named Indra Sharma and his wife, Rudramati who was of bad character and quarrelsome in nature, used to live in Kashi.

Indra Sharma used to practice all Brahmin rituals and was very proficient in Vedas and Shastras.

Once a king died and Indra Sharma was invited to perform the death rituals of the king. While performing the rituals, due to greed, Indra Sharma kept on asking for gold and other valuables. He didn't perform the procedure properly as he was in a hurry to collect all the valuables and go home.

He was very excited to show all the valuables to his wife, Rudramati.

The royal court not only provided him with lot of gold and valuables for his service but also food for the whole year.

Due to this sin, when Indra Sharma consumed food given by the royal court, all his benefic deeds came to a low and he died after a long illness.

In the next birth, he became the father of girls due to his greed and for not doing his work properly. His kids also suffered from disease and lot of money was spent on doctors and medical treatment.

He should do Mahamritunjaya jaap as well as havan to get rid of this curse.

Let us try to read between the lines – what Lord Shiva is saying. This is a sign of Taurus which represents resources, stored wealth and food, and navansh is of Capricorn, which represents karma. So, the whole story is that the native has earned money in the wrong manner from people who trusted him with performing his work.

Indra Sharma was invited to perform the last rites of the king and Brahmins.

The native born with Moon in 2nd pada of Kritika will earn money in a wrongful manner to feed his family or to provide comforts to his family. He will get disease and will not be happy.

The effect of this deed will be in the 5th house to the sign of Taurus which is Virgo. So, kids of this native will be sick and native will have kids after lots of effort as fifth from the Moon will be

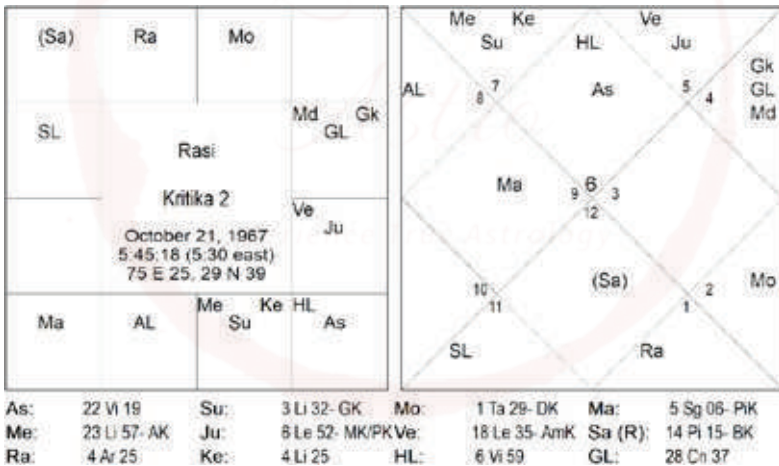

the sign of Virgo which reflects lot of hard work (Virgo is a sign of hard work). The native's kids will either behave like enemies to the native or lot of money will be spent on their medical issues.

Taurus sign is the reason why mistake is being done. As the native is making money for the family, gathering resources for the family so Capricorn navansh is the place where fruit of this particular karma will be delivered.

At present, this might sound a bit complicated but trust me, once you get hold of these nakshatra techniques, stunning predictions can be made. Also, remedies prescribed by this method have never failed as we are correcting the base of the chart.

There are several techniques to be learnt for each nakshatra pada, which I teach in my course. But due to limited scope of the book, I have explained one for each nakshatra pada.

Let us look at a practical example.

If you look at the chart above, Moon is placed in Taurus so the native will go for resources of the 9th house. It means to gain education, promotion and status in society, the native will not earn by lawful means as 10th from Taurus is the sign of Aquarius (lord is Rahu) and that too is placed in 6th house in this chart.

This native filed a case on his partner - Saturn is placed in the 7th house and Rahu in the 8th of unearned money - 8th lord in 4th

house. This native got a professional area by unlawful means but later on, he suffered on account of his marriage, and his wife and kids left him. Notice the lord of Virgo is placed in the 2nd house of Libra with Sun and Ketu.

Kritika Nakshatra - Third Pada - Taurus Sign - Aquarius Navansh

Lord Shiva says that a Brahmin named Udyot Sharma and his wife Girija used to live in Surya nagar.

The Brahmin used to follow all his daily rituals and taught Vedas. But he struggled to fulfil his daily needs due to poverty as he accepted whatever his students and people offered him as donation.

His wife was unhappy due to poverty and always spoke in a harsh tone with everyone. One day, Lord Vishnu sent a rich trader to his door, who donated him lot of gold that removed his poverty.

After the native got rich, he stopped practicing Vedas and shastras and lived a luxurious life with his wife and kids. He did not donate any part of that money for the betterment of the society.

Due to the karma of teaching Vedas, the native got a good family and money in next life, but his wife died early and he also suffered from diseases. His own kids turned into enemies in old age and did not serve him.

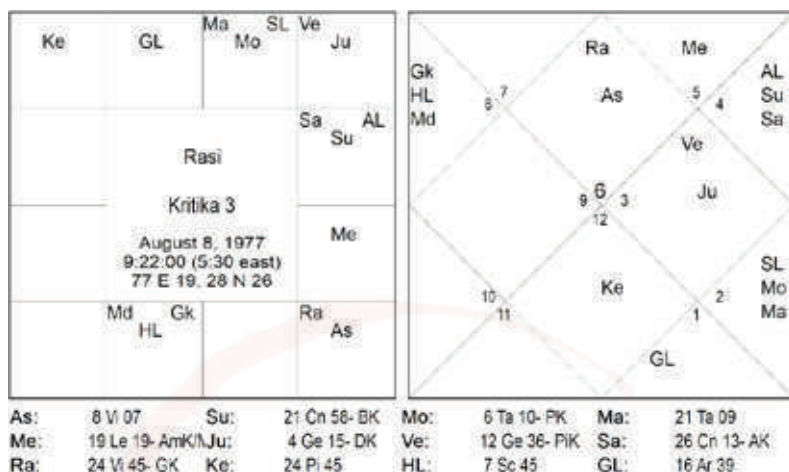

Let us try to decode what Lord Shiva is telling.

The person will be involved in a noble work and will do work as a duty irrespective of the monetary challenges and insults by his wife. He will keep doing his work with utmost dedication but as soon as the native will get rich, Dharma will leave him and he will get corrupt over a period of time. He will not pay attention to the noble work he was doing.

As now instead of doing his work, he will be more interested in living a comfortable luxurious life and even stop donating or helping anyone.

Due to this past karma, in this life he is without wife and even his kids are his enemies.

Let us try to see a practical example of this.

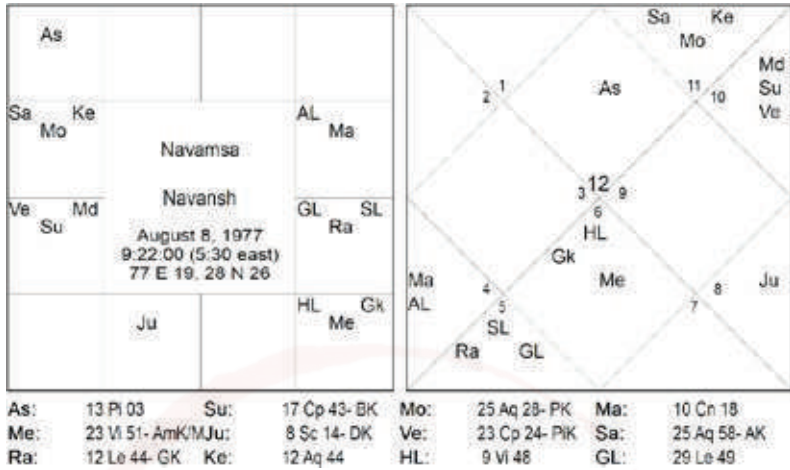

In the chart placed above, you will find that Moon is placed in the 9th house with 8th lord Mars. This native was born in a middle-class family. He was very devotional towards parents and family, and while pursuing a very ordinary job, he took care of everyone in the family.

Notice that Moon is in the sign of Taurus in the 9th house - so taking care of family became like a religion for this person even if he never had much resources.

Once he got married, his business started rising in life. You would notice the presence of Ketu in 7th house and dispositor Jupiter in 10th with 9th lord Venus who is the dispositor of exalted Moon as well.

Once he started rising in business, he got away from family and never took care of his siblings or parents. He started living in a separate house and left the religion of his life which was to take care of his family.

See how the story told by Lord Shiva got manifested in the chart. It is not necessary that the native's religion was only to serve the Vedas and shastras but in this particular case, it was to take care of the family. But, later on, after getting the money, he never took care of them. Instead, he used very insulting words for his parents and siblings to get rid of them. Let us see the fruit of this particular karma in the navansh.

Moon is the 5th lord placed in the 12th house with the 12th lord Saturn and Ketu.

The only child of the native went abroad for studies and decided not to come back and cut all relations with his parents. Due to this particular cause, wife of the native expired after depression.

Now the native is worried on how to continue with life as there is no one in the family.

The curse got manifested in the chart of the native in the exact same manner as told by Lord Shiva.

Kritika Nakshatra - 4th pada - Pisces Navansh

Lord Shiva says that a Brahmin named Yodh Sharma and his wife named Danavi used to live on the banks of Narmada River. He was a trader by profession and had good knowledge of business. To expand his business, he took loan from a trader named Ahiverma and even after a long period of time, he was not able to pay back.

Yodh Sharma left this earth without paying back the loan and in the next life to get his debt, Ahiverma was born as a son to Yodh Sharma.

The son born to Yodh Sharma had only one objective in life, and that was to spend money on prostitutes and alcohol & he was taking his loan of the past life from him.

Lord Shiva says that the native should construct a well or ponds for the society to get rid of this curse.

Let us try to read between the lines.

Lord Shiva is telling that a Brahmin was not doing his natural work assigned to him. It means the native is working for money to feed the stomach rather than being in a noble profession.

There are four types of Karam as said in shastras.

People who work for the benefit of society and universe, involved in noble professions like teaching, healing are said to be Brahmins.

People who work to protect the society, maintain law and order, show courage to help others are called Kshatriyas.

People who run business and maintain economy in the society and serve by providing monetary value are called Vaishyas. These people maintain business of the society but still they donate to the other three sections so that they can carry on their work.

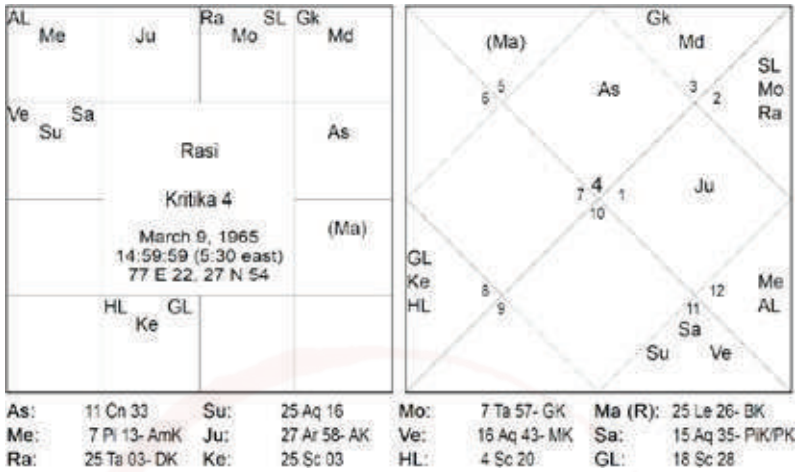

Lowest ones are those who only work for themselves. They do not think about the environment, society or anyone else and are called as Shudras.

Secondly, this is a Taurus sign and Pisces navansh, so ending of life without paying back the debt means that this debt can be of any nature, not necessarily monetary. That is why the kids are wasting money on bad habits.

Lord Shiva tells about the remedy by creation of a well. Pisces is a watery sign so wealth should be donated for creation of a water source.

Let us see this in one of the practical charts - how the curse got manifested in real life of the natives.

In the chart listed below, you will find that Moon is placed in the 11th house in Kritika pada 4 along with Rahu.

This native took loan from friends which he was expected to pay back using the inheritance money. If you look at the chart above, the native had a very active 8th house but the presence of 2nd lord in 8th as well as Sun-Saturn combo led to the native getting the inheritance even after fighting a long legal battle.

Even after getting the money, he never paid back debt as well as the shop he is sitting in. He took it on rent for 100 Rs and he still pays the same rent. So he is using someone else's property without paying proper rent due to a legal loophole. He takes loans regularly from the market and then returns after sales.

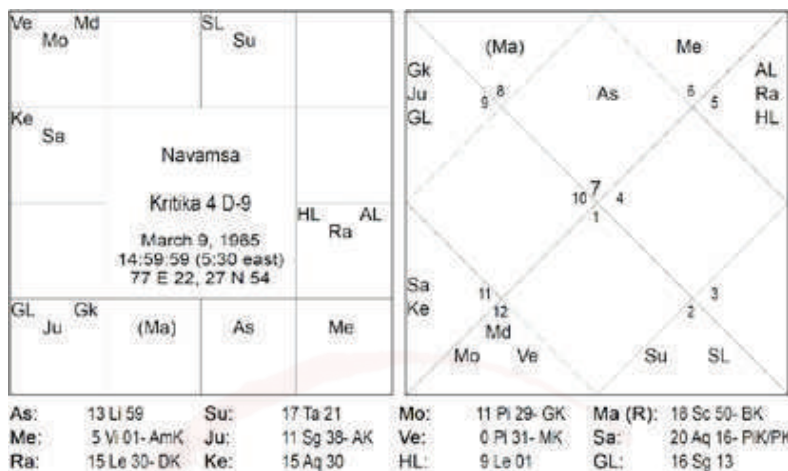

Presence of Ketu in natural scorpion sign also shows hindrance in getting the inheritance, but being present in the 5th house shows problems related to kids as well.

First of all, getting kids for this native was an issue. This native tried a lot but after a long medical treatment, they adopted a girl child.

Let us look at the D-9 chart to see the fruit of this particular case. The child of this native is studying in a different city. Being the only child, she is overly pampered and has never heard no for any demands.

Now when the father tries to control her expenses, she never listens to him. Even when her mother was battling cancer, she was not concerned about her health or even to serve her. Eventually, the mother passed away and now the native is alone.

PREDICT USING NAKSHATRA PADA : AS TOLD BY LORD SHIV

〇〇

Lunar
Astro

Experience True Astrology

୨.୨.୨.୦.୦.୦.୦.୦.୦

(The Creator)

Rohini Nakshatra

Deity: Brahma

Symbol: Bullock Cart

Tree: Black Plum

Span - Taurus -10° -23°40'

Planetary ruler: Moon

Animal: Male Serpent

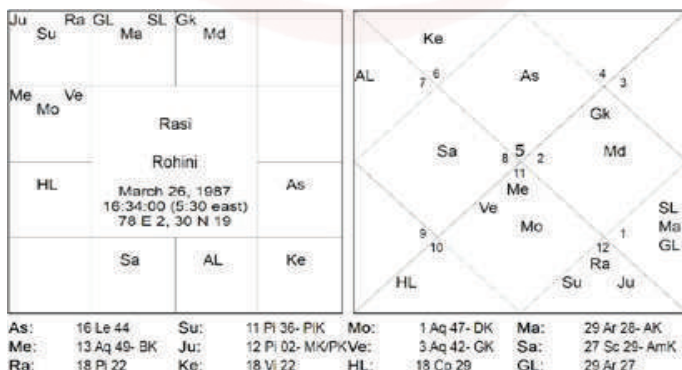

Bird: Owl

Rohini is the fourth nakshatra of the zodiac where its deity is Brahma. This is the star of creativity as Brahma had to create everything on his own.

When Lord Brahma was searching for purpose, Lord Shiva told him to meditate and look for answers inside rather than outside.

Technique #1 – For any planet in Rohini nakshatra, you cannot copy anyone else's style, you create original content regarding the significations of that planet or house.

Let us see this with the help of an example.

The cusp of the 10th house is falling in Rohini nakshatra. This native's profession is in such a creative field where only few people work. He is in DRDO at a very senior position designing weapons from scratch.

Rohini will never allow you to copy someone else and even if you want to copy someone else's work, you will not be satisfied with work as your brain is coded to generate original work.

You can use this technique in another manner as well so let us suppose someone has Rahu in Rohini nakshatra. It means this native will find a very creative way to generate money which very few people know. As Rahu is the natural lord of the 11th house, the native will cheat people by creating several Ponzi schemes. These people just can't walk the same path as other people.

Readers are requested to use this technique both ways as explained above.

Technique #2 Rohini and Young Age

Whichever planet goes in Rohini Nakshatra, it will give results early in life. Let us suppose if Venus is in Rohini, there would be early relationships.

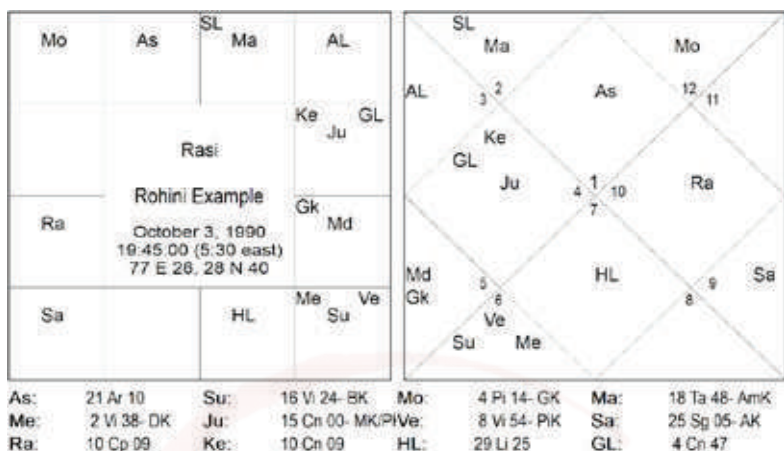

Rohini Nakshatra will give you results very early in life. Any house cusp or planet in Rohini will lead to early results.

Let us look at a practical example for this particular technique. In the chart placed below, 10th lord Mars and cusp of 2nd house fall in Rohini Nakshatra. This native started working early in life and his income also started early.

Mars is the significator of property and land. At the age of 26, he bought his first house without any loan from bank, which is an achievement in itself in a middle-class family.

Nakshatra lord Moon placed in the 12th house – The native went to a foreign land at the age of 21 and was the first one in the family to go abroad.

This is the new layer I have used by using nakshatra lord placement. This will give readers an idea on how to use techniques in a more effective manner and make more predictions from one house only.

Technique # 3 – Rohini and Food - Wherever there is Rohini nakshatra, there is food. You will notice that food is a very important factor for these natives.

For example, if someone has 5th lord in Rohini, the native will be very particular about his lunch in school or whenever he meets his girlfriend, it has to be over food. 6th house - Fight over food or felt insulted when people didn't offer food.

Technique # 4 – Heavy Head - Rohini has a gift to create things. It is because nature has chosen them to create something and they are the medium. Nature wants them to reveal certain knowledge to society.

Over a period of time, their head gets heavy with ego. It is then that their downfall starts.

They get egoistic that only they can think this way and that they must not reveal this particular knowledge to anyone else. The moment they become an obstruction in nature's way, nature will find someone else and replace him.

This is the reason you will find a lot of these people dealing with masses as doctors, healers, ayurvedic doctors or in a profession where they can affect several people. However, they should never hide any of the knowledge nature has provided them with.

Karam Vipak Samhita -

Rohini Nakshatra - Pada-1 - Taurus Sign - Aries Navansh

Lord Shiva says that a Brahmin named Gop used to live in Antarved city. Due to his tamasic nature and low balance of good deeds, he was involved in the acts of theft and burglary.

With his regular theft activities and by supporting other thieves, he accumulated a lot of wealth.

Intoxicated due to wealth, he left his wife and started living with other women. After sometime, due to disease, he died after a long illness.

In the next life, he had one girl child and she was involved in prostitution. Gop himself suffered from liver disease.

Lord Shiva says that to get rid of this curse, the native should chant “Om Namah Shivay” one lakh times. Donate gold to Brahmins and construct a garden for people, and his diseases will go away.

Let us try to understand what Lord Shiva is saying.

The native is doing an activity which is hidden and is against the government and other people. He is taking others’ resources and is also helping other thieves in their activities.

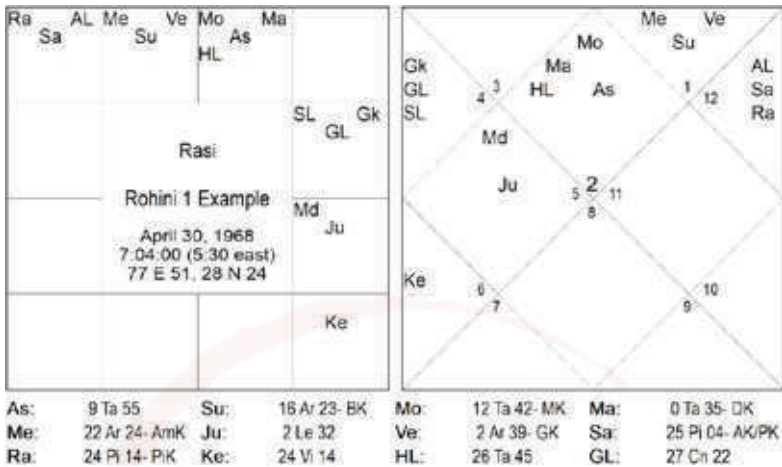

They are stealing from the masses and not from individuals as these people deal with masses. They are doing a karma which is affecting several other people. In Rohini nakshatra, your actions will affect a large section of society. Due to this, if you read the curse, the daughter is serving masses by being a prostitute.

It means the kids will be affected by the neighbourhood and masses in general, and will have to serve by being the lowest section of the society.

Earlier, he was poor but by getting money through illegal means, he was able to accumulate a lot of wealth. With wealth coming from corrupt sources, a lot of bad habits came along. He left his wife and the people who were with him when he had no money as these people could be obstructions in his unlawful life.

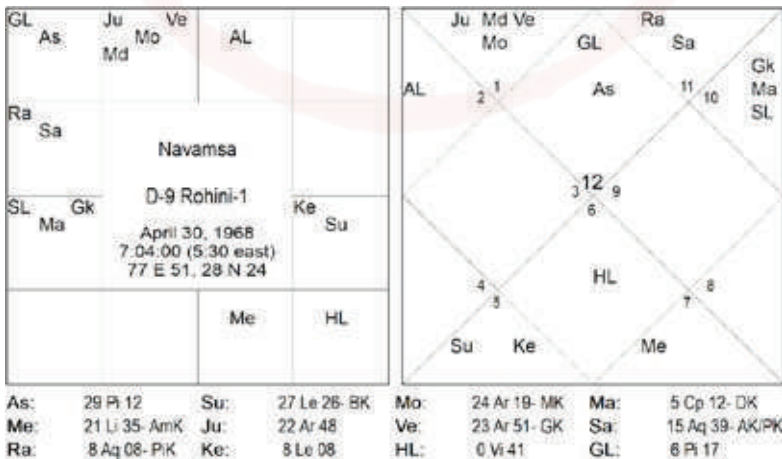

The native should be very careful with his actions to not steal from masses or from the unfortunate ones as this will make his kids suffer the most and also his liver-related issues will come up.

Let us look at a practical example -

In the chart placed above, you will notice that Moon is in Rohini pada-1 along with 12th lord Mars and the dispositor of Moon and Mars is Venus, which is placed in the 12th house with 4th lord Sun and Mercury.

This native is extremely shrewd when it comes to money matters and keeps on hiding money. Not only this, his profession involves hiding property or real wealth of other people. See the position of the 2nd lord in the 12th house along with the 4th lord. Sun is also the dispositor of 8th lord Jupiter.

Hiding property or assets of other people from government. Due to people like him, the prices of property rise, governments generate less revenue and people who are less fortunate do not get a house due to inflated property prices. They are stealing from the masses.

Let us look at the fruit of this particular action in the navansh chart.

In the chart above, if you notice the 5th house for kids using D-9 as an independent chart, you will realise that the native's kids have a really good career.

The 10th from the 5th house is the 2nd house and has a combination of Jupiter, Venus and Moon with dispositor Mars exalted in 7th.

The native had a son who had a wonderful career as a lawyer. But as soon as his son got married, his trouble started. Notice 7th lord in 8th house with Rahu.

His first marriage was over in 10 days and his wife took a good amount.

His second marriage was with a judge where the son had to go to jail in a false case, and whatever property his son had accumulated was taken over by his wife and family. Now he is still battling the case but is in a very bad condition as he had to live with his wife, serve her and is unable to meet his parents.

His wife had several times physically hit her in-laws. The husband and parents suffer to see the condition of their only child as he is working as a servant to his wife.

Rohini Nakshatra - Pada-2 - Taurus Navansh

Lord Shiva says that on the north bank of Ganga river lived a Brahmin named Vasudev. He was married to a beautiful lady named Lilawati.

Lilawati was a beautiful young lady but never cared about the institution of marriage. She had relations with several other men and due to which she earned a lot of wealth.

She consumed that wealth along with her husband. Due to this karma, they suffered on account of kids and bad health in their next life.

Lord Shiva says that the native should do jaap of "Triyambkam yajamahe". He must make a Shivlingam of 50 gms of gold and

after Rudra-Abhishek pray to it. With the Lord's blessings, all his bad deeds will be forgiven.

Let us try to decode what Lord Shiva is telling us.

Lord Shiva says that the native is a Daivgya - who is serving for knowledge and really does not care about money-related matters.

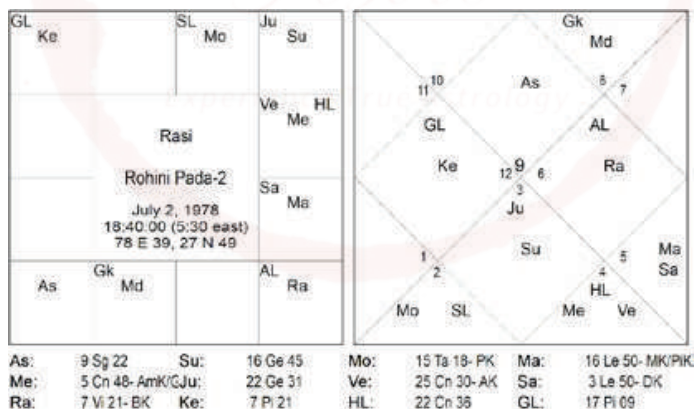

He does not take care of the family and the resources for the family. That is why his partner has to go out of the way to earn money in the wrong manner.

The native is getting the curse as he should take care of his family first. Since he is deeply involved in working for knowledge, his partner has to take things in her hands. And as a woman in that era, the only way to earn money was prostitution. 7th from Taurus is the sign of Scorpio which is the hidden sign of the zodiac.

All these are symbolic; it also means that for this particular native, his partner will hide a lot of things to make sure the family survives.

The intention of the partner is good. Taurus, being the natural second house of the zodiac, represents your resources, earning capacity and responsibility; the native should perform it well.

Let us look at the practical manifestation of the technique.

Moon is in Taurus 6th house of the chart and it is the 8th lord – Remember what Lord Shiva told us – He is busy in work and not paying attention to resources.

Even in a blank chart of Sagittarius, you can tell that the native will have problems in family-related matters as the sign of Taurus

is in the 6th house. But in this case, Moon is the 8th lord as well and secondly, Moon, being a luminary, is very important for this chart.

This native never paid attention to family-related matters and was always busy in job and working for a company. This guy was the area manager for a marketing company and used to cover whole of north India. Due to his work nature, he hardly stayed at home. His salary, after working very hard and extensive travel, was 40K, which is not enough in today's world.

On the other hand, 7th from Moon is where the native will get the money from and someone else will take the responsibility.

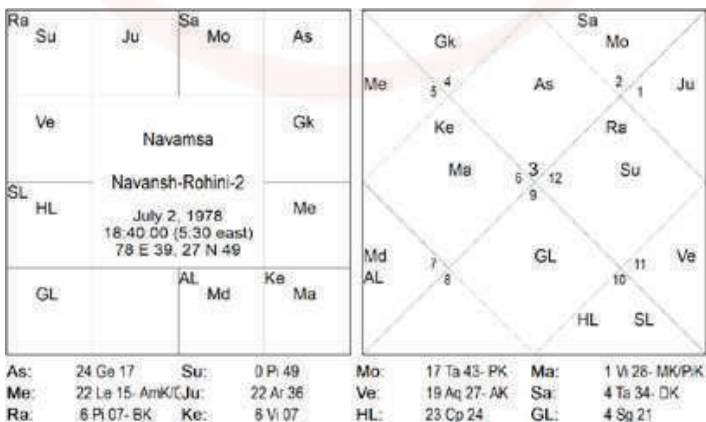

In this case, 7th from Moon position is the 12th house of expenses. He was already making fake expenses to earn money and the 12th house being 6th of the wife and 4th of the father.

He was never there for his wife when she required him during her struggles. Also, his father wanted to construct the house but due to lack of money and time, he was never able to do so.

So, doing mistakes in the 7th house from the Moon and consuming unearned, unlawful money, he was submitting fake expense bills of hotel/travel to increase income.

Whatever Lord Shiva told, the story just fits in the format. Only the characters of the story change depending on the chart but readers should remember the theme.

Let us look at the D-9 chart for this example and the fruit of this karma will get clear.

In the Navansh chart, you see there is a combination of Saturn-Moon in the 12th house. It shows isolation in old age, and 12th lord in 9th house shows the curse or blessings of pitra. But Venus being a significator of wife sitting in the 9th house in the sign of Rahu, shows that the wife will create problems. All classics have given the combination that the presence of Venus in navansh of Saturn or Mars is bad.

The native suffers as his wife decided to leave him and go to other men. Later on, there was loss of profession as Saturn is in the 12th house.

Whatever we see in navansh, the seed is already sown in the rasi chart.

Rohini Nakshatra - Pada-3 - Gemini Navansh

Lord Shiva says that on the bank of the Gomti river, there was a Brahmin named Vishnu Das. He lived with his parents and his wife. His wife's name was Sundari.

Sundari's speech was rough and was of bad character; she never served her in-laws.

Vishnu Das was a devotee of Lord Vishnu and was a farmer by profession. He used to serve Brahmins with alms and donations.

One day when Vishnu Das was not at home, a saint came to their house. Sundari not only denied him alms but also said insulting words after which the saint left.

Thereafter, the downfall of Vishnu Das started and he died early. But due to his good deeds, he went to a good place, but his wife had a long life with diseases and died alone.

In this life, the wife will come to the same family and will have to serve a large number of people - in-laws, husband, without expecting anything in return.

Let us see the decoded version of what Lord Shiva is saying. Lord Shiva is saying that a person will have a large family and will be a noble person. He will be involved in a profession which is related to Venus (farming, automobile, resources, fund managers) - any profession where you are working for society to help them gather

resources, food, money, gold. The profession will be related to the sign in the 2nd house of the chart. This is my personal observation.

Then Lord Shiva is telling us that the wife will not serve in-laws and there is no description of Vishnu Das opposing it. He has surrendered in front of his wife and also, he has not served his parents.

This is a Gemini navansh – the 3rd house or planets in the 3rd house show people standing at the gate. The 3rd house and 8th house of the birth chart are entry and exit gateways.

Planets in the 8th house show that the person has not departed properly. Planets in the 3rd house show that the welcome of the soul has not been done properly.

This is the reason Jupiter in the 3rd house is not considered good. You will notice that the birth rituals for this kid have not been followed properly.

Any planet in the 3rd house or Gemini navansh will come to your house at your gate asking for its significations.

Like in the story above, a saint came to Vishnu Das's door asking for alms but his wife denied, and after that their downfall started.

I have explained this concept in detail for 8th and 3rd house on Youtube, and for rest of the houses and several other principles in my course lectures of Predictive Astrology Course.

It is important to see if you have any planet in the 3rd house or in the navansh of Gemini and time the event that on which particular day, a planet will come to ask for alms and in what form. As we have seen with the help of several examples, it can be a neighbour, friend, or somewhere while travelling a person might ask for money, help or anything as simple as water.

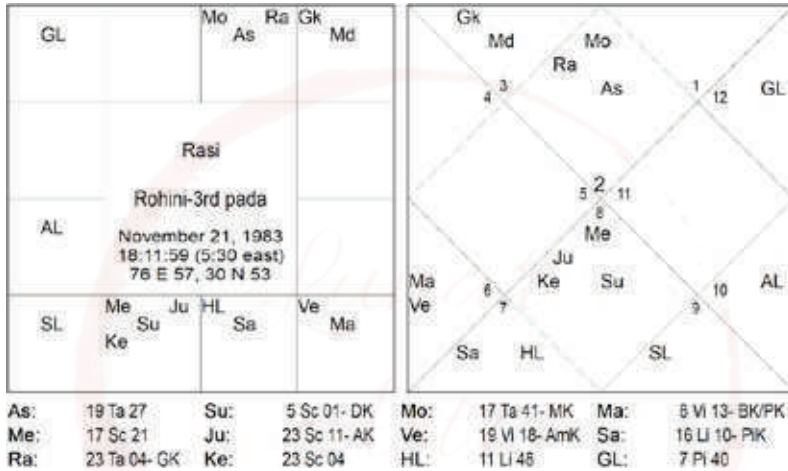

This is another reason why we should help everyone around us, as people, who are not kind to their surroundings, suffer badly. On significations of the 3rd house in the chart and sign placed in the 3rd house as well as wherever Gemini is in their chart, they will only get malefic results.

In the next life, Lord Shiva is saying that the wife will have to serve her husband by giving him bath. This means the husband

will be sick and dependent on his wife for day-to-day tasks as well as the family of the husband will also be dependent on the wife.

You will notice some men/women just serve their whole family and they never get time for themselves as they are busy serving bed-ridden husband and old in-laws.

This is because in the past life they didn't perform their actions completely.

This native was a handsome young man and he fell in love with a beautiful girl. I believe Sundari of past life. See the 5th and 7th lord exchange with debilitated 6th lord Venus.

After marriage, he suffered from spinal injury and got bed-ridden as now it was time for his wife to serve him. He went through a couple of operations of the spine but still no results. Anyhow, for Taurus ascendant, the partner comes either to give debt or take his debt as the natural sign of marriage, Libra, is in the 6th house.

His wife worked from home by stitching clothes and took care of the whole family. At the age of 32, she looks over 40 because of stress and work.

If you notice the 3rd house has the sign of Moon and the 3rd lord is sitting in lagna with Rahu, which is the 10th lord.

The prediction was, "Before you fell ill, did any Muslim person on a particular day while travelling to office ask for food?"

I was using Ravan Samhita techniques to time events. I will reveal timing techniques once I finish with this series of books. Rahu is Muslim, Moon is food, 3rd lord is regular travel and 10th lord is for office. When this food was denied to the planet, the native fell ill as both the planets are affecting the lagna, and the dispositor is in the sign of Virgo with 12th lord of bed, Mars.

The native was bed-ridden for six years. I promised him 16 Sankrantis to do a remedy to get back up.

By this time of my writing this book, only two Sankrantis have passed but the native can feel the change as they came across a doctor who is looking positive for the case.

I will update the readers about this case in the next book.

Rohini Nakshatra - Pada-4 - Cancer Navansh

A Brahmin named Budhhi Sharma, who used to work as a chef, was highly corrupt.

He accumulated a lot of wealth by accepting donations from other people, but he never performed any duties which a donation-accepting Brahmin should perform.

Her wife too was of fickle nature and was involved with several other men.

This native contracted a lot of diseases and faced problems regarding kids in his next life. If he can donate jaggery equal to the weight of a cow and donate objects of comfort to a Brahmin, he will get rid of the curse.

The native should also take bath with his wife in Triveni in the month of Magh to get rid of the curse.

Let us try to read between the lines. Lord Shiva is saying that the native, who was supposed to do the work of a Brahmin, worked as a chef for other people.

There is a very big sutra in this line. This is Taurus sign - Cancer Navansh - the sign of resources and navansh of masses. The resource for masses is what this nakshatra pada is about.

The sign of Cancer represents food, emotions, and masses. The native is born to serve it to people so food is only symbolic. The

native somehow has to deal with masses to provide them healing - food which is the most important part for human life, emotions, and healing.

This native is blessed by nature to provide this nectar to masses but then Lord Shiva says that this native is corrupt. It means either he is making money in the wrong manner from masses or providing healing is not the objective of this native.

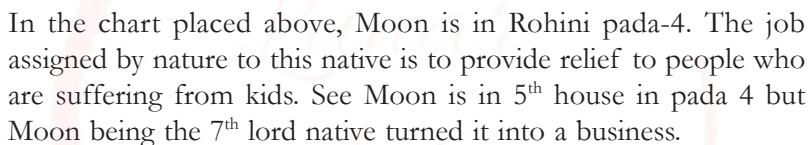

This native will get rich over a period of time by dealing with masses, but later this wealth will go in disease and his married life will suffer. His wife and kids, who are the real wealth for any person, will suffer as wife is involved with someone else.

It is not necessarily the wife - there is a hidden meaning to this representation - As the wife of any person represents how much peace a native has in his life. Home becomes home with wife; wife represents happiness and satisfaction of life. When the 7th house is corrupted, whatever native earns is not going to be worth it.

Let me make a point here. Lot of people take Lal - Kitab as a remedial book but in reality, it is the pending karma book and I am writing this after explaining several sutras of Lal-Kitab on Youtube and also in my basic course, which I have decided to teach my students for free in QA sessions.

As I always wanted to break the myths of Lal-Kitab, you see how deep the meaning of this sutra is in Lal-Kitab.

A dictum of Lal-Kitab says - If Moon is in the 4th house, the native should not sell milk or do any business related to milk otherwise serious consequences will be faced by the native. But this is not what Lal-Kitab meant. Lal-Kitab is telling the same thing as Lord Shiva has said. When Moon is in the 4th house, the native should provide relief to masses but never ever do it as a business. You can try this technique whenever the native does business related to the significations of the planets related to the fourth house or in the sign of cancer native suffers a lot.

The native is suffering due to fights with father over a love marriage, and the native was defamed in office by a false allegation as the natural 5th house is in the 8th house and then again occupied by malefic. You can clearly make a prediction for Capricorn sign natives that they will suffer a loss of honour if malefic are in 8th house.

He lost his reputation in front of everyone as this is the result of 7th from it. If you remember the story told by Lord Shiva, he explained that the native's wife would create a problem. But in reality, they were all the significations of the 7th house. In this particular case, the native lost honour in society. 7th from Moon is again Scorpio whose lord is placed in 6th house dispute.

○ ○

[illegible]

SOM
(Nectar God)

Mrighshira Nakshatra

Deity: Soma

Planetary ruler: Mars

Symbol: Deer Head

Animal: Female Serpent

Tree: Cutch Tree

Bird: Hen

Span - 'Taurus 23°40'- Gemini - 6°40'

Technique#1 – Mrighshira and Mob Mentality - These people always try to play safe and do things which are considered as safe by most of the people. These people will hardly take risk in life in whichever house cusp the nakshatra of Mrighshira may fall or regarding the significations of the planet that go in Mrighshira.

Let us suppose if the 7th house cusp goes in Mrighshira nakshatra then the native will get married in a traditional way. The native will not try anything new in terms of 7th house significations.

Saturn in Mrighshira – The native will not switch jobs easily as he is looking for a safe option and cannot risk what he has. Venus in Mrighshira – The native will not invest money in Ponzi schemes and will go for investments in certified banks.

The native will never approach a girl and start a relationship as these natives do not want to risk whatever they get; they are happy with it.

Sun in Mrighshira - They never go against the law. They always look for best practices so that they do not get involved in problems

with the government. Let us suppose, if they get a notice from the government, these people panic the most to follow the law.

Mars in Mrighshira – The native will think at least 100 times before buying land or property or starting a fight as he is scared about it.

Moon in Mrighshira - Highly diet conscious, and will read the labels properly on food on what any packet contains. You can use all other significations of Moon and put that in the safety net of Mrighshira.

Whatever I have written above is half-truth. So let us mix it with house significations as well.

Let us suppose someone has Moon in Mrighshira in the 6th house. The native will continuously speak about food that can cure disease or will keep on searching for any healing therapy.

So, please mix house significations with every technique to get the best results.

Let us look at another technique - Mrighshira and Rituals.

Technique #2 – Whichever house cusp will fall in Mrighshira nakshatra or whichever planet goes in Mrighshira nakshatra, there will not be any rituals done in that house. Also, the native will miss the rituals related to that particular house or it will happen with fight.

Let us suppose Mrighshira nakshatra falls in the cusp of 7th house. Then there will be problems related to the priest, fight with Brahmin or other issue in the native's marriage rituals.

If Mrighshira is falling in the 4th house then during Grah Parvesh, there will be problems related to rituals and muhurta.

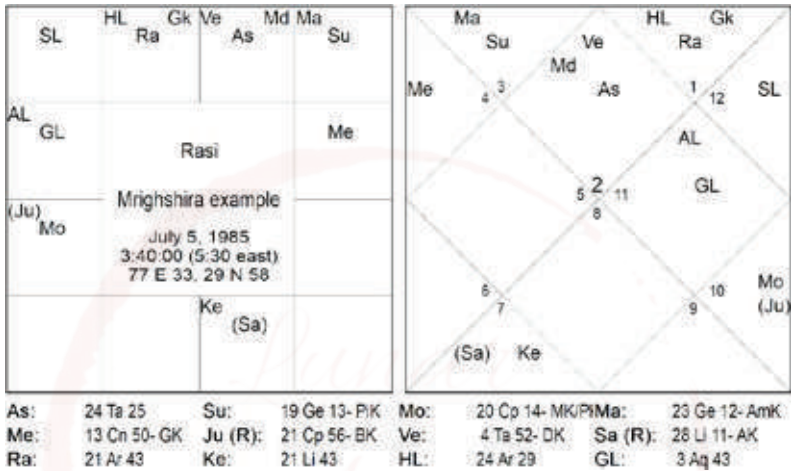

If 12th lord is falling in Mrighshira nakshatra, then last rites of the person are not done properly. If it falls on the cusp of the 12th house, then also same results will happen. Also the native will not be able to attend the last rites of parental grandmother and maternal grandfather.

We tested this technique on 200 charts and from YouTube, several emails and comments came in this regard.

Let us look at an example. In the chart placed below, you will find the ascendant is rising with Mrighshira nakshatra. At her birth,

no birth ritual was conducted as she was the 16th child in the joint family and there was no excitement in anyone to perform any ritual for this native.

Similarly, you can use the technique in various ways as explained above as well.

Technique # 3 – These people are always in search to improve themselves and for that reason, they keep searching for something better with respect to the house or planet which falls in the Mrighshira nakshatra.

Like in the chart placed above, this native keeps on searching for various objects within the house. According to her, 80% of her day goes in searching small objects from comb to papers as objects get lost on their own.

Secondly, she kept her valuables somewhere hidden and then for two years, she kept searching for them in the house but couldn't find them. This is Taurus part of the sign which represents wealth. Also, she has the habit to window shop to a level that in the market, her brother does not go with her as she will spend two hours in a shop and then will leave without buying anything.

Life can be very frustrating for their friends as they do not realise whatever phone, clothes or object they are looking for is right there

in front. But these people will keep on looking for something better and finally not buy anything.

Saturn in Mrighshira - 'The person will keep on searching for a new job but the native will refuse any new opportunity that comes as they will wait for a better opportunity. This guy will keep on talking about different offers he is getting from different companies but will not go to any company.

Venus in Mrighshira – 'The native will already have a wonderful partner but will still look for someone else. That is why their marriage will be delayed. If Mrighshira falls on the cusp of the 7th house then the native keeps on rejecting girls for a better one, and even after marriage their hunger for a better one does not end.

12th lord in Mrighshira or 12th house in Mrighshira - 'This will tend to the native to look for multiple partners for sexual life.

I advise readers to use these techniques extensively by combining with significations of the house and planets and make a wonderful prediction for your clients.

Mrighshira Nakshatra - Pada - 1 - Taurus Sign - Leo Navansh

Lord Shiva says that a Brahmin, who was serving Vedas, used to live in Madhya Pradesh. He used to practice and teach Vedas. Due to this, his name was Ved Sharma.

An ironsmith was a friend of his and had great trust in him. The ironsmith kept 400 gms of his gold at Ved Sharma's house.

After some time, the ironsmith died but Ved Sharma didn't return his gold and instead started using his wealth along with his wife.

In the next birth, the ironsmith came as Ved Sharma's son and as soon as his debt got over with Ved Sharma, he died and carried forward his soul journey.

Ved Sharma was left with no kids. If one can recite Gayatri Mantra one lakh times and donate land and cows to Brahmins, his curse will get over.

Also, the native should take bath in a holy river during Makara Sankranti to get rid of the curse.

Let us try to read between the lines to understand the hidden meaning of this text.

A very noble person - involved in teaching or any type of work which is to impart knowledge to the society.

His friend trusted him with the most valuable thing in that era – Gold. Gold is symbolic here, what it actually represents is that people are trusting you to an extent that they do not hesitate to give you the most precious part of their wealth as they know you will keep it safe.

This can be knowledge, wealth, or their secrets. Now you have to safeguard it as it is handed over by a friend to you.

Other part of the story is – The ironsmith kept gold at Ved Sharma's house. An ironsmith cannot make that much gold as the profession belongs to a lower section of the society. So this might be stolen wealth and the ironsmith might not want anyone to know about it in case of a raid at his house.

Once he died, Ved Sharma should have either donated it or given it back to Ironsmith's family. But he used this gold for personal comforts.

This shows you are now using wealth which has not been created through proper channels. In today's world, if a native works in a company and gets a bonus in the company which is cheating consumers, a part of the curse will be transferred to the native as well.

I have a student who sold his petrol pump. He said that one cannot make money until one cheats badly, and he was not able to do it.

Then in the next life, Lord Shiva is asking the native to donate and take bath in holy rivers during Makara Sankranti. As this is the navansh of Leo - which represents gold, and when we take a dip in the holy rivers on a special occasion, we donate to get rid of all malefic influence created due to Sun in the chart.

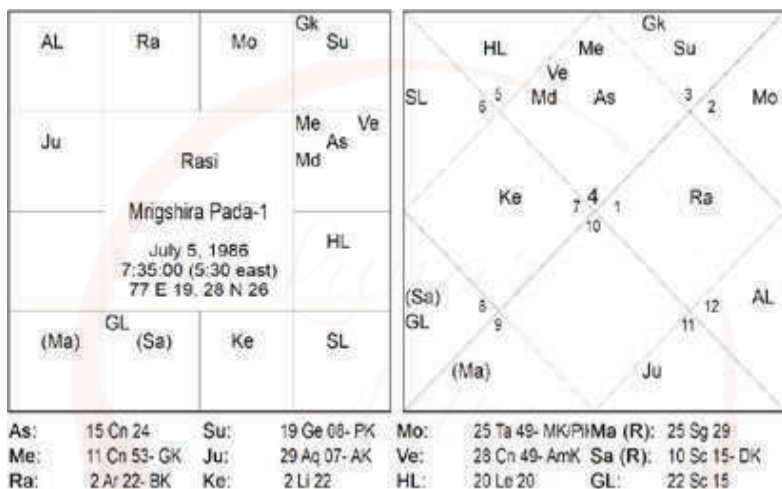

Let us look at a practical example for this particular pada.

In the chart placed below, the native got the ancestral business as he was the only kid living with parents. Others were studying and in the absence of the will, he owned the business. Wherever the 8th lord goes, you will get unearned things in that house.

Saturn being a karma significator - placed in the 5th house - the native got the profession of the family; without doing much he got everything.

The native is earning his regular income which he was supposed to distribute among all siblings.

The native's siblings are fighting a court case to get hold of the business and case is going on.

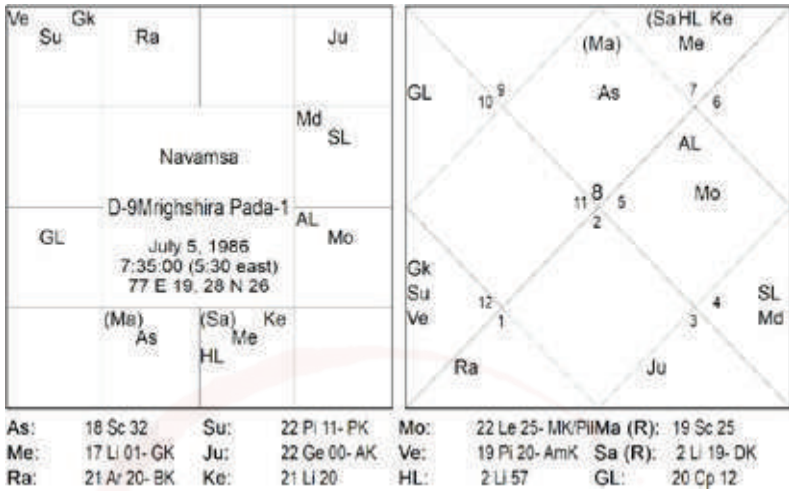

Why I concentrated on the 8th house is because in the story, Ved Sharma got unearned money which is also the 8th house.

The 8th house from the Moon is again 10th lord Mars and the dispositor of 10th lord Mars goes in the 8th house of Saturn. So, this is the action of the native in D-1 chart. Let us see the result of this particular action of not dividing the business among siblings.

In the D-9 chart placed below, you will find that Moon is placed in Leo in the 10th house and 8th to it is 12th and 10th lord Sun and Venus. This combination has led him to court cases and loss of business due to government policies. The native exported the material but due to some regulations, the stock was returned and the native suffered a massive loss in business.

Secondly, the native faced issues w.r.t kids.

The native came to the author asking for remedy. – The only remedy suggested was that he should give his sister what she deserves from the business honestly, and his problems would vanish.

The native was initially reluctant but when his wife forced, he agreed. In a month, the wife of the native conceived and that too without IVF.

As the native did a correction of karma, there was no way that the planets would remain malefic.

We do remedies to change planets. Planets have specific tasks and orders for us. When we follow them, our life becomes easy.

Mrighshira Nakshatra Pada-2 - Taurus Sign Virgo Navansh

Lord Shiva says that in a city named Nandanpur, a Brahmin named Bodh Sharma lived. He used to beg for alms & worked as a messenger for other people.

He never followed any discipline regarding food habits and consumed food without any principles. His wife was also famous; her name was Vadama which means without any religion.

After getting birth in several animal forms, in the next human birth, both husband and wife were born with several diseases and worked as dancers.

Still, they did not follow any discipline regarding food and did not follow any principles related to shraddha (ritual to please ancestors).

To get rid of the curse in their life, they should do Gayatri Jaap and after cooking food in a clean manner, they should serve food to Brahmins.

Donating a blue colour male buffalo will make an end to all disease.

I hope, by now, my readers would be able to decode the story. But let us try to read between the lines.

This is a sign of Taurus and navansh of Virgo, that is why reference to food (Taurus) while serving others. Native working as a messenger is the Mercurian sign of communication.

Maharaj Bholenath is saying that this native is a Brahmin but all he is doing is working as a messenger. He is not doing his original work. This can also be interpreted as people who only talk about others or work in liaison due to their social contacts.

Food is symbolic here as in older times, food was paid for any kind of service but in today's world, it can be any kind of wealth. So this native does not care about how wealth is created. He does not take care about the source of money. Similarly, his wife is of the same nature.

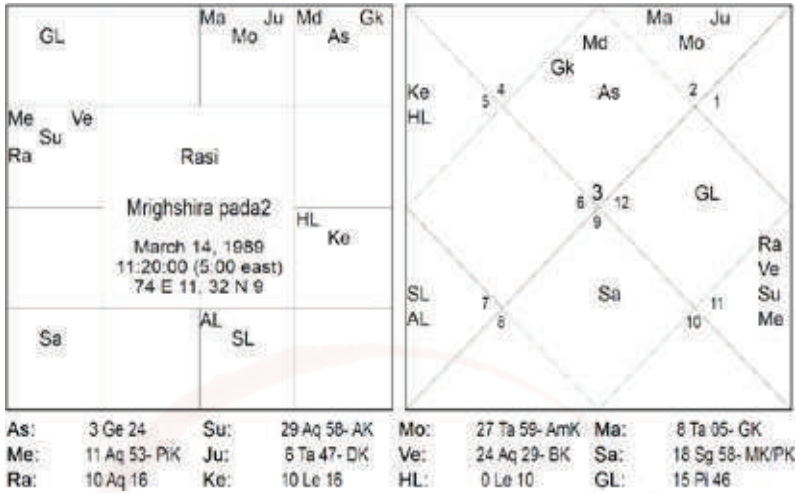

Now in the next birth, Lord Shiva says that the sign of Virgo is prominent as they work as entertainers for people, in show business or any other place where they are performers and working with hands. Both of them have health issues as again they are ready to do anything for money.

When these people will get careful about how to earn money, where to eat food and how to eat food, their life will start getting in place.

There are various principles taught to eat food, and if someone does not adopt them and has bad food habits, this person will definitely get sick and lose all his wealth due to disease.

Let us see an example chart for the physical manifestation of the curse.

MRIGHSHIRA NAKSHATRA

In the chart placed above, the native works in a foreign land for a digital marketing company. The 10th lord in 12th house and 12th lord in 9th house combo of Venus, Rahu and Mercury.

So the native is doing advertisement on a digital platform but is also creating false campaigns or giving false viewers on YouTube, FB for clients.

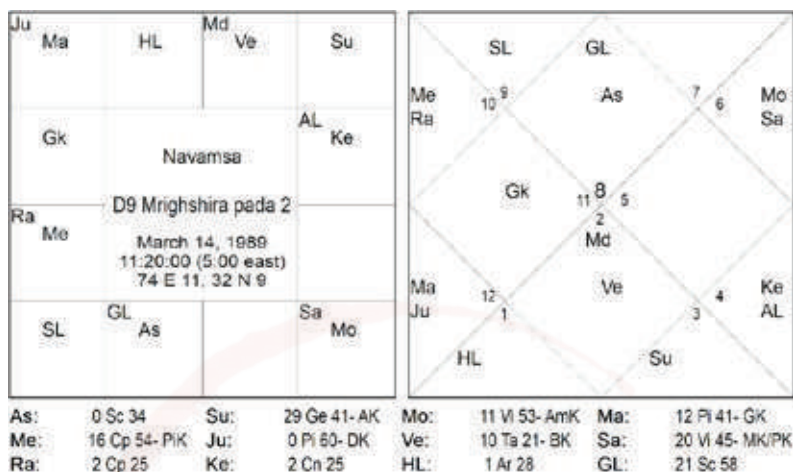

He doesn't care about what product anyone is selling. The only thing he cares about is his money, there is absolutely no filter. He is creating a campaign under someone as this is the navansh of Virgo. So the native is getting cursed due to the type of work and the way he is making money.

Let us see the result of this particular act.

In the D-9 chart placed below, Moon in the sign of Virgo with 4th lord (Peace of Mind) Saturn is placed in the house of fulfilment of desires.

The native doesn't have peace of mind as the 11th house has Moon Saturn combo in the navansh of Virgo. And due to regular tension and stress, native has developed a stomach disease where by over-thinking his colon inflates and gives extreme discomfort.

Saturn gives gastric issues in Virgo navansh.

The native was advised to work indecently and choose work wisely as promotion of wrong content is a sin. Because when people buy anything because of his advertising and that product is fake then the curse comes to him as well.

While working independently, he can work with ethics rather than under someone where he has no control over the procedure.

Mithshira Nakshatra Pada-3 - Gemini Sign Libra Navansh

Lord Shiva says that on the banks of Puri, there was a rich potter and due to daily hard work, he became rich over a period of time.

His name was Karamchand and his wife's name was Devaki. He used to work daily and whatever money he earned over a period of time, was spent by him.

He spent his whole life in the same manner, and in old age, he suffered from poverty. His spending habits were the same with no income and to compensate for it, he took a loan of 100 gold coins from a businessman on interest.

He died without paying back his debt and in the next life, the same businessman was born as a son to Karamchand.

His son was against his parents and used to spend money on alcohol and women. Due to his bad habits, he died early.

Lord Shiva says that as a remedy, he should donate money and make a gold idol of the lender and pray to it every day.

He should also donate 2.4kg of silver to a Brahmin.

Let us try to read between the lines, what Lord Shiva is saying.

This is a Gemini sign and Libra Navansh so Lord Shiva is suggesting that this person is doing work related to hands (Gemini Sign). A skilled person is working and making money, not necessarily as a potter, but any work which is freelance- independent work as this is the navansh of Libra, so an independent worker.

Secondly, Lord Shiva is saying that this native will be poor in old age as he is not saving money. At one point of time, Lord Shiva says that the native became rich and accumulated wealth but due to his bad spending habits, the native will get poor over a period of time.

This means people born with this combination should be very careful and invest wisely or probably hire an investment consultant to help them with safe funds for rainy days.

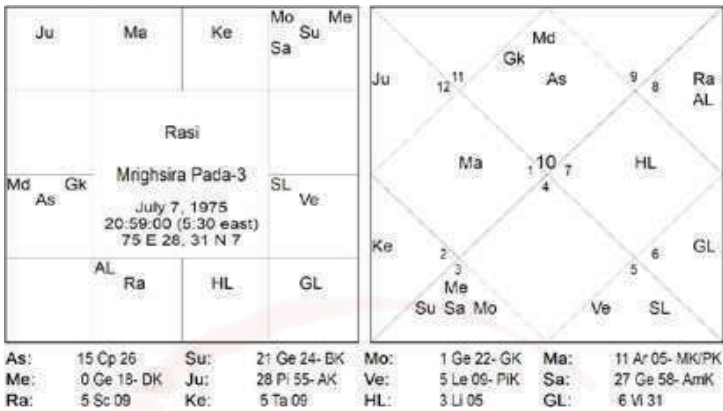

Then Lord Shiva says that to maintain his status in society and his spending habits, he takes a loan for living the same kind of lifestyle.

Then in the next life, Paramatma Shiv says that the native's son will be born to take back whatever he had lent to his father in the past life. As soon as the debt is over, the son will die.

Please do not take any sentence in literal context. In some cases, I have seen that due to the good deeds of native, the son who was initially against his parents would either go away from his parents and not bother about them or, with the help of remedies based on the chart, the native's son will change over time.

I have also seen this combination people, as businessmen, taking loan for business and lending to other people on higher interest rates. Sooner or later, this native will fall in the trap of this lending work and he will have to again pay back in this life and the next life.

Let us see a practical example chart.

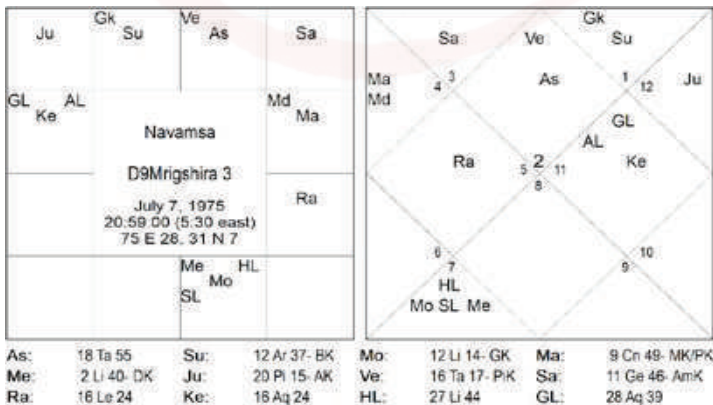

In the chart placed above, the native does a business of lending money. He takes loan at lower interest rate and then gives it further to several people at lower rates.

The native suffered severe losses several times when people ran away with the money and other schemes he was running. Due to this, he suffered heavily on account of health as well.

See the 10th lord is in the 8th house which shows business related to insurance. The 8th lord is in the 6th house so he was the guarantee guy between several lending processes.

Over a period of time, the native has fallen and risen several times in life.

Let us see the fruit of this action in the Navansh Chart.

The native suffered heavy losses from his nephew. As this native never had any kids, so he adopted kids of his sister and did everything for them.

He gave control of his business to his nephew who, in turn collected money from the market on his name and ran away.

So that nephew played the role of taking his loan back from the native from the past life. Also, the wife of the native expired after an illness - it's the 7th house malefic effect.

The 5th lord with the 3rd lord in the 6th house, which are the dispositor of 7th lord Mars shows the complete story as 7th lord is also sibling's kids and the partner sitting is the 3rd house debilitated and dispositor again in the 6th house.

Mrighshira Nakshatra Pada-4 Gemini Sign - Scorpio Navansh

Lord Shiva says that in the city named Keshavpur, a Brahmin named Kishore Sharma used to live.

He used to practice Vedas every day and consumed feast provided for dead people. In Hindu culture, on the 13th and 17th day of the death of any human and during shraddha paksh, food is offered to Brahmins.

Kishore Sharma used to eat that food regularly. He was a miser and saved every penny he could. He never spent money for personal use.

He grabbed his brother's land worth Rs 3 crores and never gave it back. His brother died fighting for share in the property but never received any. In this particular life, he is suffering from various diseases, also happiness on account of kids is missing.

To get rid of the curse, Lord Shiva suggests that the native should do Mantra Jaap and donate 200 gms gold idol of Lord Sun and 400gms idol of Lord Moon to a Brahmin.

Let us try to read between the lines, what Lord Shiva is saying.

First of all, this is Gemini Sign (brother, hard work, travelling) and Scorpio navansh (inheritance, saving money, death). So the curses related to these particular things are coming in the native's life as a priority to solve.

The native has got this particular combination as nature wants him to judge again and solve his past life pending karma. The native is eating food at people's last rites. This is again symbolic. It means the native is earning money or getting resources but the one who is paying money is doing so with a heavy heart not happily.

If the Brahmins who perform last rites are corrupt, they can make a lot of money by emotional blackmail. They might say, "If you donate gold and food to 10 Brahmins for one year, your ancestor will go to heaven otherwise their soul will not get peace."

At this particular time, members of the family are already unhappy but with this kind of emotional blackmail the money which the Brahmin is earning is not going to do any good to him.

It applies to all those people who work in any type of industry where people never pay with happiness - such as insurance agents, doctors, crematorium grounds, lawyers, astrologers.

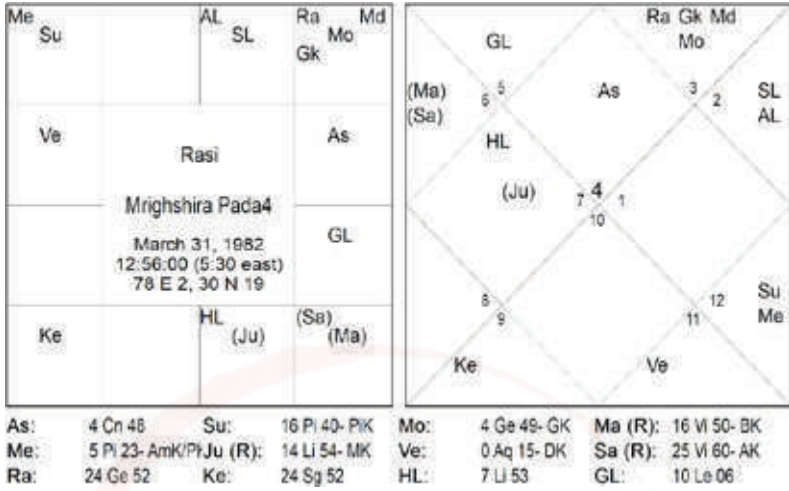

Any profession which deals with solving problems of masses by communication should be very careful in charging money as that money can later result in severe problems.

Even if your profession is one of the above, be very reasonable to people and do not demotivate them from coming to you so that they can buy something from your shop.

Like in today's world, if you visit a doctor for check-up and instead of telling you the truth, if the doctor scares you to undergo a costly treatment to save your life solely to make money, it would mean the same karam what the Brahmin was doing at the time of the death ritual. They are playing emotionally with people to earn more money.

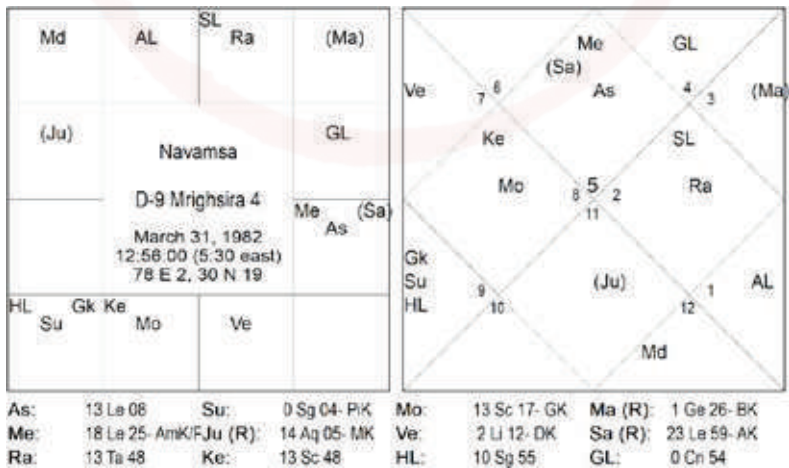

Be very careful as the curse is going to get you. Let us try to see this with the help of an example.

MRIGHSHIRA NAKSHATRA

Moon is placed in 4th pada of Mrighshira nakshatra - in the 12th house of the chart along with Rahu, Gulika and Mandi. The native is anyhow a miser but also a doctor. This native is extremely dedicated towards work and definitely has made a lot of money. You will hardly find a native not working as 10th lord is with 7th and 8th lord in 3rd house.

The native is not only earning from clients but also from medical companies for referring medicines and in other ways.

You will see the result in the D-9 chart. The 12th lord is in 4th house and in the sign of Scorpio. The native is not only suffering from inheritance issue but also his own mother cheated him for property, which has given the native an emotional turmoil.

The native is living on rent as all the property that the native made has been grabbed by siblings with the help of his mother. When the 12th lord is in the 4th house even in Tajika, the native has to live in someone else's house. In this case, it is the effect of his pending karma, making money by scaring people about disease.

12th lord in 4th means losses in property. 4th lord Mars in the sign of Gemini means siblings will gain property.

It was advised to the native during consultation to work with moral ethics, and soon this combination will get deactivated as navansh is only the fruit but the seed lies in the natal chart.

Ardra

RUDRA
(Storm God)

Ardra Nakshatra

Deity: Rudra

Planetary ruler: Rahu

Symbol: Tear Drop

Animal: Female dog

Tree: Long Pepper

Bird: Andril

Span - Gemini-6°40'-20°

Ardra Nakshatra is to break barriers. Ardra is required to do something new, out of the box so that you can carry forward your journey.

Sometimes we are more concerned regarding the Sadhan (way to accomplish) rather than Sadhya (target). Then comes the Ardra, with Rudra as the deity, to make sure you do not get entangled in procedures and methodology and concentrate on the target instead.

If you look at the deity Rudra, he stands for everything which is feared and not acceptable in society.

He is fearsome, carries a human skull in one hand in which he begs for alms, lives in odd places outside the city like cremation ground or alcohol shops.

There was a saint who used to do Jaap on mala with utmost devotion of Lord Vishnu. One day, Guru ji called him up and asked for his mala.

Guru ji took his mala and broke it and even burned his asan on which he used to do Pooja. The saint asked Guru ji why he did so.

Guru ji replied, "Because yesterday Lord Vishnu came in front of you and waited for you but you were busy in doing jaap. You

missed the fruit of your jaap because you are only concentrating on jaap & not on the results of jaap.

In the story above, Guru ji is performing the role of Ardra nakshatra to break the barrier for the saint.

Technique#1 – Ardra breaks barriers, traditions, customs so that you can be as fearless as Rudra, who fears nothing.

If someone has Venus in Ardra, he will become a rebel in relationships and do whatever he feels like and will not follow any kind of rules practiced in terms of relationships.

Venus, whichever house lord it represents and also the spouse, will only become a medium to express his energy of Ardra.

Ardra brings a storm in your life to wake you up so that you can realise your true potential like Guru Goraknath did with Guru Machindarnath, “Jag Machindar Gorakh Aye.” Wake up Machindar, Gorakh has come.

Machindar was not sleeping but the Guru wanted to wake him up internally by a storm so that he could realise his true potential.

Technique# 2 – Whichever planet is in Ardra nakshatra or house cusp falling in Ardra Nakshatra, the native will go through emotional turmoil. Happiness and sadness come through that house and these events will make the person boundariless.

You fear that one day something bad will happen. Ardra shows you the extreme of it and removes your fear so that you can think freely.

Karam Vipak Samhita -

Gemini Sign – Ardra Nakshatra Sagittarius Navansh-Pada-1

Lord Shiva says that in a city named Avantika Puri, a cloth dyer named Kuber used to live with his wife Leela.

Kuber left his wife Leela for a Brahmin woman and fell in love with her.

Kuber accumulated lots of money from business and then buried that wealth in the house.

Due to the curse of leaving his wife, in the next life, he could not walk properly and suffered on account of kids.

To get rid of this curse, the native should do Gayatri Jaap and feed rice pudding to 90 Brahmins and donate a red colour cow with ornaments to a Brahmin.

Let us try to read between the lines what Lord Shiva is telling us.

A cloth dyer named Kuber lived – Cloth Dyer is a symbolic expression - Lord Shiva is telling us that this native used to work in a profession where he changed the colour of the fabric according to the requirement of the client.

In today's world, it means that the native will say yes to please everyone, to make everyone happy. Although he knows the truth but on the outside, he will show that his colour is the same as others'. You will see these people working in media industry, propaganda strategist, yes man of the office, etc.

As a news can be colour in either way depending on propaganda and this is a Gemini Sign - Sagittarius navansh so Morality will be tested for this native.

As this is a 1/7 axis of Gemini - Sagittarius – the native got attracted towards a Brahmin woman.

Brahmin woman is again symbolic of the section of society who are dominating. As Brahmins were at the top of society in that era, to please a Brahmin woman, Kuber left his wife as he wanted to enjoy the same elite status in society. Also, Lord Shiva never mentioned about the beauty of Brahmin woman, only her caste is mentioned.

While the beauty of his wife is mentioned in first shloka, it means earlier this person was with truth, which was beautiful and was doing his job properly, but later on due to the desire to sit with the elite and powerful section of society, he got influenced and left the truth.

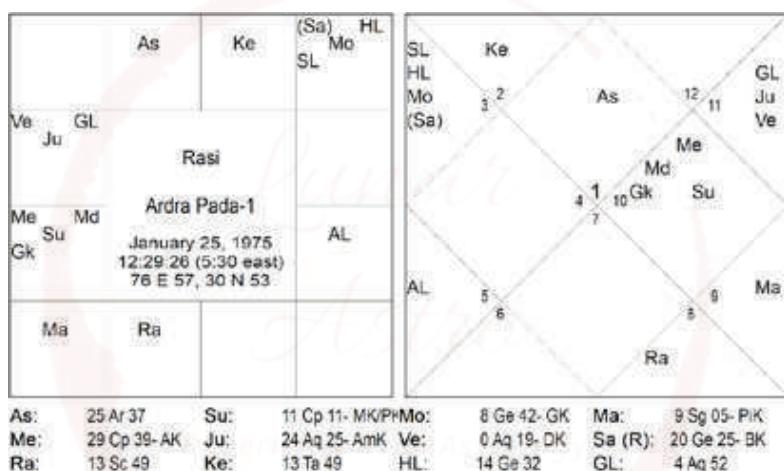

Also, one more meaning can be derived out of it. That person will leave his partner for someone very influential. This may seem very superficial but I have seen this practically working in charts as well.

Ardra natives with first pada leave their spouse not because of other person's beauty but as they get influenced by other people's status in society and want to be part of the other section of society.

In practical cases, I have seen people get engaged to their boss, teachers, gurus, foreigners or anyone they find influential.

The result of this act as told by Lord Shiva is – The native will face issues in legs and on account of kids. So for this native, his profession (legs) as well as the 5th house results will be bad.

Let us see the practical manifestation of this particular case using an example chart.

In the chart placed above, the native works as a manager for a news agency. His work is to design news which they get in raw format from different sources.

10th lord is placed in 3rd house along with Saturn retro and not only this, the 10th house has Gulika and Mandi along with 3rd lord and 5th lord.

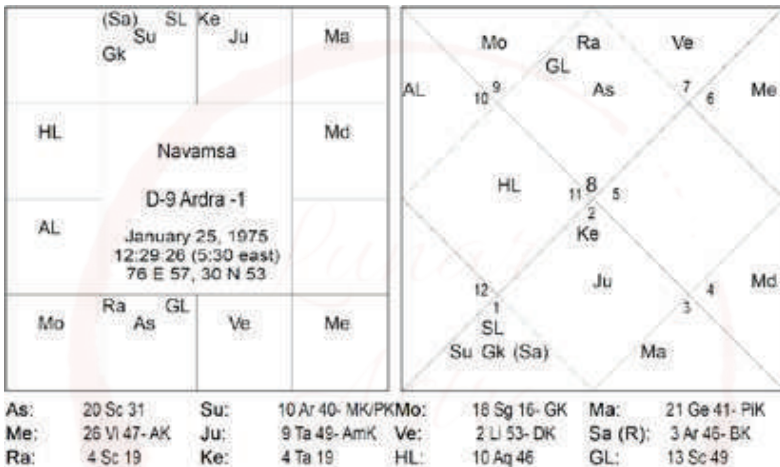

The native designs the story as told by seniors which suits the agenda and narrative of a particular side.

The result is that several times he has been kept in dark on the true agenda behind a news story as well as lot of humiliation has happened to the native as his wife went with someone else.

Let us see the D-9 chart for more clarity on these events.

In the D-9 chart, the Moon is in Sagittarius and the dispositor Jupiter went to 7th house with Ketu and again Venus in 12th house implies losses or separation.

It very clearly indicates that if you are going to do a karma, the fruit will be delivered to you. But this native chose to be influential and powerful by working for the bosses and in return he admits, he only got humiliation. His wife went with someone else and now all desires are not that strong.

Gemini Sign – Ardra Nakshatra - Capricorn Navansh-Pada-2

Lord Shiva says that on the South side of Ujjain city, there was a trader named Bhagyavan.

During middle age, he became poor and he had to take a loan of 800gms of gold from a Brahmin native.

That money was spent and he was never able to return it to the Brahmin. After some time, Bhagyavan died without paying the debt.

In the next life, the Brahmin came as a son to Bhagyavan and was alive only till he recovered his debt from him and died in young age.

Lord Shiva tells that to get rid of the curse, the native should donate an idol of lotus flower made from 200gms of gold to a Brahmin.

Let us try to read between the lines.

Lord Shiva is saying that a trader indulges in business and work and the clue is in the name Bhagyavan - a person who trusts his luck more than work. If this native would have believed in hard work then the name would have been Karamvan as this is a Capricorn navansh so the curse is coming from the 10th house.

He did not pay attention to his work and trusted his luck more than hard work. That is why his business closed down and he had to borrow money from the Brahmin.

Again, the symbolic expression as a Brahmin has been used as a Brahmin cannot have 800gms of gold. The wealth of Brahmins is knowledge and their ability to perform various rituals. Due to their knowledge and advice, a person can earn 800gms of gold.

So, he took help of religious rituals, and his business started working again. But this person will not pay back properly to the Brahmin what he should have.

You will find these people taking help from various people in their profession & don't pay them properly. For example, I know a native with this combination. He did not pay his CA properly but took his advice. He did not realise that an advice from a CA can save him from lot of trouble, and also he can get into lot of trouble when these people are not around.

Later on, his advisors left him and the business was in shambles. Secondly, instead of paying attention to his work, this native kept faith in his luck and did not improve his actions.

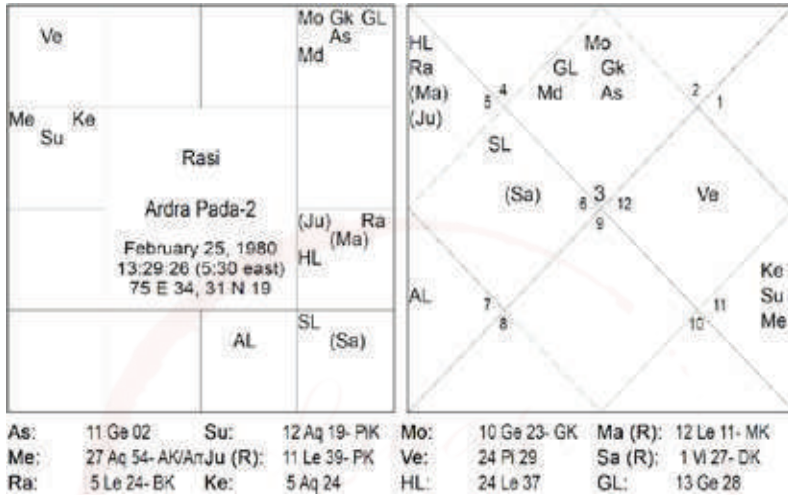

This is the reason this native's business will fail. Whenever anyone with this combination comes to you for astrology advice, you will find that this native will not even pay you properly.

I helped a girl who was going through divorce and I refused to take any fee as she was already going through a lot. But I told her that I would charge her once she gets alright. She got divorced and also settled in Toronto. And after a long email of how successful she is right now and how the remedies worked for her, she paid me 500 rupees.

I am sure all of you have such stories but this combination is prominent for not paying anyone who is giving them advice.

This is the reason they will suffer in their 10th house matters and the planets sitting in 10th house significations.

Let us see a practical manifestation of it.

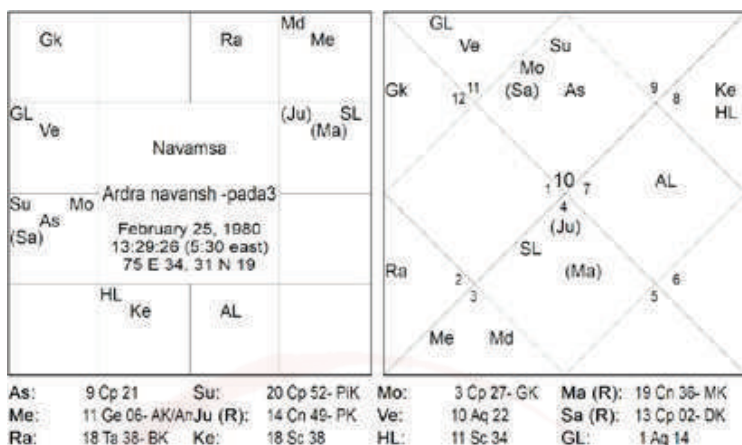

This native only consults astrologers on the topic of financial astrology and when he gets into trouble related to family matters as the Moon is sitting in lagna who is the lord of the 2nd house in Ardra nakshatra.

Moon with high malefic, he needs continuous assurance from other people regarding 2nd house matters. But again, he does not improve his actions or works hard to earn money. You will see that in the Navansh chart, 2nd and 8th lord are combined in lagna. This native has a partner, who is the brain in the business and his expertise has been used to obtain the license for business, but again he is not paid properly.

He has a mentality that without money, this company would not have been there. Hence, he treated his partner as nothing more than an employee. Then one day, the partner left and all his business went to zero as without his license, he could not manufacture or sell anything.

ARDRA NAKSHATRA

This is the physical manifestation of the curse which has happened in the chart. There is absolutely no remedy when you do not treat your advisors properly & keep them underpaid, not realising that they are the building blocks of your business. One of my bosses, an ex-US Navy marine, told me once, “You take care of the platoon and the platoon takes cares of the job.”

Gemini Sign – Ardra Nakshatra - Aquarius Navansh-Pada-3

Lord Shiva says that a gambler Brahmin used to live in Avanti Nagar - Mangalpur village. He used to drink alcohol, steal and was a womaniser too.

Whatever he earned, he never donated and after a long period of time, he died. In the next life, he will be born with lot of diseases and problems. He will not have anyone to carry forward his name.

He should pray to Maa Tulsi and donate land to get rid of the curse.

Let us try to read between the lines what Lord Shiva is telling us.

Lord Shiva mentions - Avanti Nagar - Mangalpur village. I don't know the reason why Lord Shiva has spoken very few words for this nakshatra.

Avanti Nagar - Avanti means endless - Manglapur - City of good.

When you combine both, endless good fortune will happen. (Avanti Manglapur) You will see how Mangal, which is also the name for Lord Mars, has been used in this story in the end.

A gambler is someone who takes risks and trusts himself to make money. You will not find more spiritual and serious prayer-doing people than stockbrokers/Intraday players and anyone who is involved in making quick money. Lord Shiva mentions that this native wants to get rich very quickly. Hence, he is ready to take a risky route, risk which is not approved and frowned upon in the society as this is the sign of Gemini and Aquarius navansh. So, a sign of trader and navansh of Aquarius which is ruled by Saturn-Rahu. The native wants to fulfil desires and he is not afraid to go in for questionable steps.

Lord Shiva mentions that he is also involved in other activities such as alcohol and with several women.

This means the native is earning good even through questionable means and all his tamasic desires are coming true. He is fulfilling all his desires as his luck is supporting him.

Lord Shiva is not mentioning this as a sin as, till this point, Lord Shiva says that this is the character of the native. But then he says that he has never donated any part of his wealth for a good cause.

In the moments of panic and excitement in gambling, the native will say things like “If I win I will donate this much or will do this as a good deed.” But when you do not perform that action even after fulfilment of the desire then you are under a loan to Rahu. (Rahu governs all kinds of sudden, monetary wins).

After winning, this native did not donate any part of wealth as he forgot what he had promised in the moment of panic.

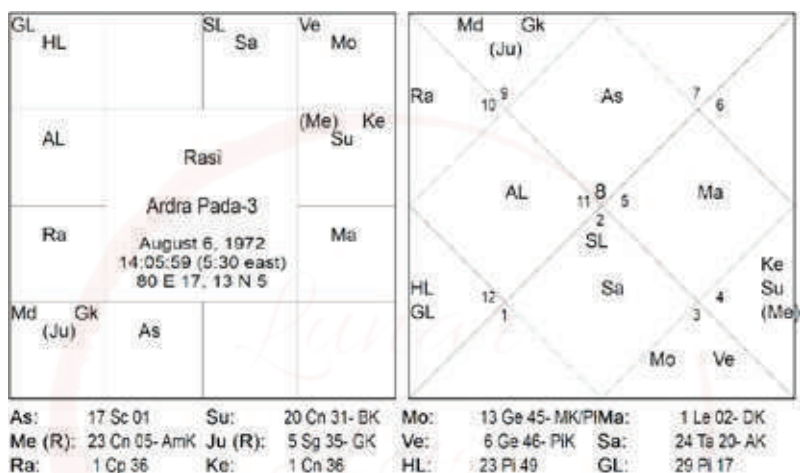

The sign of Aquarius contains the curse for all those unfulfilled promises in the natural zodiac. There is a very deep meaning and complete 2-hour lecture on this technique in predictive astrology course. For the time being, if you see problems related to any planet which is in Gemini Sign - Aquarius navansh, it means you have not fulfilled a promise of donation in this sign.

This is the sin Lord Shiva is mentioning about. Donation is not limited to wealth, it can be physical hard work or emotional support. The native is selfish as he is keeping everything for himself and family even when due to his fortune, all his desired are fulfilled.

Then in the next life, this native is born with bad luck as all his luck ran out in the past life. He never donated whenever he promised.

Thus, Lord Shiva asks him to donate land - signification of Mars (Manglapur) and pray to Tulsi (Gemini sign) as for both Rasi and navansh signs (Gemini and Aquarius), Mars is bad.

Let us see the practical manifestation of this curse in the chart.

In the chart placed above, Moon is placed in Ardra Pada-3. The native works as a stock broker, investment banker, trader as the 10th lord Sun is with 8th lord mercury in the 9th house and 9th lord Moon is placed in the 8th house with 12th lord.

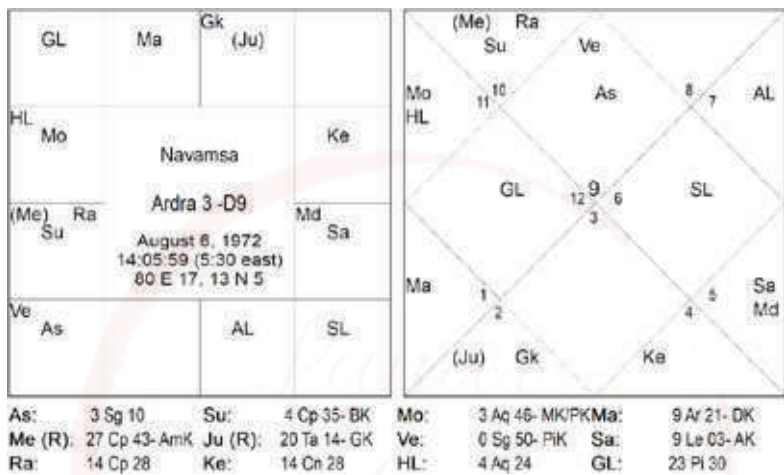

The risk-taking appetite for this native is very large & Moreover, also luck supports him. During consultation, I asked him, “Do you make promises in a panic situation, like to donate something or offer something to Devi as the 12th lord of donation is also in the 8th house in Gemini? Venus Moon signifies Devi.

He answered that once he was going through a terrible loss and he promised that if he comes out of this, he will visit Maa Vaishno Devi. He came out of the situation, and then it became his habit to ask Maa for help every time he was in a similar situation. But he neither visited the shrine nor donated anything.

The native realised that he has received everything due to luck. Even when the markets crash, he makes money.

You can also see the married life - with 7th lord in the 8th house in dual sign shows multiple relations. Saturn's presence and the aspect of Rahu have done everything else for the native.

Let us see the result of this particular action that the native is doing.

In the Navansh chart, Moon is in the 3rd house - which is the 8th lord of the chart. The Lord is again in an uncomfortable sign of Leo which shows some issues from higher authorities (Leo in 9th house) due to paperwork (3rd lord Saturn is the dispositor of 8th lord Moon and another lord of Aquarius is again with Sun).

One of the banks invested with the native, and this fund was a part of the fraud that happened. The native is questioned by CBI over his involvement in fraud.

Due to this, he went through a lot of mental pain and agony. When he visited Maa Vaishno Devi and donated for construction (Mars) as he had promised, his problem got solved in two weeks.

Pending karma will work like magic, if you know how to read it properly.

Gemini Sign – Ardra Nakshatra - Pisces Navansh-Pada-4

Lord Shiva says that a rich trader, who was involved in animal trading as well as farming, used to live in Ujjain.

He used to eat flesh and drink alcohol, and eating flesh of goat was his favourite.

One day, he donated gold, clothes, 1000 cows on the banks of river Narmada. Due to this good deed, he lived on earth with several comforts.

He took loan from a jeweller but never returned it. Due to this sin, he will suffer in the next life.

In the next life, he will not be able to enjoy in young age due to health issues. His wife will also die.

The native should do Gayatri Jaap one lakh and read Harivansh Puran to get rid of the curse.

Let us try to read between the lines-

Lord Shiva is mentioning about food habits, especially eating goat as for Pisces Navansh, the 2nd house is Aries whose symbol is goat.

Secondly, Pisces also represents animals which are used for business purposes. As the 6th house signifies domesticated animals, 12th house signifies animals for trade. But, kindly note, these terms are all symbolic.

There is a deeper meaning to it.

Pisces is a sign of trust where you keep blind faith on others or others trust you. In this case, the native is a trader and animals, who are in his farm house, trust him but this native sells them in the market for monetary gains.

Also worth mentioning is that he is eating few of them regularly as to sell animals, the native has to travel distant lands. As he cannot carry food along with him, so he eats the flesh of a goat. For his own survival, he is ready to take anyone's life. He can break anyone's trust for his own survival.

So, in real life, the native will be involved in some kind of spiritual selling or any signification related to 12th house which requires trust (Pisces) - NGOs, spiritual centres, publication and advertisement of all 12th house matters.

Gemini - Trader - Pisces Navansh – (Trust) - Trust Trading – Business will work on trust.

The native has to travel for his business frequently or communicate online with offshore clients and build trust with them and become rich.

Then Lord Shiva mentions – Will eat flesh of goat.

Goat is a sacrificial animal. This native will keep lot of people working for him as an emotional blackmail or will not pay them - like a student never charges his guru any money because of the emotions involved.

And whenever this native requires to, he will kill the goat without thinking. This is where the native is breaking trust of several people who trust him for everything.

Once trust is broken, then the native will suffer from 6th house issues as he took loan from a jeweller. (Leo is in 6th house for Pisces navansh)

I have the chart of a person with this combination but unfortunately, I do not have permission to use it for book purpose.

The native had his Moon in the same combination. He was born in Punjab and was a spiritual person at least from the outside.

This native used to molest women in private, which implies killing a goat who trusted you. In this case, people trusted him for spiritual knowledge but instead were molested.

Later on, this native got exposed and also health issues came in. When there are curses for Pisces, they will not be controlled due to the quality of Pisces.

Please refer to video lectures on signs.

୨୬୩୦୭୫୪୮୯୧୦

ADITI
(Mother of Universe)

Punarvasu Nakshatra

Deity: Aditi

Planetary ruler: Jupiter

Symbol: Bow and Arrow

Animal: Female cat

Tree: Bamboo

Bird: Swan

Span - Gemini-20°- Cancer 3°20'

Technique #1 – As the deity of this nakshatra is Maa Aditi, the nature of these people is to work with the weak section of society and in general, whichever house or planet goes in Punarvasu, they become naturally sympathetic with the significance of the planet.

Let us suppose, someone has Mars in Punarvasu. Then the native is very sympathetic towards people who work in police, army or have land issues.

If someone has 5th house in Punarvasu, then the native will be sympathetic with kids, grandfather and anyone who is struggling with studies.

I searched for actor Amir Khan's birth chart but due to no credible data available, I will not be able to post it. However, he also has 5th house cusp in Punarvasu and his movie "Tare Zameen Par", the story of a young, struggling kid touched millions of hearts and changed the attitude of masses towards studies.

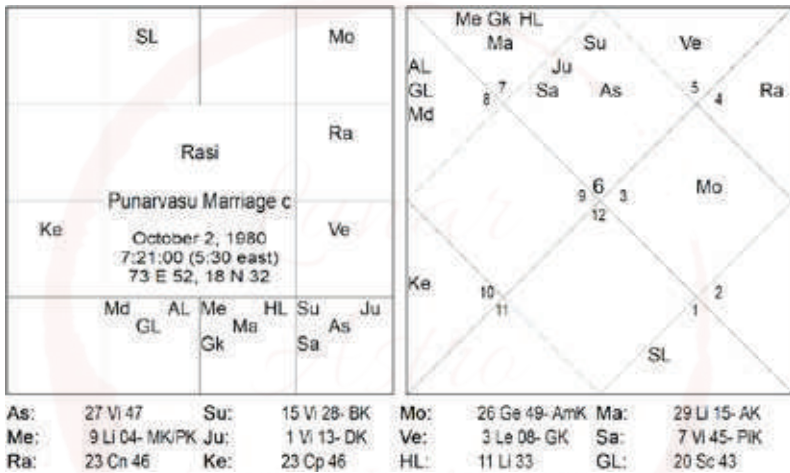

Let us look at the chart of a simple person and understand this with the help of an example.

PUNARVASU NAKSHATRA

In the chart placed below, Moon is placed in 10th house in Punarvasu nakshatra and the dispositor Mercury is placed in the 2nd house with 9th lord Venus in Libra. This native is a marriage counsellor who very patiently listens to people and tells them solutions.

He said that his main work is to make people guilt-free for anything wrong that they have done in the past towards each other and make partners forgive for further life.

This is the whole theme of Punarvasu nakshatra - to forgive people for whatever they have done in the past and make them guilt-free.

When Lord Ram went to jungle with his Guru Vishvamitra, he came across Maa Ahalya. In Ramayana, it is written that Maa Ahlaya was made of stone. But it is merely symbolic of the fact that she was so isolated and boycotted from the society that people named her as a stone. Imagine if a person gets boycotted and isolated slowly, that person will turn into a stone. But when the Prince of that country comes and talks to the isolated person, Prince being the top authority of the country, makes you acceptable in society.

Similarly, during exile, Lord Ram met several people who were not part of mainstream society such as tribals (nishad), Shabri (a devotee), Bali and Sugreev, who were half-humans. They are portrayed as monkeys but in reality, they were humans in the process of evolving.

If you read Ramayana, you will find that there were fights in three kingdoms.

The first one is between Humans - Ram and Bharat - where they wanted each other to rule and give everything to each other. Lord Bharat never ruled as the King instead he kept Lord Ram's sandals on the king's throne. This kingdom belongs to God. This is Sattva Gun.

The second one was between Bali and Sugreev. They fought for the kingdom and the fight was that who would rule. They were in the process of evolving and eventually become Dev. This is Rajas gun.

The third one was in Lanka where Mahapandit Ravan said, "Only I will rule and anyone who speaks against my wish or tells me something that I do not want to listen has to leave the kingdom." This is Tamas.

Anyway, back to our point, Lord Ram is validating everyone and making everyone acceptable in society. Anyone who is approved by Ram regains confidence and gets in the mainstream of society.

Technique# 2 – Punarvasu Nakshatra represents stamps, validating signatures, people who vouch for others, take bank guarantee, or verify identity of other people.

When this nakshatra is afflicted by malefic, the native should not take bank guarantee or trust others. As sympathetic by nature, these people can experience emotional breakdown and get convinced easily to take guarantees and later, they have to pay back.

These people believe that if they validate anything, it would bring peace to other people as everyone else trusts them.

Once Saptarishis went to Shuk Dev ji asking, "How does Dharma look?"

They wanted to make an idol of Dharma so Shuk Dev ji replied, "Ram Vighryavan Dharam"- Ram is Dharam.

Technique#3 – They can't do anything which is out of line and not acceptable in society. People will come and talk to them to get validated as they know this person will give the right advice.

Let us suppose someone has the cusp of 7th house in Punarvasu nakshatra. It is very difficult for these people to do anything

unorthodox in marriage. People will approach them before getting married to discuss their marriage/business that whether their marriage/business decision is OK.

If someone has Punarvasu in 12th house, people will come and ask before they spend money on a communication device (Gemini sign) as people want their validity regarding this.

If someone has 4th lord in Punarvasu nakshatra, then people will ask the native to come and have a look at the property before they purchase it. They look for validity from 4th Lord in Punarvasu nakshatra.

If someone has Venus as the 4th lord in Punarvasu nakshatra, then the native will be asked several times, “Isn’t our house beautiful?” Here, I have used both 4th lord as well as the signification of Venus.

I wanted to show in the above four examples that you can use a planet as a significator. You can use this technique on house cusps and also for lordship of planets and use the qualities of planets.

I request readers to use every technique in this book in the same way. This will not only increase your predictive ability but also help you understand deep meaning of Jyotish.

Punarvasu Nakshatra - Pada-1 Gemini Sign-Aries Navansh

Lord Shiva says that a cattleman named Nandan and his wife Sundari used to live in Vasantpur. Both of them were extreme misers.

Nandan had a Brahmin friend who used to live in Avantpuri. He was very rich and accumulated lot of wealth over a period of time.

The Brahmin used to eat outside his house daily. When he reached old age, he came to live in his friend Nandan’s house.

Nandan’s main motive was to grab his friend’s wealth and one day, he took all the wealth of the Brahmin and threw him out of the house.

Saddened by the cheating of his friend, he came to Kashi and left his body with a heavy heart.

In the next life, Nandan served under a king but was unhappy on account of kids and health due to the actions of past life. This native should donate 8th part of his wealth and should construct a well and ponds for public.

Then his curse will go away.

Let us try to read between the lines.

Nandan was, by profession, a cattleman and lived in Vasantpur Spring (Vasant) is one of the best seasons in most of the country. This shows the place he was living at was good and that is why, the Brahmin decided to go and live there.

Secondly, he and his wife were misers because their work was dependent on seasons. They had to save money for bad times. This represents people who are daily wagers/workers, contractors or anyone involved in seasonal work.

On the other hand, the Brahmin used to live in the city of Avantpuri and was constantly eating someone else's food - using someone else's resources and collecting money in the wrong manner. He came to his friend's house with the same habit of living at his resources. The Brahmin, on the other hand, also represents a person to whom you cannot say no as Brahmins in that era were worshipped for various reasons. Even in today's world, people who live according to Brahmin lifestyle are respected all over the country. It is believed that they have the ability to remove a lot of your curses due to the knowledge of Vedas and shastras.

Nandan, on the other hand, represents people who are working continuously and saving money as they need to save for bad seasons. Fed up with this cycle, he grabbed the Brahmin's wealth and threw him out of the house.

Nandan could not say no to his friend's request because of his status which resulted in sudden expression of anger as this is the quality of Aries sign - to suddenly burst out. This is what happened one day, in the spur of the moment, he took the decision to throw his friend out of the house.

These natives should not do anything in the spur of anger as for that momentary mistake, they have to later pay back very heavily. As it is their base nature to suddenly explode, so once the native

knowns about his mistake, he can correct this over a period of time with practice.

Then in the next life, Lord Shiva is asking him to do remedies of Scorpio Sign like digging of wells and constructing a lake for travellers. So, you have to provide relief to someone who is travelling and requires resources.

As Scorpio is 6th from Gemini sign and 8th from Navansh, so both ways it will work wonderfully for the native.

These remedies can be made more effective by adding several other concepts taken from Karam Vipak Samhita and Brighu Samhita. All the samhitas suggest remedies in a similar manner but I am not covering them in the present book as at present my focus is that readers should understand life patterns by Nakshatra padas. Once I complete this series, I will come to remedial measures.

The only mistake done by this native is that he was saving money and not spending it even on himself (Aries Navansh). Then someone else will come and try to use it, as in this case, it was the Brahmin's friend. The native not only threw him out of the house but also acquired what he had. His main aim in life is to make money (Gemini) and due to Aries navansh, there is a stubborn attitude and use of force.

Shastra says - Any kind of wealth you have has only three results.
Bhog - Consume it

Daan – Donate it

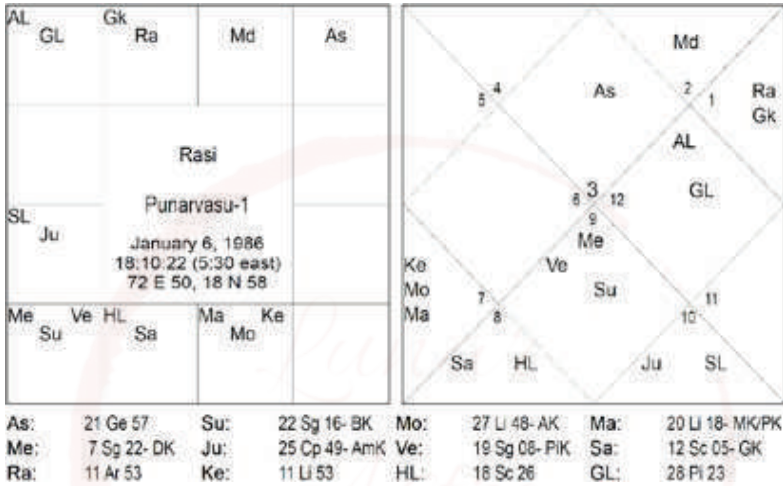

Nash - It will be taken or destroyed

So, people who do not use their wealth wisely face the end result - it will be taken away from you.

Let us see the practical manifestation in a chart.

The ascendant of the chart is in Punarvasu pada-1. Ascendant lord is in the Sagittarius sign with 5th and 12th lord Venus and 3rd lord Sun.

Lord Shiva told us that the native is a miser and does not spend money. In the chart above, the 12th lord which manages expense is in the 7th house. The native had a massive fight over expenses with wife as his wife is not a miser and she spends money very generously while the native thinks that she is over spending.

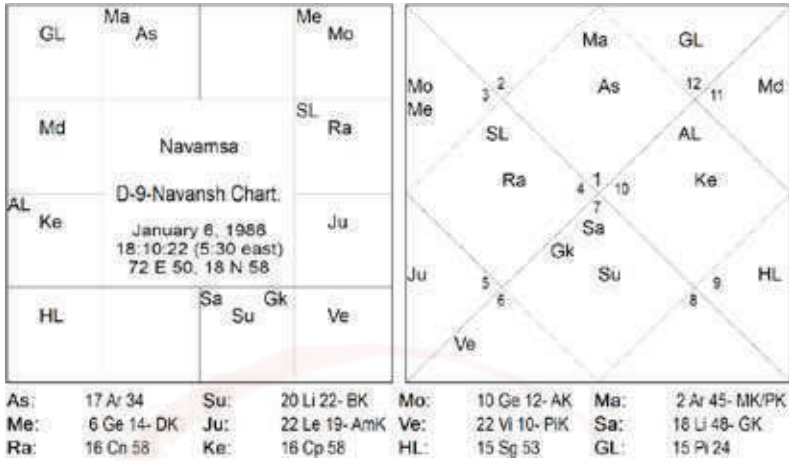

The native does not spend money on his own as I have seen in various cases. You can also use this technique if any planet is in Punarvasu Pada-1. The native will not be able to spend money on those significations. If Venus comes in this pada, the native will not spend on his wife. If Jupiter comes in this pada, the native will not spend money on education and kids. He will not spend money for his happiness too.

You have to use a single technique in various manners to make more predictions. This is the practical way to predict things. I have used this extensively in my readings and it has worked for me.

We will see the result of this action in the navansh chart.

The navansh is rising with Aries. The navansh with Mars is placed in it and Saturn - Sun in 7th house and since he was trying to control wife for expenses.

PUNARVASU NAKSHATRA

It resulted in a heated debate and physical fight - similar to what Lord Shiva told us. A moment of anger led to separation. Also, his wife took his property and lot of money which the native had saved over the years. Hence, it resulted in destruction of wealth.

These natives should not do anything is the spur of anger as later on, they have to pay back very heavily as explained.

Punarvasu Nakshatra Pada-2 Gemini Sign - Taurus Navansh

Lord Shiva says that a person named Damodar and his wife Prabhavati used to live in a city named Lakshmanpur.

The city belonged to Vaishnavas, where everyone was well proficient in Vedas, while Damodar was very well versed in making ornaments and was a jeweller.

Damodar Das was a very noble person and used to serve saints. His wife was very supportive and noble.

He had two sons and both of them were obedient to parents. One day, a cattlwoman along with her two kids came to the city. Damodar got attracted to her and started visiting her regularly. Later, he brought her to his house.

After some time, due to a mass epidemic, the woman along with her two kids died and Damodar took all her wealth. He never

donated any part of the money. Also, while she was alive, Damodar never paid her for any of her services and also for dairy products.

Due to this, in the next birth, he will be born with a skin disease and will have problem in eyes. He will have to live along with foreigners and serve under them leaving his traditions aside.

This native should donate 720gms gold idol of Lord Vishnu and 720gms silver idol of Lord Shiva to a Brahmin.

Also, the native should donate a bull decorated with blue colour clothes and ornaments to a Brahmin.

Let us try to decode and read between the lines.

Lord Shiva is telling that problems are occurring to the native as he has committed a sin of using someone else's resource (Taurus) without a proper transaction (Gemini) or paying money as Gemini is the sign which represents your hands. So, when you are consuming anything - whether she is serving you as a mistress or providing milk products for family, she deserves to be paid.

The reason why Damodar was not paying her was - he thought that she is from the lower strata of society and living in his house, so he need not pay her. Secondly, when he got her wealth after her death, he never donated any part of that money.

As this is the Taurus navansh which is ruled by Venus, milk products have been spoken about. Let us suppose someone has Jupiter in Taurus navansh here, then it will be related to education. The native will take education for free and not pay fee for the course.

Mars in Punarvasu will live in a house or get pens for free.

You can use the signification of any planet in this pada and it will work.

Taurus represents eyes and being in Gemini, skin is represented by Mercury. So Lord Shiva is telling that in the next life, the native will suffer from eye and skin diseases.

Then comes the part where Lord Shiva says that he will work under Malech. As Taurus is the 12th from Gemini, so working in a foreign land has been specified in which the native has to leave his customs.

In real life, you will see these people working outside their own community, travelling and trying to save money as they think they deserve freebies.

In real life, these natives will not be interested in paying others due to their status or will use others' resources for free and justify it for whatever reason.

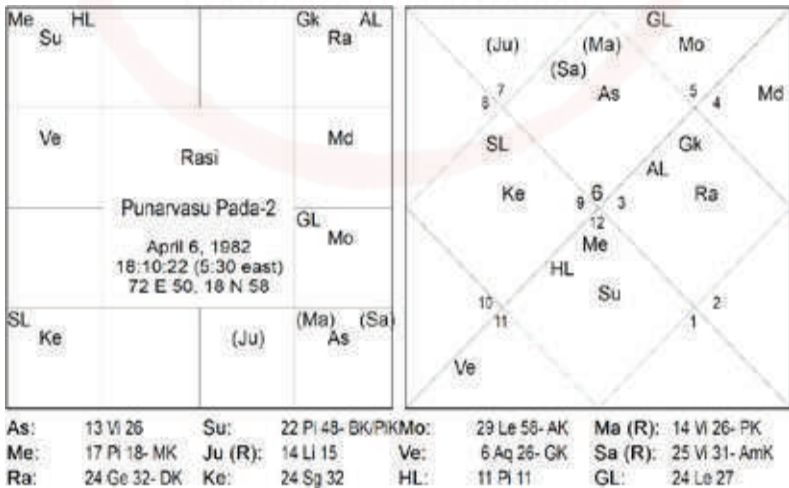

This is why they will suffer from skin disease or any Mercurian disease such as asthma, memory issues, problem with nervous system as well as problems with siblings and 3rd house related issues.

The 2nd house of the native will be heavily affected due to this action and will face severe trouble with whatever planet of combo the Taurus sign has in Navansh.

Suppose someone has Rahu in Taurus Navansh for Punarvasu Pada-3 Ascendant native. All his wealth will be taken away by theft or cheating and the family members will suffer from cancer as now the disease will take the flavour of Lord Rahu as well.

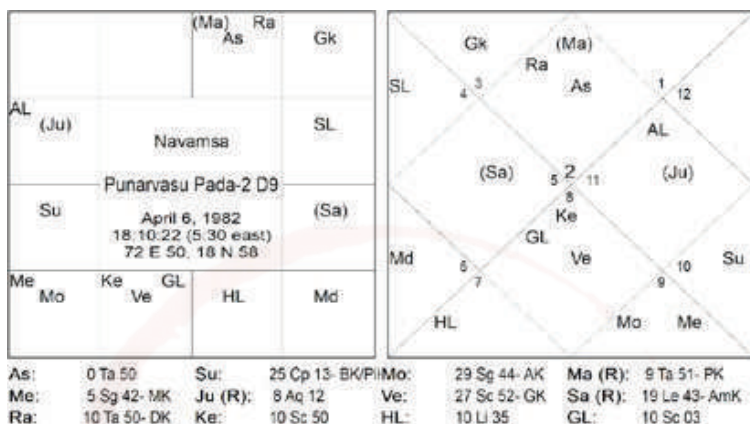

This is another way to look at the story but let us make it clearer by a practical chart.

In the chart placed below, Rahu is placed in the 10th house in Punarvasu Pada-2. The native used his office phone for personal international and national calls. He overly used this service provided by the company and exploited the facility provided by the company. The native was also investigated for a fund fraud in the company, to which he admitted that he had forged paperwork to siphon off funds.

As Rahu is in Gemini, he thinks whatever is provided by office is for him to use at the personal level as well.

Let us see the result of this action in the Navansh chart.

The native has Mars Rahu in Taurus Navansh in Lagan. His spouse suffered from cancer and finally she passed away.

Punarvasu Nakshatra Pada-3 Gemini Sign-Gemini Navansh

Lord Shiva says that a barber used to live in the city of Ujjain along with his wife named Karkasha.

His wife was of loose moral character and he also was involved in farming rather than his natural work of a barber.

One day, his friend, who was a rich trader, came to his house with 10 million gold coins. The barber killed that rich trader in the night with a sword.

The barber left the city in the night and spent all that money and never donated any part of it for a good cause.

Then later in life, he along with his wife took bath in a holy river in the month of Makar and donated a cow, gold and a bull. In the next birth, due to a mixture of good and bad deeds,

he was born in a rich family but as a thief.

Due to the curse of his past life, the native will not get kids, suffer from diseases related to cough.

To remove the curse, the native should do Chandi path. Let us try to read between the lines.

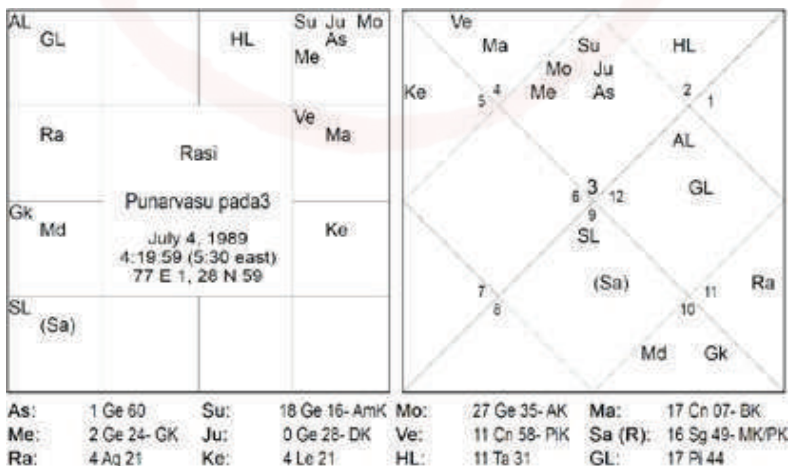

This is the Gemini Sign - Gemini navansh, This shows that the native is a pure trader and for him, personal gains matter the most. He can even kill his friend for money.

The native was a barber but was not involved in that work. This can be interpreted as the native might have graduated in one subject but as that work is low paid, he switched his career. Secondly, the name of his wife also tells a story. Karkasha means who speaks with a rough voice and bad words. She was of loose morals as money also matters to her.

A rich friend came with money and was killed due to money. This means these natives only like to make friends who are resourceful and rich. Whenever they will get a chance, they will try to use them or accumulate their wealth. Here killing and changing city are symbolic as in practical life, I have seen these natives being extremely shrewd when it comes to money matters. They will try to lure people with their ponzi schemes to make money and then after sometime, move to another business.

Later in life, after he did good deeds by taking the holy dip in the month of Magh. During that time, Sun will be transiting the 8th house for the native, and this is the best time for him to solve past deeds. For the whole month, he took bath in the holy river and donated to Brahmins.

Let us understand this with the help of a practical example-

In the chart placed on the previous above, the native has Moon in Punarvasu in 3rd pada. This native is an MBA graduate in finance. See 5th and 11th lord conjoined in 2nd house. But the native never did any job for more than three months. Instead he ran several schemes like MLM with promises to make people rich.

In these ponzi schemes, lots of people lost their money on his fake promises, but the native eventually got rich.

Let us try to see the fruit of this karma for this native.

This native is very young and just got married but as Lord Shiva explained, the wife of the native is of hot temper.

Gk	Su	HL	Ke	Md	Mo
Navamsha				AL	
Punarvasu Pada-3-9					
July 4, 1989 4:19:59 (5:30 east) 77 E 1, 26 N 59					
GL	Ma	Ra	Me	Ju	(Sa)
			Ve	As	

SL	Ra	Me	(Sa)		
Ma	9 8	Ju	As	6	5
GL		Ve			
			10 7 4	AL	
			1

Ra: 9 Sc 09	Ke: 9 Ta 09	HL: 13 Ar 35	GL: 9 Sg 34

I can't comment on the other factors but the native got married to her as she comes from an influential family. That is why his wife is dominating towards him.

Punarvasu Nakshatra Pada-4 Cancer Sign-Cancer Navansh

Lord Shiva says that a helmsman named Manohar used to live in the west side of the city of Ujjain.

He was very rich and was married to a beautiful and pious woman named Matta.

He used to sell fish and got rich over a period of time. But he never donated any part of his wealth to society.

On one occasion during lunar eclipse, he along with his wife donated gold coins and a bull to a Brahmin. After some time,

Manohar and his wife died and after travelling to several bodies of animals and birds, he took birth again as a human.

In the next life as a human, he has a very good voice and is a singer. But, he is married to an ugly and fat woman as in the past life he used to sell fish.

Due to this, he will not enjoy happiness on account of kids. He should listen to Harivansh puran three times and do

Gayatri Jaap five lakh times.

To get rid of his disease, he should do fasting on Saptami tithi which falls on Sunday.

Let us try to read between the lines and see what Lord Shiva is telling us.

This Pada falls in Cancer sign and Cancer navansh. So lord Shiva is telling that the native will be involved in work related to water, and the curse is coming because the native is harming a soul living in water.

This is an emotional pada and connected to masses. The curse here is to not hurt emotional people and secondly, try to create harmony in society.

Lord Shiva has used a symbolic expression of this native selling fish. Fish is a water-based animal which represents emotions. People born in this pada will get the opportunity to serve people on an emotional level, but they are making it as a profession.

Secondly, they are not helping society around them even when they are capable of doing so. This will bring curse to them.

The remedy as told by Lord Shiva is to observe fast on Saptami as for Cancer natives, marriage and dealing with outside world are the most difficult tasks as being emotional and the sign opposite is a logical sign, which naturally does not go along.

Also, donations during lunar eclipse will bring a lot of peace in this native's life.

Due to the effect of Saturn on the 7th house, Lord Shiva is telling that the wife of the native will not be beautiful. As we have seen in practical cases, it is more symbolic, and it is the difference in ideology of the natives which does not get along.

Scorpio sign in the 5th house is a natural malefic sign placed in the 5th house which will result in problems related to kids. Moreover, it's the friction related to kids' activities.

These natives will travel a lot for career purpose. They will be the first ones in the family to start something new in the business. Whenever these people will make a house or buy land, they will experience problems related to planets sitting in 4th house of the navansh chart.

This is the nakshatra pada where the person has to travel to meet different people and sections of society to provide them with peace and harmony. Not providing that or turning it into profession, where they are actually harming the society or people's emotions, will bring the curse as selling fish is only an expression told by Lord Shiva.

In reality, the native is selling emotions of people to others when he should have provided relief to them.

One of the best remedies I have seen working in this nakshatra pada natives is – to help people emotionally, and the physical remedy is to feed fish regularly.

As Rahu is the 8th lord in this chart in both rasi and Navansh, so the native is advised to donate during lunar eclipse for a happy life.

Experience True Astrology

Pushya

BRIHASPATI

Pushya Nakshatra

Deity: Jupiter

Planetary ruler: Saturn

Symbol: Cow's Udder

Animal: Male Goat

Tree: Peepal

Bird: Sea Crow

Span - Cancer 3°20'-16° 40'

Pushya nakshatra is a natural rajyog as the deity is Jupiter and ruled by Saturn. This is a nakshatra for people who show the path to others as it is the Guru's responsibility to create the path for you to meet God. They will only advise you but you have to do the hard work. Pushya natives are not meant to do any physical hard work instead this is the nakshatra for strategists, planners, gurus, people who create plans.

This is the nakshatra of black Brahmins. In north India, a saying is famous that if a Brahmin is black in complexion, you should stay away from him.

This is just a symbolic expression as in north India, the complexion of the Brahmin community is fair. If someone has a dark complexion, it means the native has the effect of Saturn on him or is blessed by Maa Kali. He might have accomplished tantra.

An effect of Saturn on a Brahmin's lagna and Moon can make him shrewd and he can be involved in tantra and other occult activities.

That is why people are asked to stay away from Brahmins who have good knowledge of tantra and all paranormal activities and not to cross him.

Pushya is also associated with tantra and other occult activities due to this reason.

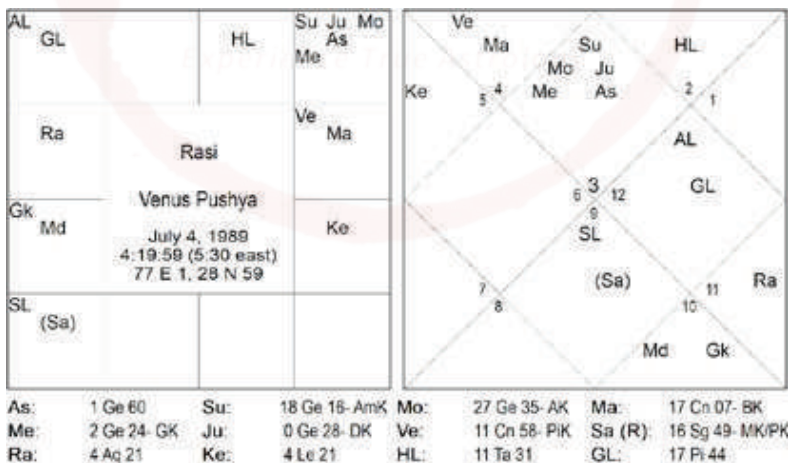

Technique #1 – People who are born with an ascendant or Moon in Pushya have natural arrogance from a very young age - a superiority complex even without achieving anything.

If someone has Jupiter in Pushya or aspecting Pushya in Sarvatobhadrachakra (SBC) then the native will be arrogant about education or wisdom.

If someone has Venus in Pushya or aspecting Pushya in SBC then the native will be proud of his body as well as clothes, partner, vehicle or any signification represented by Pushya. It gives an arrogance regarding that matter as these natives are blessed due to the quality of this nakshatra.

Let us see a practical example for this technique.

The chart placed below is of the native who has Venus in Pushya nakshatra. So this native is very proud from young age about branded clothes, vehicles and is very specific and proud in nature regarding his wife. He is even proud that she comes from a very affluent family. He never fails to show off regarding any significations of Venus.

Pushya and Revenge - Normal people will take revenge in a day or two but here the deity of Pushya is Jupiter and Jupiter cannot

fight in a normal manner. They plan for years and wait for their turn to destroy you.

Technique #2 – Silent Warriors

If they ever feel hurt, embarrassed or unhappy with a situation, instead of telling what is wrong, these people go in a silent zone and do not talk to the person who is creating the problem.

People with Pushya asc/Moon/asc lord or prominent planets in Pushya nakshatra will not let go the grudge against the enemy. These people do not fight physically ever but the way they take revenge is very different than any other nakshatra.

Instead of planning for the downfall of the opponent, they work hard and instead of criticizing anyone, they raise their standard to a level that the opponent automatically becomes very small in front of them.

Instead of wasting time to explain themselves or fight verbally, they go in isolation and start preparing to become the best. This is why it is one of the best nakshatras as it gives lot of knowledge, and sometimes to take revenge, they became one of the best.

I remember one of my class mates in engineering. He didn't like the teacher insulting him in front of everyone in class over some question he was not able to answer. He prepared for that subject to an insane level and started asking counter questions to the teacher such that she was not able to answer and felt humiliated. Only then was his anger quenched.

They are like the elephant, when they walk in the jungle, it's difficult to ignore them.

Pushya Nakshatra - Pada-1-Cancer Sign - Leo Navansh

Lord Shiva says that a cattleman named Hansketu along with his wife Kaikayi used to live in Madhya Pradesh.

He had a lot of cattle and was very proficient in his work. He used to sell cows, buffaloes as well as butter, milk, clarified butter and other milk products.

He had a friend whom he used to sell milk daily. His friend was very powerful, rich and influential.

One day, he killed his friend to grab all his wealth and started spending 6th part of the wealth every day. After sometime, he died.

This native in the next human life now suffers on account of kids and from diseases of the nervous system.

Lord Shiva says that to get rid of the curse, the native should do Gayatri Jaap 2 lakh times and donate 72gms of gold idol of his friend to a Brahmin. He must also donate 6th part of his wealth. After this, he will get rid of the problems on account of kids and health.

Let us try to read between the lines.

Lord Shiva is telling us that the native will do business related to water/milk/emotions/deal with masses and make money through it.

Here milk products represent emotions and dealing with masses. The work of this native is to make money by providing nectar to people in any form.

Milk and its products are considered nectar in shastras. Then, he got influenced by his friend and become greedy for his wealth and position.

To get a respectable position in society, the native has to kill someone or end someone's career as this is a sign of Leo in navansh and Cancer rasi. So, to become a prominent public image or get a position (Leo) where he can be in power and deal with public, he has to end someone's career or acquire it in a wrongful manner.

This is the biggest challenge in life of this native. Anyhow, for cancer ascendant, fame does not come without fighting with someone who is a guru or the boss as Scorpio sign lies in the 5th house for this ascendant. For details of every ascendant, please refer to my course on Predictive astrology.

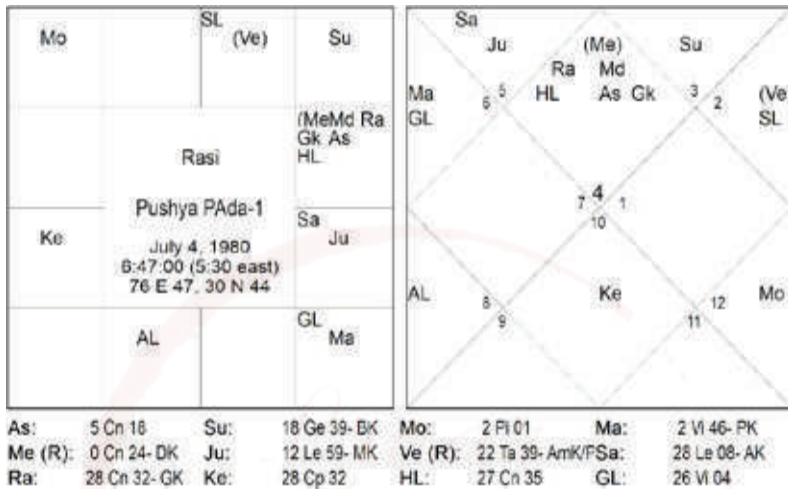

This native has to fight with his father/guru/boss and end his career to get a position. This is the test of his life and whenever he finds himself in this position, the native should be very careful. Otherwise later in life, lot of health problems will come to the native.

This is the theme for this native.

Let us see with the help of an example.

Below is the chart of a woman born with Pushya pada-1.

She helped her father in running the family business, but over a period of time, she had disputes with her father on how to run the business. They had a legal consulting business.

Gradually, her relation with her father got so strained that she took all her father's clients and business along with her.

She had Jup/Sat in Leo. This shows the legal business as well as the fight with her father to gain a position or status in the family due to Leo in the 2nd house.

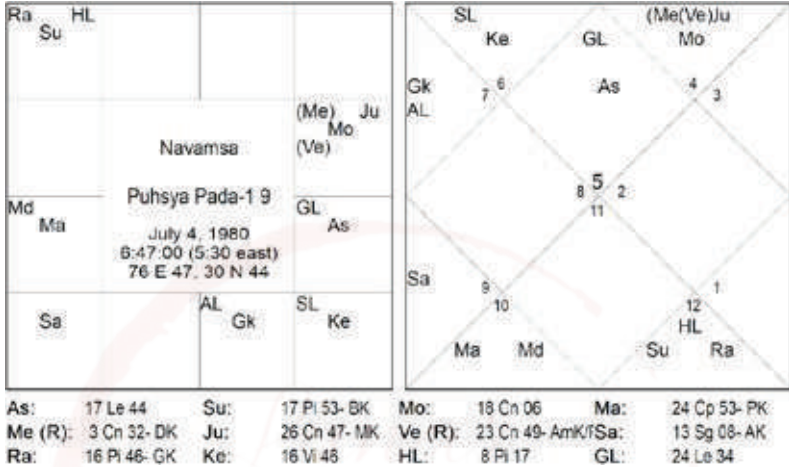

Let us see the result of this action in navansh.

Her ascendant is rising with Leo and ascendant lord in 8th house with malefic Rahu. Not only her father's health began to decline from that day onwards, she also got into legal troubles with the government as the way she was running the business was risky. Eventually, her actions caught her up.

She also got into disputes for the parental property inherited by her. Now she is fighting the case of 40 crores of property.

She came for consultation for this purpose. The only remedy I could give her is - Please go back to your father and hand him the business. When your time will come, you can steer the ship but wait for it.

In three months, all the issues she had “magically cleared up” when she realised the mistake after prediction and handed the business back to her father.

This is the lesson learned by the native. Let us move on to the next pada.

Pushya Nakshatra - Pada-2-Cancer Sign - Virgo Navansh Lord

Shiva says that an artist named Hemdas used to live in Hastinapur.

He had two wives and by working daily, he managed the expenses. He used to make idols from trees.

Once, he cut down a pipal tree for his work, which was placed in the west of Kashipuri.

When he is born as a human in the next life, he suffers from stomach disease. His wife also suffers from disease. He doesn't get a son in this life and is unable to sleep.

To get rid of this curse, Lord Shiva says that the native should donate 4th part of his wealth and do Gayatri Jaap one lakh times. Also, the native should make a 200gms gold tree and donate it to Brahmins.

By doing this, the native will get rid of the disease and other troubles in life.

Let us try to read between the lines what Lord Shiva is telling us.

This is Cancer sign and Virgo navansh. Due to the navamsa of Mercury, tree has been discussed here.

So, Lord Shiva is saying that the native is a daily wage worker which is the quality of Virgo sign - working a routine job. So, this native will either be a freelancer or a worker who is not able to save much of money.

Then Lord Shiva says that he has two wives - due to dual sign it is said that the native will have two wives.

To earn money, this native has to travel to far-off lands as Hastinapur to Kashi is a distant land. This native has to earn money and to earn money he is not considering the value of the environment as Peepal tree is one of the most important trees providing oxygen 24 hours a day.

This is symbolic as to earn money, this native does not care about the environment/masses and goes on destroying it.

Cancer sign is of masses and sign of Virgo represents daily routine, disputes, disease. So on a regular basis, this native is doing an action which is harming the masses and society in general.

Like in the story, the native was cutting trees which are most important for the ecosystem. He thinks that it is his duty to earn money. That is why the native will suffer in the next life.

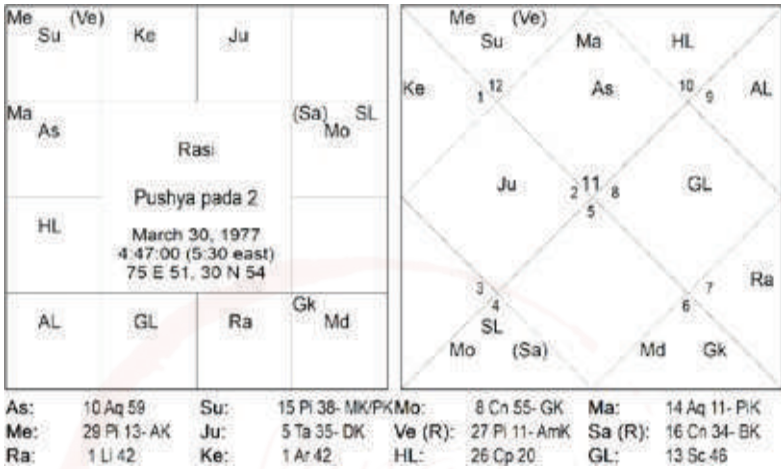

Practically, I have seen these natives are more into being lawyers, doctors anyone who deals with masses and 6th house matters. The job given by nature to them is to serve the masses and reduce their 6th house. But somewhere down the line, they get corrupted and start harming the masses.

Secondly, the native will work with hands or perform some practical work related to the 3rd house as Virgo is the 3rd sign to Cancer. That is why Lord Shiva says that the native is an artist- he is designing something with his hands and in the process, natural resources for masses are getting affected.

Let us see this with the help of an example.

PUSHYA NAKSHATRA

In the chart placed below, Moon is in Pushya pada-2 along with Saturn-retro which is the ascendant lord as well.

The native works as a freelance technician on ships and was facing problem in the lower stomach.

Saturn is scarcity/wastage and Moon is food. I asked whether the native throws food in water, due to the watery sign in 6th house, after taking food in large quantity. As here the deity is Jupiter, so the native will consume food in large quantity. Also, the native fixes big machines as this is his work as well.

The native confirmed that he has the habit to throw lot of food into the sea. Then, I asked him if his mother is suffering from spondylitis as Saturn in the 6th house is also 3rd of mother and Saturn gives this kind of disease. The native confirmed this as well.

The native came for consultation as he was not getting assignments and he was fed up of this uncertainty in his career. Saturn in Cancer sign in Pushya although makes you rich but gives you an unstable career as the person is now emotionally attached to work, not logically.

The only remedy provided during consultation was to not waste food and do the service of offering food to other people during Saptami tithi.

The native did that for a certain time period and in two months, the native got a job in a well-established company in Norway.

Pushya Nakshatra - Pada-3-Cancer Sign-Libra Navansh

Lord Shiva says that in Madhya Pradesh, there was a blacksmith named Hemkar. He was a devotee of Lord Vishnu.

His wife's name was Prabha and she was devoted to her husband. Hemkar was very rich and prosperous but still very greedy.

He had a cow which he had raised from a young age. One day, that cow got stuck in mud and even after hearing the cow, he never went to help her.

The cow died in that mud and after few years, Hemkar also died.

In the next human life, he is born as a rich person and serves Brahmins regularly. Due to this sin, his kid died and he also suffers from disease.

To get rid of this curse, this native should donate a pitcher of clarified butter along with two cows to a Brahmin and recite Gayatri Jaap 1 lakh times.

Let us try to read between the lines, what Lord Shiva is telling us.

Due to the navansh of Libra, rich trader has been used and his greed to make more money is always there.

Then Lord Shiva says that he didn't help the cow he had raised from young age. This is the curse he will face. As in today's world, this will apply to people who are so busy in work without any work-life balance that they can't see other people require their love and affection.

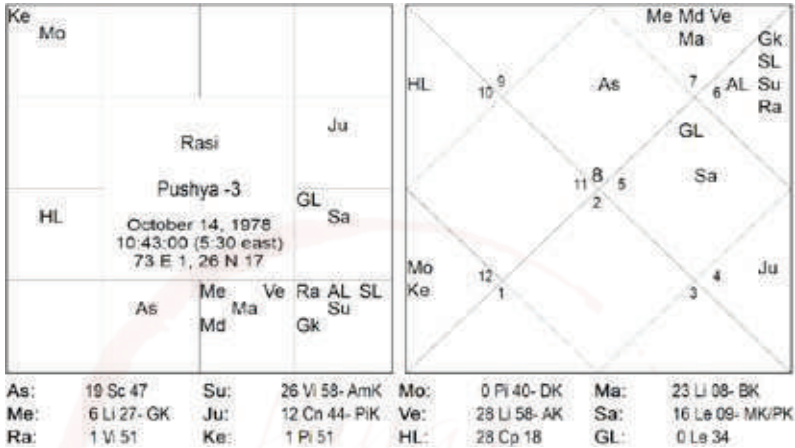

Due to the navansh of Venus, reference to cow is made - a domestic animal who gives us everything and all it requires is love, care and affection. This native didn't even go to save his cow as he was busy in work.

This can also be interpreted as people who do not listen to loved ones, who do not provide love, care and affection to their partner and also to other people who serve them, who do not care about other's problems. In a practical case, I have seen a native who is the boss for several people but for him, work comes first and employees' personal life as the last.

These people will not care about anyone working under them and will not help when it's their duty to do so. This nakshatra pada is

good for politicians and bosses to get the work done but as human beings, they can't be considered good.

Let us look at a practical example chart of a native.

In the chart placed above, the native's Jupiter is placed in Pushya Pada-3, so it is an exalted Jupiter of the chart. But we have to remember the theme of the story as even exalted Jupiter will give some good and some bad results.

Every planet in your chart has acquired a particular position due to good and bad karma of past life. Till now, we have only gone through the negative part of the chart but there will be some good deeds as well which this native might have done. That is why he has got exalted Jupiter in the chart and that too in Pushya nakshatra.

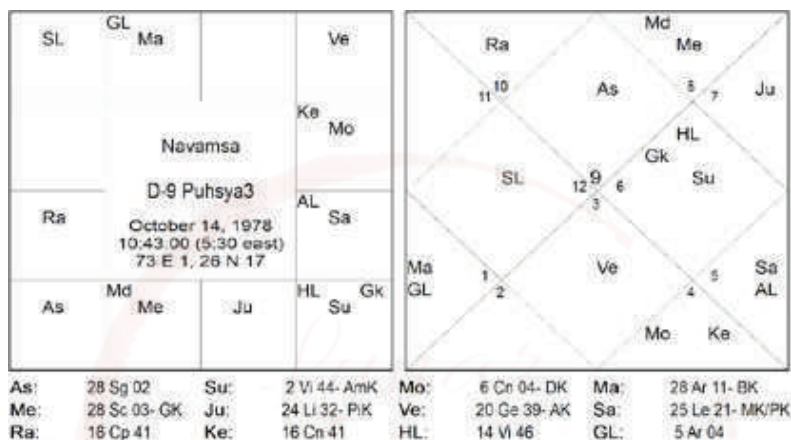

This native graduated in management from a foreign university and then started working for a company for exports. But due to his interest in occult and nature, he purchased a farmhouse and started a healing centre, where he teaches meditation and other occult sciences.

He is making money by providing healing to masses and has lots of disciples as now he is a guru figure. I asked him if he helped students with their expenses or whenever they required money as the lord of 9th house Moon is in 5th house of kids and students with Ketu.

This native does not charge money from students until they start earning well.

Also, he breaks down the cycle of karmic bondage for students as Moon-Ketu in Pisces means breaking the karmic bondage for students. He has provided relief to thousands of people with this method of teaching without expecting much in return.

Let us see the result of this karma in the D-9 chart.

If you notice, Jupiter is the ascendant lord placed in the 11th house and the dispositor again in the 7th house of Gemini (communication) and business.

I asked him that after he stopped charging his needy students, did his name spread far and wide in the community with him earning more money, popularity and more students.

He said that his students are the only mouthpiece for him as he doesn't have a website or any other medium (initially he had). But as things grew, students took over the responsibility to make him famous.

Nature gives back to you what you give to nature. He distributed peace and knowledge to everyone without expecting any fee. At one point of time, his ashram had 75 people out of which 40 were paying only some part of the fee or nothing at all. Still, he managed and in return, nature provided him with more students, a bigger ashram, and popularity.

This is the test nature gave him and he took it well with generosity. For every curse mentioned for all the nakshatra padas, nature will

give you a test and it is your free will to do the right thing and problems will disappear after an initial struggle. The book of curses will become the book of boons.

If he would have denied students who were without money, he would have struggled to manage expenses as he would have got a bad name due to women, as again the story will end at the 7th house.

Pushya Nakshatra - Pada-4-Cancer Sign-Scorpio Navansh

Lord Shiva says that -14 kos (42Kms) east of Ayodhya city, one person named Vaidamabar along with his wife Chitra lived.

Chitra was dedicated to her husband. Vaidamabar used to sell green vegetables by profession and was dedicated to Lord Vishnu.

He had a white cat as a pet and when she was pregnant, Vaidambar killed her and also her four kids died inside the womb.

After some time, Vaidamabar also died alongside the Tamsa river. In the next life, due to devotion towards Lord Vishnu, he was born in a good family but none of his kids survived.

To get rid of the curse, the native should donate half of his wealth to Brahmins and do the Mahamritunjay Jaap to get kids in this life.

Let us try to read between the lines.

This is the sign of Cancer and navansh of Scorpio. As Scorpio is the 5th sign from Cancer and a difficult sign (due to both rulers Mars and Ketu being malefic) for Kids, this story says that the native killed his pet cat while she was pregnant.

Lord Shiva is saying that it was his responsibility to take care of the pet while she was pregnant but instead, he went ahead and killed her. But why would a native, who is a devotee of Lord Vishnu, kill his pet cat. The most likely reason is the native is in the profession of selling vegetables and the pregnant cat would require more food. So Vaidamabar would have been concerned what if she has multiple kittens and then it will become a mess and also monetary loss for him. He might have thought that it would be better to kill her by starving or by providing food that is poisonous as the sign of Scorpio is also poison and waste food.

Practically, I have seen people coming to these natives to seek advice about their kids, help about their kids as both are emotional

signs. These natives should be very careful to not provide the wrong advice to anyone regarding kids.

These people should not charge money for kids and help pregnant women in their life or a childless couple regarding kids.

Taking a portion from my predictive astrology course, I am teaching this technique here. Whoever is born with nakshatra pada, his mother would have gone through a lot of troubles during pregnancy. She would have either been given wrong medication by doctor during pregnancy or would have suffered from stomach infection due to food. Different planets in Scorpio navansh and placement of sign in navansh will produce the complete story.

Let us see a practical example for this particular nakshatra. So, this pada is creating problems even before the start. In the initial stages, whichever planet goes in this nakshatra, the native will make sure that event should not happen.

Let us suppose Jupiter goes in this nakshatra, then the native will be resistant to get kids. And when the native is about to become a father, he will leave the city or run away from responsibility.

If Venus is in this pada, then the native will oppose marriage or will be fickle-minded and not trust his spouse.

Nagas
(God of Snakes)

Ashlesha Nakshatra

Deity: Nagas

Planetary ruler: Mercury

Symbol: Coiled Serpent

Animal: Male Cat

Tree: Nag Champa

Bird: Owl

Span - Cancer 16°40'-30°

This is the 9th nakshatra of the Zodiac which is represented by a coiled serpent which also represents hidden potential of Kundali chakra.

You would have noted that a coil is essential where magnetic fields are associated. Though magnetic field can be generated through a straight medium current flow, but it is very weak. As soon as you make the copper wire coiled, a magnetic field is generated which is much higher than in the straight copper wire. As greater the number of turns, stronger is the magnetic field.

This particular nakshatra represents the magnetic field of human body. All we need to do is energise the coil by meditation. Nagas are mysterious characters as they live in Naag lok which is down below the earth. It has all the luxuries and comforts which one can imagine.

Technique #1 – Psychological warfare

This nakshatra is perfect in playing mind games as snakes are not physically strong creatures, so they find alternative methods to

dominate people. Even when they are not poisonous, people still have fear in their brains regarding snakes.

Whichever planet or cusp of the house goes in this nakshatra, the native will be a champion in playing mind games in that house and in the planet signification matters.

Let us suppose, someone has Venus in Ashlesha. Then the native will be continuously playing mind games or physiological warfare in relations.

If Saturn is in this nakshatra, the native will be very cautious regarding any activity in profession and continuously try to play games in office environment. Also, this native will keep his professional life very unorganised.

If someone has the 5th house cusp in Ashlesha nakshatra, the native will always use alternative methods to pass the exam. Even the books he buys will be different from the rest of the class.

Also, the same results can be predicted when the 5th lord is placed in Ashlesha nakshatra.

This is a perfect nakshatra for hostage negotiators as they always have to be two moves ahead of the other person. Also, there is a psychological battle they have to win. These are the people who are beyond the norms of society.

It is very difficult to blackmail them, extort them or put them in a corner position as snakes can slide and it is very difficult to corner them. Similarly, when someone tries to extort them, they always have a counter argument ready to oust that person down.

This will work for significations of most of the planets. But for Venus, this is a great disadvantage as to carry relations you need to be forgiving and adjusting towards your partner. So, when Venus is in the 7th house, 7th house cusp or 7th lord goes in this particular nakshatra, then the native suffers in married life.

Natives with Jupiter in Ashlesha find it very difficult to find a guru. Even with the guru, they will get into a very complex awkward relationship. Practically, I have seen these natives marrying the guru or getting into relationship with teachers.

Ashlesha - Great responsibility to hide knowledge

In Pushya nakshatra, there is no restriction of knowledge as the person has the status of a guru and the native shares his knowledge freely. But over a period of time, the native acquires lots of knowledge and experience and it is necessary to hide knowledge. Only then is the native born with Ashlesha nakshatra.

Ashlesha nakshatra natives are always entrusted with great responsibility to protect knowledge, treasures, etc. Snakes are always associated with treasures as they can create fear in people.

So whichever house Ashlesha goes in, the person will be responsible to protect knowledge related to that sign and house. If any planet comes in Ashlesha nakshatra, then the native will very easily sense any kind of trouble which is about to happen regarding the same.

If someone has Saturn in Ashlesha, the native will easily sense any kind of trouble that is coming to the job before it even happens. As they have a great capability to sense dangers and take timely action, they are busy in psychological warfare with other people.

In Pushya, they never learned a lesson to hide knowledge. That is why people took undue advantage of them, but in Ashlesha, they have learned that lesson and now are very careful with what they speak and how they proceed in relations with others.

Technique #2 – Sensuality

Ashlesha natives have the tendency to have least sexual inclination and are very picky about their partner. They are very cold when it comes to sexual energy as they are very particular about their bedroom partner. They see this as an art and more than lust.

The writer of the famous novel, Fifty Shades of Grey is an Ashlesha native. He has written sex as an art form as being the nakshatra of Mercury, it is very difficult for them to get aroused normally. They do not like it as a routine but more as a play and artwork.

If any sexual house cusp or planet goes in this nakshatra such as (7th, 8th or 12th lord) or Venus, the native tends to get inclined in these activities to the extent that if the partner is not compatible,

it is considered as a physiological disease. For them, sexual energy is more about art and play rather than producing kids.

Let us move to Karam Vipak Samhita and see what Lord Shiva is saying.

Ashlesha Nakshatra-Pada-1-Cancer Sign-Sagittarius Navansh

Lord Shiva says that a person named Dindib used to work as a trader of salt and lived in the city named Mandavya.

Due to his business, he was very rich and prosperous. Once, he invited all the Brahmins of the city and after a meal, he gifted them with alms and money.

The head priest was awarded with a cow decorated with several ornaments. At that time, one Brahmin told Dindib that he is the senior-most Brahmin of the city and the cow should have been donated to him. As he felt insulted, he would commit suicide.

Dindib didn't like the words of the Brahmin and started cursing him. Due to this insult, the Brahmin committed suicide by consuming poison.

In the next life, he lives a miserable life on account of health, kids and wife. He will not get support from his father or seniors.

To get rid of this curse, the native should do Gayatri Jaap and Surya mantra five lakh times.

The native should make 24 gms gold idol of the Brahmin and pray to him to remove the curse and donate this idol to a Brahmin.

Let us try to read between the lines, what Lord Shiva is telling us.

This is the Cancer sign and Sagittarius navansh. These two signs are in mutual 6/8 position. So Lord Shiva is telling us regarding a fight that happened due to the injustice done to a Brahmin (Sagittarius).

But let us start from the beginning. Why would a yogi like Lord Shiva speak a word without a reason?

Lord Shiva says that the city's name is Mandavya. This is the name of great saint who cursed Yamaraj to be born on earth from the womb of a slave woman.

Mandavya was wrongly accused of theft and punished by the king. When Mandavya, a great yogi, went to Yamaraj asking for a

reason, Yamraj said, “When you were a boy, you killed an insect without a reason. That is why you got punished. Since Mandavya was below 12 years of age then, his act was not punishable. When Yamaraj realised his mistake, he apologised but Mandavya cursed him to be born on earth.

Now, when this city’s name is Mandavya, something related to justice will happen. Also, the profession of the native was that of a salt trader. Salt represents Saturn who is the brother of Yamaraj and the son of Lord Surya and governs karma.

Then came the test for the native to give respect to elders as he had invited everyone to the feast and donated several alms to everyone. At the same time, he had to make sure to choose the head priest properly as no one should feel insulted.

As Saturn has the quality to not go along with his father (senior), so the native will face the challenge to judge the senior -most priest. And, he committed a mistake there.

When the Brahmin got angry, instead of controlling the situation, Dindib spoke bad words. Due to the insults, the Brahmin committed suicide. But in real life scenario, you will find these people insulting their father, not giving priority to their father, bosses, seniors in the family and rather giving respect to someone else.

As that Brahmin said that he is the senior-most in the city, it does not imply that he was the most intelligent as well. Being under the effect of Saturn, he chose the person as the head who was more knowledgeable than anyone else. That is why the senior Brahmin got angry.

You will find that the father/boss of these natives are not happy with them as they do not give due respect to them. Also, you will see that to get their report cards their own father will not be there. Also, on any major occasion, all the duties of the father will be done by someone else as the father will be very angry over some reason.

As an example, during the marriage ceremony, the father will be very unhappy and will not co-operate. If someone has Venus in this nakshatra pada, then the native will prefer other women where his wife must sit and will not give respect to her.

His wife will know that her husband is involved somewhere else; position of the spouse will be given to someone else.

The fight is between the official and more deserving candidate and this is the moral dilemma of these people's lives.

In this chapter, we are not giving any examples as by now we believe the readers would have got a good grasp of the subject.

Ashlesha Nakshatra - Pada-2-Cancer Sign-Capricorn Navansh

Lord Shiva says that a man named Durlabh used to live in Alarkpur. He was involved in trading of animals. He had a good number of cattle but not enough shelter and protection for each of them.

He used to donate on every occasion and to anyone coming to his door.

He was ignorant towards knowledgeable people and never tried to gain any knowledge. Once his cattle were grazing in jungle and heavy rain took place. As he had never made shelter for all the cattles, a lot of his cattle died in rain.

After some time, he also died and in the next human birth, he suffers from a lot of diseases.

So, Lord Shiva is telling us that the name of the native is Durlabh which means very precious. The quality which makes this native very precious is that he donates on every occasion. Also many knowledgeable people come to his door but he is so busy in work that he is ignorant towards the knowledgeable people.

He believes in hard work as this is a sign of Capricorn but instead of spending money on shelter for cattle, he is donating. He should have given priority to his work first and then donated. But again, this is the challenge or test of life he is going to face in this life.

Whether to serve the 9th house and give money or save money for people who are dependent on him? It is a strain between 9th house and 10th house matters and he should choose wisely and make a balance between the two.

As in the 10th house, cattle is symbolic for people the native is answerable to and those who are dependent on him. They are his immediate family and it is his duty to provide them basic amenities. At the same time, he should take care of the 9th house matters as

the name of the city in which this person is living is Alarkpur - meaning alarm.

To wake up before it's too late as this person was donating and not listening to any knowledge. He knew he did not have enough shelter. This is an alarming condition but he did not pay any attention, and one day, a big event happens where his family or those who are dependent on him leave him. This would become the day when he will wake up. But by that time, it would be too late.

You will find that even in the most alarming conditions, these natives remain and do not take required actions, which must be taken. That is why the name of the native is Durlabh. They wait for the disaster to happen.

These are the people who cannot take decisions on time and miss the greatest opportunities in life as they are unable to prioritize, what is important for them.

This pending karma for this native will be to take care of the people who are dependent on him. He must take the decision to maintain a balance between donation and taking care of one's family.

Ashlesha Nakshatra - Pada-3-Cancer Sign-Aquarius Navansh

Lord Shiva says that a gardener named Delchandra along with his wife Chandravati lived on the banks of river Ganga.

One trader named Gurdas, who was very clever and dedicated to his work and religion, also lived in the same city. Delchandra and Gurdas became friends.

Gurdas gave lot of gold and ornaments worth of Rs 3 Lakh to Delchandra, which Delchandra buried in a pit.

Both friends went to take a dip in holy triveni (junction) in the month of Magh where both regularly took bath in holy river and followed the rituals.

Delchandra came back home but Gurdas went to Kashi, where he died.

Due to his death in Kashi, his soul came directly to me, while Delchandra used all the gold provided by Gurdas for his luxurious lifestyle.

In the next birth, as he never returned the gold of his friend, he does not get progeny. To get rid of this curse, the native should donate 6th part of his wealth to a Brahmin.

He should construct a water source for people and he will get rid of all problems.

Let us try to read between the lines, what Lord Shiva is saying.

This is a Cancer sign and Aquarius navansh. Aquarius sign is 8th to Cancer sign and Aquarius also represents friends - so taking unearned wealth (8th house) from friends (Aquarius sign). Lord Shiva is saying that the native took a loan from his friend. But again, he did not take the loan for an emergency. He took the loan as he thought his friend had lots of money.

When Gurdas lent him money, he never used it. Instead he kept it safe by digging a pit (8th house) and later on, when he went to triveni for taking bath, Gurdas went to Kashi. There must be a very strong reason why Gurdas went to Kashi as in older times, Kashi was the place where people went to leave earth. This was the only city on earth where people used to wait for death.

In an interesting story, Saint Kabir was so in love with the divine that six months before he died, he said that he was leaving Kashi and going to Maghar. Maghar is the place where, if anyone dies, goes to hell. But see the confidence of the saint where he says that anyone can go to heaven if he dies in Kashi. Then what is the point of being here and praying to the Supreme day and night. Instead, I should go and die in Maghar. Then too, I should 'go to heaven'. and then also I should go to heaven"

Back to our story. Gurdas went to Kashi and that was the time when Delchandra knew that he is never going to come back. He should have returned the money or Gurdas would have instructed him to return the money to his family. But he never did any of that and used that money which was unearned. Now in today's world. you will see these people keep asking for favours/wealth even when they do not require it. Also they will only make friends when they have the capability to provide them with unearned wealth which they never return.

Also, when any planet goes in this nakshatra, they expect that relation to provide wealth which they have not earned. For example, if someone has Jupiter in this nakshatra pada, then they expect their Guru to provide them with rare knowledge. But they will never ever come back and pay anything to the gurus. Do not make these people as your students.

Venus in this nakshatra pada will expect the spouse to earn and handover their wealth to them. If you make a Prashna and if 7th house/lord or Venus is associated with this nakshatra pada, then these people will get money from the spouse as alumni.

If Mars goes in this nakshatra pada, the native will get land and always expect free hotel deals as he never wants to pay for this matter.

If Ketu goes in this nakshatra pada, then the native will expect spirituality and would like to occupy name and chair of the guru as well as electric items such as fan/cooler/plumbing items of your house for free.

In the example above, I am using planets as significators only. But you can use them as house lords as well, then also this technique works.

The pending karma or the test of his life will be to not take unearned things of planets or the house which is in this nakshatra pada for free, as he is only using them for luxury.

He should be very careful as all this is going to backfire on not only his kids but all the significations of 5th house. This is the most important house of the life as this is the house of enjoyment/love/kids/education. **You can never buy the things in the 5th house.** You can get them only by the God's grace. You can have kids but to get happiness from kids is pure joy, which no money can buy.

If someone has malefic in 5th house, he will always keep tensed and will not enjoy life. One of the remedies which works in this case is to control 2nd house as 2nd house is where the cycle starts. Start controlling your food habits, be very careful about the way you speak, even on social media platforms.

As the shastra says, "Learn how to speak." A person only speaks what he thinks and a person thinks what he regularly watches or

what goes inside him through various mediums of visual, audio, touch, food, and smell.

Be very careful of what you are consuming through these input organs as that will spoil 5th house as whatever we eat (2nd house) goes into our stomach (5th house). If you are eating a dead body, an animal, you will never be happy in life.

As you have all those negative emotions/stress in you which that animal had while getting tortured and killed. You are only draining your good deeds by this action. You have to pay for these.

5th house is your grandfather and blessed are those who have spent time with their grandfather. As grandfather represents head of the family and you are always relaxed when you know there is someone big on your head. It's a feeling of peace in the mind when you are around your father, grandfather or anyone who is elder and experienced than you. Only lucky souls on earth get to serve the grandparents as our parents/grandparents are our emotional support system. Even in worse conditions, we know they will find a way for us. Even for power demon like King Bali, when Lord Vishnu held him as a prisoner, he got helped by his grandfather Prahlad in the soul form and due to his punya. He said, "Keep your third foot on my head." So you can be as powerful as King Bali but still need good 5th house to help you in difficult times.

Ashlesha Nakshatra - Pada-4-Cancer Sign-Pisces Navansh

Lord Shiva says that there is a city name Ayodhya and by entering this city, all the sins are washed off. 2 Yojan (16 kms) west of this city is the city of Lakshmanpur.

A rich helmsman named Dal along with his wife Kesari used to live in this city. He accumulated a lot of wealth by his business. Every day he used to eat fish and flesh of other animals.

He was cruel to all sea creatures but for tortoise, he was cruel to another level. After some time, he died.

By the orders of Lord Yamraj, he went to hell and in the next human life, he suffered from liver disease. No one in his family lives for a long time period. All females of the house are widows and involved in adultery.

To get rid of this curse, the native should donate 6th part of his wealth to a Brahmin and do the Vishnu mantra 1 lakh times. After this, his lineage will continue, there is no doubt in it.

Let us try to read between the lines, what lord Shiva is saying. Lord Shiva has mentioned Ayodhya before as well. But he never mentioned the special line – that if you enter the city all sins are washed off. For this nakshatra pada, the native should visit Ayodhya Ram Janam Bhoomi temple as a remedy as that temple is of great importance.

Then he mentions a small town named Lakshmanpur. As the younger sibling of Lord Ram was Lakshman. He was also born under this nakshatra pada so his name is also mentioned.

Now this native is cruel to all sea creatures and especially to tortoise. This is the Cancer sign, Pisces navansh. Both signs are at 5/9 position to each other and are watery signs.

Lord Shiva is saying that the native is hurting all water creatures. Here water represents masses, people in general. So the native is cruel to society by his actions. This also shows that the native will be in a position to deal with public and will have power as well. But now it is his freewill to control his actions.

As tortoise represents Saturn and it represents people who are the base of the society, lower section of society, people whose voice is not raised by anyone. So the native is cruel towards these people who can't even raise their own voice and are being exploited by this person.

But how these people are getting exploited is on the name of emotions as these are emotional signs. So these natives will play with religious emotions as Pisces is the 9th sign from Cancer. These people will play with the emotions of masses, due to which they will get the curse in life.

I have never used and will never use chart of any politician/ actors in my books or courses as an example. My seniors have overused them already but one of the India's PM had this combination and she and her son got killed for hurting religious emotions.

These natives should be very careful to not play with the religious emotions of masses or do a thing which is against the community in

which he is living. Practically, I have seen these natives not respecting what their community believes in and openly oppose it. For example, if you are living in India, the norm is not to eat beef. This is an unwritten law as cow is worshipped here. So, if you oppose this norm, the native will get into trouble as the country not only runs by the constitution, but also by the common laws of society and everyone should respect it.

If someone has Venus in this particular nakshatra, then native will not respect laws regarding marriage. If Jupiter is in this nakshatra pada, then the native will not respect any of the religious beliefs and will have enmity with guru/boss/father and will not follow their advice.

I hope this book has given you insights into how to use nakshatra padas and Navansh and how fruits of each karma that have been performed in the Rasi chart are delivered in Navansh.

NAKSHATRA ACTIVATION AGES
Ashtaka

Nakshatra Activation Ages

Now we are going to see how a Nakshatra becomes active at a particular age and delivers its results to the native. Each Nakshatra has activation at different ages of the native, and the Nakshatras give good or bad results to the native at the respective Ages.

Ashwini Nakshatra

Good Ages- 28, 29

Bad Ages- 42, 46

At the age of 28 and 29, the nakshatra of Ashwini becomes active and gives good results.

Example 1- Dr B. R. Ambedkar

The example chart below is of the father of the Indian Constitution—Dr B. R. Ambedkar.

	Me Su	Ra Ma	AL GL Mo

He has the Sun in the 10th house in his birth chart, in the nakshatra of Ashwini. In his 29th year, he began the publication of the weekly Mooknayak. We can see that his Sun is vargottam and has the influence of 3rd lord Mercury. As the nakshatra of Ashwini got activated to give good results, Babasaheb Ambedkar Ji entered the world of newspapers, as the tenth house is the house of profession or Karam and the sign of Aries is about starting new things. He started his first newspaper, Mooknayak, on January 31, 1920. He got the good effects of Ashwini Nakshatra in his 29th year.

Example 2:

In the example chart below, the karaka for marriage Venus and 5th lord Jupiter is in the 9th house in the nakshatra of Ashwini, and the nakshatra lord Ketu is in Lagna.

This shows something very important in his life will happen with the activation of the Ashwini nakshatra. The UL is also placed there. When the native just entered his 29th year, the nakshatra of Ashwini got activated, and the native got married. The native received the good effects of Ashwini nakshatra in the 29th year.

At the age of 42 and 46, the nakshatra of Ashwini becomes active and gives bad results.

Example 3:

Let me give you one more example of Ashwini nakshatra activation. In this chart, Mars is the 4th lord and the 9th lord, is in the 9th house of religion and principals in Ashwini. Also, Mars is retro shows some kind of reversal will happen.

Mars is the natural karaka of Brothers and Property. Within the family of the native, there was a property that is over 150 years old in which Durga Puja and Kali Puja used to happen for over a Century. But in his 46th year, (In 2019), there were disagreements with the owner of the property and the family of the sibling, and the property was lost. Since that year, Durga Puja and Kali Puja did not happen anymore. It was a major loss as the Puja used to be held in a very big way each year and everyone enjoyed it during that time, but it came to an end that year (9th house Puja and Religious ceremonies)

Bharani Nakshatra

Good Ages- 26, 41

Bad Ages- 24, 40

At the age of 26 and 41, the nakshatra of Bharani becomes active and gives good results.

Example 1:

In the example chart below, Mercury is in the nakshatra of Bharani. Mercury is the 7th lord of Relationships and is in the 2nd house of family along with the Pada of A5. Dispositor of Mercury is also in the 5th house of Love interests. Also, the nakshatra lord Venus is in the Lagna, which shows something very important in his life will happen when the nakshatra of Bharani activates.

What happened to the native was that in his 26th year, at the beginning of 2021, as the nakshatra of Bharani had activated, the native fell in love first time in his life and a new relationship started and family members came to know about this relationship (2nd house). The native experienced good effects of the planet placed in Bharani nakshatra at the age of 26.

At the age of 24 and 40, the nakshatra of Bharani becomes active and produces bad results.

Example 2:

Let me give you one more example. In the chart below, the 5th lord and 10th lord - Mars is in the nakshatra of Bharani.

NAKSHATRA ACTIVATION AGES

	Ju Ma	AL	Ke	Me

The native got married in 2003, but even after one decade of marriage, she was childless. At the end of 2014, in her 40th year, she decided to go with an IVF treatment. Due to this, she applied for leave at her workplace. But her higher authority didn't allow her any leave, and she had to leave her job.

But, in the very next year, in her 41st year, 2015 end (2015 Oct), she gave birth to a child and became a mother. That is how the 5th lord and 10th lord placed in the nakshatra of Bharani gave bad and good results in the respective years.

In this chart, the Moon, the Karaka of Mind and Emotions is in the nakshatra of Bharani, in the 5th house of Romantic Love affairs and Education. Moon is the 8th lord placed in the 5th house, and the dispositor Mars is with the 7th lord Mercury and Darakaraka Sun in Libra (Relationships). The native previously was in a relationship but in her 24th year, the relationship between them ended, and this event was totally unexpected for the native. Due to this, the native went through a lot of emotional pain, and also that was a year of a break in her education (2015). The native went through a year of loss in her academics. But due to these same reasons, the native eventually became spiritual.

Kritika Nakshatra

Good Ages- 47, 46

Bad Ages- 28, 43, 44

At the age of 47 and 46, the nakshatra of Kritika becomes active and gives good results. 28, 43 and 44 are the bad years as the Nakshatra of Kritika creates problems in those years.

Example 1- Bob Dylan

The example chart below is of Bob Dylan, one of the greatest singer-songwriters of all time. He has his Atma - karaka Moon and Amatya Karaka - Saturn is in the Nakshatra of Kritika in the 5th house of respect, honor and interests.

Ke	Sa Mo	Ju Su Ve	Me

Ra:	6 Vi 50- BK	Ke:	6 Pi 50	HL:	27 Li 16	GL:	8 Cp 27

Here, Saturn is the 2nd and 3rd lord of Speaking and communications. Bob Dylan was inducted into the Rock and Roll Hall of Fame in January 1988, in his 47th year, when major planets placed in Kritika gave good results.

Five songs by Bob Dylan of the 500 songs that shaped rock and roll were listed there. It was a great honor for him. Also, his Lagna Lord Jupiter is in the nakshatra of Kritika. So, all his major planets and the nakshatra of Kritika became active and produced good results in his 47th year.

Example 2- Muhammad Ali

The Example chart below is of one of the greatest sporting figures of the 20th century, Muhammad Ali. His 7th lord and 8th lord Saturn who is also, the Atmakaraka placed in the 10th house, in the nakshatra of Kritika.

In Muhammad Ali's life, 1984 and 1985 were very challenging in terms of personal relationships and health, as Kritika Nakshatra gives bad results at the age of 43 and 44. 7th lord and Atmakaraka Saturn gave him suffering in every aspect of life. In 1984 he was diagnosed with Parkinson's syndrome, possibly connected to the severe head trauma suffered during his boxing career. In the very next year 1985, Aisha Ali (one of his many extramarital relationships) sued him for unpaid palimony. Due to this case, Muhammad Ali had to set up a

\$200,000 trust fund for Khaliah (his daughter). Altogether 1984 and 1985, his 43rd and 44th years were very difficult for Muhammad Ali, these also created problems in his career and social image.

Rohini Nakshatra

Good Ages- 31, 40

Bad Ages- 27, 32

At the age of 31 and 40, the nakshatra of Rohini becomes active and gives good results. 27 and 32 are the bad years for Rohini, as the Nakshatra of Rohini creates problems in those years.

Example 1:

In this case, 7th lord and Natural Karaka for marriage- Venus is in the nakshatra of Rohini in the 2nd house of family. As 31st is the age when Rohini gives good results, at the age of 31st, the native should experience something positive related to the 7th house and 2nd house.

For this native, in the 31st year of her life (2019 January), she got married and got a new family. After July 2018, as soon as she stepped into her 31st year of life, she got a good match, but before that, she was not getting the right person for many years. That is how 7th lord Venus in Rohini Nakshatra, in the 2nd house, gave her good results in her life.

Example 2:

Let me give you one more example of Rohini nakshatra activation. The example chart below is of a female native. She has Mercury in the nakshatra of Rohini. Mercury is the lord of the 12th house(losses) and placed in the 8th house of secrets, scandals, sudden events and transformation.

The native got married in 2018 Dec. But she had an extramarital affair ongoing, and her husband did not know anything about it. In her 27th year, at the end of 2021, suddenly her husband came to know about it and beat her angrily due to this reason. Just after a few months, at the beginning of 2022, her husband applied for divorce. She faced defamation, was physically beaten and went through huge suffering in her 27th year. Even her parents did not support her as it was her fault for having an extramarital even after marriage.

Mrigshira Nakshatra

Good Ages- 34, 35

Bad Ages- 36, 44

The 34th and 35th years are the good ages for the nakshatra of Mrigshira. 36th and 44th are not the suitable years for Mrigshira, as the nakshatra of Mrigshira creates problems and obstructions in those years.

Sourav Ganguly was dropped from the Indian team in October 2005. After being dropped and spending months on the sidelines, he made his comeback to the Indian team at the end of 2006 for the tour to South Africa. It was his 35th year when he made his comeback and showed the world that he was not finished yet. Against all odds, he was included in the team for the Test series and made a brilliant comeback that helped India to victory. He scored 51 and it was the only fifty-plus score in India's first innings. It was the answer to many insults to him. As the 10th lord, Venus is in Mrigshira, the nakshatra of Mrigshira gave him very good results and respect from everyone in his 35th year. Also, Venus being retrograde, at first, he was dropped, and then he made his comeback successfully.

But as the Nakshatra of Mrigshira gives obstacles and bad results in the 36th year, in the very next year 2008 he went through a difficult situation. He was the Captain of the KKR team in IPL 2008, and it was a very devastating year for KKR. Kolkata Knight Riders finished sixth in the league stage of IPL 2008, and he faced many criticisms. After a few months in 2008, he announced his retirement from international cricket.

Ardra Nakshatra

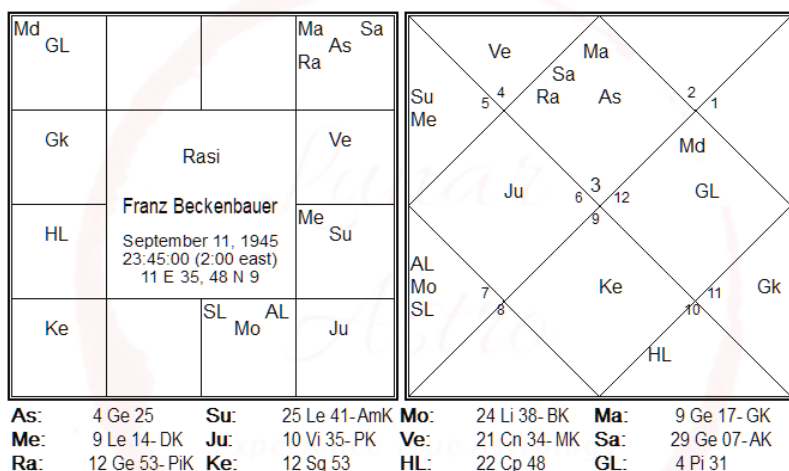

Good Ages- 26, 36

Bad Ages- 39, 30

At the age of 26 and 36, the nakshatra of Ardra becomes active and gives good results. 39 and 30 are the bad years as the Nakshatra of Ardra creates problems in those years.

Example 1- Franz Beckenbauer

The example chart below is of one of the most formidable players in the history of football, former captain of the German National football team, Franz Beckenbauer. He was the man who revolutionised the art of defending. Under his captaincy, the German football team had reached the highest heights of success.

In his chart, he has the 6th lord of competition and the 11th lord of the fulfilment of desire - Mars placed in the Ascendant, in the nakshatra of Ardra. Also, the 9th lord of luck, Rahu Maharaj is in Ardra with Mars.

In 1971, he was made the captain of the national team. At the age of 26, in 1971, his desire of becoming the captain of the national team was fulfilled. It was one of the most significant events in his life as well as in the history of the German Football team. In the very next year, he led the team to a European Cup victory. Also, he led his side to victory in the 1974 World Cup. It was the very next world cup after he became the captain.

Under his captaincy, West Germany became the first European national team to hold both the European Championship and World Cup titles simultaneously.

So, that one decision of making him captain went in his favor at his 26th age due to the activation of the planet placed in the nakshatra of Ardra had changed the course of German football, and he became the most important person in the history of German football.

Example 2:

Let me give you one more example of Ardra nakshatra activation. The chart below is of a female native. She has the 7th lord Moon and the Karaka for Spouse Venus in the nakshatra of Ardra in the 6th house of Disputes, Service and Daily Routine.

	Md Gk Ma		Ju Ve Mo
	Rasi		Me SL Ke Su GL
Ra As	Ardra- 2nd Example July 20, 1990 19:43:00 (5:30 east) 88 E 22, 22 N 34		
(Sa)	AL		HL

As: 27 Cp 28	Su: 3 Cn 53- DK	Mo: 13 Ge 16- PIK	Ma: 11 Ar 36- PK
Me: 22 Cn 13- BK	Ju: 29 Ge 58- AK	Ve: 6 Ge 49- GK	Sa (R): 27 Sg 51- AmK
Ra: 13 Cp 33- MK	Ke: 13 Cn 33	HL: 21 Vi 30	GL: 18 Cn 47

The native was married in April 2015. But, in her 30th age, in 2019 October, she was forced to decide to go for the divorce, and in 2020 March, she got divorced, as her married life was not so good. Her husband and mother-in-law used to treat her very badly, they sold her jewellery, and even sometimes she used to get beaten by them. Also, in that very year, in her 30th age, she had to leave her job. As she was going through a tough situation, mental and physical suffering, she was not able to maintain her performance in her workplace. So, in this chart planets in the nakshatra of Ardra placed in the 6th house, took her through a lot of troubles in her 30th year.

Punarvasu Nakshatra

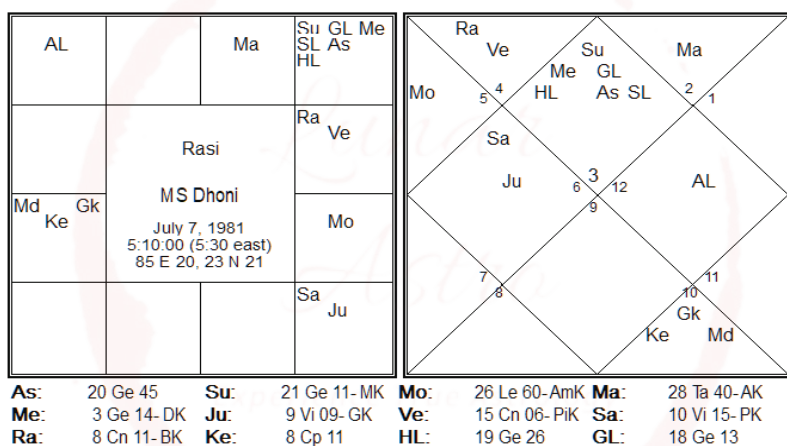

Good Ages- 28, 35

Bad Ages- 38, 39

28th and 35th are the two ages when the Nakshatra of Punarvasu becomes active to give good results. 38th and 39th are not suitable years for Punarvasu, as the nakshatra of Punarvasu creates problems and obstructions in those years.

Example 1- Mahendra Singh Dhoni

The example below is of one of the former captains of the Indian National Cricket Team, Mahendra Singh Dhoni.

In his chart, the Lagna cusp and 3rd Lord Sun are in the 1st house, in the nakshatra of Punarvasu. It shows something significant will happen related to the 3rd house, Gemini (name) and Lagna (self), when the nakshatra of Punarvasu activates. Leo in the 3rd house shows interest in games and entertainment, and its Lord is in Gemini, which is a rasi of Self-interests.

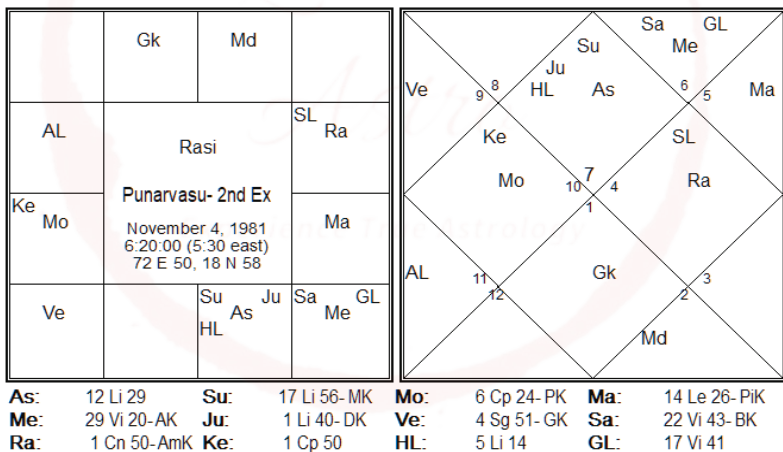

In 2016, in his 35th year, a famous Bollywood movie 'MS Dhoni: The Untold Story' was made and released based on his true-life story. This movie was one of the most successful biopics in Bollywood. Due to this movie, not only he got a whopping Rs 45 crore for movie-making rights to his life and his name (Gemini, 3rd Lord), but also, he got a lot of fame because of this movie, as it was only

due to this movie that the masses came to know about his personal life struggles and events which he faced in his journey of becoming of one the best Captains of India. The 3rd lord Sun in Gemini (3rd lord and Gemini both represent name) in Lagna, in the nakshatra of Punarvasu, gave beautiful results for his name in his 35th year, when Punarvasu got activated.

See how well the events are playing out in every single chart for the nakshatra activation - what you have to do is, just look at the age of the nakshatra, see the combination and predict.

Example 2:

Let's move on to one more example of the Punarvasu Nakshatra activation. In the chart below, Rahu is in the Nakshatra of Punarvasu in the 10th house of Profession in the sign of Cancer. The nakshatra lord Jupiter in Lagna shows something very important in his life will happen with the activation of the Punarvasu nakshatra.

Here, the dispositor of Rahu, the Moon is in the 4th house with Ketu in Capricorn. In this combination, there is a very prominent involvement of the 4-10 axis. (Cancer-Capricorn) and Rahu-Ketu/ Moon, which shows the change in place for the profession. In the 38th year of his life, in 2019, the native decided to travel to foreign lands to find new opportunities in life and start his professional life there. But what actually happened after travelling was that the native

got into health issues as well as the expenses increased, and none of his plans worked as expected. Due to all these things, he eventually faced a lot of mental issues and depression. That whole phrase of the native was troublesome and eventually, he had to return to his hometown after a few months. Even after returning, he had to go through a lot of trouble to start everything from scratch.

Pushya Nakshatra

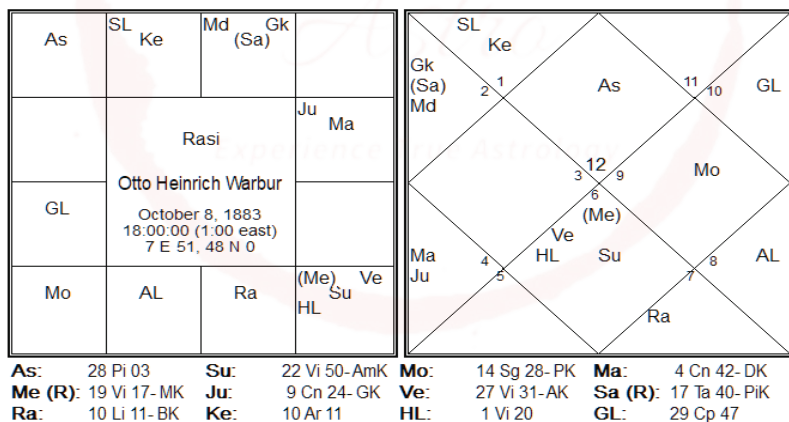

Good Ages- 48, 51

Bad Ages- 43, 44

48th and 51st are the two ages when the Nakshatra of Pushya becomes active to give good results. 43rd and 44th are not the good ages for Pushya.

Example 1- Otto Heinrich Warburg

The example chart below is of a German biochemist- Otto Heinrich Warburg. He was one of the pioneers of biochemical research and the elucidation of cellular metabolism.

In his chart, he has the Ascendant Lord and 10th Lord- Jupiter and 9th lord Mars both in the nakshatra of Pushya in the 5th house. And the nakshatra lord Saturn is placed in the 3rd house. So, something very important regarding his 5th house(honour) and 3rd house(name) must have happened in his life with the activation of Pushya nakshatra.

Otto Warburg was researching about the metabolism of tumours and the respiration of cells particularly cancer cells for many years. In his 48th year, in 1931, he was awarded the Nobel Prize in Physiology for his discovery of the nature and mode of action of the respiratory enzyme. Since 1923 he has been receiving nominations, but in his 48th year after 46 nominations over a period of nine years, he got his award. As the nakshatra of Pushya activated in his 48th year, he got good results and got recognition for his work.

Example 2:

Let me give you one more example of Pushya nakshatra activation. In the chart below, the native has the Karaka for marriage Venus and Lagna Lord Mercury in the Pushya Nakshatra.

Ma		AL	Sa Gk	Ke Su
		Rasi	Ve Md	SL (Me)
HL (Ju)	Pushya-2nd Example July 7, 1973 12:04:00 (5:30 east) 88 E 15, 24 N 6			
GL Ra			Mo As	

As:	26 Vi 23	Su:	21 Ge 31-AK	Mo:	20 Vi 36-AmK	Ma:	16 Pi 58-BK
Me (R):	9 Cn 50-GK	Ju (R):	16 Cp 32-MK	Ve:	14 Cn 55-PK	Sa:	3 Ge 27-DK
Ra:	14 Sg 08-PIK	Ke:	14 Ge 08	HL:	23 Cp 51	GL:	12 Sg 45

In 2015 end the native got married but he was not happy with his marriage. Only after 6 months of marriage, at the beginning of 2016, the spouse of the native had left the native's home and went to live in her father's house. Also, the native came to know about the extramarital relationship of his spouse.

Due to this, the native went through a very difficult situation and faced mental suffering, also at the same time, he faced problems in his profession, and his regular income went down. Both the year of his life 43rd and 44th were very problematic in his life as the nakshatra of Pushya became active and produced bad results.

Ashlesha Nakshatra

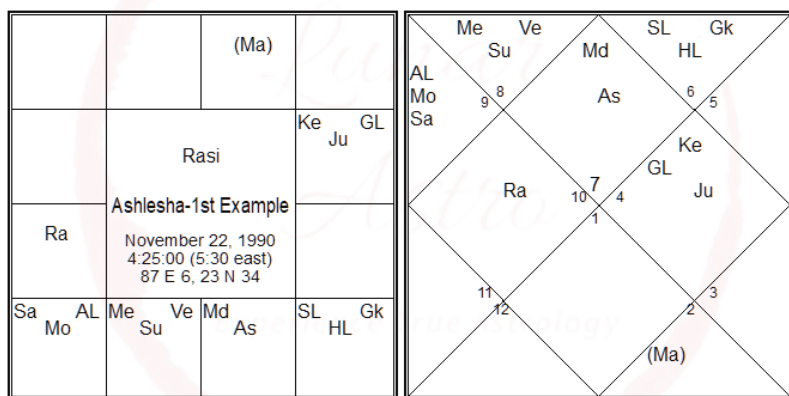

Good Ages- 26, 27

Bad Ages- 39, 45

The good ages for the Ashlesha Nakshatra are 26 and 27. 39 and 45 are the two ages when natives with prominent Ashlesha in their chart experience bad results regarding the nakshatra of Ashlesha.

Example 1:

In the example chart below the native has her 6th lord Jupiter in the 10th house in the nakshatra of Ashlesha. The nakshatra lord Mercury is in the 2nd house. It shows something significant event regarding her profession and finance will happen with the activation of Ashlesha Nakshatra.

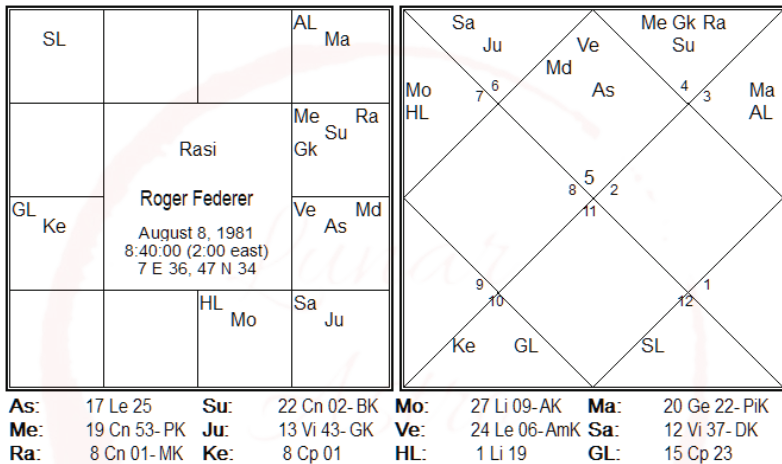

As: 13 Li 53 **Su:** 5 Sc 39- DK **Mo:** 25 Sg 12- AmK **Ma (R):** 13 Ta 50- PK
Me: 22 Sc 33- MK **Ju:** 19 Cn 45- PiK **Ve:** 10 Sc 43- GK **Sa:** 27 Sg 46- AK
Ra: 5 Cp 58- BK **Ke:** 5 Cn 58 **HL:** 15 Vi 26 **GL:** 1 Cn 33

The native belongs to a lower middle-class family. She has suffered a lot since her childhood, and she is the only daughter of her parents.

In 2014 Oct, the native got her first job, but she used to get paid poorly. In her 26th year, in 2016 November, she experienced good results with the activation of Ashlesha and got a good job with a decent salary. It helped her to take care of his family and herself. In this case, as the 6th lord is placed in Ashlesha in the 10th house, the native got good results regarding her career in her 26th year.

Example 2- Roger Federer

Let's move on to one more example of the Ashlesha Nakshatra activation Ages. The chart below is of a Swiss professional tennis player and one of the greatest tennis players of all time- Roger Federer. He has won 20 Grand Slam men's singles titles, eight men's singles Wimbledon titles, and he was the first male player to win more than 14 grand slams.

In his chart, his Lagna Lord Sun is placed in the 12th house (house of losses and hospital) in the Ashlesha Nakshatra. The Nakshatra lord Mercury is also in the 12th house. The year 2020, his 39th year, was a very challenging year for his health, due to which his career suffered. In 2020, Roger Federer had an operation on his right knee, and he missed the rest of the 2020 season for this.

He began his 2020 season at the 2020 Australian Open, reached the semifinals and then lost his semifinal match to Djokovic in straight sets, having sustained a groin injury earlier in the tournament. In February, Federer went through an arthroscopic surgery for a right knee injury and subsequently withdrew from Dubai, Indian Wells, Miami and the French Open. In June 2020, due to a setback from his initial rehabilitation from the knee injury, Federer announced to

shut down his season to take the necessary time to recover. This was the year when he had to finish the year without a single title. In this case, in his 39th year, Ascendant Lord in the 12th house in Ashlesha made him suffer physically and mentally as Ashlesha got activated.
